A SALUTE T Our YOU

You don't find these young people at draft card burnings, beach resort rumbles or LSD dens. They are generally too busy being good citizens to have time for such foolishness. Their aims and ideals remarkably resemble the lofty ideas which helped establish this land. Their ideas of industry and thrift are surprisingly similar to the habits practiced by the pioneers who carved a nation out of a wilderness. We are unblushingly proud of these young people and others like them for on them rests the hope of the future. And day to day as we see these young people at their appointed tasks . . . the future begins to look brighter.

Here's why J. O. (Junior) Jackson, Route 3, Gorman, Texas, feels that way about his new Lilliston, which he's using right now:

"I like it because you can run in a lot more conditions with it than you can with other peanut combines. And there have been no maintenance problems whatever with my 1500.

"It does a fine job picking, and that new diverter on the '68 Lilliston keeps the dirt and dust off the operator. "I've run with the other combines, but I find that you can do more with the Lilliston, especially in tough conditions."
