The first year homemaking girls have finished foods and are making dresses now. If the dress es are finished before school is out, we will go back to preparing breakfasts. Everyone is work ing very fast and seem to be improving in their sewing. If our present speed keeps up, we will be finished in time to take up foods again.

The dresses we are making are simple cotton dresses for summer. Most of us are using disciplined material.

Our instructor is showing us how to use a pattern to make another dress similiar to it without having to buy the pattern like the dress we want. She also has shown us how to cover cording to put on our dresses.
