SANTA ANNA, COLEMAN COUNTY, TEXAS, FRIDAY NOVEMBER 14, 1930

NUMBER 48

RED CROSS DRIVE THIS WEEK

Jack Laughlin Post of American Legion Holds Interesting Meeting Saturday

Dewey L. Pieratt, Succeeds Lee Mobley as Post Commander; Drive on for New Members; Christmas Tree Planned

Meeting of Jack Laughlin Post No. 182, American Legion, was held in the Armory Building, on Saturday night. The object of the meeting was for the election of officers for ensuing year, and to initiate a membership drive. A meeting of ex-service men would be incomplete without a "feed" and this meeting was no exception. The menu consisted of chicken sandwiches, tamales and coffee. After the enjoyable feast, a business meeting was held and the following officers were elected for the ensuing year: Post Commander, Dewey L. Pieratt; Vice-Commander, C. F. McCormick; Adjutant and Finance Officer, J. C. Scarborough; Executive Committee, Glenn Williamson, Homer Hill and Ed Sewell.

A drive for members was initiated and at this time twenty-one have been enrolled with others coming in daily. The local post was one of twenty posts in Texas last year to win the Distinguished Service Citation, signed by both national and state commanders and adjutants. This award was made to those posts which secured their enrollment quota by a fixed date. This award will be framed and preserved in the archives of the post.

AGRICULTURAL THOUGHTS

by J. M. Binion, Instructor Vocational Agriculture

Wheat is not usually regarded as a substitute for other grains for livestock, but a small grain a chance to use it as a substitute. crop caused by the drouth, gives those farmers who have wheat. The feeding value of wheat in relation to the feeding values of other grain and the pound weight per bushel must be taken into account when comparing prices of these grains. When the price of corn is \$1.00 per bushel, the value of wheat for feeding poultry and sheep is about \$1.07, and for feeding hogs and beef cattle, \$1.12. Barley is also cheap. It will be noted that the average price of barley in the United States in August was about 44 cents per bushel. With corn at \$1.00 per bushel, the feed value of barley is 80 cents per bushel.

Legume hay from crops such as alfalfa, clover, soybeans, peanuts, etc., is a useful supplement to wheat, but a protein meal or cake made from crops and products such as cottonseed, coconuts, flaxseed, soybeans, or peanuts is also satisfactory. For swine and poultry, fish meal, dried blood, meat scrap, and tanage should be taken into consideration for they are also protein concentrates.

Mrs. Haynie Voss Elected Delegate To P.-T. A. Convention at San Angelo

Mr. Scarborough and Mrs. Odor, Talk on Vital Subjects; Sophomores to present Play

The High School P. T. A. held its monthly meeting on Wednesday, November 12, in the high school auditorium. The meeting had been postponed from Tuesday until Wednesday, because of the holiday.

Before the discussion of "Good Reading" the Sophomore Class, under the direction of Mrs. D. L. Pieratte, gave a very enjoyable fifteen minute program. Superintendent Scarborough, then discussed "Reading That Educates" in a most convincing way. Mr. Scarborough, stressed the effect of reading on character formation.

Mrs. Odor, gave some sugges-

The post is the recipient of a fac simile copy of the song "America." This was contributed by the John Hancock Insurance Company, Boston, Mass. Dr. Sealy in his usual philanthropic manner readily asked for the privilege and honor of having it framed and placed in the archives of the post. Thanks were extended Dr. Sealy for his generosity.

The post is making its major activity the sponsoring of a Community Christmas Tree for the children of this trade territory. Dr. Sealy was appointed chairman of the committee. He named on the committee the following:

C. W. Tierney, W. T. Stewardson, R. A. Milligan, Hal C. Wingo, Louis Lohn, Geo. T. England, and Howard Kingsberry. The post intends to make this a real event in the lives of the children and the chronology of Santa Anna.

Regular monthly meetings of the post will be held on the first Tuesday of each month. The ladies of the Auxiliary will meet in joint meeting. These men and women gave of their best during the war, let us all give of our best in assisting them in any and all of their present undertakings.

The Liberty Home Demonstration Club

The Liberty Home Demonstration Club had its regular monthly meeting last Thursday, Nov. 6, with Mrs. H. O. Morris. Most of the members and several visitors were present.

Miss Brent demonstrated cooking and canning chicken and plum pudding.

After the demonstration new officers were elected: Mrs. Howard O. Norris was re-elected as president; Mrs. Jim Scott, Vice-president; Mrs. C. A. Curry, Secretary; Mrs. J. W. Taylor, reporter; and Mrs. Wm. Sheffield, council member.

On Friday afternoon a number of the members accepted an invitation from the Coleman Self-Culture Club to meet with them in the parlors of the First Christian church. A very interesting program was rendered after which refreshments were served. The afternoon was enjoyed by all.

E. N. Voss and family and Haynie Voss and family were fishing on Home Creek, Tuesday. A very good catch was reported.

Dr. J. S. Shroeder, left last Friday for San Antonio and other South Texas points.

Ed. Baxter and wife took in the football game at Abilene, Tuesday. Mrs. Frankie Adams and Francis Louise, who had been spending the week-end here returned to Abilene, with them.

Radio's Popularity

Ten years ago the radio was new—a starting novelty. Manufacturers of receiving instruments are now among America's largest advertisers. Prices of sets and terms given attract many buyers even among people who can not afford luxuries. The radio has perhaps become the country's cheapest, if not the best form of home education and entertainment.

The announcement that a \$7,000,000 corporation will likely be formed at San Antonio to manufacture radio receivers shows the magnitude of the business in the Southwest.

Thousands of people who can hardly afford the high price charged for a seat at a football game are getting reports of the games in quiet comfort in their homes and in many cases enjoying this more than they would if they attended the games.

Reducing Railway Fares
The Texas-Pacific Railway has secured permission to reduce its day coach fares between Fort Worth and Big Spring to two cents a mile to meet competition of highway transportation. The railroads are paying a big part of the cost of highway building and maintenance and thus assisting in building up competition that may eventually force them out of business.

Nurses' Prices Not to Change

Mrs. Myrtle M. Lovelady of Santa Anna Named President

Members of the Texas Graduate Nurses Association of District 16, meeting in Brady, Monday, November 10th for the annual election of officers, decided against a revision of the price schedule for professional services by a close vote.

Mrs. Myrtle M. Lovelady of Santa Anna was elected president. Other officers named were: Miss Sallie Cribell, Menard, first vice-president; Miss Lovell Thompson, Brownwood, second vice-president; Mrs. I. N. Franklin, corresponding secretary; Miss Peggy Kemp, Ballinger, secretary-treasurer; Miss Lola Warden, Brady, and Miss Selma Loeffler of Brownwood, directors.

The next meeting of the group will be held at the San Angelo Hospital in San Angelo the second Tuesday in January when A. Louise Dietrich, general secretary of the state association will be present.

Rev. Jas. I. Patterson and family left Tuesday for Eastland to attend the Methodist conference. They will also visit his sister at Breckinridge while gone.

Mr. and Mrs. R. B. Renfro of Coleman were among those out of town visitors here Monday.

Mr. and Mrs. Clifford Verner and children spent Armistice Day in Abilene.

Mr. and Mrs. I. O. Shield and family were visitors in Coleman Tuesday.

Mr. and Mrs. W. T. Wheeler, were in Abilene, Tuesday visiting with their son W. V. who is attending school there.

M. E. Moman's Missionary Society Observe Annual Week of Prayer on Wednesday

The following is the program conducted by the W. M. S. of the Methodist Church:

The devotional was conducted by Mrs. C. B. Verner. The theme of the morning service was Jesus, and His disciples prayed. Each prayer hymn and discussion revealed the fact that as God answered the prayers of Jesus and His disciples, so is the sincere desires of His children granted, even now. At this time Mrs. Archie Hunter, sang Dear Lord, Forgive, as a solo.

Jesus our Ideal in Prayer was presented in a round table discussion led by Mrs. H. L. Voss some of the ideas brought out were: Jesus was a man of prayer; therefore a man of power; Jesus attended the house of prayer. He prayed, when he was baptized, He prayed through all His life and in death he prayed. Then left the commission to His disciples to watch and pray.

At 12 o'clock a beautiful lunch was served in the dining room of the church. The husbands and children of the ladies came for lunch. A very pleasant hour was enjoyed by all.

Promptly at 1:30 the program for the afternoon began. Mrs. L. R. Sealey led the devotional at this time, giving as a bible

message Eph. 3:14 to 21. The theme was The Saints Prayed. This discussion by Mrs. H. L. Voss, in the discussion it was brought out that many richly endowed spirits through the history of the church have through communion with God in prayer made new channels for history, wrought mightily in the lives of nations and brought nearer the realization of the kingdom of God.

Mrs. W. H. Thate discussed very thoroughly the value of prayer for us today, closing the discussion with the following: Ask and ye shall receive, seek and ye shall find, to him that knocketh the door of blessings will be opened.

Mrs. Hart gave an interesting description of the school in Cuba "the institution for which the offering from the week of prayer goes." The A Playlet "The Wolf City Mission" was given by Mrs. P. P. Bond, Mrs. Roger Hunter, Mrs. Leman Brown and Mrs. A. S. Hart. This mission is at Tampa, Florida and it will get part of the offering also. The offering was taken at this time and amounted to \$10.00. The Hymn, "Work for the Night is Coming" was sung and Mrs. Watson in her lovely way dismissed the meeting with a prayer.

Street Party Draws Large Crowd

People From all Over County Were in Town Monday

Coleman County people turned out en masse at Santa Anna, Monday evening to participate in one of the largest street parties in the history of the town.

Mayor Baxter and Ed Purdy, led the parade and worked hard at giving everybody a warm welcome and a good time.

Music, singing and talks made up the program. The band is helping out these civic features lately. It certainly carried the party over, Monday evening. Mrs. Patterson and Mrs. McDonald, led the sing-song. Bro. Womack made a witty talk and Mrs. Van Zandt, directed the games.

The Utilities Company is voted a great big card of thanks for stringing the colored lights which "made" the occasion.

Sponsors of the party were well pleased as it was even better attended than was expected. We hope it will not be long before we can have another.

Mrs. E. E. Chambers and children spent Tuesday in Brownwood.

Mr. and Mrs. Roy McFarland and little son are moving this week to Brady, where he will go into business. They will be greatly missed in Santa Anna, where they have lived a number of years.

Rev. and Mrs. Hal Wingo left Monday morning for Amarillo to attend the Baptist State Convention. His mother Mrs. Wingo and her mother Mrs. Hudson, both of Wolfe City are staying with their little daughter Jean while they are away.

C. E. Jordon of Winters, was in Santa Anna on business, Thursday.

Red Cross Still Deserves Name of the Greatest Mother' Given it in World War

To Many Persons in Need, Suffering From Disaster, Disabled From the Effects of War the Red Cross Deserves the Name

The Red Cross roll call scheduled for Santa Anna this week is to care for local relief work as well as to for national chapter work, and those in charge of the drive feel that there will be many calls for help made on the organization before the passing of the winter.

Memberships are issued in different amounts from \$1 up with 50 cents of each membership going to the national chapter. Those paying \$5 for a membership will be paying 50 cents for national work and \$4.50 for local relief, while those paying \$25 will still be paying only 50 cents for the national chapter and \$24.50 for local ...

The Red Cross program for local work is comprehensive, including public health service,

organization of children into the Junior Red Cross, first aid and safety activities. The national organization is active in the relief of disaster, such as fire, flood or drouth, in assisting disabled veterans, and in other phases of work connected with the local activities of each chapter.

If you have not yet joined, phone Mr. Scarborough, local chairman of the roll call drive or leave your name and money at the news office.

The following school girls are assisting in the drive for membership: Freshman: Louise Wilsford, Alberta Banks. Sophomores: Jane Whitlow, Catherine Rollins. Juniors: Francis Jones, Wilma Davis. Seniors: Geneva Atkinson, Mary Harriett Simpson.

Poppies Sell Quickly For Armistice Day

Girl Scouts and the Legion Auxiliary members found a ready sale for the red poppies last Saturday. The \$26.00 which they received will go to purchase Christmas boxes for the disabled veterans in the hospitals. Everyone who bought a poppy hoped that his dime would go toward making some poor fellow happy.

No Wolf at This Door

Marshall—"This family is in no danger of starvation" declared Miss Maggie Peach, home demonstration agent of Harrison county, after a careful inspection of the pantry shelves of Mrs. L. E. West, 4-H pantry demonstrator of Port Caddo community. Sixty-one quarts of beans, 21 quarts of peaches, 38 quarts of sweet pickles, 20 quarts of kraut, 14 quarts of tomatoes, 13 quarts soup mixture, 25 quarts of fruit juice, 45 pints of preserves, 13 pints of English peas, 18 pints of tomato sauce, 8 pints of tomato mince meat, 12 pints of relish, 14 pints of pickles, 65 glasses of jam, 50 pounds of dried navy beans and 35 pounds of dried butter beans were arranged conveniently for use in the pantry which had been remodeled for that purpose.

Construction Increases

According to F. W. Dodge Corporation new building and engineering construction in Texas for September was over three million dollars more than in August, the total being about thirteen million dollars. Approximately six million of this was residences. If figures prove anything these show that Texas is going ahead satisfactorily and that the people are spending money liberally for better homes.

Employment Situation

The San Antonio Chamber of Commerce says that it has secured employment for all laborers who really want to work. There is now a big demand for labor in harvesting the vegetable and fruit crops in South and Southwest Texas and the greatest trouble in getting laborers into the fields. To a large extent the unemployment situation in Texas is a hobbo bugaboo.

Construction Increases

Our merchants made some resolutions a month ago and one of the chief resolves was to try to get through the fall without buying very much stock. Like all reformations and such it worked in just the opposite direction. New stocks are appearing on the shelves like magic this week. We found so many new things that we resolved to get when we made our first million. First of course we looked in the grocery stores for something to help our poor jaded appetites. We found it. Everywhere we went we saw fresh fruit, cake stuffin' and it sure looked good. The novelty stores are beginning to fix up for Santa Claus, already. At one we found some dandy kitchen clocks and the loveliest shaped glass vases. Dry goods stores always have something to interest every member of the family. But we believe the new sweaters and blankets are the best bargains and the prettiest we have ever seen.

"You Can Turn a Farmall on a Dime and Have Nine Cents Left Over!"

farm with

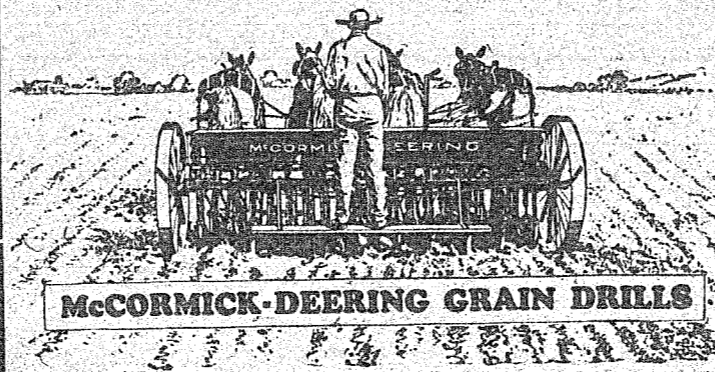

FARMALLS

The Square-Turn Farmall Fits Your Farm

The big point about this tractor is that it fits the average farmer's need to a "T". No matter how small or irregular your fields, no matter what your crops or your heavy work, Farmall, has it on the entire tractor field for many good reasons.

The McCormick-Deering Farmall is the first real ALL-purpose tractor. It handles row-crop planting and cultivating along with everything else. It has liberal power and every advantage for operating belt machines

A Half-Century of Experience Is Back of These Grain Drills

THE man who plants his crop with a worn-out or inadequate seeding machine sows the seeds of anxiety and worry. By adding slow, inaccurate planting to the many hazards, beyond his control he reduces his chances of getting a successful stand.

The farmer who plants with a McCormick-Deering Grain Drill enjoys the security that has linked the name McCormick-Deering with reliability the country over. His chances for a good stand of grain are greatly increased because a crop planted with McCormick-Deering Equipment is a crop planted right.

McCormick-Deering Grain Drills have won a good reputation in all sections of the country and under all soil and weather conditions. Over fifty years of practical drill experience and field observation is built into these fast, dependable machines.

The next time you are in town stop in at our store. We will show you the size and type of tractor or horse drill best suited to your crops and soil conditions.

It takes fast, timely mechanical efficiency and a cutting down of labor and other costs to run a farm profitably nowadays. The Farmall has displaced horses and extra men by many thousands. You never saw such a useful and economical tractor, and you can't see one except the Farmall. Even if you're not buying now, keep yourself posted on the latest in all-purpose power farming. Watch us operate the Farmall and its working tools on one-fifth of an acre—on a patch of ground smaller than the cellar under your house. We will be glad to have you drive it.

Try this on Your McCORMICK-DEERING — or What Have You?

Set aside your morning's milking to cool until you come in from the fields at noon. Insert a thermometer into the can and learn the accurate temperature; then stir the milk and put it through your cream separator.

After you have finished separating, take out a generous sample of the milk you have just skimmed and have the local creamery test it. If your cream separator is a McCormick-Deering the amount of butterfat remaining in the skim milk will be much less than if the milk had been separated by any other cream separator under like conditions.

We are not guessing about this; actual tests all over the country have shown that the McCormick-Deering Ball-Bearing Cream Separator will skim faster, and skim more efficiently. This outstanding ability to skim clean puts real money into the McCormick-Deering owner's pocket.

If you would rather have us conduct a cold milk skimming test for you, ask us to bring a new McCormick-Deering Ball-Bearing Cream Separator to your farm any day that you can have the cold milk ready for us. If you have an old machine, we'll try the test on it too; we are glad of every opportunity to prove to our friends the great superiority of the McCormick-Deering Cream Separator.

We will trade for

Mules, Cattle and Other Saleable Property

at full values on a

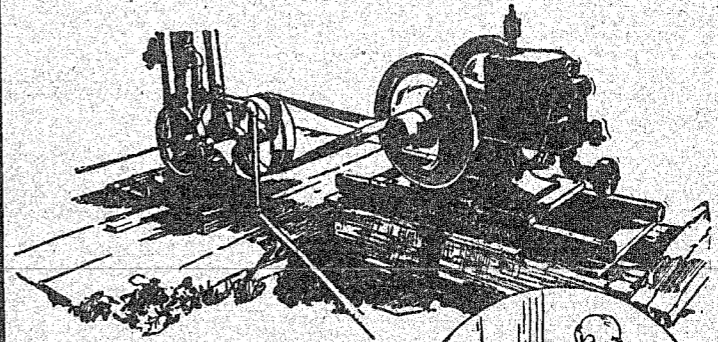

FARMALL and equipment.

Some good Guns and Ammunition to close out at less than cost.

THE FEMININE FORUM

MRS. A. L. ODER, Columnist

The Easy Time of the Israelitish Women

The study of the work of the women through the ages has always been very interesting to me. Sometimes in the dim past and even now, in parts of the world, their lot is little better than a beast of burden.

When on their journey, water became scarce, Moses, by the rap of a rock, with a rod could bring forth a gushing stream.

The human nature of these women as well as men, was evildespite their blessings. But the hope of reaching the land of pomgranates, figs and dates and a place flowing with milk and honey spurred them on their journey.

Ways of Making Pin Money

Most women like to have a little pin money. Farm women usually have more opportunities than those living in town. Some have large incomes from their poultry, butter, cream, fruits and vegetables.

The Cook's Nook

PUT THAT TANGIBLE TANG IN YOUR INDIAN SUMMER Breakfast

Indian Summer's here! The "bright blue weather" of October and November, when the well-known Mr. Frost has touched all the pumpkins that did not go to make grinning Jack o'lanterns.

To some folks, Indian summer means poetry, to others beautiful scenery, to the farmers Harvest, and to all of us who are lucky enough to sit around the family board—bigger and better breakfasts mean—you've guessed it—waffles and pancakes and muffins.

There are all kinds of syrup for the waffles and cakes of our Autumn appetites, but the best and most healthful kind, the kind that melts in your mouth, is made from the food most appropriate to Indian summer—corn, the first food of the Americans.

Now for the waffles and cakes themselves, some clever cook has worked out a "speed method" of mixing which saves you time for plenty of beauty sleep.

Quick Waffles

2 3-4 cups pastry flour or 1 1-2 cups bread and 1-2 cup corn-starch, 4 tsp baking powder 1 tsp salt, 3 eggs, 1-2 cup corn oil, 1 1-2 cups milk.

Griddle Cakes Jiffy

3 1-4 cups pastry flour or 2 1-2 cups bread flour and 1-4 cup of cornstarch 5 1-2 tsp bak. powder, 1 1-2 tsp salt, 1-2 cup sugar, 1 egg, 1-2 cup corn oil, 2 cups milk.

with fruit. Try these on your "dollar dollar" children:

Health Muffins 1 cup flour, 1-2 tsp. salt, 4 tsp. bak. powder, 1 cup bran, 1 egg, 1 cup milk, 2 tblsp. brown sugar, 2 tblsp. corn oil, 1-2 pkg. dates.

When the aroma of those steal up the stairs, let Morpheus look to his laurels. The dry ingredients may be mixed the night before, and only the liquid added in the morning.

Short Ribs

"It is astonishing," says Inez S. Willson, home economist, "how many housewives do not know how delicious and how economical short ribs of beef are."

Short ribs may be cut either from the end of the rib cut or from the rib side of the plate. There is not a great deal of meat on short ribs, but what there is, is juicy, tender, and well flavored.

Oven Meal Boon to Housewife

The oven cooked dinner is a real economy of the housewife's time and energy. The meal should be so planned that all the different dishes are such that they may be cooked at the

same temperature. It helps, too, if the length of time required to cook the different foods is about the same. Of course there is no valid reason why the article which requires the longer time cannot be put in ahead of the others.

Baked Round Steak Have the round steak cut thick. Sear until nicely browned in a heavy frying pan. Sprinkle with salt and pepper and put 3 table-spoons of butter on top.

Thanksgiving Accessories Celery curls are made by cutting celery in two to three-inch lengths and gashing many times almost to the end. Leave in cold water until curled.

Celery out fine and added to cranberry jelly just before it stiffens is very nice. This should be molded and garnished with celery curls when unmolded.

Spiced nuts are made just as salted nuts, except that powdered cloves and cinnamon or mixed spices are sprinkled over when cooking in addition to the salt.

Cranberry ice served in tall glasses with the meat course in place of cranberry jelly gives an attractive color note to the Thanksgiving dinner table.

Whipped cream into which has been stirred finely chopped nut meats may be spread over the top of the pumpkin pie.

Mr. Sam Weaver is unable to be out because of erysipelas of the feet.

Dr. Rea of Minnesota

Will Make a Professional Visit to Coleman, at The Coleman Hotel, on Tuesday Nov. 25th

ONE DAY ONLY

Dr. Rea, well known American Specialist, licensed by the state Specialist in the science of internal medicine as applied in the treatment of disease without surgical operation.

Below are names of a few of his many satisfied patients: Mrs. T. F. Bird, Shamrock, Texas—Stomach and Liver.

QUEEN THEATRE

Holt a Suave Rum King, in Gang Story

Jack Holt, the popular hero of a thousand desperate screen situations, is to be seen and heard here next week when the "Squealer," the latest Columbia all-talking photodrama, comes to the screen of the Queen Theatre. It is promised as a gripping tale of the underworld, with all the thrill of gangdom and smart speakings, topped by the vivid action and excitement of a bootlegger feud.

Holt is presented in a new role for him. Hitherto best known as a strong man of the wide open spaces, he blossoms forth in "The Squealer" as a mastermind of the rum-running fraternity, suave, immaculate and very much at home both in society and behind the scenes of hi-jacquerie.

Obviously a successful real-estate man with a nice office, a beautiful home and a charming wife and young son, he actually is at death grips with rival bootleg leaders. He deals swift justice to a squalor. He walks into his rival's lair alone to forestall the death of his favorite henchman, and he walks out alone, leaving behind him a dead gang leader.

He subsequent flight to avoid arrest tests his love for his wife and child. It also tests his wife's loyalty. The decision she makes to save his life from his enemies, brings the eventual imprisonment of the former leader. He is bitter toward his wife, thinking she is a "squealer." Finally he gets out of prison by staging a thrilling jail break and heads for home bent on revenge. What then happens makes one of the strongest climaxes ever seen on the screen.

Beautiful Dorothy Revier, as the wife is co-starred with Holt. The cast also includes little Davey Lee, Matt Moore, Zasu Pitts, Robert Ellis, Matthew Betz and many others Harry Joe Brown directed the picture from a story by Mark Linder.

This picture has been rated by experts as the best gang-world drama ever filmed with a maximum of tenseness, suspense and clever character portrayals.

New 1931 Chevrolet

Chevrolet's new car for 1931, priced substantially below current levels, goes on display today throughout the nation.

Heralded as "The Greatest American Value," the new car boasts a two-inch increase in wheelbase, larger and roomier bodies by Fisher with mohair or broadcloth as optional trimming, and scores of refinements in appearance and performance despite the new prices which bring the level for the 1931 car to a far lower figure than any Chevrolet, four or six, has ever sold.

Dealers throughout the United States put the new models on exhibition this morning for the first time, nearly two months in advance of the customary date for the showing of the annual new car. This move in advancing the announcement date, it was felt by Chevrolet officials, would render a distinct contribution to the cause of general business revival by insuring extraordinary activity during two normally dull business months for the 200,000 people throughout United States who depend directly upon Chevrolet for their livelihood.

The nineteen domestic production plants of the Chevrolet organization are now in full swing on the new model, according to W. S. Knudson, president, and shipments are going out to dealers to assure immediate delivery of all models.

Fundamentally the new model embodies the same basic features which, since the introduction of the Chevrolet Six, enabled it to achieve a popularity exceeding Chevrolet's former four cylinder model and four times as great as any other six cylinder car. However, scores of improvements and refinements have been made this year, every change designed to increase the smartness, performance, safety or durability of this latest General Motors model.

Among the improvements are fully insulated front compartment, easier stepping, more durable clutch, smoother and quieter transmission, and liberal use of rustless chromium plate on exposed bright parts. Four Lovejoy hydraulic shock absorbers, and fully enclosed, weatherproof four-wheel brakes continue as standard equipment.

In the line of nine body types are three open models, the roadster, phaeton and sport roadster, and six closed models, the coach, sedan, special sedan, the three window coupe, the five window coupe, and the sport coupe.

All sport models come equipped with the new and popular chrome-plated radiator grille. All models have smart new wire wheels, with 4.75 by 19 tires, as standard equipment. Hubs are very large, of the concealed bolt type, with hub caps of gleaming chromium plate set off by a black ring circulating the Chevrolet emblem in the center. Wheel finishes harmonize with variety of body combinations.

Head lamps and tail lamp are full chrome plated in the new car. Chrome plated parking lamps attached to the cowl are standard equipment with all the sport models, and the special sedan has front fenders with wells for the two spare wheels. The models equipped with one extra wheel carry the spare in the rear.

Safety factors stressed in the new car include a frame increased fifty per cent in torsional strength, continuance of the gasoline tank in the rear away from the heat of the engine, and inclusion of a flame arrester in the air cleaner.

The two-inch increase in the wheelbase has been utilized thru out the line to increase the roominess and comfort of the new bodies. Smart new Duco color combinations, the addition of decorative body features and a head-on appearance extensively changed from the 1930 car combine to make the 1931 model decidedly finer in appearance than any of its predecessors.

The radiator has a larger cooling capacity this year, and its improved in both efficiency and appearance. A new treatment of the shell makes it appear much higher and the sides appear to have more curvature. At the bottom of the shell is a black enameled beaded panel surrounding the starting crank hole which enters through the radiator instead of the splash pan as formerly.

A chrome-plate tie-bar arches from fender to fender across the front of the radiator, and holds in position the parabolic chrome-plated head lamps, as well as the new and popular high frequency vibrator horn, which is mounted this year just beneath the bottom of the radiator now drops away vertically in the conventional manner.

Front fenders have raised slightly at the forward end to achieve a lighter and finer appearance, and the sweep of the

SUPPLY AND DEMAND REGULATE THE PRICE

We all know that in the summer when the hens are laying, eggs go down in price. The same applies to labor. As there are lots of eggs in the summer, there are also a great many untrained young men and women, and the wages paid to untrained workers are small, very small.

Tyler Commercial College and School of Business Administration, at Tyler, Texas, has been training young men and women for more than a quarter of a century. It has furnished more bank presidents than any other business school in the entire South. More than 50,000 graduates of T. C. C. are now holding important positions in every State in the Union, Radio Officers who have graduated from the Radio School of T. C. C. sail the seven seas and Tyler graduates will be found in important positions in many foreign countries.

Having thirty-nine courses and combinations of courses to choose from, including Accounting, Telegraphy, Secretarial, Radio, Shorthand and Typewriting, and many others. Tyler Commercial College and School of Business Administration train its students for higher-paid positions of responsibility. Young women who are contemplating entering the business field will be especially interested in the Secretarial and Western Union course, this training fits them for positions where the work is easy and the pay is good.

Many young men are now entering the Radio School and after graduating the majority of them go to sea as Radio Officers although many prefer to stay on land and find positions in the hundreds of radio stations operating on land.

Young men and women interested in entering the business field and who wish to be in the class that is always in demand, the trained class, should write Tyler Commercial College and School of Business Administration, Tyler, Texas for complete information. You may enter at any time; new classes start each day. Fill out and mail this coupon today for catalog.

Men! Ages 40 to 44 What You Should Weigh

At the above ages a man's normal weight at these heights should be—according to Dr. Leonard Williams—

| | |
|----------------|------------|
| 5 Ft. 6 inches | 160 Pounds |
| 5 Ft. 7 " | 164 " |
| 5 Ft. 8 " | 169 " |
| 5 Ft. 9 " | 174 " |
| 5 Ft. 10 " | 179 " |
| 5 Ft. 11 " | 184 " |
| 6 Ft. 1 " | 189 " |
| 6 Ft. 2 " | 194 " |

Weights given include ordinary indoor clothing. Get on the scales and see if you are overweight—and how much.

The modern way to take off fat is known as the Kruschen Method and is well worth a 4 weeks trial.

Cut out pies, cakes, pastry and ice cream for 4 weeks—Go light on potatoes, butter, cheese, cream and sugar—eat moderately of lean meat, chicken, fish, salads, green vegetables and fruit—take one half teaspoon of Kruschen Salts in a glass of hot water every morning before your breakfast—don't miss a morning.

An 85 cent bottle of Kruschen Salts lasts 4 weeks—Get it at Turners Drug Store or any drug store in the world.

Nobody doubted it, but everybody is relieved to know that a good man, who is also a good Democrat, is safely established in the governor's chair. Which casts no reflection upon the ability and rectitude of a certain Colonel Talbot, whose only offense was that he was a Republican.

What Shall My Part be

The Red Cross job is big. In a single year the expenditure, community, national and international, runs to nearly \$10,000,000. Often it is higher. Every day the call upon the Red Cross grows more urgent.

What do the figures show—those mute, cold statistics that tell but half the story of service? They show:

More than 450,000 First Aid certificates have been issued; more than 300,000 individuals instructed in Life Saving.

Assistance extended in a single year to the victims of 75 disasters in 40 states.

50,000 nurses on the roll of the Red Cross; 800 nurses in public health work, 88 in itinerant activities, 1500 teaching home hygiene and care of the sick.

120,000 children and adults taught nutrition each month.

Service of the kind that is beyond the scope of the Government to 30,000 disabled World War veterans and the 245,000 men of the regular army and Navy.

10,000 families being assisted by Civilian Home Service.

7,000,000 members of the Junior Red Cross corresponding with Juniors in foreign lands, thus furthering the cause of international understanding; cheering the sick, brightening school rooms, learning ideals of service for others.

Half a million volunteer workers—exemplifying the very heart and spirit of the Red Cross—making 3,000,000 surgical dressings, 210,000 garments, 190,000 Braille pages for the fingers of the blind in twelve months.

16,200 Chapters and Branches engaged in this service program made possible by the annually tendered support of more than 4,000,000 adult members.

What part have you in this?

It was a good November 4th, particularly good to Democrats. But now let's definitely adjourn politics and face the future.

THE BLACK KITCHEN

Ha! Ha! "Just look a here," what old Tom done, done. Cut down high cost of living.

The Black Kitchen is open now ready for service. Hot meat of all kinds.

Bring me your turkeys, chickens, goats and hams, bring them early in the morning and you can get them by 11:00 o'clock.

Will be open from 5:00 a. m. until 11:30 p. m.—The Black Kitchen, Phone 339. 1tc.

Strange Case of Lubbock Man

Speaks For Crazy Water

Thought Hopeless Yet He Lived to Tell His Story

Three weeks ago today, I came to the Crazy Water Hotel on a stretcher from the city of Lubbock, Texas, with what the doctors called Typhoid Spine, and they told me that there was no medicine that would cure me. I started drinking Crazy Water and taking baths, and on the 12 day after arriving, I took to the wheel chair and on the 17th day I started walking on crutches and can now walk without them, so I feel if Crazy Water will do that for me I cannot say enough for it.

"Jack" Reigns Again

A few weeks ago that happy nip called Jack Frost, sent us a gentle message to remind us that he would soon make his annual pilgrimage to our country, heralding his sire, old man Winter. His message was rather informal as Jack is a chap not at all given to formalities. It consisted mainly of a few brown and red leaves spotting the green trees here and there. But my, what a commotion it made! Straw hats and white coats went out overnight to be replaced by felt hats and fall furs. Far visioned birds started on their long trek to exotic Southlands. Coal men rubbed their hands gleefully, regaining a sparkle of eye and vivacity of step.

Jack, is not a bad sort of fellow. The bright colors that he paints, pep us up in preparation for the dull winter. He is king of autumn and is now holding court. We are his true and loyal subjects. His merry paint pots are spilled over the foliage. There they will remain, filling us with the happiness, the courage and the sparkling gaiety that we will need from time the first breath of winter whips these fiery leaves away until gentle spring awakens once more.

Spirits Day

November 21 is Spirit Day. All the Pep Squad, all the football boys, every student and teacher that are loyal to Santa Anna High School should wear our school colors. Everyone be loyal and come full of pep. Come on girls and boys show our visiting team that we have a real school. Show our team that we are proud of them and that we will back them with all our might. We have only two more games, so come and help our boys by backing them. Yea Santa Anna High School let's go. Yea teams fight!!!—Pep Leaders

Freshman Class

The Freshmen all enjoyed a Halloween party given by Mary Oakes.

We all met there at 7:30 o'clock Thursday night before Halloween and played games, talked and some of the pupils did stunts and danced for us. When the party was almost over we had a very exciting visitor, who was dressed in woman's clothing and he danced and told us scary things in which we were very interested. One of the pupils brought a horse up to the party and I think practically everyone got to take a horseback ride.

About 10:30 delicious refreshments were served of popcorn, doughnuts, apples and cakes. We all went away happy and joyful from such a good time.

The Juniors are studying "Macbeth" and have decided to make a model of an Elizabethan stage. We are making some of the characters for the play and as soon as possible, we hope to have a miniature presentation of some of the acts in "Macbeth". The characters are dressed up clothes pins, and look surprisingly "Elizabethan". A general study of the stage and costumes of Elizabeth's time enables us to make characteristic costumes.

Senior Characteristics

Jewel Hill
Jewel Hill, Buddy Rogers the second, is not only a good athlete, but is very popular with everyone.

Vera Horner
Vera Horner, is noted for her quietness and her ability to make friends.

Howard Brother's
Although Milton and Melvin Howard do not resemble in looks they are like two peas in a pod, when it comes to sportmanship and making friends.

Belva Lawrence
Although this is Belva Lawrence's first year with us, she has proved to be a typical student of S. A. H. S. and a friend to all.

Connie Lowe
Connie Lowe, is noted for his dependability and loyalty to the Senior class. When there's anything to be done, you can always depend on Connie to do it.

Kent Martin, Miss Ollie Manley and Bob Hendricks of Lorraine, visited Miss Marion Eads last Sunday.

Sophomore Class

The Sophomore class is increasing steadily. We have Coty Embanks, in our class now, we have the largest number in school in this one class.

The Sophomores were called upon to entertain for the P. T. A. Wednesday and only knowing it since Monday it has fallen upon the girls for a program but we shall be glad to have everyone of the parents here Wednesday evening November 12, 4:00 o'clock.

Our class had a picnic at the city lake last Thursday night nearly every member in our class was there. We had a great time and we want to know now, when can we go again. Mrs. Pieratt, sponsored us, we had lots of fun.

FLOWERS

Flowers are the tokens of many thoughts, although their language is of course arbitrary. The rose is the symbol of majesty;

The wallflower, love faithful, in spite of adversity;

The daisy and white violet of innocence;

The rosemary of remembrance;

The forget-me-not of love and truth;

The primrose, early youth;

The cyclamen of diffidence;

Which is lack of confidence;

The hyacinth of sorrow;

Which we never want to borrow;

The narcissus of self admiration;

Without hesitation;

The lily of purity;

And much security;

The pansy of thought;

Which should always be taught

So surely as the orange blossom, is associated with marriage;

Does the finding of white heather betoken heritage?

The almond expresses hope;

With the desire never to cope.

So these many thoughts that I might send
Would brighten life
For a very dear friend.

Sophomore Picnic

The Sophomore Class gathered at the school house Thursday evening at five o'clock with buns, pickles, cakes, wienies, marshmallows and an appetite, we then started for the city lake. Upon arriving we gathered wood and Mrs. Pieratt, started the fire as the boys said they couldn't do it.

We had races, played games and then when the boys came out there that had been practicing football, we gathered around the fire and ate. We ate until we couldn't eat any more and started for home.

Melvin Downs Santa Anna 30-14

The Melvin Bulldogs completely and unceremoniously upset the district dope pot by going away from Santa Anna the proud owners of the heavy end of the 30-14 score. The Bulldogs had to their advantage a heavy line and almost equally heavy backfield, but no excuses can be offered for the light forward of Santa Anna crumbled before the pile driving blows of Sparks, (185 lb.) Melvin half and demoralized by the slashes of Renfroe, fleet Melvin quarter.

Santa Anna scored first early in the first quarter by a pass to Wheeler for a touchdown and a repetition of the same play for the extra point in the second quarter Santa Anna again threatened to score but Pieratte was held on the foot line. Santa Anna's only other tally came in the 3rd quarter on a pass to Wheeler. Rollins kicked for the extra point.

Melvin scored twice in the second period; twice in the third and made the final touchdown just as the last whistle blew. All attempts for extra points failed. The fifty yard dashes made by Renfroe for a touchdown after receiving a perfect pass was the thriller of the afternoon.

The Line-up:

Melvin: Sheffield, L. E.; Ables L. T.; Fisher, L. G.; Miller, C.; Riley, R. G.; F. Neve, R. G.; (Capt.) Fields, R. E.; Hensley, Q.; Renfroe, L. H.; Sparks, R. H.; F. Neve, F.

Santa Anna: Wilson, L. E.; Voss, T.L.; Rollins, L.G.; (Capt.) Turner, C.; Gipson, R. G.; M. DuBois, R. T.; Wheeler, R. E.; Oakes, Q.; Bleivins, L. H.; W. DuBois, R. H.; Pieratte, F.

Officials: Binlon, referee; Harvey, umpire; Muller, headlinesman.

Basket Ball Girls Lose to Cleveland

Santa Anna basketball girls played their first game this season with the Cleveland team on Friday Nov. 7, at Cleveland. The Santa Anna girls were good sports as well as good players. They took their defeat good naturedly. The Cleveland team winning with a score of 19-12. The Santa Anna girls are showing interest in practicing and coming out. We have plenty of material for a good team and should be able to beat most any team.

Personals

Misses Margaret Donham, and Mary Simpson were guests of Miss Maurine McDonald of Mary Francis Hall, Simmons University, last week-end.

Miss Olivia Land has moved to Mrs. Staceys home, one block North of the High School building.

J. C. Scarborough, attended the district meeting of the Athletic Association, in Coleman, last Saturday.

Wilbourne Weaver of Houston was a pleasant visitor to the school last Friday.

Messers Max and Jack DuBois, James Gipson, Charles Turner and Edwin Rollins were among the ones that saw Howard Payne College win over McMurray College at Brownwood last Friday night.

This is a new column which has been started in the Mountaineer. All students please hand personals to Geneva Atkinson, who will be the supervisor of the column.

JOKES

Mrs. Bartlett. "Do you remember what happened in 1778?"
John David. "I don't even remember what happened last week."

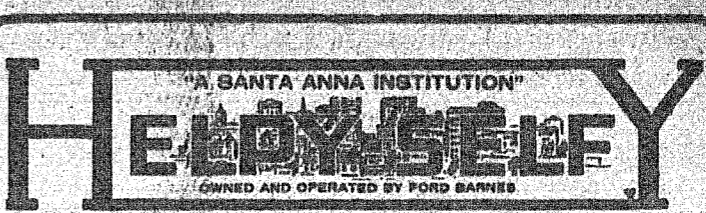

Mr. Furdy. (After playing a round of golf.) "Well, how do you like my game?"
Fred. (Acting as caddy) "Alright I guess, but I prefer golf."

Richard White. (In Coleman) "When do you leave here?"
Bookie. "The first."
Richard. "The first of what?"
Bookie. "The first chance I get."

Mr. Scarborough. "What makes me get bald every year?"
Mrs. Scarborough. "Your hair is coming out."

Ona Mae. "Ma, the furniture man is here."
Mrs. Smith. "I'll see him in a minute. Tell him to take a chair."

Ona Mae. "I did, but he said he would start with the piano and radio."

Early Days in Brownwood as Told by Mrs. W. R. Kelley to Mrs. Ollie Pearce Weaver

Mrs. W. R. Kelley
Santa Anna, Texas

In 1874 Reuben Grady left his old home in Kentucky to seek a new one in the Lone Star State. Mr. Grady was a farmer and had a large family. He was ambitious for his children, therefore he resolved to come to Texas, where homes could be had for the asking in that day. One of these children was Mrs. W. R. Kelley, who was then a small child. She tells us that the trip was made in wagons, and required several weeks to make it.

"On arriving in Brownwood, which was then a frontier village my father purchased some land lying just West of where the Santa Fe Station now stands, for five dollars per acre. There was something near 40 acres in this tract. Then we moved into a one room log cabin with a dirt floor. The boys' bed room was a covered wagon. When the wagon had to be used the bows and the sheet were taken off and set on the ground. At this time all supplies were brought to Brownwood from Dallas or Austin with horse or ox teams, hence the scarcity of everything.

"Brownwood's court house was a one and a half story log cabin. The upper part was the jail the lower was used for all purposes. If a missionary came along this was the only place where religious services could be held. There were only a few log cabins and most of these were used for saloons. Those who do not know what an open saloon is cannot know how much sorrow they brought to many mothers and wives. Men who patronized them usually spent most of the night there. Often one would be carried home a corpse before daylight, or perhaps be shot down in the street in the early dawn. I shall never forget the horror I felt when as a small girl I saw the corpse of a man lying in the street, early one morning when I was sent to the store on an errand. All of the saloon keepers were bootleggers; that is they did not report the full amount of whiskey they sold to the government.

"I am glad to say that I had 6 brothers and all grew to be honorable citizens and none of them patronized the saloons.

"The first sermon I heard I sat on a puncheon bench with out a back in the log court house which had a dirt floor. This sermon was preached by a Baptist Missionary. After this other missionaries came to preach to us.

"Great herds of buffalo roamed over the prairies. My father and brothers went out on a hunt near Santa Anna mountains to get our winter supply of meat. This trip caused my mother and sister-in-law great uneasiness because the Indians were still raiding the country, stealing cattle and horses and killing and scalping people too, some times. So it was very dangerous to get out away from the little towns. The Texas Rangers were stationed at Ft. Concho and Ft. McKavitt. The last raid by the Indians was made soon after we came to Brownwood. They were over-

taken by the Rangers on Clear Creek near the village of Bangs. Several were killed in the skirmish and their bodies were then brought back to Brownwood and hung up in a tree on display. I had one brother who was a Ranger and they have ever been great men to me. My brother rode a beautiful horse all so well equipped that I was always very glad when he came home. He frequently brought a friend with him a handsome young virginian who had black curly hair and beautiful blue eyes. This young man is said to have been the last man killed in Brown County, by the Indians. There is said to be a lake near his grave. He was wrapped in a blanket and buried where he fell. This lake was afterwards called Anglin Lake for that was his name. He had a sweetheart back in Virginia waiting his return to be married. The Indians that killed him were from the Indian territory and had a permit from the government to come over into Texas and kill buffalo for meat. They stayed overtime and the soldiers were sent out to see what they were doing, but were too late in finding them to prevent this murder. There were 18 Indians led by a chief named Black Hawk. They ran into the Rangers before the soldiers found them.

"I remember one night my mother and sister-in-law spent very miserably as the men were all away getting board timber to cover our house. They heard screaming in the night from a little cabin that had been built rather far out to be safe. They were afraid to get out of the house but felt sure that this family were being murdered by the Indians but had to wait until daylight to find out. When day came they were glad to learn that it was a sick child who had a spasm which had caused the disturbance.

"Our next home was a double log cabin. We were very proud of it for it seemed a mansion to us. It was floored with native lumber which was green when it dried there were large cracks in the floor, which let in the cold. Carpets were unknown to us. Buffalo robes were spread on the floor to keep out the cold. Our chair cushions were the mops from buffalo heads.

"The only amusements were dances. All went whether they danced or not. It did not require a very large room for the youngsters to have a good time together. Of course the girls dresses were not up to now. Most of them dressed in calico, yet they were proud of their clothes. Most all the young men wore boots. The old time square dance was very popular. Then too the old Virginia Reel and the scottische were very pretty. Some young swain would give his girl an apple or some candy hearts with some sentiment expressed on them. Sometimes they had lemonade made from a can of lemon sugar with real extract added. This drink was considered a great treat to us kids.

"In those days we all helped to care for each other in sickness just as one family. When a new baby came and no mother near some other did all that a mother could do, even looking after the laundry.

"As the town grew an annual ball was given at the hotel. This was considered a great social event. A fine supper was spread for the guests. All attended whether they danced or not. Everyone enjoyed being there, and hearing the music.

"I remember one prominent social event which failed to materialize. There was to be a wedding but the choice of the daughter and the mother differed. Hence a great confusion took place. A bountiful feast was spread for the guests and while they were eating, the bride to be tried to escape through the back door to meet the man of her choice as he drove up in his buggy. He called her to come and at the same time displayed his gun. He was met by the girls brother. In the meantime the girl's mother caught her and held her until she got help to confine her in a room and the girls choice had to depart without her. Then the young man who was the mother's choice appeared on the scene but the girl positively refused to talk with him or give him a piece of cake. So there was a wedding feast without a bride and groom.

"People now talk about hard times and a spirit of discontent seems to be very prevalent. They do not appreciate the great blessings they have. In those days we were happy and thankful for the bare necessities of life. We enjoyed our church and our families and our friends. What more did we need?"

I. Williamson is steadily improving. Is able to walk around in the house and yard.

Misses Geneva Adkinson and Geneva Caldwell, visited in Brownwood, Tuesday.

CHANGED

Having purchased the Jones Filling Station, we extend a cordial invitation to all old customers as well as new ones to trade with us. We carry a full line of Texaco products. Fresh bread every day.

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL LESSON

Lesson for November 16

THE BELIEVING CENTURION, A GENTILE WHOSE FAITH JESUS COMMENDED

LESSON TEXT—Matthew 8:5-12. GOLDEN TEXT—And they shall come from the east, and from the west, and from the north, and from the south, and shall sit down in the kingdom of God.

I. Who the Centurion Was (v. 5). His name is not given. His title was derived from the word meaning "a hundred." He was, therefore, officially the commander of a hundred men.

II. The Centurion's Need (v. 5, 6). He had a very dear servant who was grievously afflicted with the palsy, and at the point of death (Luke 7:2).

III. The Centurion's Request (v. 5, 6). It was that Christ would come and heal his servant (Luke 7:3). From the account in Luke we learn that the centurion first sent the leaders of the Jews.

IV. The Centurion's Humility (v. 7, 8). As Jesus was nearing the centurion's house the friends were sent to say to him that he was unworthy for him to come under his roof, but because the case of his servant was so grave, he brushed aside all difficulties and personally appealed for help.

V. The Centurion's Faith (v. 8-10). In spite of his unworthiness he committed his case to the Lord. He believed that if Jesus would but speak the word, his servant would be healed.

VI. Christ's Wonderful Power (v. 13). He said to the centurion, "I will come and heal him" (v. 7). Note his perfect confidence in himself. He did not say, "I will come and see what I can do," but "I will heal him."

Cause and Effect Man at the gate to little boy: "Is your mother at home?" Little Boy: "Sav you don't suppose I'm mowing the lawn because the grass is long, do you?"

R. L. Arnold of Bay City is making a visit with Mrs. Sam Smith and Mrs. Ollie Pillow his sisters whom he had not seen for eleven years.

Clovis Stovall, who is attending Abilene Christian College, visited friends here last weekend.

An Ordinance Defining Nuisances and Menaces to the Public Health in the City of Santa Anna and Providing for Their Condemnation and Abatement and Providing Penalties and Declaring an Emergency

Be it Ordained by the Board of Commissioners of the City of Santa Anna, Texas

SECTION 1: That no store, market, restaurant, hotel, boarding house, sewer, septic tank, privy, gin and other public or private houses of any kind whatsoever, or any other place of any kind whatsoever in the City of Santa Anna that shall be or become in such condition as to cause, emit or produce odors offensive to the citizens or inhabitants of said City or living near or contiguous to such places, or that shall produce dust or any odors or allowed to become in any such condition as to be unpleasant or unsanitary, or in any manner affect or endanger public health or the health of any person living in the vicinity of any such place, shall be and the same is hereby declared to be a public nuisance, and the maintenance or permission of the same is hereby condemned.

SECTION 2: Any lot, yard or premises or any place whatsoever in the City of Santa Anna, that shall be or become covered in whole or in part with weeds or dead or decaying animal or vegetable matter in such manner as to produce unpleasant or unsanitary odors, or to affect in any manner the public health and convenience or endanger the same is hereby declared to be a public nuisance.

SECTION 3: The permission or maintenance of any nuisance or condition as hereabove described in Section 1 and 2 of this Ordinance, are hereby prohibited;

SECTION 4: The fact that there is now no adequate Ordinance in effect protecting the public health in the City of Santa Anna in respect to the matters hereinabove referred to creates an emergency and demand that all rules and regulations requiring Ordinances to be read and referred to a Committee be suspended, and the same is accordingly done, and this ordinance shall be in full force and effect and after its passage, approval and publication.

Regularly read over, passed and adopted, at a regular meeting of the Board of Commissioners of the City of Santa Anna, on this the 6th day of November, 1930.

Attest W. E. Baxter, Mayor Grace Mitchell, City Clerk.

Visit in Buffalo Gap Mr. and Mrs. Hardy Blue and children, visited with relatives in Buffalo Gap, Sunday.

The Farm Problem

SURFACE TANKS CLEANED WITH DYNAMITE

Marlin, Nov. 10th.—No need anymore to skin up the mules and lose one's religion in scraping the mud out of surface tanks for a new cheap and practical method in which dynamite is used has been developed by Dan Clinton, county agent of Falls county. About every five years these watering places get so filled up that after putting it off as long as possible farmers finally spend an average of two or more weeks to do a job that is now done with dynamite in half a day. It used to cost from 40 cents to 75 cents per yard to move dirt that has been removed in these Falls county demonstrations for 16 cents per yard. Three tanks have been cleaned out by the new method the past summer and at least 50 more are to be done this fall.

In explaining, Mr. Clinton says: "If the tank is not dry, drain off the water. In the last job we set charges of dynamite in five rows 30 inches apart and 27 inches apart in the row. In the middle row we made our charges 1-2 pounds of dynamite in the next two rows one pound

and in the two out side rows 1-2 pound dynamite per hole. It took 150 pounds that cost \$37.37. We used one eight-cent cap with detonator in the center hole and this one charged all the rest.

"The explosion blew a hole three to five feet deep, 15 feet wide and 55 feet long, and is estimated to have moved 180 yards of mud. The mud was thrown from 250 to 400 feet around the tank with most of it going in the direction of the wind. Four men worked three hours in setting charges and it took a half a day afterwards to clean up the tank." If generally used the new method should save Falls county farmers, who have 5,000 tanks, about \$60,000 annually, Mr. Clinton estimates.

COTTON

The future of the cotton-grower will be determined in the laboratory of the industrial chemist.

There are thousands of potential uses for the great Southern staple which, once discovered, can re-establish the health and vigor of the cotton growing industry.

When you get down to bedrock, there is only one sane and solid reason for the predicament in which the cotton-market finds

itself. That reason is called "The Law of Supply and Demand." Trans-oceanic countries year by year have increased their production and markets have become glutted with more of the staple than the world can consume. Therefore the price goes down.

Wider and more general use of cotton awnings for decorative and shading purposes will help. Greater preference for cotton clothing will help. The use of cotton fabric for roadtopping will help. Substitution of cotton for jute bagging on cotton-bales will help. Add to these the new and unsuspected uses which the industrial chemist may discover, and we have a rejuvenated industry once more contributing to the prosperity and industrial development of the whole South.

THE CURRENT HISTORY CLUB

The Current History Club met Friday, November 7, and had a very interesting meeting.

Those who had part on the program were: Mary Mitchell, "What a citizen Has Done for World Peace." Mildred Boardman, "Cartoon." Ernest Van Zandt, "Facing the Unemployment Problem." Vernon Buess "From the Nations Capital."

Progress and the Bank

WHEN a business institution is called upon to expand it finds the advantage of a strong banking alliance of paramount importance.

Besides the regular daily services which this bank renders its customers, many unexpected services are offered and frequently given—a factor that is aiding our constant growth in popularity among appreciative business men in local industry and commerce.

They realize that the financial council and help offered by our friendly executives are based on long experience and sound banking practice. Consequently they place in this organization a measure of confidence that is making this bank of increasing service to them.
