THE INAUGURATION OF O'DANIEL MAY BE MOST COLORFUL NEXT JAN. 17

A spectacular state Campaign for governor promises Texas one of its most colorful inaugurations on next January 17. Not since "Ma" Ferguson, first woman to be elected governor, took the oath of office has national and state interest centered so much on a Texas poli-

"Biggest" crowd af an inaugur tion in Texas was the throng that gathered when Mrs. Ferguson was inaugurated for her come-back term. Better roads and faster automobiles made travelling more easy than when she first became gover-

A search for state jobs brought many to her second inaugural. Before she had been in office more The Kokomo 4-H club boys and than a few weeks, her husband girls held a meeting Tuesday nite, had to shoo them from the office Preparations have been made, August 2nd, to make out a pro- so the governor could attend to

The second biggest crowd at tended the out-door inauguration cf Gov. Dan Moody. Most glittering was the war-time inauguration of Gov. W. P. Hobby. Military uni forms predominated. Dress coats

were numerous. If a hill-billy band is to furnish nusic at the next inauguration, it will not set a precedent. Mountain music entertained huge crowds that filled Gregory Gymnasium of the University of Texas for Mrs. Ferguson's second inaugural ball Dean Emeritus T. U. Taylor of the University of Texas engineering school was master of ceremonies and led round dances far into the

Receptions took the place of dances for the inaugurations of Governors Neff and Moody. Austin inaugural committees thoughfully provided unofficial dances, which were largely attended.

Plan Fun for 160,000 Children

The thousands of school children attending the glamorous Castle of Foods at the Golden Jubilee celebration of the State Fair of Texas in Dallas during the month of October will have a grand good time as well as unusual educational facilities. L. A. Woods, State Superintendent of Public Instruction, believes that the exhibits, programs, and special entertainment given for children and grown-ups in the Castle of Foods will be of such striking educational value that they will be sufficient cause for sending 160,000 Texas school children to the Fair. In the picture Mr. Woods (right) is conferring in his office at Austin with Granville W. Moore (center), chairman of the Food Industries Committee, who will present the Castle, and Rex V. Lentz (left), managing director, both of Dallas, on the subject of clowns. Berforming animals, souvenirs, and the like for children who visit the

BY JOE W. GANDY Winnsboro Weekly News

In about an hour I will go to Cornersville and while there seated on a nail keg with a lead pencii in hand I will help bring life and salvation to six million people who have been in bondage since the Mayflower steamed into San Francisco. We will just pick these Texas people up as by magic and set them down in Canaan in milk and chillee up to the belt and they won't have to wander in mesquite thickets starving for water and getting snake bit as our grandpas did. Truly it is a great day. I wish Moses could be here and see how quick and easy it is done. The ancient Moses did not have a poll tax receipt, but he got 'em out. Some of our modern Moses don't either, but they are confident the Red Sea will just roll back and let us take off right on the bottom of it.

If you remember I wrote something about heroes last week, and to my predictions the Atlantic has given birth to another one, a bigor married heroes, but they will cuss. have to fly across Jordan nonstop before they are rewarded.

of the poison itself is used per

White arsenic, a mixture of white

arsenic and dry I ime, or white ar-

senic boiled in water with sal sode

or caustic soda, are almost cer-

tain to burn the cotton and the

entomologist of A and M. College

In applying the materials in

spray form, any manufactured ma-

chinery suitable for the purpose may be used. Growers in many sec-

tions improve their own machinery

from a spray pump attached to a

barrell, with plumbing pipe used

to form a boom, supplied with

tees and nozzles to direct a spray

downward over each of three or five rows. These are generally

satisfactory for control of the

leaf worm and are not expensive.

Likewise, manufactured dusting

machinery is best for making dry applications. However, for leaf

worm control, other cheaper and

more primitive methods of appli-

cation are usually effective. The simplest form is a cheesecloth bag

filled with the poison and shaken

over the rows as one walks along.

One tied to each end of a pole to

hangover respective rows and shaken as one walks between the rows

or held over a saddle as one rides

on horseback, a stick being used

to hit the pole and cause the poi-

son to dust from the bags enables

one to accomplish the work more

rapidly. Still another effective

method is to fasten a 2x4 across

attached to accomodate three or

five rows. Blocks wired to the tir-

es o f the wheels at intervals gives

a jolting effect that shakes the

poison on the plants as the culti-

vator is drawn along the rows.

strongly advise against their use.

OMAR BURKETT THANKS VOTERS

I am grateful to my friends in the Gorman area and 107th District for their support at the polls on July 23rd. And respectfully solicit their support at the coming Primary on August 27th.

I ask that my friends become active for me and if eletced I will repay them in honest, efficient service. I believe that public money should not be wasted and that every employee drawing public funds for their support, should render a day's work for a day's pay.

If elected I shall cooperate fully with our governor and other officials, but I state frankly, that my guide in looking after state affairs will come direct from the people of my district.

Respectfully yours,

...........

OMAR BURKETT

CANDIDATE FOR REPRESENTATIVE

17 Years Ago August 4th, 1921

The investigation, started a few weeks ago by some of the citizens of the county resulted in the halting of all road work in the county and the failure of an Eastland bank, so says the Gorman Progress of August 4, 1921.

At a meeting of the citizenship of Gorman and vicinity, Dr. E. W. Kimble, J. W. Cockrill and W. O. Russel were appointed to represent the people of this community through their committee and devise a way and means if possible the investigation is concluded and the bonds are salable again.

Marriage licenses were issued to W. E. Harber of Abilene and Miss Paralee Gallehan of Gorman and to Albert Spratlin and Miss Dorothy Aspill of Gorman. Also J. R. Toombs and Miss Tysche Donican of Gorman.

Claiborne Eldridge while working on his car last week, had a piece of steel to fly off and hit him in the eye.

The City Equilization board met this week and were busy going over tax records of the city .The board is composed of Cole Nunally, J C. Davis, and C. C. Cox.

Electric Rates Reduced ... Use the SAVING to Reduce Your SLAVING

Now that Electricity is Cheaper, You Can Have More and Better Light to Save Your Eyes from Straining to See Under Poor Lighting Conditions

Now that new lower electric rates are in effect for homes and stores, you can use the saving to make seeing easier and to save your eyes from the unnecessary strain of working under a poor light. You'll find that good light, thanks to the new low electric rates, costs little more than just ordinary lighting. You'll also notice how much easier it is to read, to sew or to do other visual tasks under a good light. So use your cheap electric service to protect priceless eyesight!

Make use of the new low electric rates in your store by putting light to work as a salesman, to attract customers and to display your merchandise to its best advantage. Successful stores always are well lighted, for owners know that lighting isn't just another fixed expense. They know that when used to the best advantage, good lighting is a strong selling force that speeds up selling, makes satisfied customers and improves the spirit of the sales personnel, all of which means more profits.

Our representatives will be glad to call at your home or store to suggest ways in which you can use light to better advantage. They will also explain how little it costs to have good lighting, due to the reduced cost of electricity.
