BAYLOR STUDENT TAKES GREEN AND GOLD AFAR ON ENGLISH TRIP

Camp Taylor, Ky., Sept. 25, 1934

Dear Mr. Gregg:

I have intended writing you for quite a while but have been so unsettled lately and not sure of just what my address would be. I am unable at the present time to send you any money but will soon.

We are getting along fine and are more happily situated now than we have ever been. I am teaching school this year and am most happy in doing so. I am assistant principal of the school here.

You will never know how much I enjoy and appreciate reading the News. I hope soon to be able to repay you in part for the good you have done me. My new address is Box 101, Camp Taylor, Ky.

Will see you next Summer. We will be there all Summer if nothing prevents.

Very truly yours,
LYLE PEARCE

A Former Santa Anna Woman Sees The Netherlands

Mrs. Henry Jongema, who was found in Scotland. When this prison was built, about one hundred years ago, the land was desolate and worthless so they put the worthless people on it, away from everyone. They began to experiment on it, trying to restore it to usefulness. Men of Capthorby did the work. Today they have acres and acres restored. Trees were planted on it to shade it so the original vegetation would not grow any more. This vegetation is like tiny cedars and has a flower like the hellebor of Scotland. These trees are now a forest of small dimension, but very beautiful. It takes continual work to keep the original vegetation down, so these jail men work at it all the time.

An enriched garden yielded potatoes and beans sufficient to feed an army all winter. Currants, strawberries, gooseberries, peas, and lettuce are grown here. Blackberries grow wild in greatest abundance.

We drove to Sneek where Mr. Jongema attended school at the age of fourteen. First we went upstairs where the pupils were making drawings. The teacher recognized Mr. Jongema and about twenty-six years.

We visited the blacksmith department where that teacher couldn't quite place a man whom he hadn't seen in that length of time but when the name was given his memory was recalled.

The boys here were doing different kinds of work, all in steel and iron. We saw the bench where Mr. Jongema once worked. From here we drove through beautiful farm land to Opperhuizen where stand the ruins of the Jongema estate, now a park. There remains a castle and entrance to the castle that once held a draw-bridge over the canal but now is a culvert. The gate is of iron and has in large letters "Jongema estate."

The castle was built in 1300 and sheltered all of the Jongema generations since then, but has been sold to a widow. There is a large lawn at the front while the back of the castle is at the edge of a canal wide enough to accommodate good-sized boats.

The barn, which once held hay, cowstalls, and wagon sheds adjoins the living quarters.

We stopped at the old church and went into the family burial ground. All rest here except one daughter.

We also visited a cemetery at Drent where one of Mr. Jongema's brothers resides. It is a marvelous place of beauty with roads through spruce and pine trees. We sat in the forest and listened to the birds, not another sound. I almost wished to remain there (but on top of the ground yet).

We visited a neighbor who had lived two doors near the Jongemas for thirty-seven years and had always been their friends.

The man and his son-in-law were boot-makers, and showed us a model which he had constructed fifty-two years ago, and which was the only boot model for all Friesland for fifty years.

Two years ago the model was changed and now they have

The W. C. T. U. had an interesting all day meeting at the Methodist church last Wednesday. The morning period opened with an interesting devotional by Mrs. G. A. Morgan. Mrs. G. F. Barlett, the president, presided. Plans for attending the Abilene meeting were discussed and other important business attended to. A bountiful lunch was served in the basement. Georgia Frances Barlett gave an interesting reading. In the afternoon Mrs. W. C. Jones answered questions on departmental work and conducted a class in Government or Christian Citizenship, which was very interesting. She was accompanied by Mrs. Marshall, the Methodist pastor's wife of Brady. —Contributed.

Christian Church

The Aid Society had an interesting meeting Monday afternoon and packed a large box of cookies for the Juliette Orphans Home at Dallas. They are busy working and planning for their Mystery Sale to be given soon.

As the Sunday School lesson for next Sunday is "The Christian and His Bible" there will be an exhibit of Bibles. Everyone is asked to bring a Bible. The older the better. There will probably be several present over one hundred years old. A full attendance of teachers and officers is urged. Visitors always welcome.

Baptist Church

Last Sunday was a good day with us, with increased attendance at Sunday School. Our new classes for young men and young married people started well, and we hope to make these two of the best classes in the entire school.

Rev. Bennett, of Brownwood, preached both hours Sunday to appreciative audiences. The meeting at Brownwood in which the pastor did the preaching, closed Sunday with a great day. Pastor will preach both hours Sunday, with night service beginning at 7:15. B. T. S. at 6:15. HAL C. WINGO, Pastor.

TRICKHAM P. T. A. MEETS

Trickham P. T. A. met Oct. fifth for an enjoyable hour. A short program which afforded much fun, and some instructive talks was given. Everyone enjoyed a short lecture given by Mr. Beard on "Standardization." We learned many new things we must do to standardize our school, but if everyone keeps working there will be no trouble.

The program closed after a short business session to meet again the nineteenth of this month with another program.

ELECTRIC SERVICE IS CHEAP

West Texas Utilities Company has made large investments to provide modern facilities for electric service in Santa Anna, even ahead of present day requirements. It is supplying over double the amount of service per customer as was supplied some few years ago. It has made six domestic rate reductions since 1927 and is now collecting less per customer than it did in the days when it was supplying near one-third the present amount of service. In addition thereto, it is shouldering for you much more of the tax burden than in previous years.

Your part is to further increase your use of the facilities provided. Electric service is one of the most valuable commodities of the household, yet it is sold at the lowest prices, takes only about 1 per cent of the workman's total household expenditures.

The present domestic rate schedule in Santa Anna will provide 515 kilowatt-hours per month for what only 89 kilowatt-hours would have cost you in 1927. A simple way to figure your electric service bill in Santa Anna on a completely electrified home is as follows:

**First 50 Kilowatt-Hours at 7 1-2c
All Over at 3c**

When water heater service is controlled so as to use investment in capacity already provided for the range, such added service costs only 1c per kilowatt-hour which makes such total service cost for the completely electrified home in Santa Anna ever lower than any of the four largest cities in the State of Texas.

**Electric Service Is Cheap-- You Should Use
More Of It!**

The rebels still have a hold on northern Spain and in the mining district the army is waiting for reinforcements before attacking the rebels.

It is reported that the rebels plan to attack again in several parts of the country simultaneously.

The rebels indicated they had a trump card still to be played.

Food Literally Cooks in Its Own Juices When Cooked Electrically ... So You Can Imagine How Nutritious It is and How Good It Tastes. The Modern Electric Way of Cooking Also Means More Ease and Comfort! You can easily see why people are buying electric ranges! They like the good food and they like this easy way of cooking. Any mother wants an electric range when it enables her to give her family the benefit and pleasure of eating good succulent food the entire year, with a big saving of her own precious time and energy. There is also an actual saving of food when it is cooked electrically... because there is so little shrinkage... and the best of it is not poured down the sink with cold water. Yes, indeed, cooking makes a world of difference in food! If you know that your increased use of Electric Ranges is billed on a surprisingly low rate schedule... and adds only a small amount to your total bill! West Texas Utilities Company

Electric Rates Are Economical

Ballinger, Texas, September 21, 1934. Hon. Mayor and City Commissioners, City of Santa Anna, Santa Anna, Texas. Gentlemen:

Due to the constantly increasing public objections to the present residential rate structure, the West Texas Utilities Company now proposes a plan to change this rate structure from the room count schedule to a block rate schedule, which we believe will meet the desires of our customers.

In order to make this change in rate form, it is necessary that we make some rate reductions to prevent raising a large number of three and four room customers. It is proposed to drop the rate 1 1/2c on the first step and 1c on the second step for lighting, making the new rate to any size house 9 1/2c per kilowatt hour for the first twenty-five kilowatt hours, 6c per kilowatt hour for the next twenty five kilowatt hours; and all in excess at 4c per kilowatt hour, unless they have an electric range or electric heating, in which case all service used will be at 9c for the first twenty five kilowatt hours, 6c for the next twenty five kilowatt hours, and 3c per kilowatt hour for all over the first fifty.

This gives a very simple rate structure; and while it does not equalize the cost of serving as correctly as does the room count rate form which has been universally adopted over the United States, it does provide an easy, understandable or incentive rate which this company feels will be more helpful in the development of increased business, or more unrestricted use of its service.

Our main purpose now is to increase our sales of electric service and bring back the revenue which will be lost through this proposed reduction and change, as well as increased Governmental expenses. We have found that over the last eight or ten years, our consumption per residential customer has more than doubled, yet we are not collecting as much in dollars and cents per customer as we did when they used less than one half as much service. While we have improved service, and have supplied a large increased amount of service, Government statistics show that the utility industry collects from the domestic customer only about 1 per cent of his total household budget expenditure, while the investment by utility companies in facilities to render such service is many times that required of other household items, such as food or clothing, for which the customer pays over twenty times as much.

Utility companies, through private capital and private initiative, supply more electric service in the United States than is supplied from any other source in all the rest of the world; and yet it is surprising to learn that this nation pays \$100,000,000 more for the single item of tobacco alone than it does for the total of all household electric service supplied in the United States.

The West Texas Utilities Company believes that in changing from the room count schedule, which it promises to do in all of its 160 communities within the next few months, it can improve its customer relations and sell an increased amount of service. It is with this in mind that we submit for your approval, the attached new residential rate schedule. We propose to make this rate change effective with billing rendered from meter readings covering September consumption.

Your acceptance and approval of this rate will be appreciated. Respectfully submitted, W. O. WALLACE, District Manager.

INVITATION TOURS

Several of the business men and women went to Coleman Junction Monday night and to Liberty Tuesday night to advertise Santa Anna's next Trades Day event for November 6. The box supper Monday night and the Pic Supper Tuesday netted their promoters neat sums of money for use in worthwhile enterprises and everyone reports the time well-spent.

An interesting feature of the program Monday night was the presentation of a large cake to the man proclaimed the ugliest present, and a box of candy to the girl voted the prettiest. The race between the men was very close, with Mr. John Pearce and Mr. Frank Turner running. Mr. Turner won. Miss Ruby Harper received the candy.

The boxes were sold Monday by Mr. J. M. Binion and Mr. M. A. Edwards, and the pies Tuesday by Mr. E. W. Polk.

The group went to Gouldsburg Thursday night.

ASSASSINATIONS IN FRANCE

King Alexander of Yugoslavia and Louis Barthou, French Minister of France were assassinated by a Yugoslavian on Tuesday afternoon as they returned through the streets of Marseilles a few minutes after the King had stopped on the way for a state visit on a peace mission.

The assassin, Petrus Kaliterna, 35, turned to the running motor of the car and shot the King, the Foreign Minister and three men and seven women before he was mortally wounded by police. Coming as the second official assassination in France within two years, the tragedy stirred up great emotion in the nation.

The World War grew out of a similar tragedy twenty years ago, but there were no indications of immediate war Wednesday.
