# Volunteer Firemen Complimented By Olin Culberson, Secy., SF&FMA

A copy of the following letter was received by the Progress from Mr. Culberson. The Progress takess pridt in publishing this letter because we do have a fine group of Volunteer Firemen. Mr. G. C. Acrea, Chief,

Fire Department, Gorman, Texas.

Dear Chief:

I am sending you a record of the premiums and losses in your city since records have been kept.

It is a fine record, and I am sure your citizens will be justly proud and appreciative of what has been done by the department. This statement shows what a tremendous business investment the fire department is to your city.

Very Sincerely, Olin Culberson, Secretary State Firemen's and Fire Marshals' Association.

MEHAFFEY DRUG "Where Friends Meet" Prescription Service Phone, Day 55 - Nite 109

Yes, money from piggy banks, and commercial banks too ... money from the savings of a lot of people. Thousands of people supplied the money for Texas Electric Service Company to build power plants, power lines and the other facilities that provide your dependable electric service. They invested their savings in the securities of our company, or they have a stake in this company as owner of an insurance policy or shares of a trust fund in the large groups of insurance companies and trust funds that have investments in our securities.

The part of Texas we serve is growing rapidly and the need for electric service is growing even faster. Texas Electric Service Company has spent more than \$60,000,000 side 1946 to build new power plants, power lines and other facilities so Reddy Kilowatt can provide plenty of dependable electric power for the areas he serves. Yes, this construction program is still under way and is costing a lot of money. Most of it is "borrowed" through the sale of securities to folks who have faith in our future, and in the area we serve. The money you pay for electric service is used for the most part to pay our day to day expenses, such as wages, fuel and other costs of doing normal business, including the wages of capital. The additional new capital which is constantly being needed must come from the sale of securities.

#### The Time Between You --

. . . and financial loss may be years away depending on circumstances, but if you are living in a home without knowing anything about the title it may be sooner than you realize. Consider the couple who lost their all by buying without an abstract. It's better to be safe than sorry and a thousand times cheaper. Be wise and follow the course of successful business men who always insist on an abstract before buying any kind of real estate.
