A LOOK AT GORMAN CHAMBER OF COMMERCE 1969 OPERATIONS

Are your dues being used wisely? Where does the money go? What does the Chamber do? Why don't I get a notice of a meeting? How can I help make some of the decisions? These are the questions that have been reaching my ears and I'm sure there are many others. Perhaps this will clear up many and if not, please feel free to stop by the Chamber of Commerce office and read the minutes, look at the books, or just chat. We will be happy to try to answer any questions.

The Gorman Chamber of Commerce was organized in July, 1966 for several reasons. One being a step toward the Industrial Team that works so hard trying to get new industry into Gorman. You see the Industrial Foundation can borrow money to help attract new industry. The Chamber of Commerce cannot, however, they work closely together.

The Chamber has a constitution and by-laws, and operates according to them.

One major thing that has been accomplished is the Gorman Milling Co., which is now in operation. This is a direct result of what the Industrial Foundation was formed for and made possible because some foresighted people saw the need and started back in 1966 by organizing the Chamber of Commerce.

By looking over the minutes from January, 1969, here are some things that the Chamber of Commerce has sponsored, accomplished, or sometimes just worked at during the past 10 months.

1. Sponsored the Outstanding Farmer Banquet.

2. Solicited new business for Gorman: had direct contact with an Electronics firm, mobil cushion mfg. firm, and mobil trailer mfg. firm.

3. Collect the swimming pool pledges and industrial foundation dues and deposit in the proper account.

4. Worked on the Hospital project: Letter writing, answering questions, keeping track of donations, meeting with the steering committee, and many phone calls informing people of what was going on.

5. The Sabanna Project has taken many man hours and will continue to do so until it is completed. This is a major goal the Chamber is proud to have had a part in and believe it will benefit this area tremendously, especially the farmers. Work should begin in earnest on this next spring.

WSC Host Young Homemakers And Senior Citizens

On November 10, sixteen members of the Woman's Study Club, the Senior Citizens and the Young Homemakers, W. C. Browning and Willy Gilbert met in the Hotel Housling Unit living room for a very enjoyable evening.

After everyone had introduced himself or herself, Mr. Browning showed a film on Texas. Every Texan is well aware of this great State we live in, but after seeing it all on film and in color we realized all over again why we should be the proud state and people we are.

After a very delicious refreshment plate served by hostesses, Mrs. George Simmons and Mrs. Don Laminack, in the dining area, we retired to the living room for a short business session and a lot of talk.

THANKS IS EXPRESSED TO GORMAN BUSINESSMEN

We appreciate your backing of the Woman's Study Club through the past years.

You have always responded graciously to our selling of advertising, give-aways, suppers, etc., knowing the money we made from such projects would be spent locally for improvement of our town and school. Knowledge of such support as you have always given encourages us to undertake more money making projects - some of which will go to the Hospital Fund, others in which the money will be used for civic improvement. One such item being the payment of \$100 towards paying off the Community Swimming Pool debt.

We say "Thank You" for all your support in helping us improve our community.

21 yard scamper by Johnny Scitern that put the ball on the 6 yard stripe. Scitern added the two point conversion on a run. From there on the Panthers seemed to be somewhere else as they just couldn't seem to jell for the rest of the first half. They were hurt by penalties and a pass interception.

The Yellowjackets came back in the second period and moved 56 yards in 6 plays for a TD with Keith Hilderbrand breaking loose for 24 yards for the score with 3:19 left in the half. The run for points failed, leaving the score 8 to 6.

The Yellowjackets went ahead of the Panthers with 35 seconds left in the first half, going 60 yards in two plays. The first play was a 25 yard toss to the Red 35 yard line. The scoring play came on a fine 35 yard bomb to Robert Colquitt for the score. Hilderbrand added the 2 pointer on a run to put Meridian out in front 14 to 8 at half time.

However, the Panthers returned the second half ready to play football and took command of the game. They took the second half kickoff and moved for 75 yards in 11 plays for the tying score. Johnny Scitern shook loose for an 11 yard jaunt off his left side for the tally with 8:01 left in the third. The run for 2 points failed and the score was tied 14-14.

The Panthers got the winning touchdown with 2:58 left on the clock, going 75 yards in 9 plays with Scitern rambling for 35 yards on a beautiful run for the TD. A pass for points failed and the score read 20 to 14. Gorman kicked to Meridian who took over the ball on their own 4 yard line. The first play netted 1 yard. On the second play the passer was nailed for a loss back to the three. And on the third down play Reggie Underwood got through the blockers to dump the passer in the end zone for a 2 point safety. This made the final score 22-14. The Panther defense played a fine game with the entire defensive team showing well. I am sure it was truly hard to pick a single defensive player of the week since so many did a fine job.

The Panther offense clicked on the first drive in the first quarter, but seemed to kill their own drives on a few other occasions with penalties or interceptions. However, they rolled up 282 yards on the ground and 33 in the air, so you couldn't say they had a bad night. Johnny Scitern was the leading ground gainer with 149 yards on 20 carries for a 7.4 yard average. Jackie Selman got 101 yards on 21 tries for a 5 yard average and also caught two passes in crucial situations for 33 yards. Bill Self got 28 yards on 8 trips for 3.5, and Mike Duran got 4 yards on 6 keeps, but 3 of these were for losses of 16 on pass tries.

The Panther running game really jelled but the passing of the Panthers wasn't sharp.

This week two boys were named as Outstanding on Offense, and, needless to say, they are Jackie Selman and Johnny Scitern, who amassed 250 of the total 282 yards for the Panthers. The Outstanding Defensive player of the Week goes to Wendell Treadway who did a super job Friday night. Wendell has played consistent good defense for the Big Red, as well as a fine job at the offensive guard slot.

The Panthers will host the Blanket Tigers at Brogdon Field on Friday at 7:30 in another 19-B tussle. The Tigers haven't been too strong this season, but are always ready to play when they meet Gorman. However, if the Panthers get their mind on this game and keep it there, they should have another win under their belts.

Right, Panthers?

OFF AND RUNNING — In the top photo Johnny Scitern is shown streaking for a score after breaking free from defenders. Bottom photo grows Mike Duran on a quarterback sneak for a crucial first down late in the game.

The Gorman Panthers returned to their winning ways on Friday night by downing the Meridian Yellowjackets by a score of 22 to 14 at Yellowjacket Stadium in District 19-B competition. The 19-B race is still tangled with Lometa on top, followed by Gorman, Rising Star and Hico all tied for second with 1 loss each. However, this week Rising Star and Hico play, so one of the three will be eliminated from the second spot deadlock. The race will not see a winner until the last week of the season next week when Lometa meets Rising Star and Gorman goes to Hico.

The Panthers started great guns in the Meridian game as they kicked to the Jackets and stopped them before taking over on a fumble recovery at the Meridian 38 yard line. The Panthers moved for the score in 5 plays with Jackie Selman going the final 2 yards off his right side with 9:59 left in the first. The score was set up by a fine

4-H Youths Find Recipe For Success

The nation's 3.5 million 4-H youths have discovered a formula that works. It is: Learn-earn-serve-save. Diligent application guarantees success.

During recent county and state fairs, scores of youngsters from virtually every county received recognition from the state Cooperative Extension Service and the many business enterprises that support 4-H.

Numerous awards are offered annually. Among them are trips to the National 4-H Congress which will convene in Chicago Nov. 30 through Dec. 4 at the Conrad Hilton Hotel.

Some 1,650 boys and girls representing many different project areas have won 1969 state trip awards. They will comprise the state delegations to the congress, and will be accompanied by state 4-H leaders. Teenagers from all 50 states are expected to attend the Chicago event.

Of this group, nearly 270 will be selected for national scholarships valued at \$155,300, according to the National 4-H Service Committee. Winners will be announced during the congress.

In addition to these valued awards, 4-H sponsors provide to another group of state

A Formula that Works!

champions, \$50 U.S. savings bonds, wrist watches, radios and plaques.

Award donors include: American Products, Inc.; American Oil Foundation; Chevron Chemical Company—Ortho Division; The Chicago Board of Trade; Burlington Railroad; Chicago & North Western Railway Company; Cities Service Company; E. I. du Pont de Nemours & Company; Ford Motor Company Fund.

Others include: Hercules Incorporated; International Minerals & Chemical Corporation; Eli Lilly and Company; Oliver Corporation; "first" awaiting the 1969 delegates.

Standard Brands Incorporated; Union 76 Division, Union Oil Company of California; The Upjohn Company; The Campbell Soup Company, and The Wrather Corporation.

The congress is the highlight of the 4-H year, and to be a delegate is the dream of every 4-H'er. New experiences such as jet travel, living for a week in the nation's largest hotel, taking in the sounds and sights of Chicago, eating banquet-type meals every day, and being royally entertained by stars of stage and TV are but a few of the delegates.

"Thanksgiving? Thanks for what?"

Most everybody asks a blessing over his Thanksgiving turkey as a ritual. But how many of us remember that giving thanks is the deepest, most meaningful sort of prayer?

These cynical days, of course, you'll hear some people say, "What have I got to say thanks about?"

The answers to that never change: Thanks for what we have, no matter what that is.

Thanks for what we are, and can be.

Thanks for all God's blessings on us and on others.

This Thanksgiving, think of what giving thanks really means.

In the truest sense of gratitude, it means each of us must re-dedicate himself to the idea that "God's work must truly be our own." Everywhere. Every day.

People change the world. Thankful people change it for the better.

WASHINGTON
"As it looks from here"
OMAR BURLESON
Congressman
17th District

WASHINGTON, D. C. - IF WE OWNED THE ONLY AUTOMOBILE and we were the only driver, it would make no difference on which side of the street we drove. We could take our choice of the left or the right or in the middle and no one else would have his rights violated. SINCE, HOWEVER, THERE IS MORE than one automobile and more than one driver, the law requires that we stay on the right-hand side. As there are more people and more complica-

tions in living, more law and regulations are required. This is not to excuse some of them. There are constant complaints about the interference of Government representatives in our lives. WE HAVE ALWAYS HAD TO WORRY about foreign imports. Since the beginning of our Government there has been the question of quotas and tariffs. As other countries have developed the capability of supplying this Country with goods in competition with our own, the problems become acute.

AT FIRST BLUSH, THE CONSUMERS of foreign goods say that they should have the opportunity to buy the cheapest possible and that our door should be open to imports. The trouble is that if our own producers are put out of business by the competition of more cheaply produced foreign goods and commodities, people will lose jobs and finally, when dependent upon the foreign source, no doubt prices will increase.

OIL PRODUCED IN THIS COUNTRY can not compete on an equal footing with oil produced in the Middle East. Our producers of anything must pay higher wages, take the chance of exploration and pay higher prices for equipment.

AT THIS TIME, THERE ARE PRESSURE groups which want our Government to ease up on restrictions on foreign beef imports. There is complaint from the housewife that beef prices are too high and many are inclined to blame the cattle raiser for prices over the counter. The fact is the cattle raiser finds very little relationship to what he gets for beef sold on the hoof and the price of a steak or roast over the counter.

ANOTHER FACTOR IS ADDED WHEN quality is considered. The Department of Agriculture constantly inspects American produced beef and some way or other it is all added into the final price. There is considerable red tape to it but we don't want billy goat, donkey or mule meat to be falsely labeled.

JUST A FEW YEARS AGO, TONS of kangaroo meat were sold in Pennsylvania labeled as American beef. After the violators were apprehended and prosecuted, there was a story in the press entitled "Are You Jumpy Today?" A congressman from Pennsylvania replied out of his shock that the whole thing made him "hopping mad."

THE AUSTRALIAN KANGAROO HAS come into sort of bad repute in this Country, even to the point of being excluded from prize fighting. Several years ago, a heavyweight boxer was matched with a kangaroo in New York City. The boxer was piling up a wide lead on points until the kangaroo started using his hind legs. The referee stopped the bout

and awarded the decision to the man on the grounds of unsportsmanlike conduct on the part of the kangaroo. If this is found "unsportsmanlike," how much more unsporting it is to pass himself off as a beef steak or a beef roast.

THE LIST OF IMPORTED ITEMS which seriously affect the domestic industry is almost endless. In some parts of the Country, 50 percent of all industrial jobs are in the textile industry. Workers receive the minimum wage or more but the goods must compete with textiles from Hong Kong, where employees are paid 25 cents per hour, and Japan, where the wage is 35 cents, and in other areas where as little as 10 cents an hour is paid.

OF COURSE, WE NEED A MARKET for our raw products such as cotton, wool and mohair. This means we can not completely cut off our imports and make it a one-way street. It does mean that we must constantly look at the situation to determine what is best for our Country's industry and those employed in it. The best arrangement is voluntary agreements, limiting exports and imports, with all these things a part of the consideration, plus our balance of payments. Our whole economic structure depends on these arrangements.

how can Lone Star Gas help you get rid of wrinkles?

We know all wrinkles are not due to aging. Some are due to drying. And dryers. Some dryers affect clothes the way sun affects skin. They not only dry out moisture. They bake in wrinkles. Even in permanent press. But gas dryers are more sensitive to your family's clothing. And more sympathetic to your work load. Most new gas dryers have a special cool-down cycle that turns off the heat before your clothes become overheated. That means your clothes have fewer wrinkles. And you have less ironing. You also have less expensive utility bills. Because gas dries for about a penny a load. See your gas appliance dealer or Lone Star Gas Company. Find out how to take it a little easier. And avoid wrinkles.

Impala's hidden persuaders:

- ① 350-cu.-in. engine: A new more powerful standard 250-hp 'V8 makes the 1970 Impala move with all the more assurance. On good ol' regular gas.
- ② Anti-theft column lock: A locking system is built right into the steering column. When you take your key with you, you lock not only your ignition but your steering wheel as well.
- ③ Aluminum exhaust system: It simply means that your original muffler, tailpipe and exhaust are going to last longer than you'd probably expect them to. Fair enough?
- ④ Side guard beams: They look like highway guard rails, and they're built into both sides of the car for extra protection in case of impact. Not too many cars have them.
- ⑤ Inner fenders: Up inside every fender to protect against slush and mud and help keep your Impala looking young.
- ⑥ Flush and dry: We build the car so that rain and wash water can run down through the inside of the rocker panels, then out. Air follows to do the drying.
- ⑦ Full Coil suspension: Huge coil springs at all four wheels are four big reasons why a Chevrolet Impala rides smoother and quieter than a low-priced car has any right to.
