NUMBER FORTY-FOUR

The farmers are slowly but surely winding up the harvest season as the weather will permit. We have had a lot of moisture at the wrong time this year, and as the harvest season started several farmers in the area were held up due to too much moisture or humidity when they got prepared to combine their crops. There have been few days of good weather, and some more are predicted for the latter part of this week. We hope the rest of the farmers can get their crops finished. The crops are a good bit short this year and the grades have been on the low side. This will hurt the economy of the area. _ J _

Have been meaning to thank the third grade classes of Mrs. Spivey and Mrs. Caraway for visiting the Progress recently. We appreciated getting to show these young folks how the paper is set up and laid out in the preparation for printing. Also the children seemed to really be interested in seeing the printing presses and other machinery in the shop.
