

KOKOMO NEWS

By MRS. GLENN JORDAN

CARD OF THANKS
A very special thank you to everyone who was so kind to me and Glenn while I was in the hospital at Gorman last week. For all the prayers, visits, cards, flowers, gifts and food that was brought to our home.
A big thank you to Dr. Canut and Dr. Pino and the entire Blackwell Hospital staff for the excellent care that I

received. No one likes to be in the hospital, but when you must, I don't think that you could receive better care anywhere than right here in our own Blackwell Hospital.

May the Lord's blessings be upon each and every one of you.

Zelda Jordan

GAS 	OIL 
LIGNITE COAL 	NUCLEAR 

We're building power plants that use different fuels so you'll continue having the electricity you need.

Natural gas is the major fuel we use in our generating plants, and will be for several years. Oil is used on a standby basis.

But new supplies of these fuels are extremely difficult to obtain and increasingly expensive. To reduce our dependence on them, we've begun using lignite coal. We now have one lignite plant in operation, and two others under construction.

We have adequate supplies of lignite for the operating life of these plants and for some additional planned units. Even so, we will need another dependable fuel source for the future. That's why we're planning to have a nuclear-fueled plant in operation by 1980.

The use of lignite and nuclear fuels is necessary to provide enough electricity in the years ahead. Supplies of these fuels are more abundant and neither is being used extensively for any purpose other than the generation of electricity.

But building plants that use these fuels is a difficult and expensive job. Lignite and nuclear plants cost much more to build than gas/oil plants. While this means electricity will have to cost more in the future, the cost won't be as much with lignite and nuclear fuels as it would be with natural gas and oil, even if adequate new supplies were available.

We're continuing the orderly development of our power system so that you'll continue having the electricity you need.

Hearing Tests Are Important

If you have a hearing problem of any kind you owe it to yourself to have an Electronic Hearing test made to find why and what can be done to help you before it is too late. The tests are free and will only take about 20 minutes of your time. We check your ears for packed wax, the tubes that let your ears breathe, then with the machine we check your hearing nerve, (bone reading) air conduction, (outside sounds) then measure how much sound the ear will take. We can pinpoint your problem and explain in plain English what can be done to help you then you make your own decision. We never try to high pressure you into buying anything. There are thousands of people today suffering from hard of hearingness, (ever some that wear Hearing Aids just because they waited too late to do something about it... don't let this happen to you.

Mr. Joe Treadway will hold his regular Hearing Aid Work shop at the City Library at City Hall in De Leon on Monday, September 16 from 10:30 A.M. til noon. We invite you to come in for your free test

We do repair service on most makes of Aids, and have a full service on cleaning, tubes, batteries for your Aid, and can always save you money. We are Licensed by the State of Texas to fit and Dispensing of Hearing Aids. We are always close by when you need us. We are in the Stephenville office, (Skipper Real Estate Bldg.) every Thursday, and in the Hamilton office every Friday to run special tests and assist you in every way.

4-Hers Place At West Texas Fair

Gorman 4-Hers traveling to the West Texas Fair at Abilene were Terrye Jeffs, Revis and Randy Laminack.

Terrye showed her Angus heifer on Monday morning in the winter class. She placed 4th in the junior show and this automatically put her in the open show where she placed 5th.

Randy and Revis showed in the Hereford show on Tuesday morning in the winter class. Revis placed 5th in the junior show and was able to show in the open show where he didn't place very well, but just get-ting to show in the open class is a great experience. Randy placed 11th with his heifer.

Going with the above were Mr. and Mrs. Don Laminacq and Nobel and Mr. and Mrs. Bill Jeffs and Bud.

On August 31st at the Cisco Livestock Field Day, Terrye Jeffs won second place in the judging contest for junior high and below. This was a great thrill.
