## Revival Meeting Begins Sunday

CITIZENS URGED TO MAKE THIS THEIR MEETING

We have had united effort in standardizing our cotton seed in this community for next year. Surely this is a good and progressive move from which all will profit. And all the citizens of Santa Anna have recently entered into a clean-up campaign which has left our town more home-like and attractive. And now we come to a week's intensive efforts in the interest of a cause which shall make all of our other worthy activities more valuable.

Every citizen in Santa Anna and the surrounding communities who loves his home and his community is urged to make this Pre-Easter Revival the occasion of a deepened spiritual life personally; and to make this his opportunity to bring the last man in the town and the communities around into vital touch with the blessings of God.

In all fairness to ourselves and our friends let us not be interested only in agricultural and civic improvements, but let us be interested primarily in the deepest needs of the people which is to know God's love and to experience the presence and the power of His salvation.

The pastor of the Methodist Church will lead the people in this special Evangelistic Campaign. An adult choir and a choir of children, together with the aid of instrumental music will lead the congregation in the song services of the meeting.

Your presence, and prayers, and diligent efforts are enlisted in behalf of a gracious outpouring of the spirit of God upon all the people.

## Clean Up Campaign Still In Progress

Mayor Baxter tells us the Clean-Up campaign is still on and meeting with better success than was indicated first of last week. Several have caught the spirit of spring and are cleaning up their premises. We have been requested to state that every one who cleans up their premises, even after the wagons have worked your part of the town, if you will telephone the Mayor, he will yet send a wagon out to your place and haul off the trash. Don't let this opportunity, pass for it is very important.

## J. D. Bates Buried Thursday

J. D. Bates, 64, died at his home on the Charles Evans farm north of town Wednesday morning, and is to be buried Thursday afternoon about the time for the News to go to press. Mr. Bates came to Coleman county ten years ago last fall, coming here from Robertson county. He is survived by his widow, five married children and three single children, living at home.

## Car of Cotton Seed To Be Distributed Friday and Saturday

For the information of those who may not receive notice, we wish to advise that we have ordered the carload of Lankart Cotton seed to be here Friday and Saturday, April 11 and 12. All who have placed orders for seed please be here and get them from the car and save expense of having them unloaded and stored.

## To Winners of Planting Seed

The editor, who made possible the distribution of \$300 worth of planting seed to farmers in this territory without cost to you, will certainly appreciate if those who were lucky to get the seeds will write the different seed houses and tell them you drew a sack of their planting seed at one of our trades day events. This is not mandatory, but as we say, we will appreciate if you will do it, as it will show we are on the job and trying to carry out a program for betterment in our trade territory.

## Death Claims D. J. Johnson

ONE OF SANTA ANNA'S MOST RESPECTED CITIZENS PASSED ON FRIDAY

D. J. Johnson, 52, principal owner and manager of the Santa Anna Telephone Company, answered the final call at 8 o'clock last Friday morning, and passed on to his reward. Mr. Johnson was born in Nashville, Tennessee, April 22, 1877, and would have reached his 53rd birthday in just a few more days. He came to Texas at the age of 14 years, and began working for the Bell Telephone company in Dallas when only a young man. He worked in several Texas towns and cities before coming to Brownwood twenty-three years ago, where he became general Superintendent of the West Texas Telephone Company, with headquarters in the bayou city. He was married to Miss Lula May Morris in Fort Worth December 14, 1899. Three children were born to this union, all of whom and their mother survive. Mrs. V. J. Malloy, Rochester, N. Y., George Johnson of Santa Anna, and Mrs. L. Gene Hensley of Gallup, New Mexico, are the surviving children. Two grand-children also survive and all were present when the end came.

Mr. Johnson purchased the Santa Anna Telephone exchange and moved here with his family in 1924. He soon established himself with the business and industrious element in this city and wielded a great influence for betterment in his enthusiasm for progress in the town he made his home. He was always ready and willing to do his part in whatever was undertaken for progress, and never hid behind the blinds to tell where he stood when a principle was involved. He was a member of the Episcopal church in Brownwood, a member of the Knights of Pythias lodge and a charter member of the local Lions Club, which he was instrumental in organizing five years ago. He was Secretary and Treasurer of the Texas Independent Telephone Association, which place of honor and trust he had served for several years, and was recently re-elected at the annual convention in Fort Worth, Texas.

Mr. Johnson was a useful man in the community, always dividing his time with those in need and devoting a portion of his time and means to community development. He was a true and loving companion, a devoted father and an honorable citizen. His services will be greatly missed and his place in the town will be a hard one to fill.

The body was taken in charge by the Johnson Furniture Company, with Mr. Byron Zimmerman in charge, and prepared for burial. His body was laid to rest in the local cemetery Sunday afternoon, following funeral services at the Methodist church conducted by the pastor, Rev. Jos. I. Patterson. More people were present than could crowd into the church and floral offerings were profuse. The large crowd of people and beautiful flowers attested to the esteem in which he was held by his many friends here and at Brownwood, his former home.

Those from Brownwood attending the services included: Mr. and Mrs. Ansel Norton, W. B. Avinger, Roy Byrd, Tom Byrd, John H. Brock, Mrs. John Champion, P. C. Scott, Mr. and Mrs. W. P. Denny, Ben A. Fain, C. L. Giddens and son, Jack Glasscock, Mr. and Mrs. E. B. Grady, Crews Hardy, Mr. and Mrs. Ernest Fay, Mrs. Fred Hayes, Dr. and Mrs. J. M. Horn, Jack Howard, H. H. Ingram and wife, Mrs. Zeno Ingram, Charles Clapper, Mr. and Mrs. J. E. Mayo, Mr. and Mrs. Drew McCaughan, Mr. and Mrs. P. A. Gianville, Mr. and Mrs. Ray Morgan, Carl Nelms, W. C. Petterson, Dr. W. R. Sanderson, R. A. Snider, J. P. Sullivan, Mr. and Mrs. J. Wainscott, D. F. Wear, J. T. Walker, M. A. Yeager, A. H. Westerman, Mr. and Mrs. C. A. White, J. H. McKie, Stewart Hopper, Mr. and Mrs. A. L. Kirkpatrick, Knox Howlett, and Mr. and Mrs. W. A. Davis. Others whose names were not learned were also in attendance. From Coleman: Messrs. and Mesdames W. T. Moore, H. E. Switzer, S. G. Hollingsworth, Claude McHorse

## J. S. Morgan Dies In Brownwood

FORMER SANTA ANNA CITIZEN BURIED HERE

J. S. Morgan, 51, died at his home in Brownwood last Friday afternoon after a lingering illness lasting over a period of about four months. His remains were brought here Saturday afternoon for burial. The funeral was conducted at the U. S. A. Presbyterian church by the pastor, Rev. M. L. Womack. The following data was furnished the News this week.

James Samuel Morgan was born June 26, 1879, at Rome, Georgia. He came to Texas with his parents at five years of age, and lived for several years in Williamson county. While a young man he was married to Miss Maud Buchanan and moved to Lampassas county. Two children were born to this union, both of whom and the mother died in December, 1902. In December, 1903, he was married to Miss Ella May Garner, who, with five children survive him in death. The children are Garner, Garland, Josephine, Jimmie and Lorraine Morgan, all living with their mother in Brownwood. Deceased is also survived by his mother, Mrs. J. J. Morgan of Lampassas, and the following brothers and sisters: Forrest Morgan of Adamsville, Texas; Ernest Morgan of San Antonio, Texas; Charley Morgan of Bartlett, Texas; Mrs. L. S. Owens of Fort Worth, Texas; Mrs. J. A. Dennis of Lampassas; Mrs. D. O. Williams of Lampassas; Mrs. R. L. Millsap of Kenner, Texas; and Mrs. A. B. Williams of Mercury, Texas. All were here for the funeral except the mother, who was not able to attend.

Mr. Morgan came to Santa Anna about 20 years ago, and lived here fourteen years, during which time he was a barber, selling his shop here and moving to other places about six years ago. Mr. Morgan was a member of the U. S. A. Presbyterian church, and was a life-long esteemed citizen during his fourteen years here. The News joins in extending sympathy to the bereaved.

Mr. and Mrs. F. E. Garrett of Brady visited in the home of W. L. Garrett here Sunday. Mr. and Mrs. C. H. Ford of Goldthwaite is visiting in the home of his daughter, Mrs. E. E. Chambers.

## Heavy Vote Polled In Trustee Election

Patrons of the Santa Anna schools turned out and voted a greater number of votes in the trustee election here last Saturday than had been polled in the last several elections. The ticket recommended by the nominating committee received about an average of three to one against the ticket nominated by other citizens. Any differences or objections to the way in which school affairs have been handled in the past that may have been held by some must have been settled by the splendid vote of confidence extended the board in the election Saturday. The following is the tabulated report furnished us Saturday night, following the election: W. DuBois, 147; R. R. Lovelady, 146; Joe Mathews, 128; J. W. Tabor, 130; Cecil Curry, 41; C. B. Verner, 57; Mrs. Ollie Pearce Weaver, 54; Mrs. Joe Mathews 33. J. R. Pearce received 183 votes for County Trustee at Large. W. F. Barnes received one vote for local trustee and two votes for County Trustee at Large. The patrons have spoken and the News is satisfied with the results, and pledges to them our every support in whatever they undertake, for we have the utmost confidence in their integrity and ability.

## Newly Elected Board of Education Meets

At the regular monthly meeting of the Board of Education last Monday night, the newly elected members took the oath of office and the board went into organization for the coming year. The personnel of the board at present is as follows: G. W. Faulkner, President; W. DuBois, Vice President; Dr. R. R. Lovelady, Secretary; Stafford Hunter, I. O. Shield, J. E. Mathews and J. W. Tabor.

# a word about FEED

If there is any one thing which the farmers of this state can do to assure a clear cash surplus from their money crop, it is to provide an ample supply of feed.

Not only is this bank vitally interested in seeing more feed on more acres this year for our particular section, but nearly every banker in the state, who has at heart the success and prosperity of his customers, is urging increased feed production this year.

You know what your needs are, and have no doubt made your plans accordingly, but we do want to say that more feed this year for our farm customers will mean thousands of dollars saved to this community.

You will find that this bank is behind you on any plan that will increase your success and prosperity.

## The State National Bank

MEMBER FEDERAL RESERVE SYSTEM

## Your Harvest Depends on What You Sow

Every agency in this state and throughout the South which is interested in farm prosperity is expending every energy in an earnest effort to reduce cotton acreage this year.

TEXAS MUST DO ITS PART OUR COMMUNITY MUST HELP

In line with this important movement, smaller and better crops of cotton are being urged as a remedy for overproduction, foreign competition, inferior quality and low prices.

In a matter so vital to the economic safety and to the very life of our own section, this bank is heartily in accord with other interests in this state and the South for the planning of a sane acreage for 1930, and in making wise diversification of crops the main thought and aim during the few weeks that lie between us and planting time. Again we say FEWER ACRES, MORE INTENSIVE CULTIVATION, BETTER SEED.

**CHANGES**  
 Now that the entire population of Little America is heading for civilization, one cannot help wondering whether Admiral Byrd will find the world outside the ice pack a better place than they left it some fifteen months ago. There is no difficulty in thinking of changes in both directions. But inasmuch as better and worse are so often a matter of opinion, perhaps the wiser thing is simply to speak of a different world.

Compared, then, with December, 1928, when the City of New York entered the ice pack north of Ross Sea, the Byrd party will find civilization in the spring of 1930 with—

- Skirts longer
- Wheat lower
- Plays cleaner
- Pocketbooks thinner
- Coolidge and Al Smith fatter and merrier
- Hoover thinner and more thoughtful
- Skyscrapers higher
- Rents lower
- Navies messier
- Republicans kniflier
- Democrats running true to form
- Telephone bills higher
- Chicago wilder
- Speakeasies thicker
- Frenchmen funnier
- Englishmen bluer
- Japanese terser
- Americans soberer
- Russians fewer and colder
- Talkies louder
- Colleges richer
- Students poorer
- Weather warmer, probably snow with west winds turning to northwest. —New York Times.

Small lava streams no more than fifteen or twenty feet thick are said to require a year to cool.

**RESOLUTION OF RESPECT**

Whereas, it has pleased the Almighty to remove from our midst, by death, our esteemed friend, D. J. Johnson, who for many years occupied a prominent rank in our midst, maintaining under all circumstances a character untarnished, and a reputation above reproach.

Therefore, Resolved, that in the death of Mr. Johnson, we have sustained the loss of a friend whose fellowship it was an honor and a pleasure to enjoy; that we bear willing testimony to his many virtues, to his unquestioned probity and stainless life; that we offer to his bereaved family and mourning friends, over whom sorrow has hung her sable mantle, our heartfelt condolence, and pray that Infinite Goodness may bring relief to their burdened hearts and inspire them with the consolations that Hope in futurity and Faith in God give even in the Shadow of the Tomb.

Resolved, that a copy of these resolutions, properly engrossed, be presented to the family of our deceased friend.

**Scenic West Texas**  
 Unless all indications fail, more Texans will tour their State this year than ever before. They are learning that the mountains and hills of West Texas afford scenic attractions that are unsurpassed by other States. Marfa and Presidio are each erecting \$200,000 hotels to take care of the expected travel to Southwest Texas. Tourist camps and hotels from the Rio Grande to Carlsbad cavern will be thronged with tourists. It will be out to see the mountain country and the wonderful cavern just over the State line. West Texas hospitality will be taxed to the utmost in caring for the crowds.

**New Colleen Moore Film Coming Soon**

"Footlight and Fools," the newest of Colleen Moore's entertaining screen stories, and the first of her dialogue pictures to include episodes in Technicolor, has been secured by the management of the Queen Theatre for next Sunday, Monday and Tuesday.

This Vitaphone special offers the popular little star a wide scope for her exceptional talent characterization, for her role includes highly interesting variations. She appears as a supposedly exotic French actress, with an intriguing Parisian accent, in a part of the story; impersonates a slangy Broadway chorus-girl in another episode of the plot, and plays the greater part of her characterization in her own charming personality.

Technicolor has been employed to enhance the beauty of several stage numbers, in which Colleen is supported by a huge ensemble of seventy-two brilliantly costumed show girls and dancers. It is in these color episodes that the popular song hits, "If I Can't Have You," "You Can't Believe My Naughty Eyes" and "Pilly Pom Pom Plee" are introduced, all of which are sung by Miss Moore.

**First Novarro Talking Picture Big Hit**

People who have been wondering what Ramon Novarro's speaking voice is like will be able to satisfy their curiosity—when Novarro's first all-talking musical romance, "Devil-May-Care," comes to the Queen Theatre next Wednesday and Thursday, with a cast containing Dorothy Jordan, Marion Harris, John Mil-

ler and a cast of other stars. It is a little surprise in his recent picture, "The Pagan," when he sang "The Pagan Love Song" in a trained tenor voice, will offer movie-goers a second surprise in his speaking voice which is reported to be admirably suited to megaphone requirements. It is also stated that a slight accent only makes his voice the more attractive.

The plot of "Devil-May-Care" centers about the adventures of a lieutenant of Napoleon. Following Napoleon's exile to Elba, the faithful lieutenant works to effect the triumphant return of his emperor, and between keeping out of the hands of the pursuing Royalists and remaining in the arms of his beloved "Leonie," the young man hits a mad pace.

This picture was awarded four stars in Liberty and nearly all movie critics have praised it very highly. You are pretty certain to enjoy Ramon Novarro in "Devil-May-Care."

**EASTER**  
 Easter comes somewhat late this year but loses none of its significance. Spring flowers will be little more appropriate. Easter services will be more closely allied to the divine ideal of rising life and growth.

The fact that Easter has a religious background and especially that this background is that of Christianity assures perpetuation of itself as a day of contemplation of the spirit. With this as the awakening of minds and hearts to the necessity of renewing kinship with ideas reaching above materiality.

The churches of this community are to be congratulated upon the fine spirit they are showing in the preparation of suitable Easter service programs. Many persons will attend these services who are not in the habit of attending church during any other service of the year. This fact alone is worth the while in making the programs interesting and impressive.

Remember it is for the human race that Moses only gave ten commandments.

**Census Takers Are Now Busy**

Federal census enumerators for Coleman county are Mrs. W. E. Williams, Mary E. Ross, Mrs. D. W. Calk, Lester G. Jones, Mattie Vanderford, Mrs. R. B. Snook, Adella Allen, J. H. Kellett, L. M. Wyatt, W. P. James, A. K. Wesley, William F. Nair, R. C. Rainey, Josie Baxter, Mrs. Beulah L. Sparkman, O. T. Williams and Jack Mobley. The list was released last Thursday morning for publication by W. L. Turner, supervisor of the 14th Texas district, with headquarters in Brownwood, but the News failed to get the list in time for last week's paper.

The work of correctly counting the people of Coleman county started and Mr. Turner urges every person to see that every member of their family is counted. It is an important phase of government and from it each state's representation in congress is determined.

The work will have to be completed in two weeks. Mr. Turner explained in Brownwood, for this is the time allotted over the whole country in which over 200,000 enumerators will be busy getting answers to questions. The supervisor asks that all questions be answered quickly, clearly and exactly so that it will lighten the burdens of enumerators and expedite the work.

**Land Utilization Conference at Waco**

College Station, Texas, April 5 — A land utilization conference, state-wide in scope, sponsored by the A & M College of Texas and various other institutions and agencies interested in and working for the progressive development of agriculture in Texas, has been called for Waco, April 14-15. In issuing the call for the meeting, President T. O. Walton of A & M announced that the meeting will not be for the presentation of any new program for "agricultural relief" or the formation of any new organization.

"The primary purpose," he said, "will be to stress the vital importance of proper utilization of the land in a well-rounded and economically wise system of agricultural development."

Representatives of the publishers of outstanding members of the daily, weekly and farm press are expected to cooperate and participate in the meeting which will, in effect, be a stock-taking of the agricultural resources of Texas, developed and potential, a consideration of what has been done along the lines of scientific land utilization and of what may be done.

Among the institutions and agencies cooperating in the call for the meeting are Texas Bankers Association, Texas and Southwestern Cattle Raisers Association, Texas Cooperative Cotton Association, Texas Cotton Seed Crushers Association, Texas Breeder-Feeder Association, East Texas Chamber of Commerce, West Texas Chamber of Commerce, South Texas Chamber of Commerce, Southwestern

**AN INTERESTING LETTER FROM OUR OLD FRIEND, R. VAN DOHLEN**

Trickham  
 April 1, 1930

This is my first year that I have been away from home in 48 years. I have seen more ice and snow here in Coleman county this last winter than I have seen in 10 years on my home county of Wilson. After spending 8 months here with my sick wife I went back to my old stamping ground for a few days. They had plenty of rain, and corn and cotton up and grass and oats looking fine and stock getting fat. I was in Santa Anna yesterday evening, which was Cow Day. That was a sight to be seen—that fast growing little city of Santa Anna was full of people, all after one cow, but there were other things being given away and the merchants seemed to all be doing a good business. One thing I notice, Santa Anna has a good set of officers. When the town is full of people they see that no one gets hurt. I could write a good deal more but space won't permit, so I close for this time, from an old trail driver,

## Christian Aid Society

The Aid Society of the Christian Church met with Mrs. S. W. Childers Monday afternoon. The Bible lesson was the parable of the Sower. All took part in the interesting discussion.

The Society voted an offering to State Missions. Each member was asked to keep a thank offering box and turn in the amount from time to time to the Society. Plans for an increased attendance at the meetings was discussed and for more interest in the work.

Next Monday was designated as visiting day. Refreshments were served and the following were present: Mrs. G. W. Faulkner, Mrs. Wallace Kirkpatrick, Mrs. E. H. Wylie, Mrs. John Johnson, Mrs. J. R. Gipson, Mrs. Ed Baxter, Mrs. Roy Stockard, Mrs. A. L. Oder and the hostess.

The following were here Saturday and Monday for examination and medical treatment at the Sealy Clinic:

The occasion was an observance of the birthdays of Mr. McCaughan, Mr. Mills and Mrs. Theodore McCaughan, which occurred within four days of the week.

Among other guests were the wife, mother and sisters of Mr. Mills.

Those who had reached another mile-post in life felt no older, but were rather renewed by the joys of such a pleasant occasion.

## IMPORTANCE OF THE CENSUS

As important an institution as the United States census should not be carried on with mere passing notice. So much depends upon the census that everyone should take cooperative interest in it. Practically, this is what has been done and is being done. Never before in the history of the country has there been such marked interest and cooperative effort shown in the official enumeration of the people and of property to become the statistical basis for furthering commerce, industry, agriculture, health and happiness of the people and their representation, for the next ten years.

Just why this spirit has been manifested is two-fold. In the first place, more and more is government being humanized. It is not now so much thought of as matter for "higher-ups" to take care of without the help of all. We have found that, after all, the enumerators in our district were chosen from among our own people. The desire to assist them has sprung from motives of friendliness if not of neighborliness. Secondly, because of the dependence on the census of our social and economic welfare in so many ways the help in it has been unstinted. Competition among communities for trade; friendly rivalry between cities and towns for being the most progressive has borne fruit. The result is that in a large measure ALL communities that think anything of themselves at all are just this in greater or less degree. The boosting spirit in America has been righteously contagious and infectious. The serum of advancement has been injected into the civic veins, bespeaking life, growth and action.

These material factors and the official census bear a direct relation to each other. The census, when it has reached its final tabulation is going to surprise a lot of people and a lot of communities. If it serves to squelch some of the innocent but extravagant claims of some of us in regard to population it still will have done the thing it is designed to do. Also, it will serve to acquaint many citizens with the resources of their home community which are now either taken for granted, not known at all or too close to be easily seen. Thus the civic values wrapped up in the U. S. census is a stark-

Lesson for April 13

**THE CHILD AND THE KINGDOM**

LESSON TEXT—Matthew 18:1-14.  
GOLDEN TEXT—Suffer little children, and forbid them not to come unto Me, for of such is the kingdom of heaven.  
PRIMARY TOPIC—Jesus, the Children's Friend.  
JUNIOR TOPIC—Jesus the Friend of Girls and Boys.  
INTERMEDIATE AND SENIOR TOPIC—Growing in the Kingdom.  
YOUNG PEOPLE AND ADULT TOPIC—The Sin of Neglecting and Misdisciplining Children.

I. The Greatest in the Kingdom of Heaven (vv. 1-4).  
1. The disciples' question (v. 1). The prominence given to Peter in connection with the announcement of Christ's purpose to build the church and the payment of tribute with the money in the fish's mouth provoked jealousy on the part of the other disciples. The transfiguration scene revealed the divine person and the program of His kingdom. Seeing that the kingdom was to come to realization despite the tragedy of the cross, disciples wished to know their place of rank in the kingdom.  
2. Jesus' answer (vv. 2-4). He taught them by placing a little child in their midst.  
(1) Condition of entrance into the kingdom (v. 3). The great question was as to whether they were really in the kingdom. Their behavior revealed the fact that they needed conversion. Before they could even see, much less enter into, the kingdom, they must be born from above (John 3:3, 5). (2) Who-soever possesses childlike humility is the greatest (v. 4). The child is dependent, lowly and modest. Those who have been born again, or converted, have these characteristics.  
II. The Lord's Identification With His Believing Ones (vv. 5-9).  
1. Receiving the believer in Christ's name is receiving Christ (v. 5). Through faith in Christ we become God's children, and so completely is our life interwoven with His that He regards treatment of us as treatment of Himself.  
2. The peril of causing a believer to stumble (vv. 6-9). To cause to stumble means to give occasion for a moral fall. The particular reference was to the carnality and selfishness which were expressing themselves in their contention for pre-eminence. Their behavior was not only an injury, but a stumbling block to others. Everything causing one to stumble, though it be as vital as hands and feet, should be removed.  
III. Believers Are Specially Cared for by the Heavenly Father (vv. 10-14).  
1. They are under angelic guardianship (v. 10). So precious is the believer in God's sight that angelic messengers are provided (Heb. 1:14). These angelic messengers have access to the very throne of God, even looking His face. So high is the honor bestowed upon believers that the highest angels are sent to guard them.  
2. The Son came especially to save such from their bad condition (vv. 11-14). The Heavenly Father does not will that any one of these should perish. They are objects of the Father's seeking love. The salvation of the humble believer has been secured by the incarnation and the sacrifice of the Good Shepherd.  
IV. Jesus Receiving Little Children (Matt. 19:13-15). We should carefully note the setting of this text. Jesus had been speaking of the sanctity of marriage, which is the bulwark of the home. Into the sacred enclosure of the home comes childhood to complete and entoble it.  
1. Children brought to Jesus (v. 13). Doubtless they were brought by their parents. Many parents today who are careless as to themselves, desire to bring their children into touch with Jesus Christ.  
2. Rebuked by the disciples (v. 14). They regarded children as too insignificant to engage the Lord's attention. Christ places high value upon children.  
3. The disciples rebuked by Christ (v. 14). These words uttered by the Lord have placed a peculiar dignity upon the child. It is Christlike to care for children and no service in the world pays such large dividends.  
4. Christ laid His hands upon the children (v. 15). About 2,500 medical periodicals are published in the world.  
A six-cylinder automobile made in Germany has a motor at the back.  
The sale and delivery of ice in American homes is said to date back to 1802.  
Not all minnows are small fish, the Sacramento pike or squawfish sometimes measuring three or four feet.  
The average yearly increase in population of the United States is 2,000,000.  
Small windows have replaced ventilators in the upper portion of sleeping cars on one western railroad.

## Dr. Richardson Talks About Children

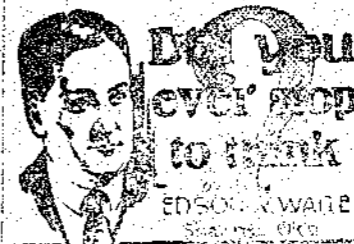

"Jealousy is one of the most evil and commonly encountered traits in all walks of life and so must constantly be reckoned with in all human relationships," writes Dr. Frank Howard Richardson in his article on Child Education, which appears in the current issue of HOLLAND'S.

Dr. Richardson goes on to say "One of the greatest services that parents can render their children is to so bring them up that jealousy will play as little a part in their lives as is humanly possible. For jealousy, in some degree, is a very human trait; and few of us there are who are at all times wholly free from some tinge of it.

"One of the outstanding things about jealousy - one that should give parents pause—is the fact that it rarely develops after maturity. The man or woman who is jealous was a jealous boy or girl; he has suffered from this tormenting obsession all his life; and it is almost hopeless to attempt at this late date to cure him. While if he is a child, however, much can be done, by thoughtful parents who take their responsibilities seriously, to prevent the beginnings of this noxious growth, for if it once gets a start, it is the most difficult weed in the world to eradicate.

"The jealous child is one of the most unhappy mortals imaginable. He is constantly looking for slights that were never intended—and finding them, too! He grudges every good thing that comes to his fellows, feeling that whatever of good is said of them implies something correspondingly derogatory to him. Every manifestation of approval given by his father or mother to one of his brothers and sisters is, by the alchemy of the little green god, transformed into a slight directed at him.

"The chief joy of the jealous child—if he can use the word 'joy' for such a joyless exultation as he feels at these times—comes when he sees his playfellows deprived of something that they wish, or disappointed in getting a treat that they have desired. He may strive to conceal this perverted satisfaction, knowing the disapproval that it will elicit, and knowing, too, that he will receive censure for it; but it is there nevertheless, to be detected by one wise in the ways of childhood."

Nelson P. Poynter, publisher of the Kokomo (Indiana) Dispatch, says:

That only about one adult out of a hundred reads a book thoroughly once a year, but practically every adult in the United States reads at least one newspaper thoroughly every day.

Did you ever stop to think how business would slow down, how state life would become if every newspaper in the United States would close down for a week?

You may get the home-runs over the radio, but you must turn to your newspaper for the box score. About one and a half newspapers are printed for each family every day—and read by them.

It's from this reading that political questions are decided, that ideas of merchandising change, that scientific discoveries are made known. But most of all, it is through this reading that America laughs.

The American newspaper still molds public opinion, but not like the thunderous days of the nineteenth century when editors told their readers what to think. Today the wise editor informs his readers of the facts and his readers do their own thinking.

The presidents of 97 per cent of the colleges in the United States were formerly teachers or ministers.

The experiment of feeding concentrated sour skim milk to young game fish is being made in government hatcheries.

Battles used for alarm against gas attacks have been eliminated from the doughboy's equipment because they sound too much like machine guns.

Ceuta, in Spanish Morocco, is the first African city to have trans-Atlantic telephone service installed.

Guides in Palestine are now required by the government to pass an examination to show their knowledge of the country's history.

### Workers Parade At San Antonio

#### UNEMPLOYED COUNCIL DEMANDS RELIEF

San Antonio, April 7 (AP)—One thousand unemployed workers Monday engaged in a demonstration parade against existing conditions which culminated at city hall where the men presented Mayor C. M. Chambers with a resolution asking for immediate action on 10 demands to relieve conditions under which they held they were unable to exist.

Mayor Chambers went to the city hall steps to meet the paraders. He was introduced by E. L. Le Franc of the unemployment organization. The mayor stated he would be glad to hear any of the crowd and that he appreciated their situation and was anxious to hear their cause for any complaint which would be taken under advisement by the city officials.

Jacob Shaffer, president of unemployed council, read the resolution which he presented to the mayor. Those asking a 40-hour, five-day week, food for unemployed workers' children attending school, abolition of contracting with laborers and hiring them by the day or week, brought forth the loudest of cheers.

An official check of the parade made by city police showed that 1,000 men participated, of which number seven were white, three negroes and the remainder Mexicans. Members of the San Antonio Trades Council who were seen in the city hall during the demonstration, stated that their organization took no part in the parade and was not connected with the unemployed council.

#### B. A. Creamer

The members of the First Christian church, by this resolution, wish to express their sorrow at the death of their faithful brother in Christ, B. A. Creamer, and to acknowledge their loss at his untimely going away.

"We have lost a friend who was always gentle, kind and considerate, and who sought constantly to live after the spirit of the Sermon on the Mount. We believe that we shall meet him presently in a better world."

To his beloved wife and children we extend our deepest sympathy in the time of their bereavement, trusting that they will find consolation in the hope of meeting him in a brighter and more blessed land.

### The Comptroller's Report

by Wm. A. Black

The Comptroller's Report is not thrilling but very instructive reading. It is important to say the least. The story in dollars and cents of the State's activities for a year does at least show us the road we are traveling and whether we are being properly directed or not. I venture this statement, however, that if you were to call the roll of the entire membership of all the luncheon clubs of Texas not one out of a thousand of these live business men ever see this annual report and many of them wouldn't know how to analyze it if they did get hold of a copy. We take the news second hand of the outstanding financial operations of the State and the comments of the newspapers on how extravagant we are becoming and let it go at that.

Of course, the Governor and members of the Legislature are presumed to study it very carefully, as they pass on the future expenditures based largely on previous years. But even these if judged by their speeches and acts fail to see some of the most important facts.

Let me illustrate:—It is claimed that farm lands bear a heavier portion of ad valorem taxes than city property. That may be so but the facts hardly confirm it. Farm lands made up 54 per cent of the total real estate assessments, city property 46 per cent, and this is almost the exact ratio of farm to city population.

We are told that farm lands are excessively burdened with taxes. If we divide the number of acres assessed (\$166,000,000) into the total assessment of farm lands we find that the average assessment per acre was \$9.26. The state rate fixed by the automatic tax board was 68 cents on the \$100 and the average tax per acre amount to only 53 cents. You will want to know how some of the counties fared as shown by this official document.

Take Jackson County for example, the home of Representative Mauritz, who declaims loud and often for relief of farm lands. Jackson County farm lands last year contributed 54 cents an acre.

Bosque County, the home of Earl Mayfield, who declaims loudly for the farm relief, contributed 72.3 cents.

Kaufman County, the home of James Young who wants to be the farmer's friend, paid 85 per cent.

I will list without comment some counties in the lower part of the State.

Medina County 3.4 cents per acre; Prio County, 23 cents per acre; La Salle County, 19 cents per acre; and Webb County, 3.5 cents per acre.

It is not necessary to add to this list. It merely illustrates what to look for that counts. It is not the direct taxes on the farm land that hurts. It is the indirect taxes that are piled on the farmer's back that he never sees or gets a receipt for but are there in the cost of everything that he buys and uses.

Facts and figures like the above are not attractive reading but I am pretty sure that many of the more than 100,000 readers of these contributions will be only too glad to have them and will give them a definite place in their judgment of what needs to be done.

#### OIL LAND TO BE SOLD

Austin, April 7 (AP)—Bids were asked today by the University of Texas land-leasing board for April 22 on several tracts of oil land in Andrews, Crockett, Hudspeth and Upton counties. The tracts offered for leasing were said to be some of the richest belonging to the state. The minimum for the lands is 50 cents per acre and one-sixth of the oil and gas production.

### New Officials at Coleman Assume Charge of City

COLEMAN, April 8.—New city officials took charge of Coleman affairs last night at a meeting that did not adjourn until after midnight.

The new officers are Mayor R. H. Alexander, Commissioners J. S. Rogers and Harry Thomson, Chief of Police Frank Rucker, under indictment for murder, did not seek re-appointment and W. D. Comedy was selected by the new government as temporary chief. J. A. Lewis, a former manager of the municipal power and light plant, was chosen to succeed Sam Hale. City Secretary H. M. Collins was retained, but his assistant, R. R. Hubert, was replaced with Miss Curtis Purcell.

At a meeting this morning, the new commission employed the firm of Rodgers, Smith and company to make a complete audit of the city books.

### Sunday at the Baptist Church

Last Sunday was a splendid day. We had the largest Sunday School attendance of the year, 254 present. We are striving to make it 300 in the next few weeks.

We will have regular services next Sunday except at the night hour when we will give away the preaching hour in favor of the revival commencing at the Methodist Church.

The pastor will preach Sunday morning on "How We Can Glorify Christ in Associational Missions." This is a live subject just now, and we hope to have a great service at the morning hour.

We invite all the heart-hungry to come and worship with us.

### Senator Woodward Explains New Law

Mr. John T. Williamson, Editor Democrat-Voice, Coleman, Texas.

Dear Mr. Williamson:—

An article in your valuable paper of week before last to the effect that farm trailers and semi-trailers were not exempt from the tax and license fee, related to the old law but many persons are of the opinion that the article referred to had reference to the present law. In order that the farmers of our county may know the facts, I would indeed be glad that you give publicity in your valuable paper to the fact that at the recent session of the Legislature we amended the Acts of 1929 and under the law, which will be effective on the 10th of this month, "farm trailers" and "farm semi-trailers" being operated between different farms and from the owner's farm to market, are exempt from the payment of any registration or license fees; in fact, the law to be quoted exactly, is as follows:

"(g) Trailer means every vehicle designed or used to carry its load wholly on its own structure and to be drawn by a motor vehicle.

"(h) 'Semi-trailer' means vehicles of the trailer type so designed or used in conjunction with a motor vehicle that some part of its own weight and that of its load rests upon or is carried by another vehicle.

"(i) 'Farm-trailer' means every trailer as defined in subsection (g) herein designed and used primarily as a farm vehicle.

"(j) 'Farm-semitrailer' means every semi-trailer as defined in subsection (h) herein designed and used primarily as a farm vehicle.

"(k) By 'operated or moved temporarily upon the highways' is meant the operation or conveying between different farms, and the operation or conveyance from the owner's farm to the place where his farm produce is prepared for market or where same is actually marketed and returned.

The exemption applies, however, only to those "farm trailers" and "farm semi-trailers" when the gross weight is less than four thousand pounds, and the law also provided that no "farm trailer" or "farm semi-trailer" with metal tires shall operate at a speed in excess of fifteen miles per hour. The law further provides that the trailers are not exempt if they are used for hire.

In short it may be said that farmers owning trailers of semi-trailers to use on their farms and to market their products and which are used principally as farm vehicles and which are not used for hire, are now exempt from the payment of registration and license fees, unless the gross weight is more than four thousand pounds.

Emporia, Kan., April 4.—All pupils of Santa Anna High School, Texas, will compete in the largest scholarship contest in the world April 6, when more than 350,000 high school pupils of almost every state in the union will participate in the Every Pupil Scholarship contest, sponsored by the Kansas State Teachers College at Emporia.

J. C. Scarborough, superintendent of schools, has ordered 384 tests and record forms to be used in the contest.

The Every Pupil contest does not limit competition to a select few, but affords every pupil an opportunity to participate. Groups, as well as individual winners, are selected. The contest is conducted by means of tests, which are administered to all pupils in the regular classrooms of the respective schools on the specified date. The results are sent to Emporia and tabulated.

Tests are given in physics, first year algebra, plane geometry, American history, first year Latin, second year Latin, clothing, foods, general science, Spanish 1 and 11, agriculture, bookkeeping and English.

**Texas and Texans**

By WILL E. MATS

**Penitentiary Problem Compromise**

It should be evident to an unbiased mind that the Texas legislature will never agree to remove the main penitentiary to a "point near Austin." The leading argument for a near-Austin location is that it would place it close enough for frequent visitations and inspections of State officials and where the products of the system could easily and cheaply be distributed to other State institutions.

Huntsville is only about 130 miles by direct line from Austin 65 from Houston and 100 from Dallas. Governor Moody favors relieving congested prison conditions by using a large prison force in road building. Why not compromise now by spending as much of the present appropriation as possible for building a unit for a modern industrial plant at Huntsville, and with the co-operation of the Highway Commission, using prison labor to construct first-class highways from Huntsville to Austin and Dallas? The road to Houston is already good.

To get to Austin it would only be necessary to fill in gaps from Singleton to Bryan and from Lexington to Elgin and build the road already designated. Dallas can be reached on an almost straight line by the designated Federal and State highway through Madisville, Fairfield, Corsicana and Ennis, most of which is yet unbuilt.

Huntsville already about an hour and a half from Houston, can thus be placed in about three and a half hours of Austin and four and a half hours of Dallas over good roads by bus and truck, many intermediate towns and a large rural area would be benefited; penitentiary congestion would be at least temporarily helped; Huntsville would be happy, conflicting interests could find no cause for complaint, and a fine start would be made in converting the old prison into a modern plant at the least expense.

**Nueces County Diversification**

Although Nueces county, with 123,703 bales, leads the State, and probably the world, in cotton production, its newspapers are not especially proud of the record and are preaching diversification, evidence of which is now seen on every hand.

Robstown alone has shipped over 400 cars of vegetables this season, shipments reaching as high as 75 cars a week. From Odem a solid trainload of radishes, 17 carloads, and said to be the largest shipment of radishes ever made, recently went North, having been concentrated at Bishop, Odem and Robstown.

In adjoining San Patricio county, Sinton, Taft and Gregory are making larger vegetable shipments than ever before. The crop of radishes, which was grown in about 30 days, has netted growers more than \$20 an acre, some crops selling for \$40 an acre ungathered in the fields. Co-operation is working wonders in vegetable growing, and marketing, not only in that part of Texas but throughout the State.

**Valley Vegetables**

Practically all evidence of the January frost in the lower Rio Grande Valley has disappeared. Most of the publicity of that section centers around citrus fruits the thousands of acres of which

are a delight to the eye, but just now trainload vegetable shipments, running during the season into many thousands of carloads, are making business lively and prosperity evident in the Valley.

Approximately 12,500 prospective homeseekers, according to railroad reports, have visited South Texas in Pullman cars the first three months of the year, and probably as many more have gone there in busses and private cars. This shows that Texas is attracting greater attention than ever before. All of the State is sharing in this influx of people from other States.

**Maine Potato Growers**

A trainload of Maine potato growers, accompanied by the Governor and bringing with them fine samples of their native "spuds," came to Texas the first week in April primarily to advertise Maine products, but they saw Texas products and Texas weather in such striking contrast with those of Maine that Texas will get a number of them as permanent citizens. Wisconsin dairymen recently brought a car of Wisconsin dairy products to Texas to show what that State is doing in the dairy business; the result being that a number of them have arranged to do their dairying in Texas in the future. Northern people like Texas weather and Texas hospitality.

**Uvalde Airport**

Private interests have acquired 500 acres for an airport site at Uvalde, said to be admirably adapted to the purpose. A flying school will be established in connection with the airplane landing field. Del Rio and Eagle Pass, nearby, will also have flying schools and regular air service will be maintained between the three enterprising West Texas cities.

**Highway Co-operation**

It is hard for a single town or community to put over a highway construction program unaided by other places. Highways are not planned now for a single precinct or county, but to lead from one definite point to another in a way to serve the most people. Where a road is to be designated and built, people all along the line must hold meetings, agree upon plans and routes, and work together unitedly to accomplish their purpose. Where this is being done in Texas, results are being obtained. This is a cooperative age. Whatever is to be done can be done best by cooperation. All Texans need to co-operate in every way possible in building up all Texas.

**Hotels Are Necessities**

A Texas town without ample and comfortable hotel facilities is out of luck. Tourists and business men avoid such towns. Occasionally they get caught in them at night unable to get accommodations, and forced to move on to some other place.

Can you imagine the feeling of auto travelers overtaken at night in such a place, when they have to leave in the rain over unfamiliar roads for another town some 40 miles away? This was the luck of at least a dozen motorists in an otherwise fine Texas town not more than two weeks ago. That town—and there are others—should get actively to work to secure a modern hotel large enough for its present and prospective trade.

**Henderson Bank Organized**

When the Farmers and Merchants' National Bank at Henderson closed its doors the latter part of February, business there received a temporary shock, but it didn't last long. Within a month a new bank organization was formed with Judge Charles L. Brachfield as its head and the new Citizens National Bank announces it has taken over all the assets and will pay all the liabilities of the closed bank. Not a depositor in the old bank has withdrawn his account and many new deposits are being made. That is the spirit that makes Henderson the splendid little city that it is.

**Freeze Gets Tomatoes**

The recent freeze around Jacksonville, Nacogdoches and other East Texas points destroyed from 25 to 75 per cent of the tomatoes that had been set out. Some will not be replanted but all available plants will be put out, and the hopeful tomato growers of East Texas say they will get larger prices because of the decreased acreage. A little cold snap doesn't discourage a modern East Texas farmer for any great time.

America has reason to be proud of its leadership in many lines, but one of these is not in the number of accidents.

**To The People of Santa Anna and Surrounding Communities**

We are taking this method of communicating with you since it is impossible for us to see all of you personally.

Since we have just recently taken over the membership of the Santa Anna Mutual Life Insurance Association of Santa Anna, Texas, which Association had quite a few members in Santa Anna and the surrounding territory, we desire to acquaint you better with us and our methods of doing business.

This Association was organized over seven years ago and we have paid many thousands of dollars in claims which fact can be attested to by the beneficiaries of our deceased policy holders. Also we have paid a large amount of money to our members personally because of accidents.

We are issuing Life Policies to good healthy people who are within the age limit, in denominations of \$1,000, \$2,000 and \$3,000; and we have the membership sufficient to pay these amounts. We are also issuing Accident Policies in the denomination of \$1,000.

We have qualified under the new law governing Mutual Aid Associations which now places us directly under State supervision and our Association will be examined at least once each year by the Commissioner of Insurance or a deputy from his office, just like the banks are examined by the Banking Department. The Secretary and Treasurer are each under a \$10,000.00 Bond with an Old Line Bonding Company; the bonds are filed with the Commissioner of Insurance. Every modern safeguard has been placed around this Association. Whenever we issue a policy, that means we can pay its full face value and if you hear any one making derogatory statements about our Association, he is either an ignoramus or is willfully slandering us and if such statements are made just ask that the statements be placed in writing and signed by the person making them; then send same to us and we will appreciate it and will make an example of such a person.

Please note that our policy holders will be assessed \$1.00 per thousand dollars of insurance carried, only as needed, in the Life Division and \$1.10 per thousand in the Accident Division, but only as needed. When the Mortuary or claim fund is used up in paying claims then we will assess again, but the card will show just how all funds have been expended since last assessed. It will show each person we have paid, the amount and what we paid him for. In this manner you will know just how your money is being spent. The \$1,000 policy holder will be assessed \$1.00; the \$2,000 policy will be assessed \$2.00; and the \$3,000 policy holder will be assessed \$3.00, on both the death and dues assessment, in the Life Division. Benefit assessments in the Accident Division are for \$1.10 as needed.

If you are not already fully insured for both Life and Accident Insurance, and not many people are, write us, Box 368, Winters, Texas, so one of our representatives may call on you.

Our records show that we have paid the full amount on every claim; most claims are paid before the funeral. Efficient service is your safeguard in this Association; we would be pleased to have you call on us at any time.

Ward School News

7-A NEWS

This week was examination week and most all made a passing grade. Our report cards will be handed out Wednesday.

We had chapel this morning and Brother West spoke to us. We all enjoyed his talk very much.

Our Valedictorian and Salutatorian will be determined after our report cards are given this time, and it seems as though this will be a hard, well-fought race.

7-B NEWS

This week we are glad to say that all of our class were neither tardy nor absent.

We are taking our principal, Mr. Lock's, advice and are trying to make this the best six weeks of our school term.

The seventh grade is planning for our graduation at the end of school.

The boys of our room will start practicing Monday for spring football.

The girls' baseball team played the High School Monday afternoon and we were beaten, but it is the first time in three games.

4-B NEWS

We are all happy—vacation time is so near, these warm days make us want to go fishing and swimming.

Most of us are studying hard trying to make good grades, we hope that we will be exempt from final examinations.

We are making a 'Good Health House' which we all are enjoying very much.

4-A NEWS

Our examinations have passed. We shall have finals in six more weeks.

School will be out May 15th. Some of the pupils will be glad and some of us will be sorry to leave our classmates.

We are taking a trip in Geography to Europe. Today we are in Venice, Italy.

7-B ENGLISH CLUB

Monday, April 7, the Seven-B organized an English club.

President—Samuel Everett
Vice-President—Max Price
Secretary—Merah-Brown
Reporter—Nell Bell

6-A NEWS

We are glad that school is nearly at an end. Our report cards are nearly filled up.

School will soon be out. It makes us glad enough to shout.

Let's all study hard and have A's on our report cards.

5th GRADE NEWS

We just had exams last week and most of us made pretty good grades.

We have been making slogans for our room. Some of them are 'Keep Clean Companions', 'Willing Workers Make Good Pupils'.

We went on a little picnic last Tuesday afternoon in our Geography class.

6-B NEWS

We had examinations last week. We all hope we made passing grades.

We are going to get a holiday Friday on account of the Teachers Institute at Brady.

Hulan Cooper left to go to East Texas.

We are still having a spelling match, side No. 1 is ahead. Novela Sharp is the princess and Howard Marshall is the prince for the May Fete.

APRIL FOOL PICNIC

Last Tuesday evening, April 7, 1930, a number of high school students, chaperoned by Miss Agnes Hays, Mr. Milton Binion, and Mr. and Mrs. A. Ben Oliver, met at the school building and motored out to Richardson's Crossing.

After everyone arrived a big fire was built. A member of the party brought a shocking machine and lots of fun resulted.

Several games were played, after which delicious refreshments were served to the following: Miss Agnes Hays, Mr. Milton Binion, Mr. and Mrs. A. Ben Oliver, Misses Mary Harriette Simpson, Velma Oder, Aletha Blewett, Rubye Rhea Bolton, Queenie Gregg, Christine Marshall, Eric Gregg, Marion Eeds, Aline Harper, Annie Williams, Maurice Kirkpatrick, Eva Williams, Ona Mae Smith, Hattie Faye Todd, Kathryn Rose Pinney, Cula West, June Bond, Geneva Atkinson, Geneva Caldwell, Messrs. Alton Pieratt, Audrey Bridges, Alton Blevins, Vernon Parker, Alpheus Boardman, Eugene Watkins, Elvy Riley, J. W. Quinn, Billy Futch, R. D. Ewing, Grady Lowe, Neal Oakes, John E. SENIOR PLAY

The cast for the Senior play has been selected and work is to begin this week.

'That's One on Bill' is a comedy full of fun and thrills. Watch for the date!

HOME ECONOMICS II

The Home Economics II class went on a field trip to Gehrett's Dry Goods Store Tuesday.

The object of this trip was to see and judge the layettes, as this is the subject the class is studying.

Mrs. Pinney very ably discussed the different garments of the layette and showed us different materials suitable for making the garments.

EDGAR ALLEN POE CLUB

The Edgar Allen Poe club met Monday, April 7, 1930. After we had discussed our examination papers, Miss Land handed out some subjects for impromptu talks.

The subjects were as follows: 1. The Funniest Thing That Has Ever Happened in the Hall—Clifford Wheeler. 2. A Place Where I Would Like to Go Fishing—Clifford Oder. 3. The Course I Am Planning to Take Next Year—Dagges Travelor. 4. What I Thought of General Science Before I Studied It—W. R. McInn. 7. An April Fool Joke—Alton Brandon.

THE DRESS OF THE MODERN GIRL

The modern high school girl dresses, indeed, differently from the young lady of yesterday.

The modern young lady gets up at a late hour, gets on the silk dress and high heel slippers, gently powders her school girl complexion, which is made more beautiful by the 'sprinkle of freckles' and runs half-way to school in order to not be late.

Friday, April 11, school will be dismissed as the Mid-Texas Teachers Meet will be held in Brady on that date.

SENIORS MEET

The Seniors met Monday afternoon to take measurements for their caps and gowns, to order their invitations and diplomas, and to discuss getting their speakers for the Commencement and Baccalaureate addresses.

WASHINGTON, D. C., April 7.—Because of the increasing number of automobile fatalities and believing that the question of highway safety needs special emphasis in the agricultural regions, the National Grange, through National Master L. J. Taber has announced it will again this year conduct a highway safety essay contest.

It is expected that a material increase of interest in the safety campaign will be evoked through out all subordinate granges as the subject chosen lends itself distinctly to the Grange program of safety and it is expected that some valuable suggestions will be forthcoming.

to participate. First prize in the contest will be a trip to the National Grange Sessions at Rochester, next November, with all expenses paid.

Essays must be kept within eight hundred words. They must be written in ink or with a typewriter, on one side of the paper only.

We are missing our chapel programs as we haven't had one for several times.

Friday and Saturday the District Meet will be held at Brownwood in the track events.

They say that the next war will be fought in the air and that is where the settlement of the last one happens to be now.

Just one century ago the competition for traffic on the stage coach lines between Boston and Providence became so keen that passengers were carried free and provided with a dinner and a bottle of wine each.

It's wise to choose a SIX!

After all, it is a perfectly simple matter to decide which automobile to buy in today's market.

First: Which car gives the most for my money?

Second: Which car represents the soundest investment in satisfaction and pride of ownership?

In buying a low-priced car consider the following facts:

It is wise to choose a six-cylinder motor—for six cylinders are necessary to take out vibration and roughness.

The Chevrolet is a six. And yet it sells at a price that anyone can afford to pay.

This very low-priced car lasts longer, not only because of fine materials and oversize parts, but also because it is a six.

With all its six-cylinder smoothness and power the New Chevrolet Six uses no extra gasoline or oil.

Efficient design makes this possible—overhead valves—high compression power from any fuel—very latest carburetor—close-fitting, long-wearing pistons—crankcase ventilation—air cleaner.

Chevrolet economy is also the mark of Chevrolet sincerity in manufacture.

Chevrolet valves are readily accessible and adjustable. This saves replacing valves, and also makes it possible to preserve the efficiency of the engine.

A similar example is found in Chevrolet's molded brake lining—reducing the necessity of frequent replacement, and consequent expense.

Furthermore, there is a rear axle inspection plate on the Chevrolet.

See your nearest Chevrolet dealer today and drive a Chevrolet Six. Ten minutes at the wheel will show you what a difference six cylinders make.

Table with 2 columns: Model Name and Price. Includes The Coach, The Coupe, The Sport Roadster, The Sport Coupe, The Club Sedan, The Sedan, The Special Sedan, The Light Delivery Chassis, The Sedan Delivery, The 1 1/2 Ton Chassis, The 1 1/2 Ton Chassis with Cab, The Roadster Delivery.

This makes it unnecessary to take the axle apart to examine or clean it.

The new Chevrolet Six is full of such evidence that true motor car economy comes from modern advancement and refinement.

Like the finest cars, the Chevrolet Six provides the comfort and protection of four springs controlled by hydraulic shock absorbers.

With low suspension and extra wheelbase, the Chevrolet Six has excellent proportions.

Its impressive front view is distinguished by the genuine honeycomb radiator, another mark of modern cars.

The gasoline tank is in the rear, for safety and finer appearance.

Chevrolet beauty instantly says 'Body by Fisher'—costly car style, with the permanent quiet of Fisher composite steel-and-wood construction.

Body by Fisher also gives you a genuine non-glare windshield, adjustable driver's seat, more space, deeper and wider cushions, clearer vision, finer fabrics and fittings.

There is just as much extra value everywhere in the car. BY ANY STANDARD the Chevrolet Six is the greatest value in the low-price field.

It is wise to choose the Chevrolet Six with its six-cylinder valve-in-head motor... with full scientific equipment... with its Body by Fisher... with four long semi-elliptic springs, long wheelbase, low suspension, rear-mounted gas tank, honeycomb radiator and all the other features of this day and age.

**CROP PROSPECTS FOR TEXAS ARE REPORTED TO BE EXCELLENT**

DALLAS, April 10.—The crop map of Texas for the month of March, as reported by the Public Relations Department of the Southland Life Insurance Company, is generally spotted. Prospects, in general, are excellent—perhaps more so than they have been in years. In some communities, however, the planting has been seriously hampered by dry and unseasonable Spring weather. In others, strangely enough, the opposite is true—it has been far too cold and damp. Divided as to communities, these reports are indicated as follows:

Northwest: conditions very good with spotted dry places in Southern portion, and slightly cool. North: from "fair" to favorable, with good season in most places although cool in spots for corn growth and cotton planting. Northeast: a number of counties report cool weather and rains have slowed up developments. East: mostly favorable; occasional reports of cool weather and rains. East Central: spotted, though generally favorable; rain needed in several counties; some complaints of winds and cold. West Central: dry conditions reported generally although recent showers have helped situation; some counties badly in need of rain. West: all reports indicate need of rain; dry weather has seriously hampered crops. Southeast: generally favorable now, but late spring and excessive rains have

retarded activities. South: generally favorable except that some northern counties report rains and cool weather have delayed work; warm weather needed.

One of the most encouraging aspects of the entire situation is that there are certain indications that diversification finally has taken a real hold with farmers of Texas. Almost without exception, reports indicate far greater diversification of crops than ever before. More feed crops will be raised; the dairy industry is proving popular and profitable; poultry raising has become wide spread; and farmers, almost without exception, are apparently convinced of the wisdom of "raising their own food." Business conditions are decidedly more hopeful. Money is still tight, but in spite of these facts, income tax collections and other certain indicators have proven that money is available and that the recent stock market crash had but slight influence and did but slight harm in Texas.

The head of one of the State's largest financial institutions sums up the situations as follows: "Prosperity in Texas, greater than the State has ever known before, in the offing. With even fair crop conditions, Texas should be jubilant by the time these crops are harvested. And, if this is true, the State will find itself on the soundest economic basis it has ever known."

Santa Anna Form No. 6, Unit No. 5.

**NOTICE**  
 TO ALL OWNING OR CLAIMING ANY PROPERTY ABUTTING UPON THE HEREINBELOW MENTIONED PORTION OF NORTH SANTA FE AVENUE IN THE CITY OF SANTA ANNA, TEXAS, AND TO ALL OWNING OR CLAIMING ANY INTEREST IN ANY SUCH PROPERTY:

The Governing Body of the City of Santa Anna has ordered that the hereinbelow mentioned portion of North Santa Fe Avenue be improved by raising, grading and filling same, and paving with 6-inch Concrete pavement, the avenue hereinbelow shown as Unit No. 5; such Unit to be further improved by making and construction of such incidentals and appurtenances to the improvements expressly mentioned in accordance with the specifications therefor. Contract has been made and entered into with Joe McCarthy, Contractor, for the making and construction of such improvements. Estimate of the cost of such improvements for such portion of said avenue has been prepared and approved.

The said portion of said avenue to be improved, together with the estimated cost of the improvements for such portion of avenue, and the amount or amounts per front foot proposed to be assessed against the abutting property and owners thereof on such portion of said avenue are as follows, to-wit:

ON NORTH SANTA FE AVENUE, from its intersection with the East line of Second Street to its intersection with the West line of First Street, known and designated as Unit or District No. 5; the estimated cost of improvements is \$4,177.17; the estimated amount per front foot to be assessed against abutting property and owners thereof for curb is \$0.63; the estimated amount per front foot to be assessed against abutting property and owners thereof for improvements exclusive of curb is \$4.885; total estimated amount per front foot to be assessed against abutting property and owners thereof is \$5.515.

A hearing will be given and held by and before the Governing Body of the City of Santa Anna, Texas, on the 18th day of April, 1930, at 7:30 o'clock P. M., in the City Hall in the

City of Santa Anna, Texas, to all owning or claiming any property abutting upon said portion of North Santa Fe Avenue, and to all owning or claiming any interest in any such property. At said time and place all owning or claiming any such abutting property or any interest therein, shall be and appear and will be fully heard concerning said improvements, the cost thereof, the amounts to be assessed therefor, the benefits to the respective parcels of abutting property by means of the improvements on the portion of said avenue upon which the property abuts, and concerning the regularity, validity and sufficiency of the contract for and all proceedings relating to such improvements and proposed assessments therefor, and concerning any matter as to which they are entitled to hearing under the law in force in the City and under the proceedings of the City with reference to said matters. Following such hearing assessments will be levied against abutting property and owners thereof, and such assessments when levied, shall be a personal liability of the owners of such property and a first and prior lien upon the property as provided by the law in force in the City and under which the proceedings are taken, being the Act passed at the First Called Session of the Fortieth Legislature of the State of Texas, and known as Chapter 196 of the Acts of said Legislature.

Of all said matters and things all owning or claiming any such property, or any interest therein, as well as all others in any wise interested or affected will take notice.

Done by order of the Board of Commissioners of the City of Santa Anna, Texas, this 19th day of March, A. D. 1930.

**Resignation of Raskob Asked By Lynch Davidson**

HOUSTON, April 5.—"Texas Democrats should advance party harmony in this state and in the nation by nailing into their state platform this summer a broad, rough-hewn plank calling upon that piece of political misfortune, John J. Raskob, to resign as National Chairman," former Lieutenant Governor Lynch Davidson declared in a statement issued here today.

"The distinguished Democrat, Joseph Daniels, struck a flint of truth and touched spark to dynamite when he called on Raskob to resign last week," Mr. Davidson said.

"We are entering on the all-important task of choosing state and county officials. There are vital problems that call for calm, constructive thought, but we cannot have such thought while we still hear ugly echoes from that unhappy storm of the Summer of 1928. And those echoes will not die out so long as Raskob keeps his usurped post—keeps it to fight for liquor at the expense of Democracy."

"I saw the devastation of that storm at close range. As chairman of the Harmony Democrat's Organization of Texas, I worked with scores of loyal men and women to save our party from its wind and lightning. We worked hard for the nomination of a dry Democrat, suitable to all. That was over-riden by the false belief in some states that Al Smith was a winner. Still the party cyclone cellars could have held fast but for Smith's blundering appointment of the yet more blundering Raskob.

"Now Smith is shoved aside. The banner he so feebly bore has been taken from him. He will never get it back. But Raskob remains, and so long as he remains we know the storm clouds still loom on the horizon.

"When Smith became the duly chosen leader, I, along with many thousands of good Democrats who had fought his nomination, voted for him out of party loyalty. Other thousands believed the path of duty lay another way. All that is past. For the progress of our state the internecine warfare of that Summer must be buried and our people united in the folds of Democracy.

"Prohibition is firmly fixed in the Nation's Constitution and its friends need to stand guard at all hours to preserve its principles from the assaults of the Raskobs. Tammany Hall and its other enemies, those who claim law enforcement efforts are sufficient to perpetuate prohibition principles, but beg the question, or merely seek to serve their own purposes.

Smith was so deluged with water under an avalanche of votes that even his small campaign, but the ghost of some Tammany Hall candidate thunders. Texas Democrats may disagree about Smith, about some phases of the prohibition law, but not the such they can agree on.

"That this republican Raskob, who became a Democrat by repentance at the deathbed of his friend John Barleycorn, should seek another attack by pleading his spurious and suddenly adopted faith."

"He is hard of hearing," Mr. Raskob. Many hearts have tried to penetrate. Let Texas Democrats unite in a battle-squad, with party unity as its flag, that will set his ears ringing with a demand for his resignation."

An automobile club for persons above eight has been organized by Guy W. Brennan, president, one of the city charter members is included.

**Chas. F. Freeman**

Since in the course of mortal life our honored friend and beloved brother in Christ, Chas. F. Freeman, has passed on to that unseen land, where the souls of just men are made perfect, we find ourselves bereft of a trusted companion and counselor, whose presence and fellowship were a constant and unfailing benediction to us.

We feel a great loss at his going away, but we are not desolate, knowing that our separation is but for a season, and believing with the utmost confidence that he is better off having entered into the fullness of life that is promised unto the faithful.

Our sympathy goes out to the members of his family, to whom his departure would be well nigh unbearable but for the blessed hope of a joyful reunion in the "land" where we never grow old.

**MANY ANNIVERSARIES**

Upon first thought, or a look at the calendar, one does not place the month of April in the class of being full of anniversaries. It is not a red letter month as far as the calendar is concerned.

However, in history, the month is a most fateful one in American history as five of our six major wars began then, and the same month brought to a close, the Civil war and the assassination of President Lincoln.

Every American schoolboy, of course, is familiar with the story of April 19, 1775 and knows how Paul Revere rode along the historic highway and warned the patriots that the British were coming at daybreak under General Gage to destroy the supplies which were concealed near Concord bridge.

It was at Lexington, on the public square, in the early morning that the first blood of the Revolution was shed, and there the redcoats scattered the handful of minute men. The story of Concord was different, however. There the British met the first resistance of the war and were soon in retreat, a retreat which had become a rout before the soldiers got back to Boston. So it was April 19, 1775, which really marked the beginning of the history of the United States as a nation.

This April is the sixty-fifth anniversary of the ending of the civil war by the surrender of General Lee at Appomattox, and the sixty-fifth anniversary of the assassination of President Lincoln in Ford's theatre at Washington.

It was on April 9 that Lee surrendered to Grant at Appomattox, and this date locked three days of being four years from the date when the Civil war began.

President Lincoln was assassinated on the fourteenth day of the same month and grief succeeded the rejoicing that had come with the end of the war.

Since that date April has brought us two more wars, the Spanish-American struggle which commenced April 19, 1898, and our war with Germany which began April 2, 1917.

Another leads the world in the production of fine wool.

**Business Before Politics**  
The only reason why political years harm business is that too many people have single-track minds, and get so excited about politics they neglect business. If one-half the thought, the talk and the energy given to politics in Texas could be diverted into business and industrial channels, this State would have almost as much development as it should have. Business should take first place.

**Building As A Whole**  
When a town or community decides that it is self-sufficient and not dependent on the rest of the country its progress stops. There can be no real life without outside contact. There are isolated sections of this country that were among the first to be settled, but that now are not as good for habitation as when first occupied. There are ghost towns, now dead beyond all resurrection, scattered here and there among those that have been kept to the advantages of keeping up with the times. No place can lag behind its neighbors and keep up its pride or influence. Watch the march of those about you and keep step with Texas. It's great to be a Texan, if one knows his State well enough to appreciate it.

After all, maybe justice did obtain in the respective trials of Messrs. Fall and Doheny. Doesn't the law hold only the seller and not the consumer guilty?

I know a nice little Texas city that has recently lost two families because local groceries that depend on local patronage for their support, are selling bread baked in nearby cities rather than buy it at the same price from either of the two home bakeries that makes as good bread as the city bakeshops. Bad, isn't it, that some merchants expect everybody except themselves to help build up a town, while they feel privileged to tear it down?
