Cotton Farmers Not Threatened By Indian Cotton

Alarmists who see in moderate American cotton production the loss of export markets would have the Southern farmer return to big production regardless of price. Others think that cotton markets bought at the price of farm poverty are too expensive.

live at home. They cannot drive down to a feed store and buy imported food and feed. India has been planting about 25 million acres per year in cotton. The largest acreage was in 1926 when nearly 23 1-2 acres were planted.

There is nothing in the way of price at present to tempt India to produce more cotton. In terms of Indian money, cotton prices were the lowest in March 1933 of any time in the last 10 years. Prices went down even after the American plow-up.

The long-time plan of the AAA for cotton does not propose to give American cotton markets away to India or any other foreign nation. It does propose to avoid the violent drops in price that have cursed the Southern farmer and business man for 50 years.

We can all remember when baking powder had a bigger sale than face powder.

ADULT UNION ANNOUNCEMENT FOR SEPTEMBER 23

Last Sunday our subject was "Paul's Joy in Christ." This evening our subject is "Paul's Love for Souls." Paul's joy in Christ grew out of his loving service.

Before meeting Christ, Paul had sacrificed the hope of very high imperial honors in order to promote the faith of his fathers; after that meeting, so overwhelming had become his faith in Christ and his love for his own lost people that he must say, "I could even wish myself accursed and cut off from Christ for the sake of... my kindred."

And so overmastering had become his love for the lost Gentile world, which once he viewed with haughty scorn, he now not only gladly submitted, for their sake, to the shame and disgrace that loss of fame and fortune brought; he had also suffered years of brutal imprisonment; he had been scourged eight times, shipwrecked thrice, stoned once; he had lived in constant danger of death from many causes, where ever he went; and in addition to all else, through hardships of toil, through heat and cold, in hunger, thirst and shabby clothing, he carried the unspeakable care of all the churches.

If one Christian in a hundred could now parallel parts of Paul's record in leading men to Christ, the coming Christmas tide would be made immeasurably the happiest period in human history. Even if one Christian in a hundred could keep up a seven year record which I once witnessed, all the world could be enrolled in church and Sunday school in four years; and if they could keep up that seventh year record, the whole world would be enrolled in two years.

Special Scripture lessons: Acts 22: 12-15; Romans 1: 1, 14-16; 9: 1-3; 10: 1; Acts 20: 24, 26, 27; 26: 16-18; I Corinthians 11: 23-28. Daily Bible Readings are the remaining chapters of I Corinthians, beginning with the tenth chapter.

By Coleman County Adult Union Leader I. C. ATCHLEY

DO NOT ALLOW WHEAT AND OAT SMUT TO RUIN PROFITS

By E. A. Miller, Extension Agronomist

COLLEGE STATION — Stinking smut of wheat and loose smut of oats mean reduced yields and reduced prices. This loss may be prevented by sowing only treated seed. The expenditure of a few cents per acre in seed treatment is good crop insurance often preventing the loss of several dollars per acre.

It is not even safe to depend upon seed from fields that are free from smut, without treating, because clean seed often become infected with smut spores in public threshing machines, wagons or grain drills. Therefore, seed from fields that were entirely free from smut this year, may develop smut next year unless the seed are treated.

Stinking smut of wheat is the most serious disease of wheat. It changes the grain into masses of spores called "smut balls" which have an offensive odor, but it is not readily observed in the fields. Indeed many farmers fail to notice it until threshing time. It is carried over to next year's crop by seed covered with spores from the smut balls broken during threshing.

Stinking smut of wheat is easily controlled by running the seed through a fanning mill to remove the smut balls and then treating it with copper carbonate dust. Until recently the formaldehyde treatment was used, but now copper carbonate has taken its place as it has several advantages—it is cheaper; it is a dry treatment and easily applied; it does not injure the germination; the seed can be treated and stored whenever convenient; and the treatment helps to protect stored seed against weevils, rats and mice.

In using copper carbonate two ounces of 50 percent grade or three to four ounces of 20 percent grade, is required per bushel. The high grade material is more satisfactory and is not so apt to clog up the grain drills. The seed should be placed in some tight container such as an oil drum, barrel or box which has a tight fitting lid and is arranged so that it can be revolved on an axis. There are also machines on the market for this purpose. In some counties this work is being done for farmers at grain elevators and in others by custom-treating by someone equipped with a good machine going from farm to farm.

Every seed must receive a coating of the powder. This can be done by thoroughly revolving the container on its axis after the powder has been sprinkled over the seed. The container should be filled only about half to allow the seed to

fall while revolving the container, thereby getting thoroughly coated. Copper carbonate is not effective for the control of loose smut of wheat and smut of oats and barley. It is recommended only for stinking smut of wheat and kernel smut of sorghum. As it is poisonous only wheat used for planting should be treated. It is best to wear a mask or moist handkerchief over the nose and mouth while treating the grain as the dust may cause irritation and nausea.

A simple and effective method of treating oat seed for smut is to spray a fine mist of one pint of formaldehyde and one pint of water over 30 bushels of oats while they are being shoveled from one pile to another. They should be kept covered from 6 to 8 hours or over night to allow the fumes to kill the spores. This is what is known as the "dry method" since the seed do not require drying before being planted. The "wet" method consists of sprinkling or spraying a solution of one pint of formaldehyde in 30 gallons of water over thirty bushels of oats and keeping them covered for several hours. This method requires spreading the oats out to dry.

THE POOREST GAMBLE

Would you gamble \$17,000,000 against one dollar? You wouldn't, of course, no matter how good you thought your chance of winning. At those odds, no wager could possibly be worth the risk you would take.

It is very possible, however, that you take an even poorer bet than that every day—that you accept, consciously or unconsciously, life's poorest gamble. If you are 35 years old, you will, on the average, live for 17,000,000 more minutes. To save one little minute, thousands of automobile drivers risk losing the entire 17,000,000 minutes that are coming to them. They take that risk whenever they drive excessively fast, when ever they cut in and out of traffic, whenever they pass other cars on hills and curves, whenever they are guilty of one of the many acts of carelessness that may cause an accident.

Each year in this country about 33,000 people make the 17,000,000-to-one wager with death—and lose. Hundreds of thousands of others are injured. Millions sustain needless property damage, estimated to reach a total of over a billion dollars.

Think of the odds next time you are tempted to take a chance while driving. Remember that the automobile you are operating is one of the most potentially dangerous of all weapons, both to others and yourself. Then ask yourself if that minute you might save is worth the gamble.

WANT-ADS

FOR SALE: Two door Model A Ford, Lige Lancaster, Santa Anna.

LOST: Will the person who found a bride hanging on a fence post between Home creek and Plainview school house return to me. Also one bride lost 2 or 3 weeks ago on road between Mrs. C. A. Bivins house and Plainview road. Please leave at News office or return to Mrs. Maurice Cammack, Route 1

SHERIFF'S SALE

STATE OF TEXAS County of COLEMAN By virtue of an order of sale issued out of the Honorable District Court of Bell County on the 27th day of August, 1934, by the Clerk thereof, in the case of H. C. GLENN, AS RECEIVER FOR TEMPLE TRUST COMPANY, a private corporation, versus G. C. Moore, Mary Jane Moore, and Realty Trust Company, No. 20-848, and to me, as Sheriff, directed and delivered, I will proceed to sell, within the hours prescribed by law for Sheriff's Sales, on the FIRST TUESDAY IN OCTOBER, A. D. 1934, it being the 2nd day of said month, before the Court House door of said Coleman County, in the City of Coleman, all of the following described property, to-wit:

A part of Block Thirty-seven (37) of the original town of Coleman, Coleman County, Texas, together with all improvements thereon situated, and being more particularly described by metes and bounds as follows: BEGINNING in the East line of said Block 37 at a point 62 1/2 feet north of the SE corner of said block; THENCE W 120 feet to corner of alley; THENCE N 62 1/2 feet parallel with the E line of said Block to a point for corner; THENCE E 120 feet to a point in the E line of said Block 37 equally distant from its NE and SE corner; THENCE South along the E line of said Block 37, 62 1/2 feet to the place of BEGINNING. It is ordered and decreed by said judgment that said property be sold as under execution in satisfaction of said judgment and that the proceeds of such sale be applied first to the payment and satisfaction of said sum of \$2,112.22 so due H. C. GLENN, AS RECEIVER FOR TEMPLE TRUST COMPANY, a private corporation, together with all interest and costs of suit; and second to the payment and satisfaction of said sum of \$539.63 so due REALTY TRUST COMPANY, a private corporation, and cost of suit.

Levied on the property of G. C. Moore to satisfy a judgment amounting to \$2,112.22 in favor of H. C. GLENN, AS RECEIVER FOR TEMPLE TRUST COMPANY, a private corporation, and cost of suit.

Given under my hand, this 31st day of August, 1934. FRANK MILLS, Sheriff. By H. T. O'BAE, Deputy.

NOTICE OF WATER SYSTEM REVENUE BOND ELECTION

The State of Texas County of Coleman City of Santa Anna TO THE RESIDENT, QUALIFIED, PROPERTY TAXPAYING VOTERS OF THE CITY OF SANTA ANNA, TEXAS: TAKE NOTICE, that an election will be held in the City of Santa Anna, Texas, on the 25th day of September, 1934, on the proposition and at the place more particularly set forth in the election order adopted by the City Commission on the 30th day of July, 1934, when

is as follows: "RESOLUTION AND ORDER BY THE CITY COMMISSION OF THE CITY OF SANTA ANNA, TEXAS, calling an election on the question of the issuance of Twenty Five Thousand (\$25,000.00) Dollars REVENUE BONDS for the purpose of making certain repairs, extensions and improvements to the WATER SYSTEM of said City, and the pledging of the Revenues of the Water System to the payment thereof. WHEREAS, there is necessity for making certain repairs, extensions and improvements to the Water System of the City of Santa Anna, Texas; and, WHEREAS, it is considered to be to the best interest of the City that such repairs, extensions and improvements be financed by the issuance of Revenue Bonds, payable solely from and secured by an exclusive first lien on and pledge of the revenues of the water system of said City, after deduction of reasonable operation and maintenance expenses, all in accordance with the provisions of Articles 1111-1118 both inclusive, of the 1825 Revised Civil Statutes of Texas, as amended, and in no wise supported by an ad valorem or other tax on property in said City; and, WHEREAS, the City Commission deems it necessary and proper that the question of the issuance of such revenue bonds be substituted to the qualified electors of said City.

THEREFORE, BE IT RESOLVED AND ORDERED BY THE CITY COMMISSION OF THE CITY OF SANTA ANNA, TEXAS: 1. That an election be held on the 25 day of September, 1934, at which election the following proposition shall be submitted: "Shall the City Commission of the City of Santa Anna, Texas, be authorized to issue twenty five thousand (\$25,000.00) Dollars, revenue Bonds of said City, maturing serially over a period of years not to exceed twenty-five (25) bearing interest at the rate of four (4) per cent) per annum payable semi-annually for the purpose of financing certain repairs, extensions and improvements to the Water System of said City; and to provide for the payment of and interest on said bonds by pledging the net revenues from the operation of said Water System."

2. That said election shall be held at the City Hall within said city, and the following named persons are hereby appointed Managers thereof, to-wit: C. B. Verner, presiding Judge Mrs. W. I. Mitchell, Clerk J. T. Garrett, Clerk

3. That said election shall be held under the provisions of and in accordance with the laws governing the issuance of municipal bonds in cities, as provided in the General Laws of the State of Texas, and only qualified electors, who own taxable property in the city and who have duly rendered the same for taxation shall be qualified to vote.

All voters, who favor the proposition to issue the said bonds shall have written or printed on their ballots the following words: "FOR THE ISSUANCE OF WATER SYSTEM REVENUE BONDS AND THE PLEDGING OF THE REVENUES OF THE WATER SYSTEM TO THE PAYMENT THEREOF."

And those opposed to the proposition to issue the said bonds shall have written or printed on their ballot the words: "AGAINST THE ISSUANCE OF WATER SYSTEM REVENUE BONDS AND THE PLEDGING OF THE REVENUES OF THE WATER SYSTEM TO THE PAYMENT THEREOF."

4. That a copy of this resolution and order, signed by the Mayor, of said city and attested by the City Clerk, shall serve as proper notice of said election.

The Mayor is authorized and directed to cause this notice of the election to be posted at three public places within said city, for at least thirty full days prior to the said election.

5. The Mayor is further authorized and directed to cause this notice of election to be published in some newspaper of general circulation published in said city once each week for four consecutive weeks. The date of the first publication shall be not less than thirty full days prior to the date of said election.

PASSED and APPROVED this 30 day of July, 1934. ATTEST: GRACE MITCHELL, City clerk, City of Santa Anna. W. E. Baxter, Mayor, City of Santa Anna, Texas.

# SCHOOL NEWS

Edited By Students in SAHS

The Staff will be announced later.

### STARTING OVER

Again the students of Santa Anna High School are starting over. They are finding themselves engaged anew in the struggle for a better education, a struggle as old as civilization itself.

To the senior this fight represents competition with others of his class for supremacy in scholarship. However, to the freshman, sophomore, or junior it rarely means more than a combat to gain the honor roll.

In any instance, there is a goal to reach, which means nine months of a steady, earnest effort to conquer the foes of dullness and what is more often the case—laziness! As in any trial for success, energy and determination must be kept up, as in a football game, by an enthusiastic spirit. Students, let's go!

### HOME MAKING CLASSES

The Home Making Classes of Santa Anna High School are now making progress. Members of Home Making I are busily getting their smocks ready to start laboratory work. The Home Making II Class is rejoicing over the fact that it has more members than the other classes. There are twenty-seven girls in Home Making I, thirty-one girls in Home Making II, and sixteen girls in Home Making III. This makes a total of seventy-four girls taking Home Making. Despite the fact that Home Making III has the fewest students there is a great deal of interest and enthusiastic work going on in that class.

All the girls feel that this is going to be the year of most efficient work.

### Five New Subjects Are Taught

This school term a few different but not altogether new studies have been added to the curriculum.

The interesting subjects of ancient history, Latin II, typing, solid geometry, and chemistry are being taught.

Judging from the actions of the many students, this is a very promising year. They are entering heartily and enthusiastically into subjects old and new.

### CHAPEL IS HELD

Mr. Scarborough and Mr. Lock rendered very interesting and helpful talks to the student body which assembled in chapel on Thursday and Friday mornings, September the thirteenth and fourteenth.

Mr. Scarborough spoke of the rules and regulations for the school year and cautioned the students who ride on the buses about their behavior. Mr. Lock announced to the students that the Board of Education had authorized the making of some benches for the benefit of the students who bring their lunches to school.

Mr. Binion also talked on the subject of football, urging the loyal support of the team by the student body.

### Miss Harvey to Take Charge of Dramatic Club

Miss Lulu Jo Harvey, librarian and part-time teacher for the

### JUNIOR NEWS

The Junior class welcomes all new students!

The class has been divided. Miss McCreary and Mr. Dean are the sponsors. Miss McCreary is sponsoring those whose last names begin with A to K. Mr. Dean has the remainder of the class. There are 47 enrolled in the two sections. The class will elect their officers this week.

### From The Editor Of The American Boy

During the coming year, the boys of America will get a half-fare rate to adventure and fun! **THE AMERICAN BOY—YOUTH'S COMPANION**, the nation's leading magazine for boys, formerly \$2.00 a year, now costs \$1.00. A three-year subscription, previously \$3.50, costs only \$2.00.

Griffith Ogden Ellis, editor of **THE AMERICAN BOY**, brings boys the hearty assurance that the new prices will in no way affect the editorial contents of the magazine. It will be as large, as beautifully printed, as full of high-spirited adventure as ever. "THE AMERICAN BOY'S" leadership has been no accident," Mr. Ellis states. "We publish the magazine on the firm belief that boys deserve a magazine as good as any publication for grown-ups. So we use the best illustrators obtainable—well-known artists who work for the biggest magazines. We send our staff writers all over the country digging up the interesting facts of science, interviewing world-famous explorers, talking to coaches and athletes.

"We encourage and assist our writers to go everywhere for material—to Haiti, Africa, the South Seas, China—and bring back adventure for American boys. We hire experts on hobbies and boy problems to advise boys and young men. These steps account for our position as the quality magazine for boys, and we shall continue to take them."

Twelve issues of fun and excitement for \$1.00! Three years for \$2.00! Spread the news among your friends—and send your own subscription direct to **THE AMERICAN BOY**, 7430 Second Blvd., Detroit, Mich. Service on your subscription will start with the issue you specify.

### Highest Price Paid

for OLD GOLD, SILVER PLATINUM, DIAMONDS, etc. today, but, by tomorrow, the government may stop buying at the present high rate. Thus it is to your advantage to sell your old trinkets, dental work, unseizable jewelry, broken bits of gold, silver and whatnot, today. Never was there such a high price paid for old gold—and perhaps there shall be never again a price like this offered. It is to your advantage to sell your old gold, diamonds, silver, dental work containing gold, today—tomorrow the price may drop to its old level.

Ship your old gold, jewelry of every description, bridgework, silver and diamonds today to the **GOLD SMELTING AND REFINERY COMPANY**, 253 South Broadway, Suite 221, Los Angeles, California. (Satisfaction with purchase guaranteed. If not satisfied, return check sent you in ten days from its date and you can have your shipment returned at once.)

### FUTURE FARMERS AT WORK

Santa Anna Future Farmers are at work at the high school getting their courses and Future Farmer Chapter pointed in the right direction this year. Seventy-one boys have enrolled in the agriculture classes and they will all be members of the F. F. A. chapter. With this large number of boys they are going to accomplish things this year in a big way. The officers of the organization have already planned to attend a district meeting of the future farmers to be held in Brownwood Friday night of this week. Next week following the district meeting at Brownwood the chapter will outline their objectives and appoint committees to see that the objectives are carried out.

Some of the old boys did wonderful things last year. Two of them reported cotton yields of one-third bale to the acre. It is mighty dry this year so the boys will not be mentioned until proof is presented but they live through the gap of the mountain.

Those who claim that prisoners are being pampered with radio sets in their cells evidently haven't been listening in lately.

Try smiling.

### To The Citizens Of Santa Anna:

On next Tuesday, September 25th you are called upon to settle by your ballots, a question that should attract your attention as no other question has during the past several years and, in fact, such an opportunity has never been offered to the citizenship of this little city before in its history. The Federal government is offering to loan the city of Santa Anna enough money to improve its water system to the extent it will provide a great deal more adequate protection to your homes and property from the ravages of fire, thereby reducing your key rate of insurance approximately nineteen cents and, according to the statement from the State Fire Insurance Commission, will save the people of Santa Anna in insurance premiums approximately \$3000. per year which is now being paid to the insurance companies. While this amount of money is saved by the key rate reduction alone, there is a still more important and greater factor to be considered.

At this time the people who are trying to protect their property with fire insurance are penalized 15 per cent on the premiums they pay by reason of the heavy fire losses which have occurred during the past three years as a result of inadequate water mains in the city. The proposal for the improvement which you are called upon to vote on next Tuesday provides for laying much larger mains in the business section and for taking up the six inch line from the reservoir to town and relaying it in the residence section where we now have only a four inch main.

These larger mains will increase the volume of water so that in case of a fire that would necessitate the using of more than one line of fire hose, as many more as are needed may be used in an effective manner thereby controlling the fire and assisting greatly in keeping our fire losses at a minimum. This will not only help to remove the present penalty of 15 per cent but will help greatly in our efforts to obtain a 15 per cent good fire-record credit. You can readily see that the saving effected in insurance premiums alone will amount to more than three times the cost of the loan each year. The government is offering more than just to loan us the money. They are offering to give us 30 per cent of it to get us to accept it. A more opportune time could never come to accept such an offer. In the first place, if we do not accept it, it will not be offered again but will be given to some enterprising community who does want it. Such a project as this at this time would greatly relieve the un-employment situation in Santa Anna by providing employment for a number of men who are now out of work and who should not be forced to appeal to the relief organizations for help.

This is not a tax on your property and can in no way increase the tax which you are now paying. We could not obtain this money for this purpose if a tax had to be levied on the property to take care of the payments, but, on the contrary, it is a revenue bond only and must be paid out of the earnings of the water system after all operating expenses have been paid. The Federal government does not require an election to be held in order to make the loan only for the reason that the laws of Texas require it where the amount exceeds \$5000.00.

We, the members of the Volunteer Fire Department of Santa Anna, who are serving you without pay, are appealing to you to vote for this improvement in order that we may have a better chance to protect your property from damage or destruction by fire. A vote for the bond on next Tuesday will mean a vote for the protection of your own home and property as well as that of your neighbor. Can you afford to turn it down? When fire boys are willing to give their service and risk their lives to protect your property, can you afford to refuse to provide them with the means with which to accomplish the task when it costs you nothing? We don't believe you will refuse. Have we ever failed or refused to respond when you called on us? We believe you are going to respond to this appeal with an overwhelming victory for the bond next Tuesday.

### SANTA ANNA FIRE DEPARTMENT

The fellow with a pleasing address is the one who can deliver it in about five minutes.

**Methodist Church**

Regular services next Sunday conducted by the pastor. Sunday school begins at 10:30, merging into preaching service at 11 o'clock. Evening services as follows:

Epworth Leagues at 6:45 p. m. Preaching at 7:45 p. m.

G. A. MORGAN, Pastor

**Baptist Church**

We will have regular services next Sunday with pastor preaching at both hours.

B. T. S. at 7 p. m. Let us come to this service and really receive a blessing.

Our fall revival will begin Sunday, October 21. We will have a visiting preacher and singer. I would like to urge all to begin now to pray and look forward to a revival the like of which Santa Anna has never seen.

HAL C. WINGO, Pastor

**Christian Church**

The Christian Church recently extended a call to Rev. A. H. Haley of Dublin. He and his wife will arrive this week and he will fill the pulpit next Sunday morning and night. All members urged to be present—and visitors always welcome. The S. S. has kept up splendidly through the summer and it is hoped the coming of Bro. Haley will stimulate all departments.

Rev. Haley, besides being pastor and evangelist, has spent many years as a singing evangelist and is a chalk talk artist second to none. He was for several years connected with the First Christian Church at Abilene.

There is just one man who is actually in position to improve your business. You look him right in the eye every time you shave.—Nebraska Press.
