THURSDAY, AUGUST 14, 1986

Two-A-Days Start Friday

Coach Galen Privitt has announced that the football two-a-day workouts will begin Friday. The schedule follows:

Friday, August 15 from 8:00 to 10:00 a.m. and 5:00 to 7:30 p.m.

On Friday evening, August 15, at 8:00 p.m. the Santa Anna Booster Club will host a "Meet the Players" Watermelon Supper on the Football field. The community is invited to attend and give support to the players.

For the week of August 18, practice begins at 8:00 to 10:00 a.m. and 6:30 to 9:00 p.m. on Monday, Tuesday and Thursday and from 8:00 to 11:00 a.m. on Wednesday, August 20 and on Friday morning from 8:30 to 10:00 a.m.

There will be a scrimmage against Early at the Mountaineer Football

Field with the JV game kicking off at 5:00 p.m. and the Varsity to follow.

On Monday, August 25, workouts will be from 7:00 to 9:00 a.m. and 6:30 to 9:00 p.m. On Tuesday, August 26, workouts will be from 4:30 to 7:30 p.m.; Wednesday, August 27, from 7:00 to 9:00 a.m. and 4:00 to 6:00 p.m.; and Thursday, August 28, from 8:00 to 10:00 a.m. and 6:30 to 9:00 p.m.

On Friday, August 29, The Mountaineers will travel to Goldthwaite for a scrimmage there. Starting time will be announced at a later date.

On Monday, September 2, the football team will once again workout from 6:30 to 9:00 p.m.

Two Fires Last Week

The Santa Anna Volunteer Fire Department answered a call at approximately 5:00 p.m. to the old lake road located east of the Santa Anna Lake. There was a car on fire, which was a total loss. One truck and six firemen answered the call.

On the way back to town, another fire call was received at approximately 5:30 p.m. The firemen answered the call to the H. W. Norris farm about 3 miles east of Santa Anna. The fire burned approximately 15 acres of stock grazing land and originated from the Santa Fe Railroad. Two trucks and six firemen answered the call.

On Wednesday the fire department received a call about 5:30 p.m. to the Cleveland Community. The caller stated that the Cleveland Church was on fire. The firemen answered the call, which turned out to be a false alarm. We are reminded that this could be a dangerous thing, if a real fire had occurred in town, and all the firemen were on the road answering a false call. Callers calling the fire department to report a fire, please be sure there is a need, and not call our firemen away on a false alarm.

Texas Rural Electric Women Elect Coleman Resident To Statewide Office

Mrs. Jody Barr of Coleman has been elected chairwoman of the Texas Rural Electric Women's Association. The action came during TREWA's annual membership meeting August 5 in Dallas. Mrs. Barr had been active in the organization for several years; she's been vice-chairwomen for the last year.

Mrs. Barr, with her husband James, who is manager of Coleman County Electric Cooperative, has long been active in other rural activities, too, including youth groups while their daughter and son were growing up. She is currently proprietor of an advertising business and continues participation in church, charitable and civic groups.

The TREWA organization she now heads produces various events in support of rural electric programs. Beneficiaries include Rural Friends, a political action organization, and young people whose academic and otherwise personal excellence qualify them for college scholarships.

The Barrs are parents of a daughter, Leslie, who resides with

Boosters To Serve Watermelon To Football Team

The Santa Anna Athletic Booster Club will serve free watermelon at a get-together after football practice on Aug. 15 at the football field.

All school athletes are encouraged to be present as well as parents and other fans.

The football team and their coaches will be introduced. Coach Galen Privitt's Mountaineers have been ranked ninth in the state in Class A, according to Texas Football Magazine and they are looking forward to a great season.

Always, the following and support of the fans will play a big part in their success as a team.

Council Decides To Buy Police Car

At 7:00 p.m. Thursday, August 7, 1986, Mayor Joe Guerrero called the regular scheduled city council meeting to order and welcomed all visitors.

Minutes of July's meeting were read and approved.

Mr. Scott Patterson of Patterson Insurance Agency met with the council to discuss the Official and Police Liability Insurance. Mr. Patterson stated that he was still trying to get a bid from Penco for the General Liability Insurance. He has received one bid on for \$500,000 from Imperial Casualty for the Police Professional with each occurrence being covered for \$1,000,000 per incident with a \$2,500 deductible. The Imperial Casualty is said to be a stable insurance company and the premium for this coverage would be \$1,293.00. Patterson also stated that he had talked with another company that day and that they had a market for the General Official Liability and he told them to send him an application. Councilman Stanley Hartman made a motion to accept this policy proposal for the Police Liability. Councilman Joe Taylor seconded and was unanimously carried.

Mr. Jerry Wheat was then introduced to the council to discuss the

Feather Bay Resort project. Mr. Wheat introduced Mr. Jimmy Martin, the owner of the land and project. Mr. Martin explained the easement contract that the City had signed in 1979, and stated that they did not want to take advantage of the City. Mr. Martin doesn't believe that the contract is fair to the City, and he believes that they could come to another contract agreement with the City. Martin states that the City has two pumps there at the present, and why not let them take one pump and the City take the other and they will pay for all electric and water purchase direct to TPL and Brown County Water District. The City would not be out any money at all. Also they will pay for the pump to be repaired and all maintenance upkeep on the pump. Councilman Hartman made a motion we accept this agreement with Feather Bay Resort with Councilman Taylor seconding. Unanimously carried.

Mr. J. E. Watson was then introduced to talk to the council about the alley way between Avenue A to seven blocks east of First Street. It was stated that there used to be an alleyway there in 1937. Mr. Watson believes that he has a right to have

part of the alley since all the other people around there are using the alley for their own purposes, or either have them to pull their fences back and make an alleyway once again. Councilman J. T. Avants suggested that the City table this until they could check out the plats and maps at the Coleman Courthouse. Councilman Taylor made a motion we table this until it is checked out further; Councilman Avants seconded and unanimously carried.

Bids for the sale of City property Block 59, Lot 1 were then opened. The first bid was from Mr. Craig Terry for \$10,000 and the second was from Bruce Alsobrook for \$751.50. Councilman Hartman made a motion we accept Mr. Alsobrook's bid of \$751.50 for Block 59, Lot 1. Councilman Avants seconded and motion carried with one abstaining, Mr. Joe Taylor.

The purchase of new police car was then discussed. It was decided to purchase one and transfer funds from one account to another to make the purchase possible. Councilman Taylor made a motion to take \$1,700 out of the Vehicle Equipment General Fund and \$550.00 out of the Tax Fund. Councilman Avants

seconded and was unanimously carried.

The mayor then asked the council if they had anything they would like to bring up for discussion. Councilman Susie Voss said that she

would like for the City to keep a record of general purpose complaint forms to be filled out and then

presented to the council at the council meetings so that the council could discuss them and see that they had been taken care of properly.

Mayor Guerrero brought up a discussion about lots and homes that need to be cleaned up. The City can clean up lots and charge the owners

the expense, but houses cannot be torn down unless we adopt Housing Codes to follow.

Council went into executive session and when they returned to open session the Council supported Mr. Rusty Wells in his action to relieve Jo Ann Collins of her position with the City. Also the council made no decision on the dog catcher.

Accounts Payable were brought up for discussion. Councilman Voss made a motion to pay the Accounts Payable in the normal manner. Councilman Hartman seconded and unanimously carried.

Coleman County Telephone Cooperative

Notice Of Annual Meeting

The annual meeting of the members of the Coleman County Telephone Cooperative, Inc. will be held at the Santa Anna Football Stadium on Saturday, August 23, 1986 at 8:30 p.m. to take action on the following matters: (1) Report of Officers; (2) Election of three directors of the Telephone Cooperative; and (3) All other business which may come before the meeting or any adjournment.

The nominees for the three directors positions are: Glen Copeland and Dickie Horner for Santa Anna;

Jerry Ellis and Warren Barton for Santa Anna Rural-South; and Tom Kingsbery and Dean Bass for Santa Anna Rural.

There will be registration and entertainment beginning at 7:30 p.m. and lasting until 8:30 p.m. with music being provided by the "Kuntry Kighters. There will be free cold drinks and drawings for gifts, with the grand prize being a Color Television. All members attending will receive a door prize.

All members are urged to attend and visitors are welcome.

SAHS Registration

Registration for Santa Anna High School students will be held August 18th through the 20th. Junior High and elementary school students will register the first day of school, September 2. A special session for parents of high school students will be held Monday night, August 18, at 7:00 p.m. in the auditorium. Graduation requirements, current curriculum offerings and each student's four year plan of study will be explained briefly. Parents are encouraged to attend the session and help work out their student's class schedule.

Regular registration will be held in Room 106 of the high school at the following time:

Seniors	Monday (8-18)	10:00 a.m. to 2:00 p.m.
Juniors	Tuesday (8-19)	10:00 a.m.
Sophomores	Tuesday (8-19)	1:00 p.m.
Freshmen	Wednesday (8-20)	10:00 a.m.

Tax Board Meets

The Coleman County Tax Appraisal District Board met on Monday, August 11, at the Tax District office in Coleman for the monthly meeting. Barbara Kingsbery, chairman, led the session.

Meeting with the group was John Burke of the Thomas Y. Pickett Company who reviewed services and procedures involved in mineral, utility and industrial appraisals and submitted the company's bid for the service for the next two years. After reviewing an alternative bid from Capitol Appraisal Services, the board approved the bid from Pickett Company for \$59,000 for the annual service.

Minutes of the previous meeting were read and approved, and bills and accounts for the past month were reviewed and approved for

payment. The largest single budget item was a payment of \$14,000 to Pickett Company as an installment on the 1986 appraisals. It was noted that some categories have gone over the budget this year, but others are under the designated amount, keeping the district within the budget.

The 1987 budget was increased to accommodate the increased cost of the mineral and utility appraisals. Also added was funding for liability insurance for board members and employees of the Tax District and a payment on the computer recently purchased.

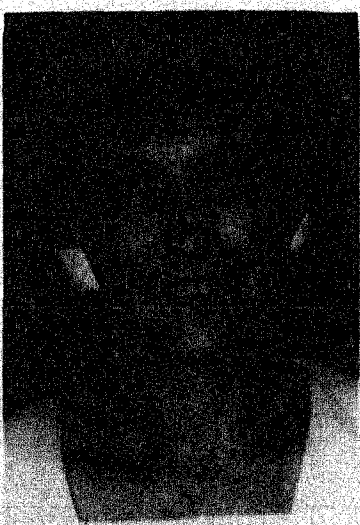

Chief Appraiser Bill Jones reported that tax collections from the nine county entities total 92 percent, about normal for this time of year. Notices have been sent to property owners regarding delinquent taxes, with some collections made as a result of the notices.

It was announced that the September meeting will be held on Monday, September 8, with the 1987 budget to be adopted at that time. All interested persons are welcome to attend the meetings of the group.

four-time NAIA All-America and is one of the best offensive players ever to play for Tareyton. He rushed for 1,221 yards in 1981 on his way to second team all-America mention and first team Academic All-America honors. In his four years he had 4,575 all-purpose yards, scored thirty-two touchdowns and had fifteen games of over 100 yards rushing.

Bush is currently working for ADP in Dallas.

The new inductees will be honored with a reception and a luncheon prior to their formal induction at the football game.

Mrs. Jody Barr

her husband in the Austin area, and a son, Jody, who is a student at Tarleton State University at Stephenville.

Tarleton Adds Five To Hall Of Fame

STEPHENVILLE—Tarleton State University will add five former athletes to the list of sixty members in the Athletic Hall of Fame. They will be inducted during halftime ceremonies of the "Hall of Fame" game, November 8 against Austin College.

Added to the Hall of Fame will be Roy Enderlin, baseball, 1960-69; Ken Floyd, baseball, 1960-61; Vicki Jo (Neff) Caldwell, women's basketball, 1970-73; Moise Pomaney, track and field, 1977-78; and Ricky Bush, football, 1979-82.

Enderlin was part of the successful baseball program at Tarleton under the coaching of Cecil Ballou. He played shortstop and pitcher on two winning teams and was among the best to play the game for Tarleton during the junior college days.

Five To Hall Of Fame

After leaving Tareyton, Enderlin went on to stars on two Southwest Conference championship teams at the University of Texas. He still lives in his hometown of Fredericksburg where he is owner of a distributorship.

Floyd, a native of San Antonio who followed Enderlin at pitcher, was named a Junior College All-American in 1960. He was named the All-Tournament pitcher in the National Junior College Baseball Tournament where Tarleton finished second in the nation.

Floyd is a vocational adjustment coordinator for Samuel Clemens High School in Schertz.

Caldwell, originally from Santa Anna, is the sixth leading scorer in Tarleton women's basketball history. She played in 118 games for the Tarleton and averaged 11.1

points for her career. She scored 1,322 career points. Along with teammate and fellow Hall of Famer Judy Gleason, she helped establish the winning tradition in women's sports at Tarleton.

Caldwell is presently coaching volleyball, basketball, and track at Crane High School.

Pomaney, a native of Ghana, West Africa, was an outstanding triple jumper. He won three all-America honors while at Tareyton and claimed two national championships taking first place in his speciality in both the 1977 NAIA indoor and outdoor National Championships. He holds the Tarleton triple jump record with a leap of 43' 4 1/2".

Pomaney currently works for Price Refinery in Abilene.

Bush, originally from Waco, was a

Friendship Meal Attended By 41

The Friendship Meal on Thursday, August 7 was well received with Olive Pembroke's meat cuisine starting the table layout for the dishes brought in by those in attendance. Forty-one people were counted going through the line with plates. Mrs. Gilbert gave us her rendition of some down-home precautions, most of which had been handed down from her own family—with a number from neighbors who shared. A few of those present admitted they had observed some of those precautions mentioned. The programs are always short, but quite entertaining. Thank you Olive and Suzy. Frank and Eula McCary were back with us from their trip by air to Expo '86 in Vancouver, Canada. Frank spoke briefly of the natural beauty of Canada, with their mountains, islands, lakes and the forests of British Columbia.

Haynes Reunion

The 11th Annual Reunion of George and Goldie Welch Haynes was held August 1, 2 and 3 at Mountainview Lodge at Lake Brownwood with 42 in attendance.

Boating, skiing, playing Spinner, visiting and eating was enjoyed by all.

Those attending were David, Janice, Jennifer and Chad Kindel of Encinitas, Ca.; Al, Carol, and Al Faychak of Midland; Wally and Jeanelle Permenter of Levelland; Derek and Lisa Permenter of Kingsland; Todd and Britt Spears of Levelland; Jerald, Carolyn, Jacque and Jeanette Haynes of Houston; James, Jackie and Joe Haynes of Novice; Bobby, Connie, Brett, Bobby, and Sherri Seals of Houston; Danny and Lisa Wesolick of

Houston; Dick and Wanda Titchen of Lovington, N.M.; Tim, Ivy, Jeremiah, Drew and Brooke Tabor of Midland.

Guests attending were Willie and Maurine Blair of Coleman; Jim and Mattie Linebery of Bangs; Hymie Soto of Midland and Shelia of Kingsland.

Those unable to attend were Gary, Darla, Heather and James of Haynes of Gonzales; Debra Haynes of Pineville, La.; Luke Haynes of Novice; John David Haynes of Abilene; and Jay Haynes of Houston; John, Robin, Seamus and Belinda Sonnamaker of Hobbs, N.M.; Randy Titchen of Albuquerque; and Ricky and Regan Titchen and families of Austin.

Native Now A Minister

A former Coleman County resident and granddaughter of early-day Santa Anna residents was recently ordained as a minister of the Christian Church, Disciples of Christ, in Salida, Colorado.

Nika Dameron, daughter of Mrs. Karl (Camille) Wallace of Fort Worth, was ordained in the ceremony on June 29 at Salida First Christian Church with family members, friends and fellow church members taking part.

Dameron began her new career after raising four children. After they were grown, she entered Loretto Heights College in Denver where she earned a degree in psychology and minor in religion. From there she entered Iliff School of Theology in Denver for her graduate degree in pastoral counseling.

Begin ordained has not changed her outlook. She explained that she has been ministering in the church all her life, working as a lay person in youth programs, youth and adult retreats, and Sunday School programs in Salida and at her former home in Hereford. It is not unusual for a woman to be ordained in her denomination, she says, emphasizing that there is a special ministry for women.

The Wallace family lived in Coleman for several years and Dameron attended high school there. She is the granddaughter of the late Mr. and Mrs. W. E. Wallace and the late Mr. and Mrs. L. L. Shield of Santa Anna.

Receives Prize Money

Alys Pelton, the new editor for the Central Texas Commercial College newspaper won a prize for naming the paper. Her entry, "Business Rap", won her a \$25 cash prize. Congratulations Alys!

Thoughts From Our Pastors

By John D. Stanislaw
Pastor of First Baptist Christ

WE NEED GOD!!! I have seen all the works that are done under the sun: and indeed, all is vanity and grasping for the wind. Ecclesiastes 1:14 (NKJV)

Ecclesiastes is written by a man who is inspired by God to show what life "UNDER THE SUN" is like. That is, a life apart from God. This man named Solomon had all the wealth, all the time, all the intellect, all the wisdom, and no restraints in searching out life "UNDER THE SUN." His conclusions after this journey is "Vanity of vanities, all is vanity." The total value of man's endeavors performed apart from God are ZERO! USELESS! EMPTY! A PUFF OF WIND!

To me he is saying that life apart from God will leave you deflated, depressed and disillusioned. It is life "ABOVE THE SUN" that brings meaning to everyday living. It's looking beyond the sun that makes the difference.

It is life "UNDER THE SUN" not "UNDER THE SON" that gives us hope. It is life under the authority of Jesus Christ, the Son of God, that will make life "UNDER THE SUN" worthwhile.

You may be on the same road that

Solomon traveled. Read his diary "Ecclesiastes" to avoid the disillusionment you will find when your journey is completed. Solomon found out that what was missing in his life was God. He needed God! You and I need God too if this life "UNDER THE SUN" is going to make sense.

We need God to help us realize our potential as persons. God through Christ sets us free to be extraordinary persons. He sharpens our visions and tempers our ambitions with compassion and love. He entrusts to us his own ministry of love and reconciliation. Because we have so much potential that he gave his only begotten son upon the cross to die for our sin that we might have a life with meaning and have it for eternity. Read John 3:16.

We look inward and we find that we, children of God, continue to need Him. We find Him in unexpected places but we also find Him when we worship together. Together in worship we find help and support in Him; He finds new commitment in us. In order for life to make sense, we need God through Jesus Christ. Begin your life today "UNDER THE SON."

4-H'ers Attend County Camp

Nineteen 4-H'ers from Coleman County attended county camp held last Monday through Wednesday at the State 4-H Center in Brownwood. The 4-H'ers participated in activities such as swimming, archery, shooting sports, high adventure, kite making and canoeing.

4-H members who attended the campe were Kris Densman, Christie Walker, Shawn Hail, Amy Scarborough, Rusty McCollough, Adel DeLeon, David Burkett, Candi Daniel, Daniel Beal, Mika Gore, Corey Brown, Mitzi White, Rodney Taylor, Erica Pearce, Jim Bob Edgington, Cheree Halmon, Shea Connelly, Adelia Smith and Chad Garrett. Also attending the camp were Barry Cooper, County Extension Agent and his wife, Karla.

Assisting in transporting the campers to and from Brownwood were Susan Daniel, Sarah Beal, Glenda Walker and Extension Agents Kerry Shropshire and Debeie Reber.

Baby Son

Wayne and Sandra Walker of Big Lake are proud to announce the arrival of a son, Dale Wayne, born Tuesday, July 23, 1986 at 1:22 p.m. in the Community Hospital at San Angelo, Texas. Dale weighed 8 lbs, 12 ounces at birth.

He has a three-year old sister, Raina Ann.

Grandparents are Mr. and Mrs. Elgean Harris of Santa Anna and Mrs. Darlene Walker of Baird.

Great-grandmothers are Mrs. Blanche Harris of Santa Anna and Mrs. McWilliams of Baird.

Stewardson Reunion

On Sunday, August 3, 1986, the National Guard Armory of Santa Anna was the place for lots of food and reminiscing when 60 descendants of John and Elizabeth Stewardson came from all parts of Texas for a day of visiting. This reunion has become an annual affair.

The first reunion was in 1907 and it came as a surprise to John and Elizabeth Stewardson when 46 family members of children and grandchildren appeared unannounced at the noon hour.

Needless to say Grandmother Elizabeth was quite nervous not knowing the group brought food.

Attending Sunday's reunion were 60 relatives from Fort Worth, Dallas, Odessa, San Angelo, Houston, Abilene, Midland, Dimmit, Bangs, Coleman, Santa Anna, Rockwood and Oklahoma.

Paul: A Changless Message

By DON RUTHERFORD

Last week we looked at Paul, a changed man. And changed he was, from being a persecutor he became a preacher. From a madman to a missionary, this Paul changed his entire life.

As he preached he preached a message that does not change. He preached the "Good News." This good news is what we know as the gospel.

Paul said "I am not ashamed of the gospel, it is the power of God unto salvation to everyone who would believe."

There are some things that the gospel is not. The gospel is not a religion, the world has many religions but only one gospel. The gospel is a declaration not a debate. The gospel is not a challenge but an offer. The gospel is not simply for the sanctuary but for the open road. The gospel is not something we go to church to hear, it is something we go from church to tell. The gospel is God's good news not man's views. You say what then is the gospel? The Gospel in a nutshell is: The power of God; The Person of Jesus and the Participation of Man.

Notice The Power of God. A thief broke into a Buffalo, New York, church and got away with some valuable equipment and several dollars from the collection box. The next day the church's outdoor bulletin board carried the words "If the person who burglarized this church will contact the pastor he will receive important news." Interested, reporters called on the pastor. "What is the good news?"

Surprise Parties Given

A Surprise Wedding Anniversary and Surprise Birthday party was given Monday, August 11, 1986 at the Frank Taylor Home. The party was in celebration of the 48th Wedding Anniversary of Frank and Mamie Taylor and the Birthday of Bruce

The pastor said, "If he confess our sins, He is faithful and just to forgive us our sins, and to cleanse us from all unrighteousness."

Man cannot save himself from his wrongs, it is God only. Man cannot get so far away except through unbelief that God cannot reach him. As far as man can run from God, all he has to do is to turn and God is there. God is powerful enough to forgive. The gospel is the power of God. Not only is the gospel the power of God but it is the person of Jesus Christ. It is through Jesus we receive forgiveness. It is by the life, death, burial and resurrection of Jesus do we have hope now and hope after death. John 14:6 says it all for us "I am the way, the truth and the life." Without the Way there is no going. Without the Truth, there is no knowing. Without the Life there is no living. The world doesn't want Christ but it needs Him.

A man was all his life an atheist. In word and deed he said, "There is no God." One morning he was found dead in his bed. In one hand he held a piece of paper. On it written in a scrawling handwriting were the following words: "I have tried in a thousand ways, My fears to quell my hopes to raise. But what I need the Bible says, is ever only Jesus. My soul is night, my heart is steel. I can-

Sr. Citizens Treated To Ice Cream

Friday, August 8, the Senior Citizens enjoyed an old-fashioned ice cream (Home-made) supper at the Nutrition Center. There were four choices of ice cream: vanilla, cherry, peach and strawberry and a table of cakes and cookies.

The group enjoyed playing bingo and listening to a 94-year-old lady play the piano.

There were 35 present. Come to the Nutrition Center each Monday, Wednesday and Friday for good fellowship and a good balanced meal.

Baby Girl

Rusty and Janice Wells of Santa Anna wish to announce the arrival of their daughter, Jana Evonne, born at Brownwood Regional Hospital on July 12, 1986 at 3:30 p.m. She weighed 6 lbs. 8 ozs. and was 19 inches long.

Grandparents are Dexter and Gaye Jewell of Coleman and Mr. and Mrs. Allen Wells of Santa Anna.

Attend Family Reunion

Mr. and Mrs. Boyd Copple of Robert Lee and Mrs. C. C. Gilbert of Santa Anna attended the McDonald Family Reunion at Harper Sunday. About 60 relatives gathered at the recreation building at the town park. McDonald's, Bode's, Taylor's and Copple's from all over the state and a few from other states. Joe Taylor was there from Ft. Worth, still working on the family history. A big dinner was served and a local band provided the entertainment.

Tom Whites To Celebrate 50th Anniversary

Mr. and Mrs. Tom White will be honored at a reception on Sunday, August 17, 1986 from 2:30 to 4:30 p.m. at the Church of Christ Family Center in Coleman, to celebrate their 50th wedding anniversary.

The reception is being hosted by their son and daughter and their families, Eugene and Anne White, Kenneth and Elaine Koehler and John and Pat Trulock.

Friends and relatives are cordially invited to attend.

Campfire Fly-Up Ceremony

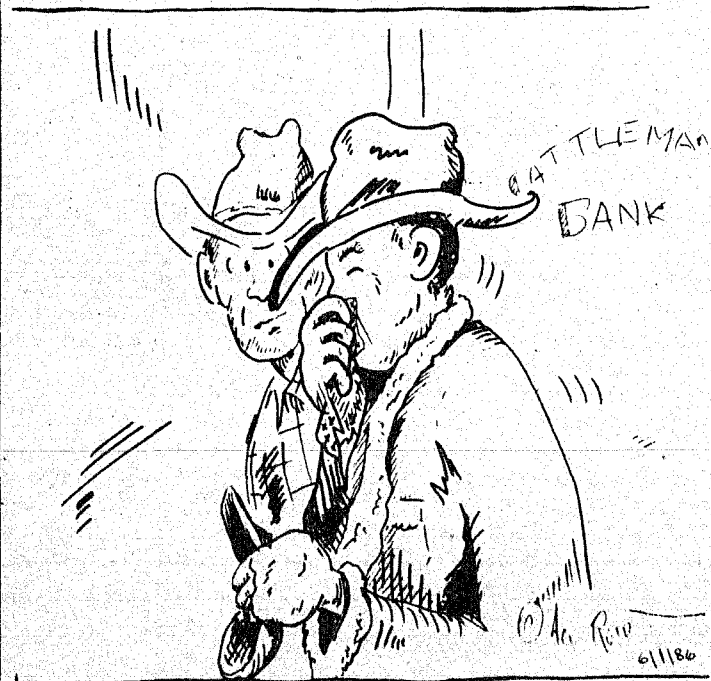

The Campfire Fly-Up Ceremony postponed from June has been rescheduled for Friday, August 23, 1986. The Ceremony is planned to be held at the Dale and Donna Bradley Home at the Santa Anna Lake.

CALENDAR OF EVENTS

- THURSDAY, AUGUST 14
Football Workout, 6:30 to 9:00 p.m.
- FRIDAY, AUGUST 15
Football Workout 8:00 to 10:00 a.m. & 5:00 to 7:30 p.m.
BOOSTER CLUB
"Meet the Players" Watermelon Supper 8:00 p.m. at football field
- SUNDAY, AUGUST 17
Church
- MONDAY, AUGUST 18
Fire Drill
Football workout 8:00 to 10:00 a.m. & 6:30 to 9:00 p.m.
SAHS Registration Seniors 10 a.m. to 2 p.m.
- TUESDAY, AUGUST 19
Lions Club, noon
Football Workout 8:00 to 10:00 a.m. & 6:30 to 9:00 p.m.
SAHS Registration Juniors 10 a.m.
SAHS Registration Sophomores 1 p.m.
- WEDNESDAY, AUGUST 20
Library Reading Program Party & Presentation of Awards 9:30 to 11 a.m.
Football Workout 8:00 to 11:00 a.m.
SAHS Registration Freshmen, 10 a.m.

Dr. Chapman Speaks At Story Hour

Those adults who were at the Library Story Hour on Wednesday, August 6th witnessed a miracle. Two different rooms full of children were breathless to learn about science.

Dr. York Clamann, Supervisor of Science for the Abilene ISD was the guest speaker. He was born in Berlin, Germany. His father and other top scientists, including Werner Von Braun, came to America after World War II. They developed space flight from rockets to our current space program. Dr. York Clamann worked with his father in developing food for space travel. He was educated at St. Mary's University, BA; Incarnate Word University, MS; Texas A&M University, PHD. IN 1945, Dr. Clamann came to Abilene. His office is in the Planetarium, which he directs. He is a very necessary part of the Abilene Science Fair each year and was one of the teachers considered for the Challenger Space Ride.

Andrew Clamann was his father's assistant. Since his father, grandfather and grandmother, and great-grandfather were scientists, don't you think he will be too?

From the beginning moments,

where children rubbed their hands to create heat, they were caught in the excitement of learning: (1) Paper slows down friction in hands; (2) Styrofoam is light but burns easily; (3) Chalk doesn't flash burn but deteriorates with heat and moisture; (4) A space tile is light and does not burn; (5) A crumpled ball of paper flies; (6) A light weight round object (aluminum can open at both ends) will fly. The next generation of airplanes being developed will be round with no extended wings. The children learned to make a paper airplane like this.

Experiments with a vacuum developed into rapid decompression such as an airplane or spacecraft would experience if a hole pierced its side (1) a sphere with a vacuum would take 800 lbs. of pull to open; (2) marshmallows in a vacuum expand then shrink when brought back to normal atmosphere; (3) styrofoam pieces do not expand or contract in a vacuum, but dance dramatically with a rapid influx of air.

Each boy and girl received a picture from NASA. The highlights of the day was a chance to see and touch the space tile. Such a 9-inch

square costs about \$800. Probably only 5000 people have seen such a tile!

Words could never express the appreciation the boys and girls felt, but if you could have seen them line up to say thanks and get an autograph—you would understand. Thanks to Dr. Clamann and Andrew for a special treat!

Mrs. Rae Ann Bible read to the Read-To-Me members. Mrs. Sandra Guthrie read a space book to the Kindergarten through 4th grade members, and Mrs. Jane Gustavus discussed next summers program with our older members. Mrs. Betty Key helped with everything. One of the posters she brought was a find. Dr. Clamann pointed out changes in our space knowledge in 20 years as seen by this poster.

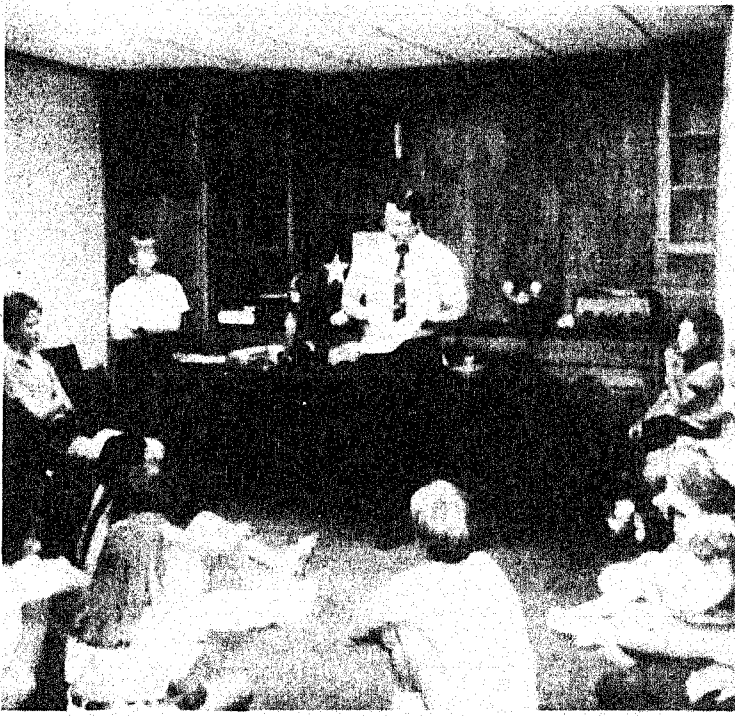

Mrs. Earlene Scott and Mrs. Carmen Donham assisted Mrs. Letha Martin at the Library Check-out desk.

Special thanks to these ladies. We cannot have a reading program without help from them and you.

Boys and girls, don't forget August 20th. It's a party to celebrate all your reading! Certificates and ribbons will be awarded.

In this photo Dr. Clamann is demonstrating what marshmallows in a vacuum do. This was part of his demonstration on Wednesday, August 6, during the Library Story Hour.

Dr. York Clamann of Abilene gave a talk to the children who attend the Library Story Hour on Wednesday, August 6th. Here he is trying to burn a space shuttle tile, of which only about 5000 people have seen. The tile costs about \$800. Andrew Clamann, Dr. Clamann's son is pictured at left.

Nutrition Program Menu

MONDAY, AUGUST 18
Turkey Roll, Pickled Beets, Carrots and Mixed Fruit

WEDNESDAY, AUGUST 20
Swiss Steak, Green Beans, Potatoes Au-gratin and Peaches

FRIDAY, AUGUST 22
Tuna Casserole, Spinach, Lima Beans, Cake and Ice Cream

About Piranhas

Be somewhat skeptical the next time you hear a story or see a movie with a gory piranha attack. The piranha's ferocious reputation is simply not accurate, according to "International Wildlife" magazine. Piranhas will rarely attack a large living mammal and their usual meal is made up of fruit and seeds.

Finally...Good News For Stacy Reservoir

Snake Problem Is Settled

Owen Ivie, general manager of Colorado River Municipal Water District, was in Coleman yesterday, and he was smiling more than in some time, following the good news that broke in Washington the past Thursday that appears to have resolved the problems over the snake.

Frank Dunkle, director of the Fish and Wildlife Service, made the disclosure that the service will not object to construction of the Stacy dam if officials take measures to preserve the Concho Watersnake. Officials have already been on record as agreeing to such action.

Meeting with Mr. Dunkle were Texas Senators Lloyd Bentsen and Phil Gramm and Texas Congressmen Charles Stenholm, Tom Loeffler and Larry Combest. Mr. Ivie was also present for that session.

Mr. Ivie announced that they will immediately hire a herpetologist to determine what needs to be done to preserve the snake.

Earlier it had been announced that the Fish and Wildlife Service wanted to list the snake as endangered or threatened and also proposed that the permit for Stacy be denied. The compromise in position may have cleared the final barrier for the reservoir.

The Audubon Society has indicated they may intervene in the

request for permit, but apparently no action has been taken to date.

At the hearing in Ballinger recently, conducted by the U. S. Army Corps of Engineers, concerning the environmental impact statement draft, it was stated that the final EIS would be released late in November, and it is suspected that the decision on Stacy may be announced close to the same time.

If the Stacy permit is granted in November or December, Mr. Ivie states that construction will begin by March 1, 1987. Some 30 to 36 months will be required to complete.

Social Security News

Children who reach their 18th birthday are no longer entitled to Social Security checks unless they are unmarried and are disabled or full-time students in an elementary or secondary school, Priscilla Ely, Social Security manager in Brownwood, said recently.

of age or older to receive care in VA facilities regardless of income.

Q—Does a widow whose VA benefits were restored after termination of a remarriage regain her veterans preference for civil service?

A—No. Civil service preference is not restored after the remarriage is terminated. Questions about this may be addressed to the Office of Personnel Management which is responsible for preference certification.

A child can continue to get monthly payments if he or she has a physical or mental condition that prevents him or her from doing substantial gainful work and that is expected to last at least one year, Ely said.

If a child's monthly payments are discontinued at 18, they can start again if he or she becomes disabled before reaching 22, or becomes a full-time elementary or secondary school student before reaching 19.

Under the law, a person is considered to reach a certain age on the day before his or her date of birth.

More information about Social Security benefits for children can be obtained at the Brownwood Social Security office located at 300 N. Main Bldg. The telephone number is 646-7533.

VA News

(EDITOR'S NOTE: Following are representative questions answered daily by VA counselors. Full information is available at any VA office.)

Q—I filed a claim for compensation about three months ago and have had my exam. I have not heard anything from the VA. How can I find out the status of my claim?

A—Initial claims often take longer than 3 months to process. You should wait a little longer before checking on your claim. If you are concerned, however, you may call the local VA regional office to check the status of the claim.

Q—Do the VA's eligibility assessment procedures apply to veterans age 65 and older?

A—The means test applied to all non-service-connected veterans regardless of age. Public Law 99-525 repealed a provision in The Veterans Overseas Health Care Act of 1979 that had allowed veterans 65 years

Linda (Key) Miller Does Window Painting

BY VICKI BROWN

(EDITOR'S NOTE: The following was taken from the Snyder Daily News dated Sunday, August 3).

Linda Miller of Snyder does windows — paints them that is.

Shoppers around the square may have noticed that the large windows marking the front entrance to the Family Fitness Center sport a different merry message each month. From those windows, Linda's handiwork has been calling county residents to "get in shape" since the first of the year.

Locals may be more familiar with Linda's bright figures at Christmas when her work adorns windows in several area businesses.

"Up until this year, it (window painting) was just a Christmas project," she explained. This December will mark her fifth year to paint storefronts.

"I had heard about the idea when I was a sophomore (in high school) in Taos, N.M. One of our service projects in art class was to paint windows at Christmas. We painted inside and the humidity (in the buildings) washed off our art work," she remembered.

Seven years ago, Linda migrated to Snyder from Santa Anna, her parents' home, to study art at Western Texas College. She met her husband Gary, a native, and "I just stayed," she laughed.

Seven years ago, Linda migrated to Snyder from Santa Anna, where her parents, Mr. and Mrs. David Key, live. Linda was a 1979 graduate of Santa Anna High School. Linda studied art at Western Texas College and met her husband, Gary, a native of Snyder and "I just stayed," she laughed.

The first Christmas after they were married, in 1981, Gary encouraged Linda to try her Christmas window painting here. "We talked about it just before the holidays, but found out that it required a peddler's license six weeks in advance," she explained.

Although she couldn't implement her idea that year, she began planning for the next. And in 1982, she canvassed the business community for its response. "I was really surprised that people were so excited about it. More were receptive than I thought they would be," she said.

She attributed her early success to the fact that window painting had been done in Snyder before. "Gary had told me that a man used to come through and do it so it wasn't a totally foreign idea," she explained.

Linda noted that Family Fitness was a first time customer last Christmas. "Teresa (Lain) was reluctant at first because she felt she needed something there all the time. So I just said, 'Well, why don't I just come every month and change it.'"

Rarely at a loss for an idea, she prefers to secure her customers' permission for the piece. "At Family Fitness, I try to get her approval first, but sometimes she isn't there so I just surprise her."

Even during the Christmas rush, she sometimes "just surprises" a client. "Some people already know what they want, some ask for suggestions and some say, 'Surprise me,'" she laughed.

"Although I will paint whatever the customer wants, I don't really enjoy doing Santa Claus unless the people really want it. I'd rather do something that gets Jesus' message across. God gave me the talent and I want to glorify Him as much as I can."

Linda explained that little preparation is required before beginning a project. At Christmas, the client usually cleans the glass before she begins. With Family Fitness, however, she spends one afternoon removing the old paint, then adds the new design the following day.

She creates her art with water-

based tempera paint. "It's the same kind little kids use for fingerpainting and cheerleaders use for their posters. It works well unless it rains. A blowing rain will spot the work," she said.

She noted that after the Taos experience, she generally paints on the window's exterior. If a customer prefers, she will create the design on the inside. "I ask them first if the glass sweats. If water forms and runs down the glass all the time, it can't be painted on the inside."

Until last year, she applied the tempera with standard brushes. "But I discovered last Christmas that sponge brushes are just made for painting on windows."

She added she still uses a "regular, real cheap three-inch paint brush — to give the snow its real frazzled look."

She generally paints in a freehand style, including lettering. "If (the designs) were going to be permanent, I would measure them. But people are really just looking for a lot of happy color."

Linda photographed her handiwork that first year. "I'm almost embarrassed to look at them now. Every year I've learned something new about lettering and different aspects of painting."

An art major while in college, she plans the design to be able to complete it at one time. "I pretty well know which paint needs to dry first. So I can plan my painting in my head. I can finish a medium-sized window in half an hour to an hour. It wows the people and I guess I'm a ham. I enjoy an audience."

For the past three Christmas seasons, the glass front at Brown and Gray Motors has been the largest assignment Linda has tackled — a project that requires an entire afternoon. "They've got a lot of glass and I usually try to do a continuous scene."

Linda has completed other

special assignments for other business concerns the past few years, including The Waterbed Shop, Tommy Fletcher's 66 and Snyder Laundry.

She likes the freedom the extra projects give her. "It's nice to have them spread out. At Christmas, I paint from daylight to dark for two weeks in early December."

As her children grow, she hopes to be able to increase business enough to enjoy "a pretty good part-time job by the time the kids are in school. I don't really want a full-time job." Her children, four-year-old Alesha

and two-year-old Jeremy, accompany her except during the Christmas rush.

Somewhat apprehensive about this year's holiday season, Linda explained that she leaves the children with a friend or with her mother-in-law. "This may be an interesting Christmas. I don't really know what I'll do with the baby (due mid-September). The others were born in spring so they were a little older when I left them at Christmas. But I plan to paint this year, too," she emphasized.

Besides window painting, Linda enjoys working with oils too.

"I guess my favorite thing is crafty things like plaques with a Christian message. I've dabbled in ceramics, jewelry and other things too. My husband likes pen and ink," she said.

And she plans to continue doing windows — particularly at Christmas.

Water Pollution?

Unless pollution is curbed, 25 percent of the world's usable water will be unsafe by the year 2000, says "International Wildlife" magazine.

Fannies Funnies

BY FANNIE GILBERT

A COWS LAMENT

The howling winds of winter came, The scattered grass was gettin' thin. The farmer saw, with troubled eyes, The bones was pushin' through my skin.

He called the neighbors near and far,

To find out what could be ailin' me. The things they brought to cure me, Makes all my courage fail me

They thought that I had hollow horn, And sawed them off as you can see. They thought that perhaps I had lost my cud

Which so greatly did disturb me. As I grew frail they split my tail, They thought I had the hollow tail

These sad, well-meaning gents. And at every turn I'd feel the burn Of all kinds of firey linaments.

They put on salves of every sort, And many ointments, strong and smelly.

They just can't see that what's killin' me Is plain old hollow belly.

Wedding—a funeral where you smell your own flowers

Conservative—a man who is too cowardly to fight and too fat to run.

About Locusts

A single locust can eat its weight everyday. And, in one day a swarm, which typically contains about 2.5 billion locusts, can consume enough food for 1.5 million people, says "International Wildlife" magazine.

Hold The Line On Air Conditioning Expenses

With the temperature—and utility bills—soaring, now is the time to make sure you're getting the most from your air conditioner at the least cost, says a Texas A&M University Agricultural Extension Service housing specialist.

"Good maintenance and operating practices can reduce cooling bills," says Dr. Susan Quiring.

Probably the easiest energy-saving measure is to check the air conditioning filters monthly and to replace disposable filters or wash permanent filters regularly, she says.

Then consider how you run the air conditioning system. Quiring says that homeowners often set the fan selector on manual rather than automatic. This leaves the blower fan running constantly and makes them feel more comfortable.

"From an energy standpoint, however, it's much better to set the blower fan on automatic because you get better moisture control," the specialist maintains.

part of the air conditioner's job is to remove moisture, she explains. When the blower fan is left on constantly, it re-evaporates water collected on the condenser coils and puts it back into the air. This means the air conditioner has to work harder to remove that recirculating moisture.

"Using box fans, circulating fans or ceiling fans to move the air will achieve the same effects as constantly running the blower fan, and

at less cost," says Quiring.

According to the specialist, some minor insulation jobs can also pay off in reduced energy costs.

She notes that many Texas homes have an attic access door which is uninsulated, inside the house. Fastening a batt of insulation to the inside of the attic door and putting weatherstripping around it will cut down on the loss of cool air into the unheated attic space.

A do-it-yourselfer can easily wrap insulation strips around attic ductwork and tape it with duct tape to reduce cool air loss, Quiring says. But attempt this job only if you feel comfortable working in an attic and take certain safety precautions, such as wearing a mask to keep from inhaling insulation.

"If your ductwork is already insulated, check the duct tape to see that it's still secure, since it will often pull away and create gaps after two or three years," the specialist says.

Quiring adds that as long as you're in the attic, take the time to vacuum the air conditioner unit if it is located there. The inside of lower ductwork can also be vacuumed from inside the house by removing the grates. Reducing accumulated dust will help the machinery run more efficiently.

"The best time to have your air conditioning equipment checked and in peak operating condition is before the cooling season," she observes. "But if you have any reason to think your equipment is not performing as it should, the expense of having it checked and repaired by a qualified service person may be offset by lower utility bills."

Cream Puffs In Royal History?

Who would have thought that something as innocent as a profiterole could have a hand in royal history?

This rather innocuous confection, a first cousin to the cream puff, was on the scene when Britain's Prince Andrew first got ideas about Sarah "Fergie" Ferguson. Andrew rather boisterously tried to stuff one of the delicate cream-filled cakes into Sarah's mouth and in retaliation, she threw it back.

The rest, as they say, is history.

For those marriage-minded souls who may need a little inspiration here is a basic recipe for cream puff pastry and the traditional filling of Creme Chantilly to kindle the flame of romance. If you're hot an Anglophile, good old-fashioned American ice cream or peach cream filling can be substituted for the Creme Chantilly.

CREAM PUFFS

Yield: 12

1/4 cup (1/2 stick) Butter

1/2 cup water

1/2 cup all-purpose flour

1/4 teaspoon salt

2 eggs, at room temperature

Preheat oven to 425 F. For cream puffs, bring butter and water to boiling in a medium-sized saucepan. Add flour and salt all at once. Beat vigorously over low heat until mixture leaves sides of pan, about 1 to 2 minutes. Remove from heat. Place mixture in small mixing bowl. Add eggs, one at a time, beating until smooth and glossy after each addition. Drop by rounded teaspoonfuls 2-inches apart on lightly buttered baking sheet. Bake 20 to 25 minutes. Remove from oven; loosen from

baking sheet. Carefully cut off tops and scoop out moist dough. Return puffs to oven to crisp for 5 minutes. Cool completely on wire rack.

PEACH CREAM FILLING

Yield: 2 1/2 cups

2 cups peeled chopped fresh peaches (or use same quantity of frozen, unsweetened sliced peaches which have been thawed and chopped)

1 pkg. (3 1/2 oz.) instant French Vanilla pudding and pie filling

1 cup whipping cream

1/2 cup milk

Place peaches in blender, container and cover. Puree until smooth; set aside. Place pudding mix, whipping cream and milk in small mixing bowl. Beat on medium speed until thick and fluffy, about 3 minutes. Beat in peach puree. When ready to serve, spoon filling into cream puffs.

CREAM CHANTILLY

Yield: 3 cups

1 cup whipping cream

1 to 3 tbsps. sifted confectioner's sugar

1/2 tsp. vanilla

Whip cream until stiff and fold in sugar and vanilla. Fill cream puff shells with plain creme or add one or any number of the following:

1/2 cup toasted slivered almonds

2-3 cups brown sugar

1 tsp. instant coffee

1/4 cup crushed toffee

1/4 cup fresh fruit

You can cover with a rich chocolate or strawberry sauce, if desired.

You can bank anytime when you bank by mail.

All types of Savings Accounts.

NURSING HOME

The Melody Makers did a beautiful song service for the residents Tuesday afternoon. We appreciate Jim Boyles, Doris and Les Aderholt, Wanda Wallace, Virginia Wood, Del Funderburg, and Neal Smith for making this program possible each week.

Ministers doing devotionals for the residents were Bro. Mike Wiegand, Bro. Rudy Juarez, Bro. Dan Moffett, and Bro. John Stanislaw. We appreciate each one of you.

The residents enjoyed the popcorn Herman and Edan Estes popped for them Friday afternoon.

The flowers are just beautiful the Santa Anna Florist gave the nursing home. Everyone is enjoying them so much. Thank you so much for making the residents so happy.

The Pentecostal Church conducted the Sunday afternoon service. Bro. P. A. Lindley preached a very inspiring message. Helping with the singing were Mrs. Lindley, Sandra Steffey, Mrs. Don Keeney, Helen Wright and Jay Irving.

The 42 games were enjoyed by a large number of residents Monday afternoon. We appreciate Wilmoth Russell, Bessie McDonald, Ollie Pembroke, Lucille Wylie, and Herman Estes helping with this program.

We appreciate the nice clothes LaNell Bailey brought to the nursing home.

Jim Daniell is in the Brownwood Regional Hospital. Get well soon Jim. We miss you.

Clara Brown visitors were Lucille Morgan, Gladys Hunter and Angell Hamm.

Bessie Thomas visitors were Blanche Harris, Bobbie Guthrie and

Laverne Simmons.

Mildred Strothers visitors were Erin Day and Artie Mae Crump.

Lucy Billings visitors were Mr. and Mrs. Clovis Billings.

Jim Daniell visitors were Anna Puckett, Myrtle Chapman, Gladys Hunter, Dick Longbrake, Chester and Mildred Galloway.

Nell Mulanax and Beulah Hyden visitors were S. D. and Lula Belle Conner, Doris Aderholt, Karen Shearer, and Kenneth Mulanax.

Millard Thomason visitors were Margaret Bowman and Lucille Smith.

Sadie Netherton visitors were Agatha Cash and Linda Coors.

Elry Kelley visitors were Amanda Kelley, Ethel Stubblefield, Johnnie Johnson, Kenneth Mulanax, Myrna Steward, Jamie Ray, Mike, Casey and Lauren Ray.

Ora Caldwell visitors were Jean and Charles Caldwell, Herman and Edna Estes and Johnnie Johnigan.

Myrtle Estes visitors were Gladys Hunter, Lois Haines, Dorothy Hodges, and Herman and Edna Estes.

Rena Conger visitors were Agatha Cash and Johnnie Johnigan.

Norval Wylie visitors were Dick Longbrake, Myrtle Chapman, Glynn Copeland, Pete, Lin and Danielle Wylie and Lucille Wylie.

Otis Hale visitors were Danielle Wylie and Ted Boatright.

Lillie Knotts visitors were Ila and Jack Todd.

Jessie Thate visitors were Red and Nell Thate.

Etta Barrington was visited by her daughter-in-law, Marie Barrington. Hubert McCarty visitors were Kate McCarty, Joan Bullard, Mark and Aaron Norris and Rodney McCarty.

Opal Maples visitors were Jennie Guerrero, Shayron Thompson, Carl, Cincy, C. J., Amber and Cynthia Squyres, Streek Turner, Del Funderburg, Bettie Akin, Saterine Akin, Rachel Akin, Billie Simons, Disa Chrane, Dusten Fulten and Jennifer Fulton.

Dois Wagon visitors were Tommy and Jewell Dennis, Peggy McLeod, and Elmer and Roxie Blank.

May Henderson visitors were JoAnn, Amy Sauveur, E. H. Weatherby, and Malvin Sharp.

Johnnie Thompson visitors were James Thompson, J. T. Thompson, Nancy McKinney, Glenn Mitchell, Tom and Dela Thompson.

Nyla Simmons visitors were Anna Puckett, Dale Wisener and Del Funderburg.

May Tyson visitors were Dink Taylor and Nancy McKinney.

Marie Hill visitors were Jerry and Pat Everett, Glenda Keeney, Ruby Parker and Blanche Harris.

Myrtle Bruton visitors were Raleigh and Sandra Bruton.

Earl Chapman visitors were Myrtle Chapman, Lucille Smith, Pauline Eubank, Gladys Hunter, Dick Longbrake, and Blance Harris.

Mary Phillips visitors were C. W. and Angell Hamm, Jim Boyles, Neal Smith, Del Funderburg, Wanda Wallace, Virginia Wood, Doris and Les Aderholt.

Ivy Sparkman visitors were Mary Jo and Pete O'Brine and Carol Weaver.

Dominga Diaz visitors were Ofelia Vela, Christine Vara, Elisa Madrigal and girls.

Ovie Jenkins visitors were Claris and Clovis Billings.

James Dixon visitors were Red Thate, H. H. Beard, and Mr. and Mrs. E. C. Yates.

Christine Sanders visitors were Bessie McDonald, Ethel Stubblefield, Berniece and Horace Snedegar, Lucille Sanders, Lynna and Maudie McClung, and Tricia and Chris Hawkins.

Frances Tucker visitors were Anna Puckett and Archie Tucker.

Linda Childress visitors were Quannah Gordon, Louise Gordon and Sarah Bomar.

Mildred Absher visitors were Gary, Teresa, Dennis and Toby Absher.

Dona Estes visitors were Cindy and James Estes, Betty Day, Bruce Estes, and Herman and Edna Estes.

Pearl Etheridge visitors were Ruby Howard, Hal Howard, Wilmoth Russell, and Lora Russell.

Nola Hopper visitors were Carol Weaver and Georgia Hughes.

THE STATES PATCHWORK QUILT PARADE

A QUILT FOR OKLAHOMA

Streak o' Lightning Here is something different again, really an old, old pattern schemed to use odd shaped scrap materials, but really modernistic in effect. Made of gay print silks with dark velvet or broadcloth for an afghan, it might

grace a studio couch in any pent house. The entire quilt top is simply continuing rows of jagged color, but these may shade from light to dark or follow in a rainbow-like sequence from the quilt center to its outer edges.

Some makers prefer to piece it in

square blocks like A, while others maintain that if the base of your triangles are always true with the weave of your cloth, long strips B may be readily handled.

Equal amounts of white and color are used, about four yards of each as it cuts no waste.

You're never too old to quit blowing smoke.

No matter how long or how much you've smoked, it's not too late to stop. Because the sooner you put down your last cigarette, the sooner your body will begin to return to its normal, healthy state.

American Heart Association WE'RE FIGHTING FOR YOUR LIFE

WALKER FUNERAL HOME 625-4103 Coleman, Texas Pre-arranged Funerals

Crickets

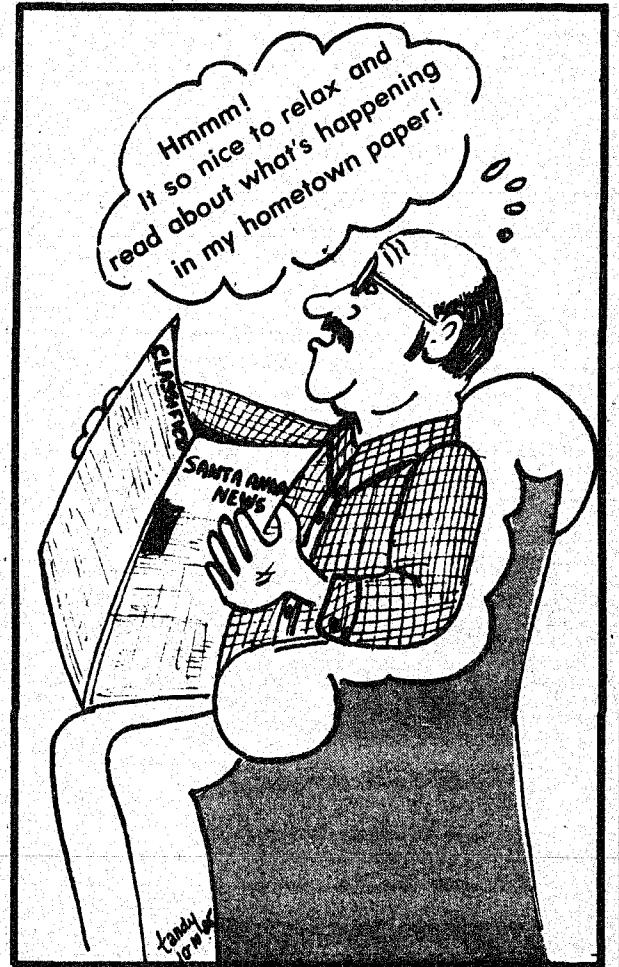

Crickets, long the insomniac's enemy, have been considered fortunetellers, doctors, and athletes the world over. "International Wildlife" magazine reports that Europeans once thought the cricket bite cured warts; the Chinese place bets on cricket fights; and, that Kayapa Indians in Brazil still believe the song of the cricket portends death.

Teaching Parrots To Talk

Don't be too impressed the next time your friend's parrot says "hello" when you walk in. "Ranger Rick" magazine says that a parrot can be taught to speak when someone enters a room, but th bird doesn't understand it has just uttered a greeting. But parrot owners take heart, your bird might still have a future in politics.

WHOLE NEWS
By Mrs. Tom Rutherford

We are glad to report Mrs. Darwin Lovelady of Santa Anna was dismissed from the Brownwood Regional Hospital on Wednesday of the past week following being a patient there over a week. Visitors with Mrs. Lovelady while a patient were Loucille Sorrells, Kathern Horner, Wilma Welch, A. L.
