NUMBER 43

## Mountain Echoes

By Barbara Kingsbery

Daylight Saving Time ends Sunday morning, October 31. We will get an extra hour's sleep Saturday night, then go on the same time schedule for most activities. The local schools will continue on the same time schedule as will most of the churches and organizations.

One question: Where is all the time we've saved during the past six months?

The W. M. Morgans have an unusual plant at their home on South Houston Street. A "yard-long" bean plant, from seeds brought here from Oklahoma, produced a good crop of beans during recent weeks. The local product didn't quite get to be a yard long—but many pods measured up to 27 inches.

The bean is edible and is snapped and cooked like any snap beans. They have a flavor similar to beans or black-eyed peas, according to Mrs. Morgan.

The unusual beans grow on a high trellis and were gathered by draping them over the arm, like so many limp snakes!

Mrs. Morgan saved seeds for replanting next spring.

We had fewer than usual visitors in the NEWS office Monday as two establishments—the bank and post office—observed the Veterans Day holiday and the local school was dismissed for a teachers convention in San Angelo.

One cute little boy, seeing the many flags flying in the downtown area, stuck his head in the door of the NEWS office and asked if there was going to be a parade.

More and more plans are being made for the 1971 homecoming next week. Activities will get underway with a parade on Friday afternoon, Nov. 5, followed by a pep rally, football game and ex-student reception.

Saturday, Nov. 6, activities will be held all during the day, ending with a dance at the Community Civic Center.

Since cards and letters are not sent to ex-students by the Ex-Student Association, it's up to us to invite and encourage former students and teachers to attend.

The next issue of the News will be the annual Homecoming Edition. We plan to have special articles, pictures and advertising in honor of the weekend celebration.

### Coleman County Tax Collector In S. A. Friday

The county official will be at the Santa Anna National Bank which will be open from 9:00 a. m. until 2:00 p. m.

**In Our Opinion**

By W. T. HAYS

AN IMPORTANT question in the next presidential campaign may be the busing of school children. Although the publicity on this problem has calmed down a little, there are still cries from every part of the nation and from every race, including Blacks, Mexican-American, and Chinese.

There seems to be very few in any group who favors the busing of children in order to achieve a racial balance, yet the HEW, the NAACP and a few other lesser-knowns, still push the project and regardless of his statement that he does not favor busing, President Nixon has done nothing to stop or even slow down the situation.

For that reason there are many people who are saying privately that they may consider supporting George Wallace for president in 1972, should he run. And it's a pretty sure thing that he will.

Some seem a little embarrassed to come out for Wallace, because the news media has pictured him as a demagogue and a racist, but many are disappointed in Nixon and so far the Democrats have come up with nobody, and I mean nobody.

However, the Alabama governor has gained a lot of support in his dogged resistance to the high-handed tactics of the HEW and their pressure through the justice department. A lot of newspapers over the nation from Maine to California, have applauded his efforts to halt busing, because as the Santa Monica (Calif.) Evening Outlook said editorially: "This time he's right. Many will look upon Gov. Wallace's challenges as a politically motivated tactic designed to enhance his attractiveness as a possible presidential candidate in 1972, but that doesn't detract from the validity of his position. This time he has more right on his side than wrong."

And so goes the comment with very little of a derogatory nature being written about the governor, and much said in his favor.

The two major political parties had better wake up or they might find that the ten million votes Wallace received in the last presidential election is just a drop in the bucket.

They continue to try to cram liberal candidates down the throats of a conservative majority, and whether that is believed or not, the majority of citizens in this country are more conservative than liberal.

Regardless of what they do, however, we are going to see many people from all parts of the nation and from all races who will stand up and be counted for Wallace in the next election. Wallace has spent the last four years campaigning and he has made a lot of tracks all over the nation. A lot of people don't go along with the stories of the last campaign. They are beginning to believe it will take someone like the governor to straighten this country out and give it back to the people.

FOR SOME REASON or other, I would like to know why, we observed October 25 as Veteran's Day instead of the usual November 11.

This is just another example of how government bureaucracy can mess up the whole country over something that they have no business sticking their nose in. But regardless of the uninvited interference, we hope all of us will remember those who have given their lives and health for the defense of this country. We have lost many thousands in the wars that have defended this country and a lot of our soldiers have lost their health because of injury during war time.

So let's take time to salute those who made the great sacrifice. "There's no greater love than this, that a man lay down his life for a friend."

**STATE Capital NEWS**

11. To fix an annual salary of \$22,500 for speaker and lieutenant governor.

12. To permit state employees to serve on local governing boards.

13. To set a six per cent weighted average annual interest rate for constitutionally authorized bond issues.

14. To allow counties to reduce their permanent school fund and distribute money to independent and common school districts on a per-scholarship basis.

**DEMOCRATS ELECT**—Feuding Democrats settled a row over election of a new chairman with unexpected calm.

At a Dallas meeting, the State Democratic Executive Committee named Roy Orr, 39, mayor of DeSoto, chairman, rejecting Gov. Preston Smith's preference for Agriculture Commissioner John C. White.

Orr won by a razor-thin 32 votes to 30 over the veteran statewide official. Backers of both argued that their man would be the best choice to unify the state party for election-year battles ahead. White had backing of liberal and some moderate and conservative members of the committee. Orr drew support of most SDEC conservatives and some moderates.

Both candidates, the winner and the loser, pledged future cooperation with all factions.

Orr succeeds Dr. Elmer Baum of Austin as SDEC chief until the September, 1972, state party convention.

**APPOINTMENTS** — Dan S. Petty, 31, formerly of Texarkana, was selected by Governor Smith as his executive administrative assistant to succeed Otice A. Green who resigned October 1.

Among other recent appointments by Smith were the following:

University of Houston Board of Regents — Dr. J. Davis Armistead of Lubbock, Robert Lee Grainger and Mack H. Hannah Jr. of Houston; reappointed, James A. Elkins Jr. of Houston.

Board of Regents, North Texas State University — William W. Jamar Jr. of Brownwood.

Texas Civil Air Patrol Commission (new) — Louis C. Ways, George E. Haddaway and D. Harold Byrd of Dallas; John A. Goolsby Jr. and Frank T. Cox of Austin; William I. Williams, Jr., and Luther C. Bogard of Tyler; Claude L. Chambers of Irving and Mike A. Burkholder of Pecos.

State Board of Barber Examiners—Thomas J. Hullum of Burnet.

Joe Reeder Jr. of Knox City was named 50th district judge succeeding Lewis Williams of Knox City who resigned.

**COURTS SPEAK** — The State Supreme Court affirmed lower court findings that state employees are constitutionally banned from city council service.

In another new decision, the High Court set a hearing November 3 in the controversy over whether 588 acres were legally acquired at Odessa for a new University of Texas of the Permian Basin campus.

Third Court of Civil Appeals here held a law preventing vending machine owners from holding financial interest in taverns is constitutional.

The death penalty conviction of a Refugio County man for slaying a sheriff and a deputy sheriff in 1969 has been upheld by the Court of Criminal Appeals.

**DISASTER AID APPROVED**—Texas Employment Commission will pay disaster unemployment compensation to persons made jobless by tropical storm Fern September 9-September 30 in 14 South Texas counties.

Counties covered in the assistance plan are Aransas, Bee, Brooks, Duval, Nueces, Refugio, San Patricio, Jim Wells, Hidalgo, Starr, Willacy, Jom Hogg, Live Oak and Calhoun.

Special aid determined in accord with U.S. Labor Department regulations will correspond in amount and duration to benefits paid under the state unemployment insurance program and manpower development and training act. Maximum is \$45 a week for 26 weeks.

Eligible include those who no longer have jobs or a place to work as a result of the storm or who were unable to reach work, who were injured or who were made heads of households as a result of deaths in the disaster.

**ALLOWABLE REDUCED** — For the seventh consecutive

month, Texas Railroad Commission reduced the statewide oil allowable.

A cut of .7 of a per cent sets the November production factor at 62.5 per cent of potential. The allowable has been slashed 19.6 per cent since last April.

A maximum production of 3,275,749 barrels daily will be permitted under the November controls, compared with 3,305,129 this month.

**BOND SALE OFFERED** — A total of \$31.5 million in veterans land program bonds will be offered for sale November 1.

Land Commissioner Bob Armstrong said sale of additional bonds is necessary to continue the program under which 20,000 applications for low interest rate land purchase loans have been made since last February. The interest ceiling on the bonds is 4.5 per cent.

**APPEAL FILED** — Texas is appealing U.S. Secretary of Transportation John A. Volpe's decision to impose a 10 per cent penalty on the state's share of highway construction money from the federal trust fund.

The threatened cut — because Texas has not enacted a billboard control law under the highway beautification act — would cost the state about \$24 million a year. The appeal to Volpe noted legislative efforts to comply with the federal requirement and asked a decision on the penalty be withheld until the next regular legislative session.

**SHORT SNORTS**

The Legislative Redistricting Board barely made its October 23 deadline for reapportioning the House of Representatives. The new Senate districts were announced a week earlier.

Enrollment in Texas junior and senior colleges reached an all-time high of 479,807 this fall.

The School Land Board will offer 401,847 acres of state land for lease at its oil and gas lease sale December 7.

John W. Berry of Conroe received the 1971 Lady Bird Johnson Highway Beautification Award and \$1,500 cash prize.

Agriculture Commissioner White says pink bollworms and too much rain are threatening the Texas cotton crop.

**Infestation By Army Worms Is Possible Now**

Recent rains over much of the state have revived ranges and pastures and brought on lush growth. These green grasses appeal not only to livestock but to army worms as well. The pests have come on the scene in several areas of the state in recent weeks.

"Army worms generally appear in late summer and early fall where lush growth appears in grasses and forage crops," explains Dr. John Thomas, entomologist with the Texas Agricultural Extension Service. "Small grains planted for fall and winter grazing are especially susceptible to damage. Plants can be stripped of their foliage in short order."

Army worms reach a length of about 1½ inches when mature. Young worms are less than one-half inch long. Their color ranges from pale green to almost black. Thomas explains that the worms have two characteristic markings. Three parallel yellow lines extend along the back. A prominent white inverted "Y" also appears on the front of the worm's head.

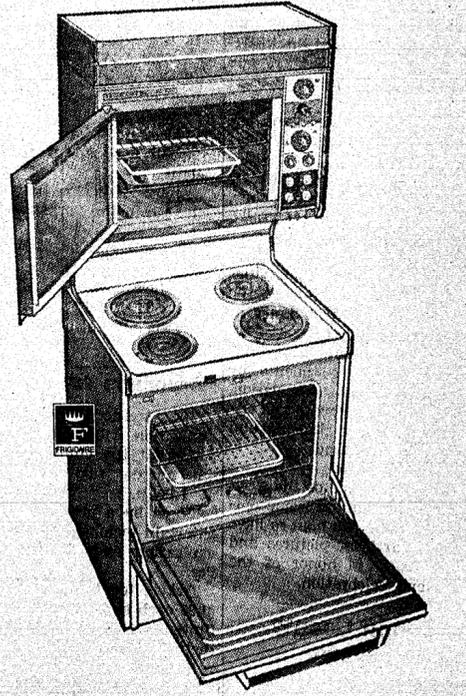

According to the entomologist, army worms can be effectively controlled if measures are taken as soon as infestations appear. Applying 1½ pounds of Sevin (80 percent wettable powder) per acre usually gives adequate control. Toxaphene at three pounds of actual material per acre is also effective but there can be no grazing by dairy animals or animals that will be slaughtered in 56 days. Parathion and methyl parathion can also be used but have a 15-day waiting period prior to grazing or harvesting. Both are extremely hazardous to applicators and are subject to drift. Thomas cautions producers to follow the manufacturer's directions on the label of any of these materials.

"Army worms are mainly night-feeders but are also active on cloudy days," adds Thomas. "Grasses should be inspected frequently and carefully to detect army worm activity, especially during cool, wet weather."

# Aunt Sarah, I love you.

Remember my 10th birthday, when you gave me that funny piece of green paper and everybody made such a fuss over it. (Except me.) Frankly, it was a pretty disappointing present for a kid. I couldn't eat it, couldn't play with it, couldn't wear it—and Mom took it away from me practically the minute I got it.

And every birthday after that (and Christmas, too), you gave me another one of those Bonds, you called them. I thought you were pretty gooney.

At least, I never had to guess what I was going to get from good old reliable Aunt Sarah.

And what I got was good old reliable U.S. Savings Bonds.

What I didn't realize then was that you gave me a gift of security for the future. Thanks to you and those Bonds, I had extra funds for college. And they helped when I bought my first new car.

Next week, I'm giving my nephew, Harry, his first U.S. Savings Bond. I know the kid is gonna think I'm some kind of nut. But, someday...

Bonds are safe. If lost, stolen, or destroyed, we replace them. When needed, they can be cashed at your bank. Tax may be deferred until redemption. And always remember, Bonds are a proud way to save.

**How come this kid has more money saved than you do?**

Because over the years his parents have invested in U.S. Savings Bonds—in his name, for his future—by participating in the Payroll Savings Plan at work.

He probably doesn't even know. And right now, he couldn't care less. But when he's older, that money can be used for a lot of things—a car, a college education, or even a new home.

The Payroll Savings Plan is an easy way to save money for you and every member of your family. When you join, an amount you designate will be automatically laid aside from your paycheck and invested in U.S. Savings Bonds. It's a painless way to save.

And now there's a bonus interest rate on all U.S. Savings Bonds—for E Bonds, 3 1/2% when held to maturity of 5 years, 10 months (4% the first year). That extra 1/2%, payable as a bonus at maturity, applies to all Bonds issued since June 1, 1970 . . . with a comparable improvement for all older Bonds.

Join the Payroll Savings Plan where you work and make your son the richest kid on the block.

# CHALK DUST

A new style was set at SAHS this week when Suzan Mills wore a pair of knickers. Suzan has always been a pace setter as far as fashion goes, but her navy and white outfit was a first. Well, it's a first as far as we know. The knickers may have been the only style several generations ago, but Suzan is the first to wear knickers in at least 20 years; we're sure.

Thursday night the cheerleaders sponsored a "Get Yourself Together" party in the gym. Admission was based upon the size of the individual's head and ankle for girls and head and arm for the boys. Those that came entertained themselves and each other by painting signs and playing games.

Coach Steele and Mr. Marshall put on a good show for us all when they fed ice cream to each other blindfolded. More ice cream went on the floor and in Coach Steele's pocket than in their mouths, but it was a sight to see.

Everyone really enjoyed the get-together and we hope we can do it again sometime soon. Thanks, cheerleaders.

The junior class is making the final preparations for the Halloween coronation Saturday, Oct. 30. The coronation is one of the major projects for the juniors this year and we're hoping for a successful evening Saturday. A carnival will be sponsored by the class next spring.

The Mounties start district football action Friday, Oct. 29, against the Eden Bulldogs. We urge all the townspeople to back the team this week and the rest of the season by attending the games and pep rallies.

Pep rallies are held the afternoon before the games at 3:30 p. m. If you've never been to a SAHS pep rally you have really missed an entertaining event. Not only will you enjoy them, but it's one of the best ways to back the Mounainer football team.

About 20 PFA members were in Dallas last week participating in the State Fair. The feeders placed well with their livestock even though we did not have any champions.

The Mountaineer Band was directed by Mr. Buchanan, the Coleman Band director, at their weekly Thursday afternoon practice session last week. The band was directed in playing and Mr. Buchanan helped a lot by giving us some constructive criticism.

### FICKLE TRAFFIC LIGHT

For a few dazed moments after the collision, Charles could not quite figure out what happened. Then he remembered: the traffic light had changed directly from green to red, skipping amber. Unable to stop, he had rolled into the intersection in front of an oncoming truck.

Blaming his accident on the fickle signal, Charles determined to seek damages from the city. But at a court hearing, the City denied liability.

"We can't be held legally liable every time a signal gets out of order. We would be swamped with lawsuits."

However, Charles' attorney proved that this particular signal had been malfunctioning for a full week before the accident. The court concluded that the city was guilty of negligence, and granted Charles' claim.

Some cities still retain their "sovereign immunity" against being sued. But in most places, a motorist can indeed collect damages for an accident caused by a traffic light or a stop sign that has been neglected.

There have even been cases holding the city liable when a stop sign was obscured by foliage. Thus:

A motorist hurt in a crash blamed it on the fact that a stop sign was hidden by the leaves of a tree. In its defense, the city pointed out that the tree was growing on private property — "out of our jurisdiction."

Nevertheless, the court imputed that even if the city could not have trimmed the tree, at least it could have chosen a better place to put the sign.

Of course, the city is not liable if there is no causal connection between its negligence and the accident. In another case, a fallen stop sign had been left lying on the ground for weeks. One day a motorist failed to halt at the corner and struck a car in the crossing.

But it turned out that the motorist, who lived in the neighborhood, knew perfectly well it was a stop street—even without seeing the sign. The city was duly cleared of responsibility. The court said the sign simply had nothing at all to do with the accident.

### JHS PEP RALLY TUESDAY

The Junior High Pep Squad invites all local people to attend the final pep rally of the year next Tuesday afternoon, Nov. 2, at the school cafeteria. The pep rally will begin at 3:20 p. m., the afternoon of the final football game of the season.

A special feature of the rally will be a "spirit bean" tree and everyone present may pick the spirit (jelly) beans for five cents a bag.

Mrs. Elgean Harris is faculty sponsor for the pep squad and the rally will be directed by the cheerleaders.

### FIFTH SUNDAY DINNER

The regular fifth Sunday dinner will be held at the First Baptist Church next Sunday, Oct. 31, following the morning worship service. All members, visitors and their families are invited to be present for the covered-dish meal at the church annex.

Sunday will be "High Attendance Day" following a month's promotion at the FBC Sunday School.

## CANDY ADDICT HAS PROBLEMS

Ex-smokers switch to all kinds of substitutes. Like licorice drops. It sounds harmless. But sometimes it isn't.

According to a recent United Press International report, one man was rushed to the Bryn Mawr Hospital in Pennsylvania as an emergency patient. He had most of the signs of a heart attack, but diagnostic tests showed no attack had in fact occurred. However, the heart muscle was behaving badly. The man's body chemistry was too alkaline, and the potassium in his blood was at a critically low level. There were also symptoms of kidney failure.

After 24 hours of tests, the patient happened to mention that he had quit cigarettes three months earlier and now ate licorice drops instead. Surprised by the serious interest of the examining physicians, he said he had been eating about a quarter of a pound every day for months.

As a result of this case, the word is being spread through the medical world to watch out for licorice addiction in ex-smokers. Licorice depletes the amount of potassium in the blood that is necessary to keep the heart pumping.

Once the diagnosis of "licorice intoxication" was confirmed it took 33 days in the hospital to restore the normal level of potassium in the man's blood. But at the end of that time, all his symptoms were gone.

Too much of any one substitute for cigarette smoking can have ominous repercussions. But quitting smoking accompanied by sensible substitutes, is an essential step toward health.

To find out more about the hazards of smoking and how to quit as painlessly as possible, check with your local tuberculosis and respiratory disease association. It's a matter of life and breath.

# 40 Years Ago In The News

The following stories are from the May 8, 1931, issue of the NEWS:

Monday night Santa Anna received another splendid rain. The rain was accompanied by much lightning and thunder and lights of the city went out due to damaged transformers on the lines.

Tom Hash and family, who live in the west edge of Bangs, hid themselves to the storm cellar during the storm. Lightning struck the kitchen and smashed a hole in the roof. A can of lard in the kitchen was wrecked and twisted out of shape and things were spread and scattered all over the room.

Some hail fell here but not enough to do any material damage. Crop conditions are fine in this county.

Miss Berta E. Yancy, daughter of Charlie Yancy, well known Santa Anna farmer, is one of 13 graduates of the Baylor Hospital in Ft. Worth this week.

The annual May Fete will be given in the form of a Health pageant under the direction of Miss Ruby Volentine at the City Park at 8:00 o'clock this evening. Mothers of 180 children have been busy preparing costumes of various hues for the past week.

Public School Music for the local school has been talked of for several years. This year, despite the unusual financial depression, the Parent-Teacher Association has accomplished great things for the children.

The high school association has helped enlarge the library, sponsored girl scouting and started the campaign for the new music department.

In the ward school the mothers and teachers have furnished a nurse for examining the children and aided in the decision for the music

department.

J. M. Binion, with six of his boys, Jack DuBois, Audas Smith, Milton Howard, Richard Jennings, Clifford Wheeler and Leon Ward, members of the high school track and field team, are in Austin today where the boys will compete in the state events.

Miss Inez Shield, Nebob Turney, Fannie Wynn and Mrs. Sam Shield spent Sunday with Miss Lorene Fivash at Whon.

Santa Anna always experiences great pleasure when her "sons and daughters" make good. William Wheeler, familiarly known as "Buck," is business manager of the Simmons University paper and at a recent Texas Intercollegiate Press meeting he won first place in the contest for his sport story on the Tech-Simmons football game.

Wheeler is a member of the SAHS class of 1927.

Supt. Scarborough said the State Supervisor recently when visiting our school, stepped in a wad of chewing gum and it was quite humiliating to school officials.

Miss Land believed that chewing gum in public showed lack of refinement.

The senior class of 1931 presented a regular side splitting comedy in "A Henpecked Hero." The play was under the direction of Mr. J. C. Scarborough.

The cast included Irene McCreary, Geneva Atkinson, Wilburn DuBois, June Bond, A. G. Weaver, William Earl Ragsdale, Geneva Caldwell, Myrton McDonald, Mary Simpson, Sylvia Byrd and Fred Faulkner.

### AUSTIN VISITORS

Charles Garrett and his fiancée, Susan Bush, both students at the University of Texas at Austin, were recent visitors with Charles' grandparents, Mr. and Mrs. C. E. Kingsbery. Charles, the son of Mr. and Mrs. J. T. Garrett of Lake Jackson, and Miss Bush will be married Saturday, Oct. 30 at her home town near Harlingen.

**FIVE GENERATIONS**—Present for the 89th birthday celebration of Mrs. Maggie Blount last Sunday were five generations pictured here. They are, left to right, Mrs. Morris (Yvonne McClintock) Wallace of Jal, N.M., holding her granddaughter, Nicole Karnes, Mrs. E. E. McClintock of Santa Anna, and Mrs. Blount. Standing is Mrs. Chuck (Glena Russell) Karnes of Jal, N.M.

Zelma Strickland's girls came from behind in the fourth quarter, keeping the Rising Star girls from scoring a single point while scoring 10 points to take the lead.

Sherrie McIver scored 18 points, Pati Perkins 12, Serena Bryan scored 8, and Janice Martin added 1 point on a free throw. Other forwards were LeAnn Bryan, Bobbie Strickland and Sandra Hosch.

Guarding for the Santa Anna girls were Linda Dean, Tony Allen, Deborah Aldridge and Glenda Strickland.

Several practice sessions have been planned for both the A and B teams, and the first official game is scheduled for the end of November.

The SAHS girls are defending Bi-District champions, having advanced to the regional playoffs for the past three years.
