"He Profits Most Who Serves Best"

VOLUME LV.

SANTA ANNA, COLEMAN CO., TEXAS, FRIDAY, MARCH 1, 1940.

NUMBER 9.

This Week in Our Town

"Adults could do no better," was the comment of those attending the Self Culture Club Federation Day luncheon at the home making department of the high school, served by the home making girls under the direction of Mrs. Hill, Friday the 23rd. The girls prepared and served the luncheon on well appointed tables, carrying out the Early American theme in decorations, place cards and favors, also the work of the girls. The parents should be as proud of them individually as we are of the group for the efficient way they handled the affair.

"It's their business where they spend their money," remarked a local business man Monday "but it's my business where they spend my money," referring to the practice of other business men while soliciting the patronage of Santa Anna people, yet with their families buying the greater part of their needs from merchants in other towns. When a local business man cuts my throat that way — one whom I patronize buying goods I sell in some other town — I turn my business to his competitor and keep the money in Santa Anna at the same time." If all business men stood by each other, we'd have a better town.

"I was surprised to learn that only one or two counties with a population the size of Coleman's, had a higher per cent of men on relief," said a business woman of Santa Anna Tuesday. It is no more than could be expected, considering that ranchers and farmers have been so heavily penalized through killing of stock and reduction of cotton acreage. We told the world it was up to them to take over the foreign cotton markets — and it did. We ran the little self-supporting cotton grower out of business and created huge farms with machinery, bustling labor and building up the relief rolls. Co-operation and common sense would solve problems, but both are interdicted by government fiat. Let's all go on relief and let the government bureaus pay the taxes to support us!!

SEVEN MUSICIANS SELECTED FOR STATE STOKOWSKI AUDITIONS

In auditions at Hardin-Simmons university Monday night, seven West Texas youth musicians earned the right to enter state auditions at Austin for the Leopold Stokowski Pan-American orchestra.

They were Ted Trent, Howard Payne college, and Floyd McCoy Winters, both trombonists; Mildred Brady, McMurry college, and Paul Trimmer, Hardin-Simmons university, both violinists; Virginia Sheridan, Harpist, Hardin-Simmons; Dub Bailey, trumpet, Hardin-Simmons; and R. D. James Jr., French horn, San Angelo.

Seven young musicians from the area competed in the West Texas auditions. Dean E. Edwin Young of HSU, one of the judges, said. Similar auditions are being held over the nation to select outstanding musicians for the 100-piece symphony orchestra which Stokowski will take on a Pan-American tour. His tour will be under sponsorship of the National Youth administration.

A very timely and interesting news story on the subject of Texas Soil Conservation Act, brought in by Mr. Hollingsworth of Coleman will appear in the News' next issue. Watch for it and read it.

HELPING FARMERS REMAIN ON FARMS TO BE DISCUSSED

Means by which small farmers can remain on their farms and operate profitably in order eventually to pay their debts will be considered by the Coleman County farm debt adjustment committee when it meets at 10:00 a. m. Tuesday, March 5, in the FSA office in the County agricultural building.

According to Leon C. Ransom, Farm Security Administration supervisor, many small farmers of the county are operating under such a top heavy load of debt they can never hope to pay out and it is often just a matter of time before back payments and interest will force them to give up and quit farming — a great calamity both for the family and the community.

The farm debt adjustment committee can help these farmers and their creditors to arrive at a fair and just agreement for repaying their debts out of farm income," the supervisor said. Creditors are often willing to grant additional time to pay, re-amortizations and sometimes scale-downs in principal and interest when the debt adjustment committee has worked out an orderly repayment schedule.

The committee, composed of Coleman County men, gives its service free to both farm owners and tenants. Farmers needing this service should call at the FSA office, or go to one of the committee, or arrange to attend the meeting.

Members of the committee are: Geo. Pauley, Valera; G. E. Abbey, Coleman; Ozro Eubank, Santa Anna.

Sewing Room Pays \$1,200 a Month to Thirty-one Women

The WPA sewing room here is known to every citizen, but only acquainted with its program a smaller number of people are and the value of the project to the community.

The sewing room, located on the first floor of the old bank building is under direction of Mrs. J. T. Garrett and gives employment to 31 women, including 13 new members. For first of March the payroll will be \$1,182.60, quite a tidy sum, and practically all of which is paid out here in Santa Anna.

The women employed in this project represent about 125 individuals in families of from 2 to 5 members, and enables many a child to be in school who otherwise would be absent. Very few children in this community are not attending school and a truant officer is not a necessity.

As to production, on Feb. 15 a month's work was checked out, consisting of 762 garments of which 90 were for women, 150 for infants, 332 for boys, 132 for girls and 108 for men. These items went to the commodity store room at Coleman, to be distributed as needed over the country. If present plans are carried out by higher officials of the WPA, each county's production will be segregated and resued in the county of origin.

Three classes are at work in the sewing room, advanced operators of sewing machines, who complete garments through experience, handworkers, and operators of machines in the beginners' class. Cutters through proper use of patterns, cut six garments of a size from bolt goods of different patterns, with a minimum of waste (even the the cutting waste being saved for other use) and the six garments finished in distinct styles to obviate duplication of appearance.

An entire month's schedule is ready on the first day of the month and very little flexibility allowed to make up any lost motion, each operator knowing just how many of what certain garment she has to complete or perform certain operations on each day to maintain the schedule.

Mrs. Cui Hill, Ranger, district secretary, expressed her appreciation at being able to be present.
