for a few months.

**Birthday Party** 

The gates of the Panther Park will be officially opened for the first time Friday night, Oct. 10th, when the Gorman Panthers meet the Eastland Mavericks for Gorman's second conference game.

Gorman is proud of her new athletic field. In addition to being moved back and having a rock fence, it has lights and has been newly sodded. The bleachers have not been built, nor the regulation director, put on a program over 440-yard track completed, but the essentials are finished and the Park is ready and waiting for the coming tilt. This will be a night eagerly awaited, and a large attendance is expected.

> The first game to be played on our new field will make football history in Gorman, and we must have a victory. This game, and each of the others, slowly form a tradition. Accurate passes, fleet runs, tricky side-stepping, tough tackles, and clean sportsmanship . . . the lights will shine down on these now and in years to come.

In this Park, Gorman will play host many times to visiting teams, nouncer and Margie Westmoreland our neighbors. Let's have a Good Neighbor policy of our own; so that, win or lose, the visitors can leave the field with the memory that the town and team have

been friendly and courteous. The

#### LINCOLN SED

When I reached Washington after the funeral, I was surprised to find that my bedroom and sitting room were being painted, so temporarily I am occupying President Lincoln's bed! It is particularly large and ornate and I never realized before how awe-inspiring it must be to our guests. However, I am glad to find that it is very comfortable, because long ago I can remember my grandmother telling me that one should always sleep in all of one's guests beds, to make sure that they are comfortable.

WOMEN IN ARMED FORCES

I wonder if you have seen, in the October American magazine, the article on the part the British women are playing in the armed forces, of Great Britain? For the first time they have been accepted in artillery units and are operating anti-aircraft batteries and the fire control instruments. They are enlisted to fight overseas as well as in England for the duration of the war, and they receive the "danger pay of the combat line."

We have heard before of women in the Russian army, but this is the first instance of women actually working side by side with the men in the armed forces of England. It shows that, when the need arises, there are few places where women' can not work side by side by men.

Frank Clements who has just returned from the maneuvers in Louisiana, spent the week-end here done? Then see the Economy with his mother, Mrs. Mamie Clements.

and there were more flowers which

one of her nieces, Miss Laura Del-She had long contemplated this final resting place beside her husband. I think she had an affection for the trees and the familiar count tryside around this old church and for this spot in the churchyard where she had so often gone to lay flowers on the grave of her hus band.

She would have liked to have just the family and friends who were here, about her. I wish that all the grandchildren could have been pres-

I think everyone is conscious of the fact that the house and place in which she lived so long, will never be quite the same without her, She was a strong personality and left an imprint not only on the people she knew so well, but on the surroundings which she created.

My husband has as great a devotion to the place as his mother had, but it is different, I think. She thought that the land was tied with her family forever. With him, there are memories of youth and of his parents which can never be oblit erated; but he does not count on the same kind of future that she liked to plan.

## **Put Larger Bulbs in Present Fixtures**

A quick and easy way to improve the lighting in your home is to buy lamp bulbs of higher wattages. A 100-watt bulb is the same price as a 75-watt bulb; a 60-watt the same price as a 40-watt, and they give you more light for your money.

### Add Low Cost Adapter Units

#### PLASTIC SURGERY AID

. . .

I have also received an appeal for charity in which I think everyone in this country will be interested. Those who remember the hospitals in the last war will remember what seemed to be almost the beginning of plastic surgery on a great scale. There are today in England four famous plastic surgeons.

Under the auspices of the British American Ambulance corps, a committee has been formed and is anxious to raise \$100,000 to help these surgeons acquire better conditions under which they can treat R.A.F. pilots, munitions workers, civilian defense workers and men, women and children who are maimed or disfigured by modern warfare.

#### PORTRAIT

On Friday, in New York city, 1 went in the morning to see a portrait which a young artist had painted for Mr. Liberman, the president of Arnold Constable and company, to add to the collection of portraits of inauguration gowns, which Mr. Liberman already has. Considering the fact that this portrait was painted entirely from photographs, except for what the artist could observe in a five-minute talk with me last spring, I think the young man did remarkably well.

## **Telephone** Topics ARE TELEPHONE RATES

GOING UP?

They are going up in many places all over the nation and the higher cost of everything that goes to produce telephone service is trying to push them up here.

WE WANT YOUR HELP in keeping telephone rates DOWN in Gorman by helping us to build our subscriber list UP.

Our photographer is busy now and in next week's issue of the Progress we will have the picture of all the people in Gorman who do NOT need a telephone.

GORMAN TELEPHONE CO.

Smooks Craddock is home on a 15-day furlough upon his return to Camp Bowie following the Louisiana maneuvers.

Glenda Merle Cunningham, formerly an operator in the Florentine Beauty Shop, is now with Mrs. Poynor of the Poynetta Shop.

Washing and Greasing

Out of their research are being created new products and more efficient ways of making old ones. Synthetic rubber, plastics, explosives, basic chemicals and scores of other essentials developed in petroleum laboratories are already being made on a commercial scale.

These scientific discoveries of materials vital to peace-time needs, as well as National defense, are opening up new fields of industrial activity.

## Saturday and Monday Only ON KITCHEN ENAMEL WARE

In spite of advancing prices and shortage of merchandise we can still offer you items at just about the same old price. Bought big factory shipment earlyso lay in a good supply NOW.

We will have a big showing of this Enamel Ware-in white, red trim, ivory green trim and the gray.

WHY ON EARTH DO THEY DO IT ?

....shop around for low-cost insurance

When you buy insurance because it's cheap, it's like buying a cheap pistol for self protection. If you have to hold off a bandit, you want a weapon that will do the business. If you aren't going to be held up, why spend any money at all to protect yourself? The catch is, you don't know.

Mozal: Be sure your insurance is **COMPLETELY** dependable. We'll be gladtotellyou any-

**Dedication** of

THURSDAY, OCT. 9, 1941

GORMAN vs. EASTLAND

PANTHER PARK

### Friday Night, Oct. 10,

### 8 o'clock

### To Every Man, Woman and Child of Gorman and Gorman Trade Territory

Let's attend the dedication of Gorman High School's New Panther Park without fail, and show the boys of the football squad we are back of them 100 per cent and at the same time show our appreciation of the efforts put forth by the school board and faculty members and citizens in obtaining such a wonderful park for our town. LET'S SHOW OTHER TOWNS WE CAN DO A THING IF WE WANT TO.

We the undersigned business men of Gorman have pledged our entire cooperation in making this dedication 100 per cent attended, and agree to either attend or have our place of business represented at the game.
