Farm Bureau

Twelve voting delegates representing Coleman County Farm Bureau recently participated in the 31st annual Texas Farm Bureau convention November 25-28 in San Antonio.

They were Cliff and Ann Horn, Joe and Colette Tabor, Tommie and Charlyne Connelly, Oliver and Mildred Calk, Felton Martin, Bucky Duvall, John and Debbie Vance and county secretary, Margaret Roberts.

Policies directing the state's largest farm organization were adopted by more than 1,600 delegates from 217 organized county Farm Bureaus. Approved recommendations on national policies will advance to the American Farm Bureau Federation annual meeting to be held January 7-10, in Honolulu, Hawaii.

Speakers featured at the convention included Dr. Joseph F. Boyle of Los Angeles, president of the American Medical Association; S. M. True of Plainview, TFB president; and Warren Newberry of Waco, TFB executive director.

The business session covered the final two days of the meeting. The last order of business was the reelection of president, S. M. True.

County leaders also attended several special conferences on federal farm programs, agricultural financing, taxes and education, worker's compensation and farm labor and water and transportation. Commodity conferences were also held.

For the 3rd consecutive year Coleman County received an award for their scrapbook entry in the Public Relations Contest. Margaret Roberts accepted the award for Coleman County in the absence of Doodie Knox who is the scrapbook chairman. Coleman County expresses their appreciation to Jack and Doodie Knox for their hard work in putting this scrapbook together resulting in the recognition that Coleman County receives in this area.

Coleman County attended the District 7 Breakfast on Monday morning at the Marriott Hotel and again this year John Vance was recognized for his work on the State Young Farmer and Rancher Committee.

The ladies from Coleman County attended the Ladies Luncheon Monday noon and the speaker was 'Heloise' whose column appears in many of the newspapers across the country. She was a delightful speaker and everyone enjoyed her very much.

Bucky Duvall, information Chairman for Coleman County summed up the convention by stating 'The delegates from Coleman County put in more time and effort at the convention than most any county in the state. Being recognized and commended for these efforts by the many counties across the state makes it all worthwhile. We are looking forward to another good year.'

Police Report

A twenty one year old Santa Anna man was arrested late Friday night by Officer Bill Allen for driving while license suspended. The man was to appear in county court this morning for arraignment. He was also cited for no liability insurance and is to appear in municipal court on that charge Friday.

Chief Russ Ellis said two theft reports were filed. The thefts, which apparently have been occurring over a several week period from two residences, are seemingly connected, according to Ellis. Missing are numerous hand tools, clock radios, power tools, a tape recorder and a camera. Several suspects have been questioned and the investigation is continuing.

Ellis noted that several of the items taken were purchased as Christmas gifts and reminds citizens that this is the time of year that residential burglaries and thefts greatly increase. He cautions

residents to be extra careful in being sure their houses, storage sheds and garages are properly secured when away, even for a short trip downtown. He advised to keep wrapped presents out of sight as much as possible. He said that lawnmowers and other items normally used outside should be put away also.

Ask neighbors to watch your house while your away and do the same for them. Report any suspicious vehicles or activity in your neighborhood to the police. Ellis said that he and Officer Allen will check out all reports regardless of the time of day or night. Daytime thefts and burglaries are sometimes more frequent than nighttime thefts during this time Chief Ellis noted.

Another precaution against theft that is extra important is to lock your vehicle while shopping. Ellis said that a thief usually will only take items easily and quickly available, such as from an unlocked vehicle and that packages and items left on the seats of an unlocked vehicle are an inviting target. Lock your purchases in the trunk, out of sight as much as possible, Ellis advised.

Texas Grown Tree

This year don't settle for just any type of Christmas tree. Instead, make sure it's a genuine Texas-grown Christmas tree.

'Texas-grown Christmas trees should be available in most areas of the state this year,' says Dr. Mike Walterscheidt, forester with the Texas Agricultural Extension Service, Texas A&M University System. 'Although most are grown in eastern counties, consumers should find them in retail lots throughout the state.'

'Texas-grown Christmas trees offer a number of advantages,' notes Walterscheidt. 'They are fresher, more fragrant and usually less expensive than those shipped in from other states. Most are cut around Thanksgiving while those shipped in from northern states are cut in October.'

More than four million Christmas trees are sold in Texas each year, imported mainly from northern and western states. Nearly 300,000 Texas-grown trees should be available this year and should push sales beyond the \$3 million mark.

Texas currently boasts about 3,200 acres of Christmas trees, with some 1,000 trees per acre. Most of these are Virginia pines native to the Appalachian area of the southeastern US. Another species, the Afghan or Elderica pine, is now being grown in central, western and southern areas of Texas. The trees are generally ready to harvest in about four years.

'While the availability of Texas-grown trees continues to increase, most shoppers will likely have to go to the larger cities in Texas or to smaller communities in eastern areas where most of them are grown,' says Walterscheidt.

Texas boasts some 50 'choose and cut' operations in which the shopper selects the tree, cuts it and takes it home. These are popular, says the forester, because they restore the old-fashioned idea of making the selection of a Christmas tree an outing the entire family can enjoy.

Anyone interested in a Texas-grown Christmas tree can contact their county Extension agent for a listing of tree farms, adds the forester.

Lone Star Gas Files Rate Increase

Santa Anna, Texas 11-28-84 - Lone Star Gas Company Manager, J. C. Wilkerson today filed an application for a rate increase which would raise the average residential customers monthly bill in Santa Anna about \$3.64 in the winter and \$1.65 in the summer.

Based on Lone Star's rate application, a residential customer who uses an average of six thousand cubic feet of gas a month paid \$36.75 for gas service in the winter. Under the requested rate, that same customer would pay \$40.39.

Commercial gas customers' rates would also increase under the requested rate schedule.

'Our customers are accustomed to dependable natural gas service,' says Wilkerson. 'This rate increase is necessary to continue a high performance level and for other

necessary expenses, such as maintaining and improving the local pipeline distribution system, which are vital to dependable service.'

Lone Star's last rate increase in Santa Anna became effective January 1984.

'Since that time, every business, including Lone Star, has experienced increased operating expenses,' says Wilkerson. 'And, of course, unlike other businesses that can raise their prices as expenses go up, we must apply to the city council for a rate increase. No one likes rising prices, but any business must earn enough money to meet operating expenses and still achieve a reasonable profit. Even though our expenses have gone up, Lone Star still has one of the lowest average operating costs per customer when compared to any of the other major gas utilities in Texas.'

Don's Diary
 By Don Rutherford

It was good to be at home this past week. It was nice just to be with loved ones. Not doing a great deal but just to enjoy one another's presence was good.

I saw Stanley Hartman at the grocery store. My how time passes. I remember playing baseball with Stanley and Eddie.

Going to Santa Anna always brings back some very fond memories. A person may leave his hometown but the hometown never leaves the person.

We went to First Baptist Church Sunday. As I walked in and saw Elgean Harris, Glenn McClure and Claude Langford, more memories flashed back. As I was greeted by Barbra Kingsberry, I remembered that it was by her encouragement that these articles are being written.

As Bro. John stood in the pulpit and spoke of a 'Victory in Jesus' revival, I thought to myself, what does victory in Jesus mean to me?

May I share with you what real victory means in our lives?

We are all interested in winning and victory. The two words could be changeable. To win is to be victorious and to be victorious is to win. Thus the Christian life is a victorious or a winning life.

This victory in Jesus life can be spoken of in three tenses, the past, the present, and the future.

The initial victory comes on the day we repent and accept Jesus as our Saviour. We have to know Jesus before we can experience this initial victory. Brenda and Ray Barnett, with their children, Cara, Chad and Nathan, sang a song Sunday 'Do you know this Jesus?'. We have to know before we can win.

Repentance is not some big theological word, it simply means a turning away or a turning around completely. To repent is to turn from self to God. When we turn from sin to Him He does not let us turn into loneliness. When we turn away from sin we turn to Him. The victory life has just begun.

Notice I did not say a life of perfection or a life of ease, but even in our darkest hours we can be winning.

When I was in college there was a beautiful song that was so popular. The title was 'So much more', one of the verses went like this: 'But there is more so much more than that first sweet day, more so much more every passing day.' Yes, there is more than repentance in the winning life. Christians ought to be different, they don't have to be odd or pious, but they are different because they march to the beat of a different drummer.

The second tense of the victory life is the continual victory. That victory is found in obedience. We all surrender, to something, someone or Someone. For a person to live life to its fullest we need to surrender to the Someone.

In John 15 we learn the secret of abundant living is abiding in Christ, the secret of this abiding is obedience, the secret of obedience is in complete surrender.

S. I. Millen of yesteryear once said 'Surrendering one's will to the Divine will seem to be a negative procedure, but it gives positive dividends.'

I don't know about you but the down times in my life often come at the point of obedience. Whether it is disobeying, parents, rules, or God we have to suffer the consequences. A victorious life is one that is in tune with the heavenly choirmaster.

Bernice Smith wrote a little poem:

Keep on trying, forego sighing
 God will help us do our best
 Its by working not shirking
 We find comfort, joy and rest.
 It is by love not by hating,
 That we build the life sublime;
 It's our blessing, not our cursing
 That brings victory, every time.

The ultimate victory is when we leave this seasonal abiding place and rest in the arms of God for eternity. Isaac Watts wrote: 'When I can read my title clear, To mansions in the skies, I'll bid farewell to every fear, and wipe my weeping eyes.'

Yes there is victory now, tomorrow and forever. Think about it, in the day of victory no fatigue is felt.

Plant Place

by Edith Martin

With the busy Christmas season ahead don't forget to care for your house plants. If you plan on giving or getting the traditional Christmas flower, the Poinsettia. Choose the one with the most branches. The so-called flowers are really the leaves at the end of the branches that turn a bright red. They surround the small head-like bumps which are the plants true flower. These flowers should be closed or only beginning to open. The tighter they are the fresher the plants.

To keep your plant healthy therefore prolonging your bloom, keep it in a sunny spot with temperature below seventy. Never set the plant on the television or where warm air from your heating system will blow on it also avoid cold drafts. The most important factor in caring for your plant is proper watering—not too much, not too little.

If your plant comes in a foil wrapper, punch a hole in the bottom, place pot in a saucer and pour on water until it runs through. Pour off excess water, never let water stand in saucer more than thirty minutes. With proper care, you should enjoy your poinsettia over a long period of time.

There are several other plants that will bloom inside your home at Christmas time. One of the easiest to care for is the Kalanchoe. They do fine in the dry conditions of the home. They will bloom over a long period of time. There is also the Christmas cactus, azaleas, and the much loved African violet.

The Perfect Gift

The poinsettia is one of the most popular gifts of the Yuletide season. Its showy bracts or modified leaves give it a distinctive appearance which has become a traditional Christmas symbol. These plants are grown in 4-inch and 6-inch pots but trees and hanging baskets are also available. The poinsettia can provide long lasting beauty in the home or office if you follow some basics in selection and care.

When purchasing a poinsettia, examine the plant carefully. Avoid one which has dropped the yellow flowers at the end of each branch. Select plants which have only three to five fully opened flowers in a tight cluster. Also, avoid plants which have brown or moldy bracts. Look for strong upright plants that are well-rounded.

Once in its new environment a poinsettia can easily last for more than a month if given proper care:

1. Remove or punch holes through the decorative foil or wrapping on the pot. Although it may be attractive, foil wrapping impedes drainage and holds water. This may cause the roots to rot and the plant to deteriorate quickly.
 2. Keep the plants out of hot or cold drafts. Excessively hot, dry air from heating ducts and appliances will reduce the quality of the plant.
 3. Poinsettias cannot tolerate cold or rapidly changing temperatures. Keep the plant where temperatures remain 60 degrees F, between 65 and 70 degrees is ideal.
 4. Place the plant in good light, but not direct sun.
 5. Poinsettias use a moderate amount of water and should be checked daily. Make sure the soil remains moist but be careful not to over-water. When adding water, allow some to run through the root mass and allow some to drain out of the pot.
- To be sure you receive a quality poinsettia, ask for a Texas product. It's your assurance of a locally-grown plant at its peak of freshness.

ILLINOIS QUILT

The World's Fair

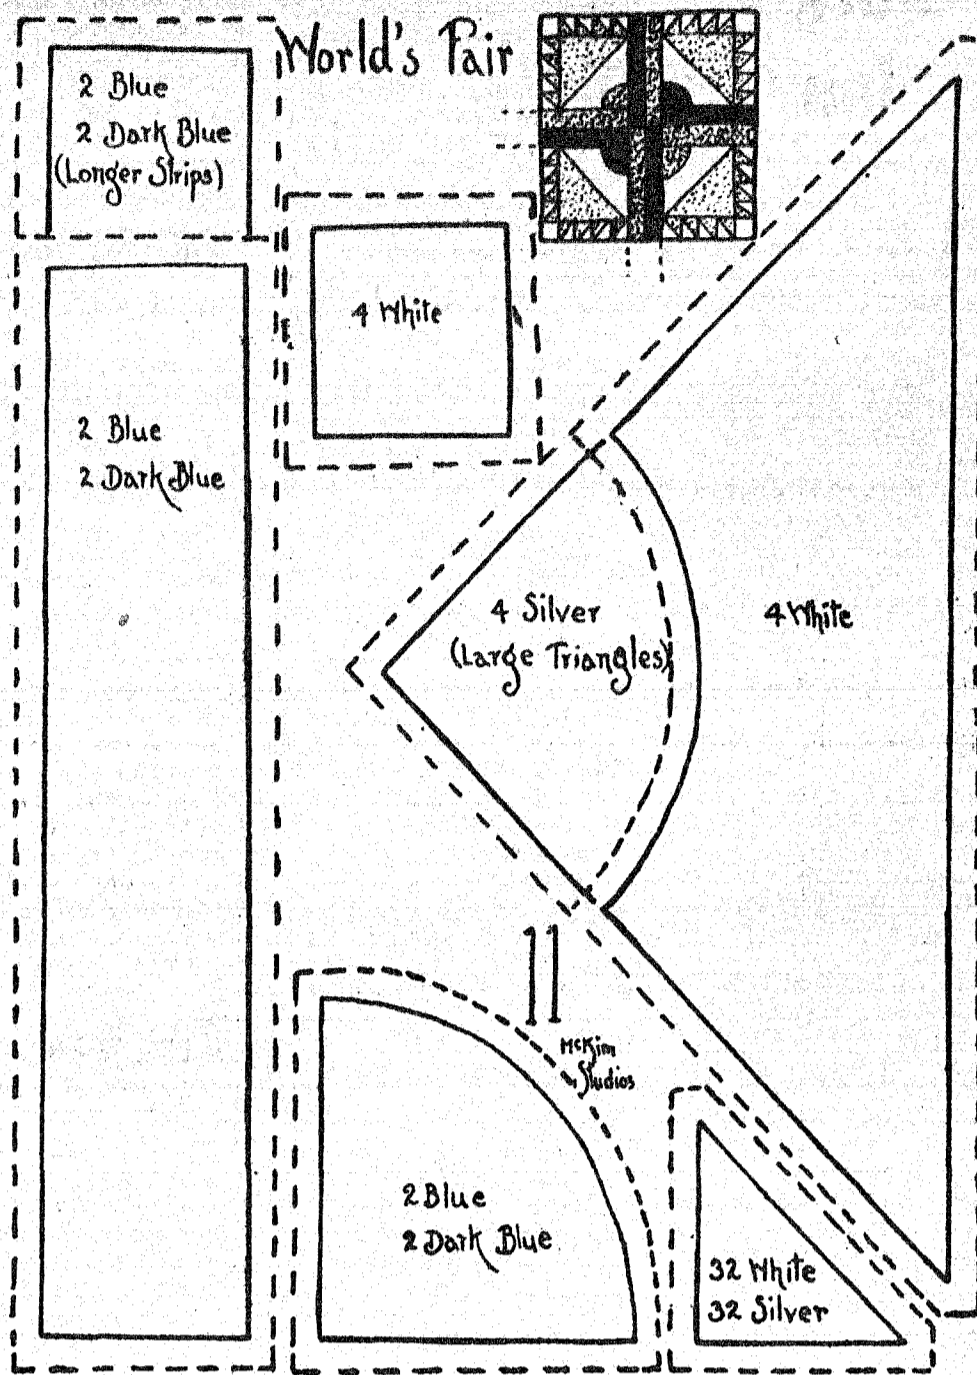

Since Illinois had the great Columbian Exposition back in the gay nineties and repeats 40 years later with the 'Century of Progress,' it is surely fitting that we bring to light the original 'World's Fair' quilt block. Not many good designs were made as late in the nineties, indeed there might be question but what this one strains considerably for effect.

We suggest that the towering corner units, with their hint of turrets and gables be pieced of silver gray, terra cotta, or dull gold. Then the structural center strips with their adjacent structural arcs in two values of blue, background white.

Blocks cut from the patterns here given will finish 15 inches square. Twenty blocks set together with pieced strips made from a white, dark blue, and white strip would finish about 78 inches wide by 96 inches long, using the same three strips border around the edge. For such a quilt we should allow 3 1/2 yards of white, 3/4 of dark blue, 2 of silver and 1 1/2 of lighter blue.

A World's Fair patchwork pillow of silk scraps could be very lovely and 15 inches is excellent size for the living room.

THE STATES PATCHWORK QUILT PARADE

Charity-Wise Giving

This is the time of year when our mailboxes are stuffed with advertisements, Christmas cards, bills and appeals for contributions to charity. Americans give \$55 billion to charity each year, and most of it is contributed during November and December.

As the number of appeals grows, it can be difficult to decide which ones merit a contribution.

'One of the prime motivations for giving to charity is to help those in need,' says Texas A&M University Agricultural Extension Service home economist Nancy L. Granovsky. 'Yet, the charity industry is one of the largest and least regulated, so consumers cannot always be sure their dollars are being used legitimately.'

But consumers can now check out charities just as they would any other type of business of investment, she says.

The Philanthropic Advisory Service of the Council of Better Business Bureaus (BBB) and the

National Information Bureau (NIB) both serve as voluntary watchdogs for the charity industry, Granovsky explains. They rate charities according to their use of funds, fundraising practices, public accountability and ethics.

The NIB believes the cost of fundraising should be no greater than 30-35 percent of the funds collected. Both groups publish lists telling which charities meet their standards and which ones fail.

For more information consumers can write to the Philanthropic Advisory Service of the BBB at 1515 Wilson Blvd., Arlington, VA 22209, or the National Information Bureau at 419 Park Ave. So., New York, NY 10016.

Before giving to local charities, check with the local Better Business Bureau or Chamber of Commerce for information. You can also ask the charitable organization for a statement of how contributions are spent, including the percentage that goes to administration.

Breakfast

Have breakfast with Santa Clause on Saturday, December 8, from 9:00 to 10:30 a.m. in the Lions Club Building. Pictures with Santa will be available.

The breakfast is sponsored by Delta Omicron. Proceeds will go to buy food for baskets and gifts for the needy in our area.

Holiday Buffet

Holiday buffets offer both a creative and efficient way to entertain a large number of guests in a limited space.

But serving meals buffet style requires extra food safety precautions, says a Texas A&M University Agricultural Extension Service food and nutrition specialist. The two basic rules to remember are to keep hot food hot and cold food cold, explains Marilyn Haggard.

Instead of setting out large buffet servings, try smaller ones, replenishing the food as needed from the stove or refrigerator, she suggests. If meat, poultry or egg dishes are left at room temperature for more than two hours, food poisoning bacteria may have an opportunity to grow. Frequent refilling ensures that these foods will remain safe to eat.

Heated serving dishes, such as hot trays or chafing dishes, are great for keeping food warm and tasty, Haggard says, but they may not keep foods at a high enough temperature to prevent the growth of harmful bacteria. Hot foods should be kept hot (between 140 degrees F and 165 degrees F) until served.

Cold meats, potato salads, meat salads and other cold foods should be stored in the refrigerator at 40 degrees F or below until served, notes the specialist.

After eating, cover and refrigerate all perishables immediately, especially meat and poultry products. Divide large meats and other foods into smaller portions. Food in smaller portions cools more quickly to temperatures where bacteria quit growing, advises Haggard.

Santa smiles as he distributes 'wish books.' Santa says part of the miracle of Christmas is watching our wishes come true.

Happy Holidays

ENJOY YOUR HOLIDAY LIGHTING MORE BY FOLLOWING THESE SAFETY TIPS FROM WTU:

Never leave your Christmas tree lights unattended. Unplug them when you go to bed or leave the house.

Make sure paper ornaments or tinsel do not touch light bulbs.

Check your outdoor and tree lights: discard sets with frayed wiring and replace burned out bulbs.

Use a wooden ladder or a metal one with rubber-tipped legs when installing outdoor lights. Be sure to stand on a dry surface.

Use heat-resistant cords with grounding plugs, and do not overload too many lights or appliances on one circuit.

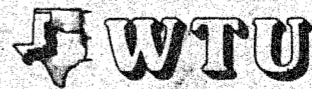

Use a water-filled stand for live trees and check the water-level daily.

Do not adjust outdoor lights or tree lights while they are turned on or connected to a power circuit.

Only purchase lights that have been checked for safety. Look for the Underwriter's Laboratory's or other safety label.

PLEASE REMEMBER... Install and use the special holiday lighting carefully, safely and wisely, so that you, your family and friends can enjoy the spirit and beauty of this special season.

The Lady Mountaineers swept the Talpa Tournament last weekend. They crushed Blackwell 59-26 in the championship game behind Yoland Kirven, the Terminator, who powered up 32 points and 21 rebounds. Leshia Eubanks contributed 6 points and 3 assists while Diley Kirven had 10 points, 8 rebounds and 4 steals. The rest of the scoring came from Irma Castillo (5), Brenda Jackson (4) and Deveda Bible (4).

The junior varsity girls, captured third place in the tournament following three exciting ballgames. They hustled, scraped and fought to a 41-38 overtime win over Merkel in the trophy game. Melissa Buse, our third all tournament player, was the leading scorer (11) and rebounder (17). Diana Castillo scored 10 points and Shana Hensley had 10 rebounds.

In the opening game of the tournament the varsity breezed by Mozelle 56-16. Diley and Yoland led the scoring with 22 and 14 points, respectively. Leshia had 4 steals and 3 assists. Diley was the leading rebounder with 21. The second round matched the ladies against 3A Merkel's junior varsity. The Badgerettes challenged for a half (27-20), before succumbing, 53-37. The junior varsity dropped their first game to Blackwell, 32-34. Miss Buse was again the leading scorer and rebounder with 13 in each category. Shanna followed close behind with 7 points and 10 rebounds. The second game found the JV matched against Mozelle's varsity. The girls fell behind 23-14 at half and trailed by 12 points before beginning their comeback late in the third quarter. Diana Castillo scored 8 points in the final period to spark a 15-3 run and secure the victory, 38-34. Diana was the leading scorer for the game with 14. Leslie Martin and Melissa Buse contributed 8 points each. Miss Buse was the leading rebounder with 13.

Last Tuesday saw the Lady Mountaineers drop their first game of the year. They fell to Miles, 28-45. 'We shot 24 percent from the field and turned the ball over 25 times. It was a nightmare,' commented Coach Freeman. The JV girls beat Miles 17-14.

Both varsity teams will be in the Rising Star Tournament this weekend. The first round will be played at Cross Plains, however. The girls play at 7:00 and the boys at 8:30 on Thursday.

fare as well. They lost to the Brownwood girls. Tammi Morrow was high scorer with 5 points.

On November 26, 1984 the Santa Anna Jr. High Girls Basketball team played Bangs Jr. High girls. Belinda Deal was high scorer with 8 points. Shannon Brown had 6 points. Tammi Morrow had 2 points and Jodi Watson also had 2 points.

The next Jr. High Girls game will be on December 10th with Bangs at Bangs at 6:00.

Also playing were Jackie Duquette, Joey Cupps, Scooter Myers and Rollin Gunter.

The 'B' team also played the Cub 'B' team. Although Brownwood ran away with the score, the local boys did very well considering they had only two days prior notification. Members of the 'B' are Rhett Guthrie, Jody Patterson, Chad Davis, Toby Absher, Michael Powers, Robert Dues and Jim Rice.

Monday, November 25th, the Jr. Mounties defeated Bangs 31-17. Leading scorer was Bobby DeLeon with 12 points. Other scorers were: McIver - 9, Herrod - 5, Hartman - 2, Ramirez - 2, and Perez - 1.

The score was tied at 26 points each. During overtime the Mountie defense prevented Lohn from scoring. Reece McIver made one basket and James Hartman put the final touch on the game by sinking a free-throw with 11 seconds left in the game. Final score Santa Anna 29, Lohn 26.

Both teams played very aggressive basketball the entire game. Reece McIver lead all scoring with 18 points. Other Santa Anna scorers were Hartman 3, DeLeon 2, Herrod 2, Blanton 2 and Hernandez 2. The Jr. High team will play Bangs Jr. High at Bangs next Monday. Game time is 6:00 p.m.
