## Manhunt Called Off Tuesday For Brady Jail Escapees

Shades of the Old West! Urgent calls in the middle of the night sought to locate saddlehorses to mount a posse to search for two Brady jail escapees thought to be in Coleman County in the Rockwood area. The pair were still at large Wednesday as residents in the Rockwood and surrounding area kept a watchful eye for the armed men.

State and local authorities joined the search Sunday morning as four young men gained freedom from the Brady jail by crawling through a ventilation shaft. Two of the escapees were apprehended later Sunday three miles east of Brady. The other two still on the loose are Mark Duncan, 21, of Oregon and Jimmy Henderson, 19, of Dimmitt. The two were being held in Brady on burglary charges.

The two escapees apparently stole a pick-up near Fife which was found Monday morning wrecked near the Colorado River bridge south of Rockwood. A loaded shotgun and a .22 rifle were said to be missing from the wrecked vehicle.

Lawmen from McCulloch and Coleman counties, game wardens and highway patrolmen joined the search Monday with helicopters

and dogs. The report of the escapees and the request for the riders on horseback came in the night Monday when an unidentified woman reported seeing an armed man near Whon. After a search by officers, the man was found to be a rabbit hunter from a neighboring community, unaware of his precarious position.

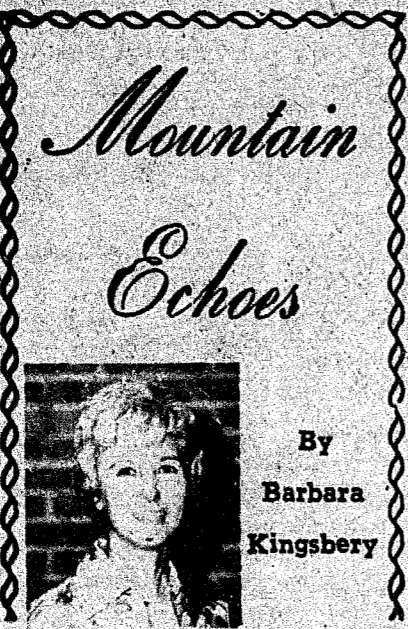

After 48 hours, roadblocks and patrols of the area were discontinued, according to Sheriff H. F. Fenton. Fenton stated the two suspects were thought to be completely out of the area as no confirmed reports of them had been given and no trace found in the search with helicopters and dogs.

Ladies of the Rockwood Community prepared and served lunch Tuesday to the area lawmen searching the area for two Brady jail escapees.

The ladies served the meal at the Rockwood Community Center which Sheriff H. F. Fenton described as quite a 'feast' and a thoughtful act for the weary lawmen.

Some 30 to 40 law enforcement officers enjoyed the fine meal, the first in two days for some of them.

Congratulations to the graduates in the community. We appreciate their help with compiling this special issue of the NEWS, and are grateful for the aid of Judy Runyan, SAHS English teacher, in gathering the special items.

Most of all we appreciate the support of the advertisers for making the special edition possible.

bk  
With the end of school some students are somewhat concerned about passing or failing their subjects. Awareness about 'making the grade' starts early in the life of most children.

A cute little Bangs High School student who helps after school with publishing the NEWS recently got her drivers license. As she and her family were looking at the new license and admiring the picture, her little seven-year-old sister was suddenly concerned.

'Oh, Cathy,' the little girl said, 'you got an F in Sex!'

bk  
Our weekly rain arrived early Saturday morning and totaled .05 inch. There has scarcely been a threat of moisture since Saturday, making some folks already concerned over the 'drought'.

Local farmers are taking advantage of the weather to plant cotton, bale hay and harvest grain.

### Two Graduates At SDA School

The Santa Anna Seventh-day Adventist Church School, located on Whon Road, held the graduation program Sunday night, May 22. There were two graduates, Fay Lynn Cabansag and Michael

## Interest Building For 'Anything Goes' Contests

A total of four teams have entered the big 'Anything Goes' contests to be held here Saturday night, June 11. The family fun program is sponsored by the Delta Omicron chapter, Epsilon Sigma Alpha with plans for five teams to compete in ten events during the evening.

As an added interest for the family evening, door prizes will be given and a concession stand open with homemade treats.

Teams entered in the contests are Lions Club, Women's Athletic Club, Coleman and Santa Anna High School. An additional team is expected to complete the roster. St. Jude's Children's Hospital

in Memphis, Tenn., a nation-wide ESA project, will benefit from the proceeds of the local event. St. Jude provides children with the best of medical care, regardless of their economic condition. More than 2,500 children are now on the patient rolls, including outpatients whose diseases are in states of remission. Research and care of leukemia patients at St. Jude has produced the highest remission rates ever recorded in several types of the diseases.

People in the area will enjoy the contests and seeing friends and neighbors take part in contests patterned after the popular television show.

Santa Anna young people are invited to take part in the Coleman Community Summer Recreation Program that will start activities next Monday, May 30. Tennis Classes for children from grades one through high school will begin Monday. Classes will be divided into three age groups for both boys and girls with Mrs. Brenda Ratliff, CHS tennis coach, as instructor and CHS tennis players as assistants. The lessons will continue each weekday through June 10 at Coleman City Park tennis courts.

A county-wide junior tennis tournament for players aged 14

and under is planned June 24 - 26.

Students unable to provide their own tennis racket will be furnished one on a 'check-out' basis. Schedules for the classes are available at the NEWS office or from Mrs. Charles Hosch.

An advanced life saving class will be held May 30 through June 3 at Hords Creek Lake. Those taking the course must be at least 15 years of age and pass a pre-swimming test.

Arts and crafts classes for kindergarten through high school will start Monday, June 6, at Coleman Junior High School.

More than half the cranberries grown in the U.S. come from Massachusetts, around Cape Cod.

Douglas. Elder Ivan Toews of Keene was the invited graduation speaker. He stressed the importance of not overlooking the little things of life, especially the people who seem to be the 'nobodies'. Each person is important and should not be looked down upon.

Fay Lynn gave the welcome and Michael presented the floral gifts to the parents.

Fay Lynn is the daughter of Dr. and Mrs. Fil Cabansag; Michael's parents are Mrs. Maxine Douglas of Coleman and Ed Douglas of Houston.

Your ENERGY Dollar\$

Use your  
Refrigerator Wisely...

\* Open and close the refrigerator and freezer doors only when necessary. Several items can be removed at once to reduce loss of cold air.

\* Freezers and refrigerators operate most efficiently when filled to the correct capacity. Foods should be placed slightly apart on refrigerator shelves for correct circulation.

\* Cover all liquids stored in the refrigerator (especially frost-free models). Moisture is drawn into the air from uncovered liquids making the refrigerator work harder.

\* Be sure your appliance is standing level so that the door seals properly. By setting a glass of water on the top, you can see if it is level.

AUSTIN....'If Memorial Day traffic fatalities in Texas follow the same up and down pattern of the last four years, the coming holiday may not be a happy one,' says Hugh L. Scott, President of the Texas Safety Association.

Council show an 'up and down' pattern since 1973. 'As 1976 was a low year, 1977 fatalities could increase if Texas motorists don't drive with extra caution and break the statistical pattern'.

Scott explained that records maintained by the National Safety

The National Safety Council has estimated that between 400 and 500 Americans will lose their lives this Memorial Day weekend.

Of our fallen soldier, and his comrades

## Veteran Bus Driver Retiring This Year

Claude Langford is retiring from his school bus route this week after 31 years service with the school district. His last run was made Wednesday on the 35-mile, twice-daily route.

Starting in the fall of 1946 for the Mayo School District, Langford had a short 20- to 30-minute route transporting the Mayo School children into Santa Anna. He was hired by the Mayo trustees, Jim Daniell, Lester Newman and Alfred Williams, to make the route when the Mayo School ceased operation. In a few years the district was consolidated with Santa Anna.

Starting with about 20 students,

Langford later had as many as 42 on his route. He now has 22 students on the route that reaches from Santa Anna to near Jim Ned Creek northeast of Santa Anna.

Langford, a native of Stephens County, came to Coleman County in 1939 where he worked for the late Edd Wallace on his farm in the Liberty Community. He and his wife, whom he married in 1936, also lived for a time near Rockwood, then went to work for the late Emzy Brown, moving to place where they presently live north of Santa Anna. Mr. Langford farmed and worked livestock between bus routes each school day, and had weekends and

summers to work full-time.

Not all of the bus driving was on the regular school bus route as many trips have been made with the band, pep squad, ball teams and other groups needing transportation after school hours. Mr. Langford says he has never had any major problems with discipline but admits to 'fussing' at his youthful riders from time to time.

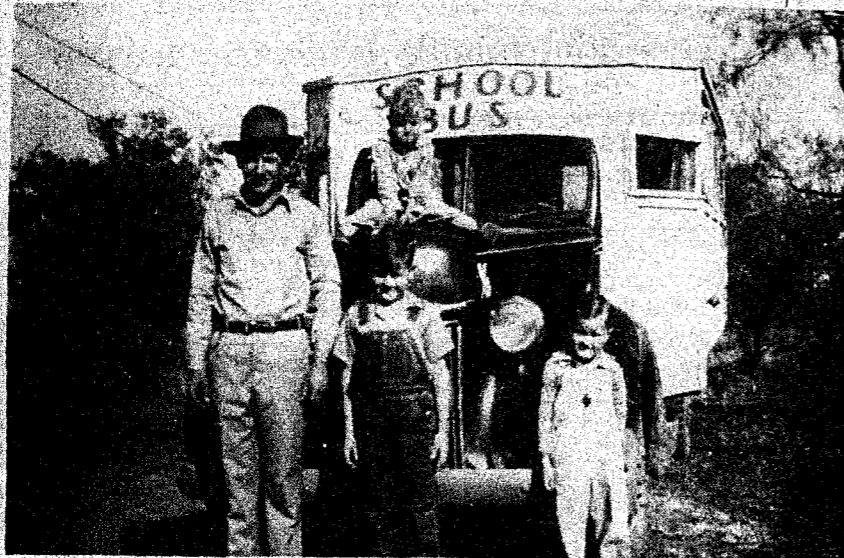

Driving a school bus is a much easier job now as the buses are better and roads considerably improved. In the early years of driving, a rain and muddy roads meant removing the dual wheels and attaching mud chains to the rear wheels. And on occasion the bus had to be pushed out of mudholes along the way.

Mr. Langford is thought to have the longest tenure of any school bus driver in Coleman County, and he is the longest-term employee of the Santa Anna School District. Mrs. Langford is also an ISD employee, working the past ten years in the school lunchroom.

Mr. Langford will continue his farming and ranching activities that will now consist of a longer workday without the 'route break' twice daily.

AN OLDTIMER—The 1941 model school bus driven by Claude Langford was of plywood construction and very primitive compared to today's models. Shown beside the vehicle are Wayne and Carl Langford.

MANY MILES AGO—Claude Langford and sons, Bobby, Carl and Wayne, pose in front of the school bus Mr. Langford drove when he started his career in 1946. Mr. Langford is retiring this year after 31 years on his route.

## GOOD NEWS

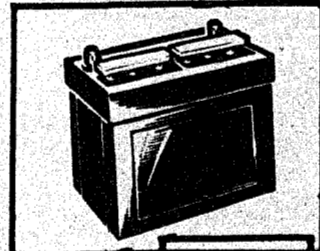

By WRIGHT PRICE, Pastor.

The deepest thirst of the human soul is for God. To attempt to satisfy it with mere things, sensations or events is like trying to comfort the motherless child with a lovely doll. Tho the little one may be diverted for awhile in the night she will be heard sobbing for her mother.

The world is full of orphan souls, crying in the night, dying in the darkness of sin. No gem of philosophy or sensational toy of man can long soothe these dying men. Only the message of Jesus from God's Living Word can satisfy mankind's deepest thirst.

## Dr. Burgess Sealy Awarded Honorary Degree at TCU

An honorary doctor of science degree was awarded Dr. Burgess Sealy of Fort Worth at the Texas Christian University commencement exercises in Fort Worth Saturday, May 21. Dr. Sealy was one of two men recognized for their leadership in education and profession.

A Santa Anna native and the son of the late Dr. and Mrs. T. R. Sealy, he is a member of the TCU Board of Trustees and chairman of TCU Harris School of Nursing. A new section at Harris Hospital was recently named in his honor.

A diplomate and fellow of the American Board of Surgeons, Dr.

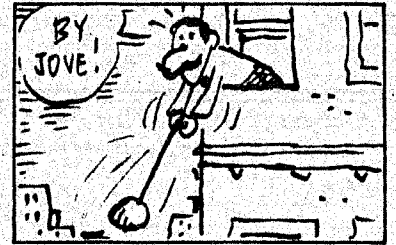

Sealy is an alumnus of the University of Texas and University of Texas Medical School. He interned at Philadelphia General Hospital and was a fellow at the Mayo Foundation in 1938-42 while earning his M.S. in surgery degree. He served three years in the Army with the Mayo Clinic Medical Group.

Dr. Sealy is a past president of Tarrant County unit of American Cancer Society and well known for

his community leadership. Active in Texas Surgical Society and other professional groups, he is past-chairman of the education committee of the Texas Chapter of American Cancer Society and has received recognition from the honorary medical fraternity of Alpha Omega Alpha.

Dr. Sealy has been honored as 'Ex-student of the Year' by the Santa Anna former student organization.

Attending the ceremony Saturday were Dr. Sealy's aunts, Elsie Lee and Ruby Harper, and Mr. and Mrs. Chester Galloway, all of Santa Anna.

By suspending a swinging pendulum from the dome of a church, Leon Foucault, 19th century physicist, found that the pendulum twisted around in a clockwise direction, proving that the Earth must turn in the opposite direction.

# Senior Class Prophecy

## Occupations Predicted For 1977 Graduating Class

It is the year of 1997 and the Class of 1977 is having it's 20-year reunion. Let's see what some of the classmates have been doing these past 20 years since graduation from Santa Anna High School.

First we see David Guthrie as the 'Head Burger' of a chain of Burger Kings. He is also his best customer.

Speaking of food, next is David Chaffin, president of a breakfast food company -- you guessed it -- Crunchy Munchy Crispies.

Mentioning crunch brings us to Timmy Bengé. Timmy has just wrecked his 283rd car.

We find Karen Gordon a successful scientist who has just perfected her 'Growth Serum'. DeAun Long, her first customer, grew to a height of 6'4" and at 95

pounds perhaps Karen overdid it a bit!

Jimmie Gail Rutherford arrived at the reunion in 'Squidly X'. She has just set a new record for stuffing 23 people in her new Squidly.

Next Jay Weathers, who is the owner of an exotic bird farm. All of the birds are imported especially from Japan. Birds of a feather flock together.

Delma Salazar has opened a designer fashion clothes store called Delma's Duds. Her main line Dud designer is Melody Allen who created a line of clothes only for redheads.

Now we see Alex DeLeon, the owner of a new drag strip. His kids are the pit crew -- biggest pit crew in the history of drag.

Elaine Newman is the proud

owner of a thriving pork industry. True love lasts forever.

Guy Allen, who was a proficient roper in his high school days, has put his talents to use by roping chickens for his Rhode Island Red Chicken Stores.

Next we discover that Robin Smith has invented a flying typewriter. Fly Robin, fly.

Norris Lewis was unable to attend the reunion. He is in Italy repainting the Sistine Chapel. We always knew those tall shoes would come in handy for something!

Back to the reunion, we find that Mary Densman has recently acquired Phillips Drug; however, the only thing she sells are aspirin and alka-seltzer.

Stephen Cullins finally patented his new invention of a bicycle. The bike is cleverly designed not to fall over on a steamship.

Len Johnson these past 20 years has become the third leg of Johnson, Johnson & Johnson. She

specializes in the band-aid department.

Of course everyone remembers Paul Martin, the famous dairy hand. Paul has become famous for inventing a cow that gives chocolate milk.

Royce Cupps is also known for his Cuppsy Pop with foam on the top that comes in packs of six with easy opener tops.

David Eubank now has his own Chevrolet dealership. Seems that was the only way to keep a

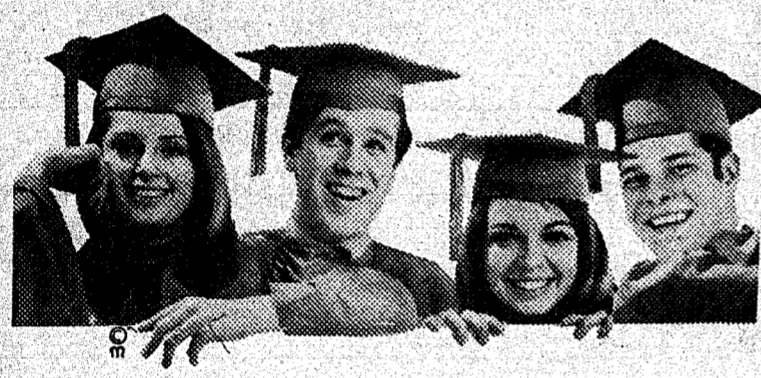

Chevrolet running.

Next we find that Kim Stewardson has worked up the ladder of success to President of the Santa Anna National Bank.

Salvador Salazar opened up his new taco stand to introduce his new sauce -- Prima Salli Sauce.

Dean Logan is now a famous movie star. His latest picture is 'Logan's Run'. Nobody told him it had already been done.

Last but not least, Gaye Harvey is still Gaye!
