Missouri. Kansas and Texas

The Missouri, Kansas & Texas Lines have been "mustered out." The necessities which influenced operation of the railroad by the Government have been met. With pride in its contributions to the Nation's need during the war emergency, the Katy has resumed its peace time relationship to the Southwest, with adequate and efficient transportation service to the developing industrial and commercial need of Missouri, Kansas, Oklahoma and Texas as its primary responsibility.

It is the ambition of the MK&T management to discharge his responsibility fully, and to merit public confidence, co-operation and good will. With these purposes in view the railroad's obligation of service to the public will be kept consistently in mind.

Since 1914 there has been a steady increase in the volume of traffic which the MK&T Lines have been called upon to handle. Conditions have been such that there could not be a corresponding increase in the railroad's transportation capacity. Enlargement of our transportation capacity is therefore essential to the restoration of pre-war service and standards as speedily as possible, and in this purpose we shall value public friendship, co-operation and support.

The Southwest is entering upon a new era of development. In this development the MK&T desires to aid in every way practicable.

To these ends the MK&T management earnestly solicits the helpful suggestions of its patrons, public officials and commercial organizations in the communities which it serves.
