SANTA ANNA, COLEMAN COUNTY, TEXAS, FRIDAY JANUARY 28, 1938

NUMBER 4

"He Profits Most Who Serves Best"

SMOKE

FROM THE MOUNTAIN

We got informed in no uncertain terms Friday morning by Maurice Bell that we got entirely the wrong list of business folks which we named as charter members of this early morning sidewalk cleaners group. He said if we weren't so lazy and slept so late we would know that he, W. R. Kelley, J. L. Boggus, Hunter Bros, and Arthur Turner and others were the early birds on this sweeping business and gave us the impression that we were lazy and wrong. All right, we take our flag down and surrender. Maybe someday, we'll set the alarm a little early and get up and see those industrious folks for ourselves.

Santa Anna used to be called the "Mountain City." Now it has a new name, "The City of Darkness." Residence district lights were turned off by the city officials by a voted action some days ago leaving our streets and residences prey to burglars and our citizens to physical injuries when pedestrians attempt to venture out at night without a flashlight or lantern. The action was taken to curtail city expenses, according to the statement by the officials, and the purpose was commendable. But if comments of business men and residents are to be considered, the citizens earnestly feel that expenses should be cut some other way.

It seems a dangerous "saving" when safety of the citizens homes and property and physical safety is endangered.

The News is inviting the readers' comments in regard to this. Write us your opinion. DO YOU APPROVE OF THE CITY LIGHTS BEING TURNED OFF? Your fellow citizens and your city officials, also, will be interested in your opinions.

Walter Woodward Enters Race For Lieut. Governor

Coleman Attorney Makes Announcement in Dallas

Walter Woodward of Coleman, former State Senator, announced his candidacy for Lieutenant Governor in Dallas recently after conference with former State Senator Moore of Greenville who will be his campaign manager. Campaign offices will be in Dallas.

Woodward was born in Coleman and was in the State Senate 10 years and was once Assistant Attorney General. He has served as county attorney of this county. As delegate to the National Democratic Convention in Houston, he seconded the nomination of Senator Joe Robinson of Arkansas for Vice President. As vice chairman of the Texas delegation to the Chicago convention, he cast Texas' forty votes for President Roosevelt.

The former senator was president of the Texas Bar Association in 1936-37.

Another reason why people are not interested in what you say is because you are not interested yourself.

Prairie Dogs and Fleas Some of Most Permanent Inhabitants of Santa Anna

By Miss Luella Chambers

Between our house and the Santa Fe Railroad was a prairie dog town fifty years ago. We liked to watch them but when discovered it was not the place for people as the dog town was full of fleas. Mr. Stephens, who was the Santa Anna agent, would go around and dig something in the holes and throw in a lighted match and the fleas would fly out. The fleas were another matter. We would sweep our floors and use insect powder in little piles and leave it all over the place and leave it all next day. At night we built little fires in the yard of dry weeds and the fleas would fly out.

Local Boys In Abilene Boxing Workouts Tues.

Two Santa Anna boys, Leroy Nichols and L. V. Cupps, entrants of the Golden Gloves tournament in the Brownwood district went to Abilene Tuesday night for matches with Abilene boxers. Both lost their bouts, but showed up well according to news reports.

Abilene's boys made a better showing on the whole than the Brownwood District, but several Brownwood youths won decisions.

Cupps' opponent was Noah Valadez, San Angelo Mexican, who was effective with his infighting.

Nichols had the upper hand in the first two rounds, but his opponent, Kentucky Smith from McMurry College, received the decision after a strong finish.

Scott Jackson, high school teacher from Santa Anna, accompanied the boys to Abilene.

Santa Anna Can Fight Infantile Paralysis With An Iron Lung Like This One

With the President's Birthday Celebrations being planned over the nation, extra drives are being made to purchase iron lungs to fight paralysis. Although the above picture was taken at Baylor Hospital, Dallas, the scene is typical of one which might be taken at the Santa Anna Sealy Hospital where an iron lung has been installed since early in December. The Lung was purchased through the contributions of citizens of this and other communities in a campaign begun by the local newspaper.

Sheep Theft Case Continued Feb. 2

COLEMAN, Jan. 25.—Second of nine charges of theft of sheep from the Freeman Ranch of near Valera will be heard in District Judge O. L. Parish's 119th Judicial District Court here Wednesday morning, February 2, County Attorney W. B. (Billy) Baker announced today. Mr. Baker and Weaver Baker of Junction last week assisted District Attorney A. O. Stroman in the trial of the first of the nine indictments against Joe Bell, who resides near Valera and whose place adjoins the Freeman Ranch.

The jury that heard the first trial last week found Bell guilty and fixed his punishment at three years and seven months in the state prison.

In last week's trial James (Pete) Freeman of Coleman testified he was sole manager of the Freeman Ranch, that he had missed 500 head of sheep at round-up time during the latter part of last December, that he found about 30 head of sheep bearing his marks in Bell's corral, and that he had found a slip-gap down between his place and the Bell place.

Bell testified he had purchased the sheep from a San Angelo trucker, but did not produce the trucker in court.

Bell was arrested about the first of the year by Sheriff George Robey and Cully Cowser, special officer for the Texas Sheep and Goat Raisers Association.

Poll-Tax Deadline Monday

Poll tax payment deadline is Jan. 31 and if citizens want to have a voice in who will govern them for the next several months or years they must pay their \$1.75 tax by Monday of next week.

Urging all citizens to vote, Gov. James V. Allred made a special appeal to all "first voters" of the state to get their exemption slips or pay their tax and begin to take a part in their government. The proclamation issued to these first voters by Allred this week said that less than one-fifth of the half million "first voters" of Texas cast a ballot in the last presidential election.

The appeal to pay your poll tax is made, however to older voters as well, many of whom do not pay their tax because of forgetfulness or indifference rather than because of financial disability. The man or woman who can pay his tax and does not is not only depriving himself of a rightful privilege of selecting his government officials, but is really neglecting a duty to his city, county, state and nation when he does not cast his or her ballot.

Treat yourself square by voting this year. And get to the tax window before the last minute rush is on. It will help the officers in charge and will save you many hours of waiting.

J. B. HILTON TO RUN FOR RE-ELECTION AS DISTRICT CLERK

TO THE VOTERS OF COLEMAN COUNTY:

As a candidate for re-election to the office of District Clerk of Coleman County, the best evidence of my qualification is the service I have rendered as your District Clerk, and it is with pride I point to the manner in which I have conducted the affairs of this important office. The office of District Clerk is one which requires dependability and a full knowledge of keeping the records of the courts in good order. One mistake in keeping the records in the District Clerk's office might be very expensive to people who have law suits and to the county, and it is with a degree of satisfaction that I can point to my record as not having committed any errors that have injured any person who has had business in the District Court. I have kept the records carefully and have done my very best to accommodate every person who has business in my office.

Believing I am qualified and that I can continue to serve as your District Clerk in a manner entirely satisfactory to all people who have business with that office, I solicit your vote and influence. Of course, I shall try to see as many people as possible during the coming months and shall be glad to account for my stewardship while serving as your District Clerk.

I feel it has been a great honor to me to have been elected District Clerk of the best county in Texas, and if re-elected, will expect to show my appreciation by making you the same kind of Clerk I have made in the past and to try my very best in this way to show my appreciation for the high honor you have paid me in the past.

Yours very truly,
J. B. HILTON

JOE B. FLORES IS CANDIDATE FOR OFFICE OF PUBLIC WEAIGHER

To The Voters of Precinct No. 7 of Coleman Co.

"In making my announcement as candidate for Public Weigher, I will say that I have served as your Public Weigher in the past and feel that most of the voters of this Precinct know me.

I was first elected Public Weigher in 1922, taking the office the first of January, 1923 and served you as Public Weigher for 4 terms or eight years. In 1930 I did not ask for the office and therefore was not defeated. Now I am asking again for the office which you know I am qualified to fill and if elected, I will give my time and my best efforts to sincerely perform the duties of the office to the best of my ability.

It is my intention to see or meet all the voters and others between now and election. All of your support and influence will be appreciated.

In Brownfield

The pastor is in a Sunday School Enlargement Revival with the First Baptist Church of Brownfield this week. The first Sunday was a victorious day. About 100 people went out on the census campaign. There were two additions to the church and two other professions of faith. Monday on the check up of not at home families another accepted Christ. This was a young mother of three children. There are white harvest fields in this town of above 4000 population. People are pouring in from everywhere each day and houses, tents and trailers are scattered all over the place. The Sunday School should run 600 or more in attendance. It is now less than 200. The goal for next Sunday is 400 in attendance.

Looking Toward Enlargement

Santa Anna has had many people moving in and out recently. Churches need to know the new comers and invite them to services. Our annual religious census here will reveal many who are lost, or unenlisted Baptists. We are contemplating this Enlargement efforts for the week beginning Feb. 6. Let us all keep that day clear.

We Appreciate

Rev. Cecil Strickland of Whon supplying the Baptist pulpit last Sunday morning. Mr. Louis Newman was the speaker for Whon Sunday morning. Brotherly cooperation is being shown in a fine way.

70% OF ALL ILLNESS CAUSED BY WHAT YOU EAT

MAYBE you can't smell or taste the spoilage; but does that mean it's not there? A noted Eastern hospital says: "70% of ALL ILLNESS is caused by what you eat or drink!" Why does so much of this illness come in winter? Well, remember this: it's always summer, in your kitchen. At 70 degrees or higher, food and milk spoil fast. And milk is most dangerous just before it tastes sour!

Your family deserves the protection of Servel Electrolux—the Gas or Kerosene refrigerator—winter and summer. NOW, Servel Electrolux is the one refrigerator which supplies steady, unvarying cold. And it won't dry out meat and leftovers. Nor wilt vegetables. Servel Electrolux is different from all others—a different kind of refrigerator. It has no moving parts. Nothing to wear. No noise—ever. A tiny gas or kerosene flame takes the place of all machinery—and operates here for as little as 3 cents per day! A small down payment puts Servel Electrolux in your home; savings pay the rest. Why not start them NOW?

Reader's Column

SOMETHING TO THINK ABOUT

Many of you will recall the organization of the West Texas Chamber of Commerce at Fort Worth. As your representative as Secretary of the Santa Anna Chamber of Commerce I attended that meeting and saw great possibilities for it then, as now. Under the organization West Texas was taken as County Units, which cut us out, as I was only authorized to represent Santa Anna. Later the Units were changed to towns and I am very proud that Santa Anna was able to become affiliated. I am also proud to have been your director for a number of years, and to have had a very substantial following during the time. The managers and directors of the West Texas Chamber of Commerce, in most cases represent the highest, cleanest and most unselfish body of men in the entire West. Men who are willing to give of their time and means to further the interests of West Texas. Some of you will recall the fight put up, when the railroads undertook to move Common point territory back to Ft. Worth. The W. T. C. of C. carried on and won that fight making an estimated saving in freight for Coleman County of two hundred thousand dollars a year. Many of you will also remember the fight put up by the W. T. C. of C. against the State Water Board when Brownwood solicited their aid in getting their lake. Before that time, even a land owner could not legally impound the water that fell on his land. There were three meetings and our Directors attended all of these at their own personal expense, and many had no personal interest in the Colorado River Watershed. However, the average West Texan believes in justice. At one time our County Judge and County Engineer went to Austin before the Highway Commission to get our road to a connection with Brady. They were turned down and were fixing to come home when Frank Bennett with the W. T. C. of C. got into Austin and prevailed on them to stay over. The next day Bennett succeeded in getting the department to reopen the case. He told the department that it was not only Coleman County, but the W. T. C. of C. and the entire north west portion of the state that wanted a more direct connection with Austin and San Antonio. This was the beginning, carried on by the W. T. C. of C. of our splendid highway to San Antonio, over which

hundreds of cars and trucks pass through our city every week. For these services alone the cost to Santa Anna for membership fees in the W. T. C. of C. is only a drop in the bucket compared to what we and every other town in W. T. C. of C. territory derives. The building and advertising the West Texas Chamber of Commerce put on in Fort Worth is a unique and outstanding advertisement for West Texas and attracted thousands of visitors. That service is merely getting under way when you realize what can yet be accomplished.

For instance, the East, South, and West Texas Chamber of Commerce jointly can have a law passed that any corporation, firm or individual doing business in the state must buy or sell the same commodity in each place they do business, at the same price, plus or less the cost of transportation. All the towns and cities in the state should be interested in this.

The manager of our glass factory told me that when they started making fruit jars the price in their territory was reduced to the cost of making them.

Turkeys sold for 2c a pound more at Cross Plains than they did at Santa Anna to the same purchaser.

Gasoline in each town where there was a pump belonging to a new refinery on the T. P. selling by all companies at 10c per gallon, and the same companies selling at 16c on the Santa Fe, and in towns where the new refinery had no pump. Trucks from a big concern going in Dublin territory (where they built an up to date creamery) and paying more for cream and milk than they pay elsewhere, if no competition. As before stated, West Texas believes in justice and there is yet lots for able hands to do.

Think of Texas with six million head of sheep shearing about ten pounds of wool, dirt and grease (approximately half wool) which we ship east for scouring. Thirty million pounds of dirt and grease to be freighted each year—of course this freight is not paid by the sheepmen—"maybe." At any rate, why not scour this wool in Texas, where there is fuel that can be piped as far east as Chicago, for which we are paid

practically nothing in comparison to what it would be worth if utilized at home? Not only would this save shipping our dirt and grease, but would also bring factories for making woolen goods, which would allow tailor shops to operate in smaller towns, thus saving express charges of about \$2.00 on made to order suits.

It is apparent that the East, owning the railroad bonds and debts, is interested in hauling everything by the railroads. Why are practically all the glass factories shut down in Texas? There seems to be plenty of money for concerns who can buy and shut down these enterprises and give labor and rail haul to the east. It would be pertinent to ask where this money would come from to do these things.

If the people were secure in their investments, the towns and cities could own their own municipal plants and they would invest their money in various enterprises instead of putting it in the banks, that they might send it to New York, and invest in Bankers Acceptances, paying about one per cent. While if the patron and depositor of the home bank needs a little money to wind up the year's business he may be able to get it for ten per cent.

In driving down town I was sorry to see a lack of family and civic pride in not completing fully our beautiful new street which came to us entirely free. Nor can I see why our town should be in utter darkness, inviting thieves to break into our stores or residences. Crime does not flourish in the light. I notice the little boys playing ball, one will pitch a while, then catch. Our trouble, it seems to me, is, we all want to catch, and some of these days we will realize that the good roads, automobiles and beautiful afternoons are taking the pitchers out of our town.

I regret that I will no longer be your Director in the West Texas Chamber of Commerce, but trust you will give the one who is, your hearty support.

It is your best bet, and always remember, "What Texas makes, makes Texas."

FRED W. TURNER
P. S. I am up a great deal at night and notice the cars

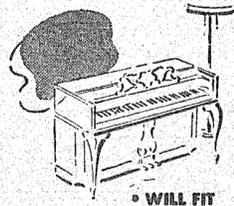

passing at all hours and can imagine a stranger running into our main street thinking he has hit a tunnel.

FORD OFFERS TWO NEW CARS and keeps their PRICES LOW

Right — the Standard Tudor Sedan 60 or 85 horsepower
Below — the De Luxe Fordor Sedan 85 horsepower

THERE are two new Ford cars for 1938—the De Luxe and the Standard—differing in appearance, appointments and price—but built on the same dependable Ford chassis. Both bring you the basic advantages of a V-type 8-cylinder power-plant—smooth performance and compact design. The De Luxe Ford has the 85-horsepower engine. The Standard Ford provides a choice of 85 or 60 horsepower. Both new cars are economical to operate. The Standard, with thrifty "60"

engine, costs less to run than any other Ford car ever built. And both new cars are priced low. Low price, like economy, is a Ford tradition. Ford founded the low-price field 30 years ago and keeps Ford prices low. The De Luxe Ford costs slightly more than the Standard Ford, but provides more style with extra room in the closed sedans. Both cars, in proportion to price, represent unusual values. Both are built to the same high standard of mechanical excellence. There's a dealer near you.

Finders Are Not Keepers!

Have you found anything that didn't belong to you since school started? If so, what did you do with it? There has been a great deal of confusion among the student body this year concerning the inability to keep possession of personal property such as ink, pencils, fountain pens, paper, etc.

Of course, there are two sides to the question as in any other—the students are careless in keeping track of their things, but also, there are those who are careless in returning an article when it is found. You will find that there is a "lost and found" box in the office, and, also, there has been added to the school paper a "lost and found" column. It is your duty to try your best to find the owner of any article that you might find. If each of you will practice this, there will be fewer lost articles.

Lions Honor Students

Six high school students were honored by the Lions Club Tuesday, January 25, at their regular luncheon.

The students were Mary John Wade and Mary Feild Mathews, freshmen, who tied for highest number of points; O. L. Cheaney, sophomore; Dorothy Sumner, junior; and Louise Oakes and Ada Lois Newman, seniors who also tied for highest number of points.

The Good Audience

Did you ever stop to consider how much a good audience means to a speaker? If you haven't this is a good topic for you to think about. Part of a good audience is nothing more than showing that you have had good training.

Having a good audience means much to the speaker. It means half of his success he is undertaking. Of course the subject chosen and the way it is presented counts a great deal in his success, but these factors would not amount to much unless the audience were attentive.

A good audience will enable the speaker to talk with more ease. The speaker will feel that at least some of his points are being absorbed.

Bad audiences are generally caused by forgetfulness. One member of the audience may whisper something to his neighbor. He does this because he isn't paying attention. If this occurred all over the audience the speaker would have a rather difficult time in putting over the contents of his talk.

It isn't hard for anyone to pay attention to the speaker and you might be surprised at what you would hear. If you aren't interested in the topic, at least be courteous enough to remain attentive.

Students, let's learn to be good listeners.

Band Adopts New Plan

The band master for Santa Anna High School Band decided to adopt a new system for this semester. Printed forms, on which the pupils are to keep a record of the time they practice each day, were sent out last week. Letters of explanation were sent with them so that parents would understand the practice sheets. At the end of each month these sheets will be turned in. They must be signed by the pupils' parent or the practice time doesn't count on their grade.

This new plan is being inaugurated in order to encourage band members to practice more. Mr. Wallis hopes that the extra practice will improve the band.

MEN...
 if You Promised a Penthouse
 stay out of the Doghouse
 by giving her
Electric Cookery

Men, if your wife had illusions of grandeur when she married you... worshipped you as a super-man... then remember this: *A disillusioned feminine heart is more to be feared than a woman scorned!*

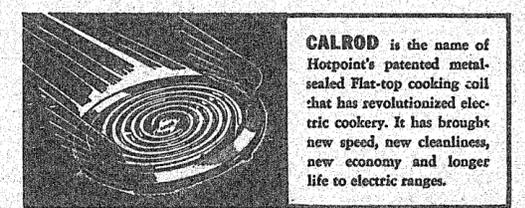

If she expected a penthouse, you're apt to land in the doghouse... unless...

All-electric houses no longer are illusions. And they're grand! Penthouses, of course, are rare in West Texas. Instead, we have electrified homes. They're better. And, fortunately, any home has all the grandeur of a penthouse if equipped with the right kind of servants... Electric Servants. Electric cookery, refrigeration, dishwashing, water heating, sweeping, entertainment, food mixing, coffee making, sun tanning and clothes washing—all make every home equal to the luxurious penthouse... a feminine dream born of fiction and suppressed desires. So, men, don't disillusion your wife by condemning her to another year, midst hated kitchen drudgery.

WOMEN...
 Why Wait Until 1960
 to Cook Without a Fire?

It was recently predicted that "cold" or "magnetic" heat would be practical for general cooking purposes about 1960. It was demonstrated how an egg can be fried without fire by using high frequency current magnetically transferred to the skillet from an electric coil. That is "cold" or "magnetic" heat.

And that, ladies, is merely another form of *Electric Cookery*, which today is practical and available in every home already having the many other advantages of Electric Service!

CALROD is the name of Hotpoint's patented metal-sealed flat-top cooking coil that has revolutionized electric cookery. It has brought new speed, new cleanliness, new economy and longer life to electric ranges.

In the Picture: With an electric range, a bacon-egg-toast-coffee breakfast can be prepared in less than 10 minutes. Fix bacon and toast in oven while eggs fry and coffee percolates. Electric fuel for this type of breakfast costs less than three cigarettes.

1. You have five cooking speeds in 1938 models. Use *super speed* to heat skillet. 2. Turn switch to *half speed* for frying... or for fast boiling. 3. A second egg may be fried with switch turned to *quarter speed*... an ideal heat for steaming fresh vegetables. 4. A delicious breakfast without smoke or fumes in kitchen or dining room! For other meals, you have two other *low speeds* for economical cooking of foods.

Unexpected Exposure Football Boys To Get Sweaters

By A Freshman

Sue and I were tickled into goose pimples when Uncle Andy and Aunt Jean invited us out to their farm. Sue rarely giggles, but when she wants to be annoying she giggles and "goes on" like Katie Armstrong. Katie's a swell kid except for her eternal giggling. If there is anything I hate, it is a giggling girl—but, dear me, why should Sue be so silly when we were just fixing to embark on a hilarious adventure. At least, it was funny for Sue, I mean.

Anyway one Friday afternoon we caught the bus for Lakeview, which is about three miles from Uncle Andy's farm. Uncle Andy met us at the station with Sal and Sade and the cotton wagon. The Model A wouldn't work except the first frost in November. Except on rare occasions, I mean.

The roads were simply horrible! There had been a light snow and it had melted and left the road in a whale of a mess! To add the last straw, a jolly old Texas norther had blown up. Despite the jolts and black and blue spots we got in that beastly wagon, our noses, ears and fingers were frozen by the time we reached the farm.

Of course, Sue was enjoying the ride immensely, meanwhile inquiring the health of Roderick and Royal, Jane Ann and Alma Lou (they are cows) and all about the rest of the barnyard gentry!

Aunt Jean thinks that there's nothing like a good old-fashioned parlor fireplace, despite the fact that you roasted in front and froze behind. Anyway, it felt good after that terrible ride we had completed. The supper was grand that night! It consisted of hot biscuit, ham and gravy, plenty of butter and good old molasses syrup. (It makes me hungry, even now.)

Next morning I awoke to find a heavy snow (for this far south) had fallen. It had an ice coating, too! I started outside and slid about ten feet, ending up in a sitting position! After I'd decided no one was looking, I gingerly examined all my bones to see if anything was broken. Fortunately (or unfortunately perhaps) I was still all together. I managed to jump, hop, skate and slide back to safer territory. Anyway, I was able to devour a large portion of the delicious breakfast Marcinnella had prepared!

Then Sue disappeared. After possibly thirty minutes she returned, dragging with her four barrel staves and a big square of leather. We sandpapered the confounded staves until all I could hear, see, smell or taste was sandpaper and sawdust. In about two hours, Sue decided we could stop sandpapering and tack a strip of leather on each stave. After breaking my pet fingernail and smashing my thumb twice, my two staves were tacked securely in place.

All Sue could find to wax our skis (for the staves were transformed into third class skis) was some tallow and a lump of sealing wax. The latter, Marcinnella declared, would never do! Sue greased the wonderful things while I nursed my thumb and cursed and discussed the dratted hammer. Then she dragged out some long handle unmentionables, that Uncle Andy had acquired in the army. They looked sort of like Russian palamas.

She insisted that I put them on for ski pants. Right there was where I objected. I let Sue coerce me into wearing them, in lieu of nothing better. I have never been very enthusiastic about Sue's diabolical ideas, but this was worse than ever. All the time we were climbing to the top of the little hill in Uncle Andy's back pasture, my heart had been slowly sinking. As we reached the summit it hit my feet and they felt like lead.

Mechanically, I slipped on my skis and grabbed one of Sue's trusty broomsticks. I sailed down the hill with a terrific speed. (I'll always believe Sue used a little moral persuasion from behind.) As everything had not been covered with snow and sheep are close croppers, Uncle Andy had turned several out in the back pasture (including Royal, Roderick and the rest were in the upper pasture.

Now, it remains a mystery to this day why Royal should leave a perfectly peaceful and undisturbed flock and charge a poor defenseless girl. But the

Pictured here is the chairman of the band, in the throes of a "hot" swing number. The organization is directed by Prof. Don Gillis (right); Miss Frances Buster (left), sophomore coed in T. C.
