SANTA ANNA, COLEMAN COUNTY, TEXAS, MARCH 5 1920

NUMBER 9

Interesting Letter From Coleman County Judge

Mr. Grady Adams,
Santa Anna, Texas.

My Dear Sir:—Enclosed you will find the statements of the Road Bond funds of Commissioners Precinct No. 2 of Coleman county, Texas. From this statement you will see that your Precinct is getting more than \$500.00 per month interest on the proceeds of their bonds. In fact we have paid all commissions allowed by law for receiving and handling this money, paid the engineers for their work, paid the first installment of interest, which was \$2750, we taxed the taxpayers this \$2750 and yet we have almost as much money on hand to spend on the roads when the conditions get right, as the people voted, and it is increasing at the rate of \$500 per month. I feel confident that labor will be a great deal cheaper in the next few months.

I certainly trust that the people will vote the additional bond issue. As it is you only have enough to spread out over several miles of road and fix none of it to last. Perhaps you know of the \$24,000,000 that the federal Government is to give Texas, late this fall or early winter. At that time a great deal of mon-

ey will be available for the counties as Federal aid. Of course that means that we must build a standard road. And in my judgement, a Standard road is the only road that is worth the money. If money is spent for graded road, that cost only a couple of thousand dollars per mile and then the first big rain we have, it is as bad as it was before. I consider that the money was wasted. Yet if we build a good standard road that cost six to ten thousand dollars per mile that the people can travel over 365 day out of the year regardless of weather. Then I feel like that when we have got value received for our money regardless of cost.

I believe that if you business men will go before the people of your precinct, and show them the benefits to be derived out of this kind of a road, that it will be an easy matter to vote the additional bond.

I hate to begin the expenditure of the present \$100,000. Because it makes no difference how it is spent; it is money wasted.

With best wishes, I am
Very sincerely yours,
J. C. Mathews.

Facts on The Road Bond

February 22nd, 1919 this Commissioners Precinct voted Road Bonds to the amount of \$100,000.00. Due to unavoidable delays in getting Bonds approved and sold this money did not become available until the fall of 1919.

Immediately after the Election the different Councils of Defense of this Precinct met in Santa Anna and appointed a Citizens Committee to assist Commissioners Court in spending the Bond money. T. R. Kennedy, W. A. Featherstone Jno. Williams, E. W. Gill, J. R. Pearce and G. E. Adams being committee selected and asked to serve with Mr. Curry our Commissioner.

Not waiting for the Bonds to be sold this Committee recommended to the Court that Engineers be employed, this was done and we now have 57 miles of road surveyed and Blue Printed ready for Contractor and the Engineers are ready to survey balance of proposed roads just as soon as Committee decides on kind of road wanted as most of road not surveyed is designated State Highway.

After receiving bid on the 57 miles surveyed Committee found out that it would be impossible to build the 100 miles of road wanted and promised in the Election of February 22, and as every man on the Committee is a practical Business Man as well as heavy Tax Payer of this Precinct, they decided that the best way to get roads in this Precinct was to ask for more Money.

If the Bond Election on March 13th carries as it should it will not be necessary to wait until Bonds are approved before beginning work as there is now available in County Treasury the \$100,000 voted last February, which can be spent while waiting for the new bond to become available.

HOSPITAL FULL— 3 TRAINED NURSES

The Santa Anna Hospital is full to capacity, every available room being used. There are now three trained nurses on duty, and more will be added as soon as available room is made.

An effort is to be made to raise money to complete and furnish the first floor and as soon as this is completed more nurses will be added to take care of the increasing demand.

Many patients have been turned away the past two weeks because there was not room for them, and the board hopes to complete the other floor as soon as possible that all people who are needing medical attention may be taken care of.

Gardner was one of the first to settle in Santa Anna. The News joins his loved ones in their hour of sorrow.

T. E. Garrett Accidentally Shot While Hunting

Drs. Bailey, Gaines, Louis Randall and T. E. Garrett all of Coleman, were out 19 miles south of Junction City on a big hunt. On Tuesday noon they had a big fish dinner. In the afternoon Dr. Gaines and Mr. Garrett started out down the river to a wild turkey roost. It was late in the afternoon, when they came to a wheat field, where they separated. (Each one had two shells loaded with buckshot, in case they found a deer) one going on each side of the field some distance ahead was an old straw stack. Dr. Gaines saw a turkey hen jump off the stack, soon another and then a large gobbler. Dr. was creeping low on the ground, advancing toward the stack. Not knowing exactly where his partner was, he was watching for him and the turkey also. Both men were watching the same turkeys. It was growing dark and one of the birds nearest Dr. Gaines had disappeared. Soon he noticed a dark object moving in the tall grass; he took three looks and decided it was his turkey. So he turned the buckshot on it. Garrett raised up and fell, saying, "You have shot me!" Dr. Gaines rushed to him, picked him up, holding him across his lap,

exchanged a few words and left him setting up, while he hastened to a ranch house near by. This happened at 6:40 p. m. He returned in a few minutes with a car and help. They took him to the ranch, where he had a long conversation with Dr. Gaines in regard to his family and business. He died at 2:53 Wednesday morning.

This is the second boy in the family to be killed accidentally.

Thomas Edward Garrett was a prominent druggist of Coleman. He is a son of Mr. and Mrs. W. O. Garrett of this city.

Was born Oct. 29-1881, age 38 years, 4 months and 2 days. He was raised in this county, his friends are numbered by the hundreds. He is survived by his wife, one child, parents, two brothers and one sister.

Funeral services were held at the Coleman Methodist Church, Thursday, March 4th at 3:30 p. m. Rev. H. L. Munger, officiating, interment was made in Coleman cemetery.

On the arrival of the party at Manard, they were given all the courtesies that could be shown. The family and his many friends appreciate this very much.

Fire Boys Regular Meeting

Monday night was regular meeting night for the Fire Company. Various propositions and plans were discussed. Delegates were elected to attend the State Fireman's Convention at Hillsboro on May 11-12 and 13. Chief Ryan could not attend, so assistant Chief C. G. Ewing and Manager E. M. Raney will attend.

A Committee will be around on Monday to see the merchants about closing up all day April 21st, to attend the Annual Picnic of Fire Company. A bazaar of donated articles will be auctioned off. A nice program will be arranged.

They are also planning on a hometalent play and they want some of the public spirited people to help out on this.

HUNDREDS PAY HOMAGE TO GARDNER'S MEMORY

Mr. J. M. Gardner died Wednesday, Feb. 25th, at 3 p. m. at the Santa Anna Hospital. His death was the result of burns received some few days ago when at night he was drawing gasoline from the storage tank of his automobile to accommodate a party who had run out of gas and had stopped at his home to secure enough to make it to town. He was using a lantern to see how to draw the gasoline, the heat from the lantern some way caused an explosion, throwing oil over his body.

Funeral services were held at the First Baptist Church, sermon preached by Rev. E. E. Dawson Thursday afternoon at 3 p. m. and burial made in Coleman Cemetery. His body was laid to rest with Masonic honors, administered by the Santa Anna lodge and assisted by the Coleman Masonic order.

The pallbearers were: W. E. Wallace, J. D. Simpson, L. W. Hunter, C. W. Woodward, H. W. Kingsbury and J. R. Pearce.

Deceased is survived by his devoted wife and three loving children, viz: Mrs. James E. Brinkley, Mrs. E. K. Thomson of Coleman and Jas. E. Gardner of Fort Worth.

Mr. Gardner was sixty-nine years of age on Jan. 7, 1920. He was a worthy citizen, highly esteemed by his fellow-men and enjoyed a wide and popular acquaintance throughout Coleman county. For a number of years he lived in Coleman, being manager of the Leeper Lumber Co. Later came to Santa Anna where he has made his home for many years. Mr. Gardner will be missed by hundreds of his friends over the entire county. Mr.

W. J. JOHNSON HERE; TO BEGIN WORK SOON

Mr. W. J. Johnson of Houston, attorney for the Texas Best Oil & Refinery Co. and his fiscal agents Frank Jackisch & Guess were here this week. Arrangements are being made to begin active work on the the construction of the big oil refinery, that will be built adjoining the city limits. The work will be pushed from the start to the finish. Cost of Bad Roads

Trickham, Rockwood, Whon and Shield as well as north of the mountain, know now what bad roads cost. Following the complete crop failure of 1918, we raised a bumper crop in 1919, the rain which was responsible for the crop at the same time made our roads impassible, our good people who had worked so hard to produce the crop could see prosperity ahead with nothing in the way but a few miles of impassible roads. Debts that you in your honesty wanted to take care of remained unpaid. The new house or auto that you had promised the good family who had worked so hard to produce the bumper crop, could not be bought and all caused by a mud hole between your house and the railroad.

Coleman County will produce bumper crops again, are you going to be caught in this fix the next time? To be safe Vote for the Good Road Bond March 13th.

Read every word in this paper this week, ads and all. If you are interested in the development of Santa Anna and Coleman County be sure to vote for the good road bonds. Don't just sit back and say "I know it will carry this time." Get out and do something to make it sure. If she don't carry this time our name is "MUD" forever.

GOOD ROADS — No other thing is quite so essential to the success and development of a community as good roads. No other element of success is so easy to attain where all of the people have the will and the determination to do. Good roads mean everything to us, collectively and individually, and we need good roads and better roads, and we should go after them and get them.

GOOD SCHOOLS — As the world advances education becomes more and more an absolute necessity in social and commercial life. Without it but slight success in either will be achieved. We need a whole-

souled campaign in the interest of our schools, for in efficiency our educational system lies to a great extent the future of our children and our children's children.

GOOD CHURCHES — We need spiritual as well as mental development, for without it we cannot hope to attain that degree of manhood and womanhood which our expanding intellects demand. Good churches and more churches are needed, and we need to view them from within instead of from without.

GOOD HOUSES — The most brilliant of minds are dulled and blunted by dismal surroundings. Good houses and attractive homes are excellent food for the mind.

Clean up, paint up, and keep the home up. It costs pennies and breeds dollars.

GOOD BUSINESS — We can have it, if we pay proper attention to our schools, and our churches, and our houses, and barns, and stores, and shops, and roads, and farms, and all of the thousand and one other elements that have a place in the making of a prosperous commercial center. We want it, and we can get it if we go after it with the spirit and determination to succeed but we must go as a community unit, and not as one or two isolated individuals. Who volunteers for better business.

To Our Friends and Customers

WE want to recommend to you the good road bond issue. Why?

- Because it is a saving in dollars and cents.
- Because it speaks well for a community.
- Because it makes impossibilities---possible.
- Because it increases the value of your property
- Because it puts you closer to market.
- Because the manner in which this money is to be spent is, by fair and square men, and we can only get good results.
- Because our roads are most impassible.
- You need it, we need it, and we all want it.
- So let us all be "for" any kind of improvement in our country.
- We have studied this business from many angles and we believe it a good thing.
- Others who have tried it believe in it.
- We can just as well be enterprising as a back number.

Another road will be built to a connection with the Trickham road on the south and still another into the Poverty Flat locality on the north for the convenience of these localities and also for the purpose of inducing produce raised in the communities named to come to Bangs for market purposes.

The amount of bonds has not been as yet designated but will no doubt run well into six figures. Two or three roads will be built in the new district in event it is created and the proposed bond issue carries, and concerning which there now seems to be no doubt, in the minds of those who know.

The Senator, however, turns out to be a model husband after his wife has eloped with a Bulgarian Count, roused fashionable tourists from their early morning slumbers and experienced the torture of being put out of a hotel just six inches in front of a six-shooter.

Will you sit and worry about the "Flu" and the High Cost of Living while other young people are taking action to prepare themselves to meet the demands of business? Training is the one thing that makes a difference between the executive and the man in overalls. We are entering a period in which business training is more necessary than ever. The next five years in this country will be the most progressive, prosperous and successful in our history. It will mean to you much or little in accordance with the manner you will be prepared to meet it. There will be no time to train the unskilled in the business office.

Business is moving ahead by leaps and bounds. Every paper is carrying many advertisements for commercially trained help. A country wide investigation of Employment conditions, to get information as to the help in greatest demands, shows the following results: 1338 of 2445 advertisements for help specified a business training, and 524 of the remaining 1107 advertisements were for positions that office assistants grow into. No other profession can claim one-fifth as great a demand. In fact, this proves that there is a greater demand for business training than all other trades and professions combined. Are you passing up a Business Training and its wonderful opportunities to become a day laborer, house maid, department store clerk, telephone operator, factory hand, etc? Uncle Sam did not send untrained soldiers to France to win the war. Neither will American business men place untrained men and women in their offices, banks, etc., to win in this great battle for business supremacy. If you want to work with the best men in business you must get a business education.

Remain as you are and you will occupy the same relative position ten years from now. Do not permit yourself to work under an unnecessary handicap all the rest of your life. Spend a

few months with the Tyler Commercial College, Tyler, Texas, securing the training that means an opportunity to make a success of life. Do not permit any obstacle to stand in your way. Fit yourself for a life worth while. We have trained thirty thousand young people for business, we know how. "NO WOMAN BUT ME?"

"SURE"—BUT HE LIED
Billie Billings' fiance loved her so much that the services of a policeman were required to prevent that, untiring but unloved suitor from "cave-manning" her to his abode, in "A Temperamental Wife," starring Constance Talmadge and which will be seen beginning March 10 and 11, at the Best Theatre.

Miss Talmadge plays the role of the very jealous-natured Miss Billings who determines that her husband must be a man who has never been interested in women and who, after marriage, will be interested in no woman other than herself.

She finds such a man in the person of Senator Newton from Nevada, an unmarried solon, suffering from such ailments as torpid liver, indigestion and flat feet. But they are married; and the Senator proves to be a model husband until Billie runs off with a Bulgarian Count. How Billie tries to regain the confidence of her important husband makes a very interesting and pleasing story.

The Benefits of Good Roads; Roads in Deplorable Condition---J. E. Brinkley

Editor Santa Anna News, Santa Anna, Texas.
Dear Sir:—I have read several articles in the Santa Anna News of late with reference to our roads and the system now employed in building and keeping the roads in condition for travel. It is not necessary to be well acquainted with the system to know that it is a failure. Yes, worse than a failure, for judging by the roads themselves, which

are an abomination to present day civilization, one must know that the system that creates and maintains them must be a relic of the original inhabitants of America. Roads, roads, roads, there is not a respectable road in the county. The lack of roads has cost this county millions of dollars the past twenty-four months. It has stopped all kinds of development work at the most

critical time. It has cost the farmers alone enough to build a system of roads to every outpost in the county. They are no respecter of persons, they take toll from every man, woman and child that attempts to travel them. The word heaven means harmony. The word hell is from the old English hell, meaning to build a wall around, to separate, to be helled was to be shut off from. Now if there is such a thing as harmony there must be something one can be in right relation with for to be in right relation with anything is to be in harmony with it. Again if there is such a thing as being helled, shut-off, separated from there must be something from which one is helled, shutoff or separat-

ed. The condition of our county roads puts us out of harmony with the world, and the only proper way to describe there is to say, (if you will excuse the expression) they are IN A HELL OF A MESS. We take it that the people of this county are as well educated as they are in any section of the world. They know modern conditions and demands and we believe that all that is now necessary is for the main property owners of the county to take charge of this road improvement proposition and they will receive the hearty co-operation of all the citizens of the county. One thing sure the present roads and road building system is a failure and a disgrace, you know it and I know it and every party that passes through this county knows it. Under these conditions we suggest that the time to act has come, so lets quit talking and get some action on the matter and build some roads, that are roads, get out of the ruts and mudholes, and line up with the progressive sections of this state, eliminate waste and build substantial highways in the place of our present cow trails and mud lanes. It will take money, energy and brains. But this county has all the necessary requirements. The one thing we lack is a strong virile leader that will brave the knockers and holdbacks, come to the front and say: "COME ON, LETS GO, NOT TOMORROW BUT TODAY." There is some man in this county qualified to do this work, for it is well known that for every emergency there is a man to fill the place; the place is here, it must be filled, let's find the man and find him at once. Coleman County with all her God given natural resources, with her wealth and thousands of progressive citizens, can no longer afford to play the runt in the herd of thoroughbreds, but she must assume the place that belongs to her, and that is the place of leader for West Central Texas. As a citizen of Coleman County, interested with every other citizen in the development of this County, I stand ready to do my part in this matter, and if you can use my services in any way, even in the smallest matter, command me. A man's value to this world can only be judged by his usefulness to his country and his fellow citizens. The self-centered man is no longer considered a good citizen. So let everyone stand ready to do our part individually, and collectively we will astonish the world. For good roads, and for every other enterprise that will build up Coleman County. CALLED HER FAMILY TO HER BEDSIDE

Six Years Ago, Thinking She Might Die, Says Texas Lady, But Now She Is a Well, Strong Woman and Praises Cardui For Her Recovery.

Royse City, Tex.—Mrs. Mary Killman, of this place, says: "After the birth of my little girl...my side commenced to hurt me. I had to go back to bed. We called the doctor. He treated me...but I got no better. I got worse and worse until the misery was unbearable...I was in bed for three months and suffered such agony that I was just drawn up in a knot... I told my husband if he would get me a bottle of Cardui I would try it... I commenced taking it, however, that evening I called my family about me... for I knew I could not last many days unless I had a change for

the better. That was six years ago and I am still here and am a well, strong woman, and I owe my life to Cardui. I had only taken half the bottle when I began to feel better. The misery in my side got less... I continued right on taking the Cardui until I had taken three bottles and I did not need any more for I was well and never felt better in my life... I have never had any trouble from that day to this."

Do you suffer from headache, backache, pains in sides, or other discomforts, each month? Or do you feel weak, nervous and tagged-out? If so, give Cardui, the woman's tonic, a trial.

They couldn't be built now for twice \$71,000

When the talk turns from politics to railroads, and the traveler with the cocksure air breaks in with, "There's an awful lot of 'water' in the railroads," here are some hard-pan facts to give him:

American railroads have cost \$80,900 a mile—roadbed, structures, stations, yards, terminals, freight and passenger trains—everything from the great city terminals to the last spike.

A good concrete-and-asphalt highway costs \$36,000 a mile—just a bare road, not counting the cost of culverts, bridges, etc.

Our railroads couldn't be duplicated today for \$150,000 a mile.

They are capitalized for only \$71,000 a mile—much less than their actual value. Seventy-one thousand dollars today will buy one locomotive.

English railways are capitalized at \$274,000 a mile; the French at \$155,000; German \$132,000; even in Canada (still in pioneer development) they are capitalized at \$67,000 a mile. The average for all foreign countries is \$100,000.

Low capitalization and high operating efficiency have enabled American Railroads to pay the highest wages while charging the lowest rates.

WHAT IS THE MATTER WITH SANTA ANNA?

The editor of this paper does not like to mention disagreeable things, but it is an evident fact that the business men of Santa Anna need a little "high-life" on them to awaken them to the opportunities that are before them. We have all been asleep long enough.

Santa Anna can be made one of the best towns in the State, and one of the most ideal residence sections of the whole United States. It has the climate, natural resources, location and the finest citizenship obtainable—everything needed for the making of an ideal city with the exception of one item—a little pep, and that can be acquired. Has Santa Anna the ambition to try?

Santa Anna has a Chamber of Commerce, but the business men of this city seem to regard it in the same manner as the old darkey lady, the need of a piano. Asked by a neighbor what in the world she was going to do with (for she couldn't play it) she replied: "Well all the swell white folks got planners so I got one, too. The only difference is: Other towns make their organizations a benefit and Santa Anna regards hers as a—I don't know what?"

In regard to the road proposition reminds us of the little story about a man in Arkansas, who replied to a query from a visitor why he did not fix the roof on his house: "When it rains I can't get to it and when it don't rain I don't need to fix it." Some of the people of this county seem to have all the business they can handle with their present available supply of energy, and they seem to be satisfied. They are doing well and never give a thought to the fact that they owe a duty to the rest of the inhabitants of Coleman County—that Santa Anna ought to grow in proportion to the growth of the rural sections of this county, one of the best in the great old state of Texas.

Brownwood, Bangs and Coleman are all planning on a good road to the Rockwood community and various other points where Santa Anna gets her best trade. And if we don't put this good road movement over, we might just as well go off and crawl in a mudhole and pull it in with us. For our neighboring towns are on the job.

OFFICIAL DIPPING OF CATTLE TO BE RESUMED MARCH 10 IN COUNTY

Resumption of cattle dipping in Coleman County will begin March 10, according to the statement of Lee Wilson of Santa Anna, Federal agent in charge of tick eradication in this county.

Much of the county is clean but there remains portions that are tick-infested. Dipping was suspended at the beginning of winter.

As a precaution, it is said to be desirable that all districts of the county that were released last

fall, dip at least one time this spring. Such precautions might save a half years work in the future.

Cost of Campaign.

The tick eradication campaign last year cost the county \$12,147.07, detailed as follows: Labor, \$8,858.10; vats, \$3,195.15; miscellaneous, \$93.82. — Democrat-Voice.

Introducing Delightful Spring Styles in Scores of New Suits and Dresses

Correctly expressing the mode for Spring 1920 typical of the highest art in design and workmanship, the rapidly increasing Polk Bros. Company selections for Spring Apparel are creating intense enthusiasm and desire to possess, for, as one patron recently expressed it, "Your styles are snappier and show better taste in their selection than I have seen anywhere."

Day by day, this brilliant fashion exhibit, that women so eagerly look forward to, grows more fascinating with the never-ending stream of new arrivals. The alluring co-mingling of fashion's fairest creations, the youthfulness and charm of which spell the smartest season of the year, becomes brighter, fuller and more interesting. Spend part of each day seeing the late arrivals.

'The New' in Suits

Important style changes are shown. There are the Eaton Jackets, short and saucy, with skirts plaited or plain, but some way different either way. No other silhouette so lends itself to the charm of the slim or the youthful figures.

There are the semi box, blouse and belted types—many slightly extended at the hips and in ripple effects, as well as the very smart strictly tailored models that are either plain or braid bound. Rich embroidery or braid is applied in many artistic new ways, while many models show a vest.

A splendid showing of Navy Tricotine Twill and Serge Suits, impressive values at \$35 to \$89.50.

Dresses of Taffeta

Frocks that recall the era of grandmothers' day—frocks that harken to the days of hoop-skirts, and great colonial homes.

This mode of frills and furbelows—of ruffling, flaring hips—of trim-fitting corsage basques—of short sleeves artfully revealing graceful arms and dimpled elbows—of fluffy, ruffy manifestation in the pertness and precision of Taffeta. So varied are the styles that every woman, no matter what price she may wish to invest, may dress with greater individuality and originality than in past years.

A showing that will impress all—view the many new modes this week. Exceptionally priced at \$27.20 to \$93.50

New Coats for Women More Graceful Than Ever

The Sports note dominate the style—the easy comfort from which smartness is never missing.

There is sufficient length for full protection. There is height to the collars that will laugh at March winds: but there is a lightness of effect that is most charming.

The styles show delightful originality with becomingness for every figure. Prices range from

\$30.00 up to \$50.00

Cotton for the Delightful Gowns for Spring and Summer
