

Santa Anna News

FRIDAY, JUNE 2, 1933

J. J. GREGG, Editor & Publisher

Entered as second-class matter at the postoffice, Santa Anna, Tex.

It is hard for a man without a college education to keep informed of world affairs these days. We never regretted the lack of a college education so much as in the past year. Daily papers keep us puzzled with their articles of World Economic Conference, Disarmament, Inflation, Mortgage Relief, Farm Bill, Tariffs, Peace Pacts, Foreign Debts, Senate Investigations of this and that, Proration of Oil production, Railroad Commission, R. F. C. business, Japanese Invasions, etc., hoopy and blooey. It is getting so that about all the average hick can understand is the funny papers, and we suppose they were written for people who are not gifted with undue intelligence. Our respect for President Roosevelt climbs every day, as a man who can understand all this stuff must be a genius. —Groom News.

PEOPLE AND THINGS
Just for a Change

Former mayor Ed Baxter has dug up a 1927 model panama hat that was said to be an oversize for his top piece during his administration as town mayor, but fits rather snugly now.

The present mayor, Leman Brown is sporting a new straw, which looks like an Italian product that retails at a Jew store for 60c. The mayor is threatening to call for the resignation of the new City Health officer, after discovering that he, (the doctor) is wearing a wrist-watch. Another very prominent young doctor applied for the appointment, but was refused the place because he was sporting a wrist-watch at the time of making the application, according to current reports.

Anyway, the city's affairs are moving along nicely, and regardless of or in spite of the City Health officer, the general health of the city is fair to good.

A few years ago a bum was promptly kicked off of freight trains, and the kicks of the brakemen were not always gentle. Now you can hardly see a train without empty cars filled with idle men roaming from one place to another in search of work. Train crews do not molest them, and it is apparent the higher officials make no objections. In some things even a railroad company has a heart.

Baptist Church

Last Sunday was only a fair day with us. Sunday School attendance was below our expectations, and the night preaching service was not well attended—perhaps threatening weather interfering some.

We will have all regular services next Sunday. Subject for the morning hour will be "Confessing Christ." The pastor assures you something new, yet strictly scriptural, will be presented under this subject. Do you really know what the scriptural teaching is on this subject? May one come forward on a profession of faith and yet fail to confess Christ?

The general public is invited, but a special invitation is given to the heart-hungry.

HAL C. WINGO, Pastor

Methodist Church

Holy Communion will be observed Sunday morning. The pastor will speak on the subject, "A Communion Meditation."

At the evening hour, 8 o'clock, the young people's division of the church school will present a pageant, "The Great Commission."

Epworth Leagues at 7 p. m.

FOUR ACT COMEDY PRESENTED AT BUFFALO GYM

(Too late for last week)

The play, "An Arizona Cowboy" at the Buffalo Gym Saturday night was attended by an unusually large crowd, who appreciated the play from beginning to end. Those who missed the play really missed a treat. All the characters were good and knew their parts almost to perfection, though a few changes had to be made at the last minute on account of illness.

The characters were Farley Gault, the Cow-Boy Sheriff, played by Odie Griffith; Marguerite Moore, Mrs. Odie Griffith; Hezekiah Bugg—a glorious liar, Alfred Brown; Mrs. Bugg—from old Indianny, Mrs. Gorman Brinson; Yowkee—a heat-ben Chinese, Gorman Brinson; Youngem—the poorhouse crab,

Henry Ford
Dearborn, Mich.

May 22, 1933

I suppose that I may claim to be the first Ford Dealer. I not only made cars, but sold them and frequently delivered them myself.

The "drive away" is not new; often I have driven cars from Detroit to towns in Ohio or Indiana or Michigan to make delivery.

There were no good roads in those days, and the people where I drove had never seen a motor car before.

My first really enthusiastic customers were Country Doctors. They were the first to realize the value of dependable transportation to a widely scattered practice.

Even today I occasionally hear from some of those first Ford users.

We had to teach local mechanics how to care for the cars. That is how Ford Service began, which is now found everywhere in the world.

We believed from the beginning that a sale does not complete our transaction with our customer—it creates upon us an obligation to see that our customer's car gives him service. Ford Dealers know their duty to the public in this respect.

I can say of Ford Dealers generally that they have been and are men of character and standing in their communities. Most of them have been with us many years, which indicates that we agree on basic business principles. The Company provides that the methods used to sell the Ford car are consistent with the self-respect of the Dealers who handle it.

The present Ford V-8 is the peak of our 30 years experience.

We have never made a better car. Its eight-cylinder engine is powerful and smooth running. The car is admittedly very good looking and has comfortable riding qualities. It is economical in operation because of advanced engine design and low car weight. It is the fastest, roomiest and most powerful car we have ever built.

Farmers are doing double quick time in their crops this week. The fine rains and growing weather have and are causing them to work from early until late. Crop prospects are now very favorable.
