Notice To

Dog Owners

The City Office and Constable Albert White have received many complaints from residents in the corth section of the city that logs are molecular to the corth section of the city that logs are molecular to the corth section of the city that logs are molecular to the corth section of the city that logs are molecular to the corth section of the city that logs are molecular to the corth section of the city that logs are molecular to the corth section of the city that logs are molecular to the corth section of the city that logs are molecular to the corth section of the city that logs are molecular to the corth section of the city that logs are molecular to the corth section of the city that logs are molecular to the corth section of the city that logs are molecular to the corth section of the city that logs are molecular to the corth section of the city that logs are molecular to the corth section of the city that logs are corth section to the corth section of the city that logs are corth section to the corth section of the city that logs are corthered to the corth section of the city that logs are corthered to the corth section of the city that logs are corthered to the corth section to t

around this board.

All went well, as evidenced by pictures in Tuesday morning's paper, until someone decided that the quickest way to the press box was via our board, and we found out that the quickest way to the ground (some 12 to 15 feet below) was via air. complaints from residents in the north section of the city that dogs are molesting sheep, some have been injured and killed. The dogs have also been reported chasing calves.

Constable Albert White says drastic measures will be necessary to dispose of the dogs if the owners of the dogs fail to keep their dogs penned or away from the sheep being molested.

It is possible that these dogs are strays, and in the event they are they will be disposed of and all dogs in that area will be disposed of if they are continued to be allowed to chase sheep and like many area towns, is a small like many area towns, is a small

allowed to chase sheep and animals.

CARD OF THANKS
the wonderful friends who mbered me with cards, flow-

To the wonderful friends who remembered me with cards, flowers, gifts and visits during my recent stay in the hospital, I send profound thanks. A special thanks to the blood donors and to Dr. Rodgers and staff.

May God bless each of you.

Two exceptions are electric appliances and electric service

Think everything

costs more today?

In spite of inflation, the dollars you spend for electric appliances and electric service buy more today than they did about 20 years ago.

Electric appliance manufacturers have done well in holding prices down. You get more appliance for your money now than in 1948.

In our own business, through sound business prac-

Since 1948, the average selling price per kilowatt-hour of electric service to our residential customers has come down 32.7%.

True, most monthly electric bills are higher today, but that's because most folks are using more electricity to enjoy added electric comforts and conveniences.

Although continuing inflation makes the task increasingly difficult, you may rest assured we will continue to do our best to keep the price of electric service low – the biggest value in your household budget.

LOOK WHAT'S HAPPENED TO PRICES OF APPLIANCES

was \$119.50 in '48, now it's \$78.50 and there have been over 100 external and internal improvements. M A DISHWASHER costing \$339.95 in '48 is \$299.95 now and offers more cycles, better styling, more setting space.

A ROOM AIR CONDITIONER at \$425 in '48 averages \$175 today and it looks better, works better and is cheaper

at \$299 in '48 now range from \$249 to \$299 with electronic dampness controls, many cycles, end-of-cycle signals, permanent press controls—and some models for as little at \$100.

A REFRIGERATOR FREEZER

in '48 at a cost of \$31 per cubic foot is now \$22 per cubic foot and you get no-frost, thinwall insulation, ice-makers, dec-orator fronts and colors. M AN ELECTRIC RANGE

which was \$343 in '48 is \$350 today. And that's with all the modern sophisticated controls and self-cleaning thrown in for good measure.
