Our Hats off to the Gorman Firemen for washing down the streets on two occasions to help rid our side of the street of the cricket barrage we have suffered the past few weeks.

Received the following from a friend in the peanut industry last week: TWENTY FIVE DOWN, ONE TO GO

I recently spoke with a friend who had completed his first twenty-six mile marathon. He spoke of fatigue and pained muscles after the first several miles.

This, in many ways, is similar to current efforts to win favorable legislation regarding the peanut program.

When Secretary of Agriculture John R. Block first announced he was seeking major changes in the peanut program, the industry was caught completely off guard.

In the months that have followed, a crash course to "get in shape" has been pursued. (The proposal to abolish the acreage allotment system and current price support system was announced to the House Agriculture Committee on March 30, and to the Senate Agriculture Committee the following day).

Seniors are having a Car Wash Saturday September 12 beginning at 8:00 at the high school.

Charges for the wash are: Cars - \$6.00 and Pickups \$7.50. Thank You.

As time progresses thru summer, the race has become extremely intense. "Runners" on both sides of the issue have not broken stride, as they look for signs of weakening from their opponent.

CITY CHIT CHAT

By Charlie L. Garrett, Mayor The first thing I would like to do is to express my appreciation to the Park Association for all the hard work in improving the Frank A. Gray Memorial Park.

Work on the Senior Citizens Building is nearing completion. It should be completed within two weeks.

Work on the Senior Citizens Building is nearing completion. It should be completed within two weeks. I personally feel that when it is completed, the City of Gorman will have something to be proud of.

Tax statements will be mailed out soon and you will find your property values have been raised considerably.

Work within the City is coming along fairly well. You will note that we have patched more streets than have been patched in years.

The purpose of the act is to identify children who are in need of a professional eye examination to determine whether they are visually handicapped.

The Panthers opened their season in fine style on Friday night by overwhelming the Hico Tigers by a 28-0 margin in a game that was as one sided as the score. The Big Red defense kept the Tiger offense sewed up all night. The play of the defensive line as well as the entire defense was nothing short of great as they held the Tigers to 10 yards on the ground and 25 in the air.

Linda Glover, director of guidance at Gorman High School has announced that schools and other community affairs. Gorman is lucky to have so many young adults interested in the community. The PTO\* Park Association, the Bana Boosters, and all the other organizations deserve a pat on the back. Sincerely, Kenneth Welch

Thanks for the good words and we agree with you about the outstanding folks we have in our community. You will find the **BEST FOLKS IN THE WORLD** in Gorman. Thanks again.

We slipped up and failed to get pictures of the new construction now in progress but promise to do better next week. Guess it was the lazy holidays that kept us from doing the job.

We had a good shower last Wednesday just after press time. The moisture sure was welcomed and will really help the prospects for a good crop. The weather has cooled off a good bit also, which seems to help everyone. We thank the Good Lord for the moisture we received.

We urge everyone in the community to be extra alert now that school has begun. We urge everyone to drive carefully and be watching for children crossing the streets, etc. We do not want to lose our most treasured possessions in the community, our youth. So please be alert during school hours.

There was a break-in at school during the weekend. Some money was taken from the school office. However, there was no damaging vandalizing during the break-in. We had heard no further details as of press time.

Thanks to the Park Association for the outstanding job they did on the Labor Day activities at the Frank A. Gray Park on Saturday. Attendance was a little low, but it was a holiday weekend and many folks were out of town. However, that didn't dampen the enjoyment of those who took advantage of the activities the Park Association provided for everyone. Good job folks.

And remember to smile -- because God Loves You!

## RETIRED TEACHERS HAVE FIRST MEETING

The Eastland County Retired Teachers will have their first meeting of the year in Gorman on Monday, September 14, 1981 at 2:30 P.M. The meeting will be in the Senior Citizens building which is located on the main street across from the Post Office.

The program for the meeting will be a report from all of those who attended the Workshop in Abilene last summer. Each one will give a summary of material covered for the area which they represent. The Gorman Retired Teachers will serve refreshments.

The main thrust this year will be to increase membership in the Texas Retired Teachers Association. All retired teachers have already received dividends for the work that was done by the Retired Teachers Association and with your next check you will see a greater dividend. These increases were brought about by the hard work and dedication of members of the Association.

This is our organization and if we want results, we must convince the Legislature that we do care. We have over 90,000 retired teachers in the state and have less than 20,000 who belong to the Texas Retired Teachers Association. It is going to take the united efforts of all retired teachers to keep our retirement in line with new retirees. As you can see from the figures that I gave, just about 20% of us are carrying the load and paying the bill for the other 80%. Do you as a retired

teacher feel that this is right. If we accomplish other things in the future, it is going to take more than 20% of us to do it. You owe it to yourself and to the present members

to join the Texas Retired Teachers Association and we would like very well to have you as a member of our local unit, but above all, send your name, mailing address, and

a check for \$5.00 payable to TRTA and mail it to Miss Dilla Enoch, 1405 Westover Road, Austin, Texas 78703 or better still come to our meeting on Monday and

bring it with you. We will mail it for you. Hope to see all retired teachers in Eastland County at the meeting. Charlie L. Garrett, President

## PUBLIC NOTICE

BRIEF EXPLANATORY STATEMENTS OF PROPOSED CONSTITUTIONAL AMENDMENTS

SPECIAL ELECTION NOVEMBER 3, 1981

### PROPOSITION NO. 1 ON THE BALLOT

Senate Joint Resolution 8 proposes a constitutional amendment that would allow the legislature to authorize cities, towns and other taxing units to grant exemptions from ad valorem taxes on unproductive, underdeveloped or blighted area in order to encourage its development. The amendment would also allow the legislature to authorize a city or town to issue bonds or notes to finance this development and to pledge future increases in ad valorem tax revenues from the property in such areas to repay these bonds or notes.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment to authorize cities, towns, and other taxing units to encourage the improvement, development, or redevelopment of certain areas through property tax relief and the issuance of bonds and notes."

### PROPOSITION NO. 2 ON THE BALLOT

House Joint Resolution 117 proposes a constitutional amendment that would authorize a person to receive a patent to land from the Commissioner of the General Land Office under certain conditions. Application for the patent must be made within five years from approval of the amendment. The land must be surveyed, public free school land not previously patented. The person must have a properly recorded deed to the land, which he acquired without knowledge of the patent defect and which title he and his predecessors in interest have held for at least 50 years. The person and his predecessors in interest must have continuously claimed the land and paid the taxes for at least 50 years.

This amendment does not apply to beach land, submerged land, or islands. An applicant may not use this provision to

resolve a boundary dispute. This amendment will not apply to land which has been determined to be state-owned by a court of competent jurisdiction or that has a productive state mineral lease on the effective date of the amendment.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment authorizing the commissioner of the General Land Office to issue patents for certain public free school fund land held in good faith under color of title for at least 50 years as of November 15, 1981."

### PROPOSITION NO. 3 ON THE BALLOT

House Joint Resolution 38 proposes a constitutional amendment that would enable the legislature to grant to a state finance management committee the authority to manage state funds. Funds constitutionally dedicated to specific purposes would not be subject to committee management. The committee would be composed of the Governor, Lieutenant Governor, Speaker of the House of Representatives, Chairman of the Senate Finance Committee, Chairman of the House Appropriations Committee, Chairman of the Senate State Affairs Committee, and the Chairman of the House of Representatives Ways and Means Committee.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment to allow the legislature to grant to a state finance management committee the power to manage the expenditure of certain appropriated funds."

### PROPOSITION NO. 4 ON THE BALLOT

House Joint Resolution 6 proposes a constitutional amendment that would provide that one-half of the surplus tax revenues

above the spending limit provided by Article VIII, Section 22, of the Texas Constitution would be placed in a Water Assistance Fund to be used as provided by law, including projects for water development and conservation, water quality enhancement, and flood control purposes or any combination of these purposes.

The amendment also provides \$500,000,000 of the general credit of the state to guarantee bonds issued in commercial markets by local political subdivisions, including cities, counties, and special districts. The amendment allows amounts to be established to decrease or retire state debt, which is defined as that debt secured by the full faith and credit of the state. The amendment would raise the interest that could be paid on authorized, but unissued, bonds guaranteed by the full faith and credit of the state from 6% to 12%.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment authorizing the use of a portion of the excess revenues of the state for water development, water conservation, water quality enhancement, and flood control purposes; authorizing the use of the state's credit, not to exceed five hundred million dollars, to guarantee the bonds of cities, counties, towns, and other units of local government in the financing of projects for such purposes; increasing the interest rate that may be paid on previously approved, but unissued, state bonds; and authorizing a program to retire state bonds."

### PROPOSITION NO. 5 ON THE BALLOT

House Joint Resolution 49 proposes a constitutional amendment that would exempt livestock and poultry from taxation. Currently, farm products in the hands of the producer and family supplies for home and farm use are exempt.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment to provide for the inclusion of livestock and poultry with farm products as exempt from taxation."

House Joint Resolution 81 authorizes the governing body of a county, city, school district or other political subdivisions to exempt from taxation a portion of the market value of a residence homestead. The portion exempted may be as much as 40% for 1982-1984; 30% for 1985-1987; and 20% for 1988 and after. The amount of an exemption may not be less than \$5,000 unless the legislature by general law prescribes other monetary restrictions on the amount of the exemption. An eligible adult is allowed to receive other applicable exemptions provided by law. An exception is made where ad valorem tax has previously been pledged for the payment of debt.

### PROPOSITION NO. 6 ON THE BALLOT

The amendment further directs the legislature to require that notice be given to property owners of a reasonable estimate of tax on their property in certain situations.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment authorizing a political subdivision to provide property tax relief for owners of residence homesteads and changing certain property tax administrative procedures."

House Joint Resolution 4 proposes a constitutional amendment that would authorize the Veterans' Land Board to issue and sell an additional \$250,000,000 in bonds increasing the Veterans' Land Fund's total bond issuance authorization from \$700,000,000 to \$950,000,000. The amendment would increase the maximum interest payable by the state on these bonds from 6% to 10%, and permit an even higher rate, if specified by the legislature.

### PROPOSITION NO. 7 ON THE BALLOT

The proposed amendment will appear on the ballot as follows: "The constitutional amendment authorizing the issuance of additional bonds to finance the veterans' land program and to increase the maximum interest rate allowable on veterans' land fund bonds."

Dear Golden Ager:

It is about time for you to check the air in your casings and see if you need new isinglass in your curtains so that you will have everything ready when the time comes to start to Carbon for the annual homecoming, which is October 10, 1981. We are counting on you being here because it will not

complete without you.

Registration will begin in the Carbon School Lunchroom at 9:30 A.M. and continue as long as necessary. After registration, we will spend time together visiting and making group pictures. We will have a local person from the high school taking the pictures. We will be taking at least five groups and more if desired. The groups will be for the following classes: Classes of 27 through 31. Classes of 24 to 28. Classes of 21 through 25. Classes of 16 through 20, and all Classes prior to 1915. A group picture will also be

made at the football field. Any other pictures desired will be made.

At 12:00 we will be served a full plate lunch with all the trimmings for \$4.00 each. In order to get at least a ballpark figure on how many will be eating, we are asking that you let us know and mail a check for the number of plates needed. Send the check to me or Bess Green, Carbon, Texas 76435. Make it payable to Carbon Golden Agers.

After lunch we plan a time of sharing some experience that we had while in Carbon High. This can be anything

that you feel that the group would like to hear. Come prepared to do this so that we may laugh or cry together as need be. Also bring along any photos that you have and share them with others. Following this we will recognize the one who came the furthest and the one from the earliest graduating class. Following this we will have a memorial for those who are no longer with us since we met in 1979. We will give special recognition to the class of 1951 and welcome them into this distinguished group. Officers for the coming year will be elected.

Remember that the success of this will depend on YOU.

Sincerely,  
(S) Charlie L. Garrett, Pres.

**Cool carefully and help hold down your bills.**

In many homes, summer air conditioning uses more electricity than all other appliances combined.

To help hold down electric bills, use it sparingly. Set your thermostat at 80 degrees or higher, and use a fan to circulate the air. A fan uses considerably less electricity than air conditioning. And when no one is going to be home, make sure your air conditioning is turned off. It pays to know how to cool carefully.
