Coffee Break Talk

By Joe Bennett

Well turkey eating time is here again. And there will be several youngsters very unhappy when they see their pet turkey, fat and tender, lying on the platter all cooked and ready to carve for the Thanksgiving feast. It seems as though the younger set always gets attached to the seasonal bird while he is being fattened for the festive season. (That is, the ones who still fatten their own.) But, after all, we do have to eat! So let's hope junior hasn't gotten too attached to the turkey this year.

I would like to wish everyone a happy Thanksgiving and remind you to give thanks to our Heavenly Father for the bountiful crops and all the blessings he has bestowed upon us all.

And may your turkey be fat, tender, all white, and, most of all, featherless.

The peanut harvest is in the final stage of completion at this time. There are few crops left to harvest. The ones who have not been combined as yet will be completed as soon as the combine is available for their crop. The crops this year is only one of the things that we have to be thankful for.

Have noticed several big trucks around town. They will haul the finish rock for the highway construction here on the two highway projects. So the highways should be finished fairly soon.

Well the Southwest Conference Championship was sewed up by TCU on Saturday when they defeated the once beaten Rice Owls. With this win TCU is the SWC Champs regardless of the outcome of their game next Saturday with the up and down SMU Mustangs. Last week TCU beat Rice 21-10, SMU won over Baylor in a wild scoring game 33-29, and Arkansas bested Texas Tech 14-8.

TCU will represent the SWC in the Cotton Bowl on New Year's Day. At present their opponent is unknown. The Air Force Academy has been invited to the Cotton Bowl but have said they would not make a decision until after their game this week. However, I do look for the Air Force to accept the bowl invitation.

SMU has a possible chance of getting the Sugar Bowl bid providing they beat TCU. Also Rice and SMU are among the teams being considered for the Gator Bowl.

In our picks' this past week Speedy and I both came up with 85 percent right. Speedy lost on his pick of Rice over TCU and I lost on my pick of Notre Dame over Iowa. And the other 5 percent was caused by the tie between Purdue and Indiana.

So, with only one week of predictions remaining Speedy now has a season average of 76 percent and I have a 74 percent average.

Our picks for the week are as follows:

SPEEDY PICKS
SMU over TCU
Texas over A&M
(National TV - Thanksgiving)
Rice over Baylor
Army over Navy (T.V.-Saturday)
Air Force over Colorado
(Cotton Bowl bound)
Oklahoma over Okla. State
(Easy Pickings)
Notre Dame over So. California
Mississippi over Miss. State
Auburn over Alabama
Clemson over Furman
(Possible Sugar Bowl)

JOE PICKS
TCU over SMU (I may be wrong)
A&M over Texas (Revenge)
Rice over Baylor
Army over Navy

For Ladies Only

Thanksgiving is here again! I'm sure each of you have your own traditional turkey and fixin's recipes, so I will skip that this time, but will give you a hint to help use up the left-over turkey or chicken.

TURKEY BEANWICHES

Try making a man-sized sandwich. They'r fun to make, so the children may want to make them for you.

Set the oven at 425. Place 4 slices of toast on broiler rack. Spread each piece with pork and beans; takes one 1 lb. can. Top beans with slice of turkey, then top with slice of cheese. Broil about 15 minutes or until the cheese is bubbly - watch and don't let cheese over cook.

Makes four sandwiches. Served with bowls of hot split-pea soup, baked apples and a beverage this makes a nourishing meal and can very quickly be put together.

HAPPY THANKSGIVING!

The So And Sew Corner

By ROONEY WILLIAMS

Thanksgiving is almost here and it is with thankful hearts the employees of the sewing room are going to have a double holiday. Mr. Coln has given us both Thursday and Friday off.

Mrs. Coln was up 2 days last week, although some of the girls working here might not have known it. She made her appearance so quietly and worked so diligently while here she may have been unnoticed. One day she had some of the prettiest quilted circular skirts for the ladies at Hico to sew on.

It seems that winter has hit and is not only giving the small ones their share of sickness, but is also catching a few of the older ones. Edna Watson was out part of last week because she was ill and this morning Betty Greer and Johnnie Hammon had to leave work because they were sick.

I believe there is only one new girl this week that is learning to use one of the power machines. She is Azilee Gilchrist.

Ona Rogers and family, including her daughter and family, who are still vacationing with them, all journeyed to Wichita Falls to visit with her son and his family, Mr. and Mrs. Kenneth Rogers.

Ann Justice's son, Cy Doug Justice of Snyder, visited with her over the weekend.

Mr. and Mrs. Olan C. Dennis visited their daughter and family, Mr. and Mrs. Tommy Owen, in Carlsbad, N. M. over the weekend.

Kathy McNabb (Atha's daughter) visited Carlsbad Caverns this weekend with the other Dublin Cheer Leaders and their sponsor. Kathy had just returned to school last Thursday after recovering from the mumps.

Mr. and Mrs. Ray Williams and family were happily surprised to have his step-mother and her mother, Mrs. Irene Williams and Marvin Talley, from Woodson, to spend Sunday with them.

Mr. and Mrs. Ray Rankin and Mrs. Carroll Bickle were in Comanche Saturday.

Lauderdale Is Appointed To County Ed. Board

J. D. Lauderdale, veteran Cisco banker, has been appointed by the Eastland County Board of Education to fill the unexpired term of Mrs. J. R. Burnett, also of Cisco, who resigned recently. Announcement of the board change was made today by H. R. Garrett, County Superintendent.

Mrs. Burnett submitted her resignation several weeks ago. She had served on the county board for more than 25 years and is a life-long resident of Eastland County. She moved to Cisco at the age of 7 years and has lived there since that time, except for six years when she lived in Eastland while serving as county school superintendent.

In addition to serving on the county school board and as the county school supt. Mrs. Burnett has a license to practice law, taught school in Eastland County almost 20 years, has written a book entitled, "Bible Study Made Easy," and has taught a Sunday School class in the First Baptist Church for over 50 years. Mr. Lauderdale has lived in Cisco since 1920 when he came here from Stephens County where he attended the Harpersville School in Breckenridge. He is married and has one child.

SPEAKING OF CARDS

PLAYING-CARD FOOTBALL

Now that pigskins are filling the autumn air in campuses all over the nation, here's a chance for you to play an exciting game of football right in your own living room without risking the possibility of a jarring tackle by the opposing "team." It's called Playing-Card Football and was invented by Lt. Comdr. A. A. Bateman, U.S.N. (ret.).

All you need to play the game is a pack of cards and a sheet of paper on which 100 parallel lines have been marked off. Two players or sides compete. After the pack is shuffled, it is dealt out until exhausted and plays are made accordingly. One such deal represents a quarter and four deals (quarters) make a game. Kings count 13, queens 12, jacks 11, aces 1, and other cards their index value. Numbers on the cards indicate the distance the "ball" is to be moved, and the colors show the direction—red cards favor the offense (side in possession of the ball) and black the defense. A token is used to represent the ball. For the kick-off, the "ball" is put on the 40-yard line and five cards

are dealt, the ball being advanced by the total of the numbers (colors ignored). The pack is then given the receiving side. If the ball has passed receiver's 10-yard line, he may pick it up where it lands, or announce "Let it roll" and deal one card. If it is red, the ball is put back on his 20-yard line; if it is black, the ball is advanced 5 yards towards receiver's goal. The player having the ball may choose any of the following plays, and the outcome is determined by the cards: Punt. Five cards are dealt to determine the distance of the punt, as for a kick-off. But if the first three cards are black, the kick is blocked and the fourth card shows who recovers the ball (red for receiver). Line buck. Deal one card. If it is red, advance the ball the indicated distance. If it is black, the play is blocked and you must deal a second card. End Run. Deal two cards. If both are red, plays succeed; deal additional cards until first a black appears; the ball is advanced by the total of the reds. Eight successive reds make a touchdown. Short forward pass. Deal one card. If red, the pass succeeds and the ball is advanced accordingly. Deal additional cards, and any additional reds show ground gained by running. To get the complete rules for playing this exciting game of football with playing cards, write to "Football," Playing Card Association, 420 Lexington Avenue, New York 17, N. Y.

Adventures in ADVERTISING

If the shipping department of a factory had not made an error, the world would never have known of Musa-shiya the Shirtmaker and the most astounding advertising campaign in history would never have been launched.

Following World War I an English textile factory was getting back on a peacetime basis. In error it sent a full five year backorder of shirting material to Musa-shiya, a Japanese shirtmaker who operated a small shop in Honolulu. Business was poor and Musa-shiya was near bankruptcy, when the customs office informed him that certain bales of cloth and a fat bill for duties awaited his pleasure at the port of Honolulu.

When the little shirtmaker realized what had descended upon him, he asked for time and went into the silence for purpose of mental refreshment. Remembering a friend in a big mercantile establishment, he hid himself there and sought counsel. How in the name of the horned prophet of evil was he ever to get rid of all that English shirting? And in the meantime where was he to put it? His little box of a shop wouldn't hold one bale.

"You'll have to advertise," advised his friend. "Leave it to me. I'll have our advertising agents help you out."

This merely compounded the little Japanese shirtmaker's troubles. Advertising to him was an uncharted sea. The advertising agent called on Musa-shiya and suggested \$300 as a modest starter. "Too-o-o much. Maybe I think thirty dollar plenty," said the shirtmaker. He was told that wouldn't even get him in print. The agent explained the costs of various advertisements and finally Musa-shiya agreed to try the plan and what was destined to be the most astounding and far reaching campaign in the history of advertising was launched.

THE FANTASTIC STORY of MUSA-SHIYA THE SHIRTMAKER

(Also Sometimes Drygoods Selling)

Two column by five inch ads then started appearing regularly in the Saturday Honolulu Star-Bulletin. The ads were written just the way Musa-shiya talked—in colorful pidgen English which is used throughout the Orient. Here is an example of one of Musa-shiya's ads:

"Well here come storek again—but Musa-shiya, the shirtmaker, is able prepare. Wonderful accumulation of baby things in dry goods selling corner of Musa shop. Everything for the baby—especially diaper. Exclusive of storek, which find most easily, many persons not finding little shop of Musa-shiya the shirtmaker in King Street, Makai side, between fish market and river."

Tourists started sending copies of Musa-shiya's ads to their friends in many countries. Soon Musa-shiya was receiving orders from all over the world as well as doing a thriving business in Hawaii.

And that is the story of how a well planned, small advertising campaign made an unknown Japanese shirtmaker not only wealthy but world famous.

Your local newspaper doesn't promise to duplicate this story for its advertisers, but it does take your sales message into the homes of your customers where full and careful consideration is given your suggestions. Who knows, perhaps you too can be a Musa-shiya.

Highlights and Sidelights

From Our State Capitol

By Vern Sanford.
AUSTIN, Tex. - Higher pay for legislators is an issue that's buried, but not dead. Voters buried it under a two-to-one avalanche of disapproval when it was submitted as a constitutional amendment Nov. 4. But already there is talk of trying again.

It is being discussed both by those who supported "Amendment One" and those who fought hardest against it. Sen. Dorsey Hardeman of San Angelo, leading spokesman for the opposition, has indicated he may submit a pay raise plan of his own next session. Hardeman attacked the recent proposal, not on the principle of better pay for lawmakers, but on the grounds that the amendment was a muddled conglomeration of too many things.

State AFL-CIO, which worked for Amendment One, is plugging for re-submission of the annual pay question. AFL-CIO headquarters officials sent a letter to legislators expressing regret that placing the blame on labor's favor the amendment did not pass and orite targets - - business lobbyists and newspapers.

Whatever the merits of the case, a lot of people in the state agencies in Austin are glum about the prospect of facing a disgruntled, pinch-penny Legislature next year. With the general revenue fund in the red, there's bound to be an effort to cut expenses. In addition, state employees fear, there'll be a feeling among lawmakers that "If we can work for peanuts, so can you."

WATER STRUGGLES - State Board of Water Engineers has squabble over Trinity River water-completed public hearing on one er and is faced with another soon.

Probably as a result of the recent drought, there seems to be an increasing intensity in the struggle between various areas of Texas for water rights.

In the case of a major river

like the Trinity, which passes through or near three major cities - Fort Worth, Dallas and Houston - - there's always a fear that one city will take out so much water another will run dry.

Water Board has under consideration now Dallas' request for a permit to build Forney Dam on the East Fork of the Trinity. There was strong opposition from the North Texas Municipal Water District, particularly Rockwall County, on the grounds that the dam would secure Dallas' water future at the expense of north county neighbors.

In the making is another wrangle over Houston's request to build a reservoir at Livingston. Houston wants to divert 1,100,000 gallons daily to the reservoir - - practically all the unappropriated water from the Trinity. Dallas is attempting to organize Upper Trinity towns and cities - - including Fort Worth - - to oppose the plan.

WELFARE PROGRAM - Texas Social Welfare Association at its meeting in Austin asked the next Legislature to:

1. Pass laws putting into effect the new constitutional amendment permitting medical aid for the aged, disabled and dependent.
2. Overhaul laws dealing with delinquent, dependent and neglected children.
3. Appropriate money to the Texas Youth Council for more staffers, including parole supervisors for juveniles.
4. Pass a minimum standard hospital licensing law.

Association also passed a resolution prasing State Welfare Dept Director John Winters and presented its Distinguished Service Award to Miss Ima Hogg of Houston (daughter of the late Gov. James Hogg) for her generosity on the behalf of mental health work.

MECHANICS LICENSE LAW - Next Legislature will be asked to decide whether to require auto mechanics to have a license before monkeying around under the hood of your car.

Texas Independent Garagemen's Association has voted to work for such a law.

Under the association's proposal, all independent auto repair shops, all authorized car dealers' shops and all mechanics would be examined and licensed under a state board. Purpose, say the garagemen, is to protect the public from those who pad bills and do little, if anything, for cars.

SAVINGS & LOAN CHANGE - An attempt will be made next session to patch up the savings and loan association law after a part of it was declared unconstitutional.

Atty. Gen. Will Wilson held unconstitutional the law which provides for automatic cancellation of a savings and loan association's certificate to do business if it fails to start operations within six months after the certificate is granted. Wilson ruled this violates the constitutional guarantee against being deprived of life or property without "due process of law."

State Banking Commissioner J. M. Faulkner said he will ask to have the savings and loan law made like the banking law. This gives the Banking Commission authority to extend a bank's certificate if business is not begun within 90 days.

UNCLE SAM HAS SAY - Texas regulatory agencies cannot set rates for railroads, truck lines, etc., carrying goods and personnel for the federal government in Texas.

This ruling by the Texas Supreme Court was made in a test case brought by the Texas and Pacific Railroad and others. It had been knocking around in the courts for some years. Former Atty. Gen. John Ben Shepperd had ruled that the Texas Railroad Commission did have authority to set rates for transportation entirely within the state's borders.

Final ruling was based on a decision by the U. S. Supreme Court in a California case of the same type.

NO HARM IN A STILL - Court of Criminal Appeals insists the evidence has to be 100 proof to convict a man of manufacturing an "illicit beverage."

Appeals Court threw out the conviction of a Lamar County man who had pled guilty to a charge of "possessing a still to manufacture intoxicating liquor."

Majority opinion said, in effect, that the law prohibits possession of a still to make "illicit beverages," but that illicit beverages and "intoxicating beverages" are not necessarily the same.

Teenage Auto Talk
THE DRIVER'S SEAT - No. 109

Do you own a "slush car" or an "Uncle Daniel?" Have you polished up the "fireplace" and added some "goodies" lately?

If you're baffled by these terms you might try asking your teenage son or daughter what they mean. Teen boys and girls, in addition to learning how to drive safely at high schools around the nation, are introducing a unique extra-curricular automobile "language" all their own.

Here's "what gives" with this new car talk. A "slush car" is one equipped with an automatic transmission. An "Uncle Daniel" is not a new model, but a souped-up car that looks tame.

"Fireplace" refers to the front grille, and "goodies" are fancy accessories like a pair of flying swans (the decorative metal kind) on the hood.

Here are some more terms that diligent research has turned up, and which will put you in solid when talking cars with your kids: Skins or Hides - tires.

Stick Car - auto with regular gear shift and clutch.

Four-Banger - 4-cylinder engine

Bent Eight - V-8 engine.

Spaghetti - too much "gingerbread" or chrome on a car.

Pot - carburetor; a motor part that mixes fuel and air prior to combustion in the engine; also called "jug".

If you want to have some fun with your new-found knowledge, drop into your local filling station and try this line:

"Tighten up the binders, pulleeze, and take a look at that Johnson Rod. Oh yes, put on some new skins and wash up the spaghetti."

The price of the bill would be worth the expression on the mechanic's face - provided he isn't a teen-ager.

FIRE PREVENTION AROUND THE WORLD

In Switzerland there is compulsory fire service for all men 18 to 60 unless exempted because of occupation.

The word "curfew" comes to us from the days of William the Conqueror. So great was the fire danger in those times that a metal cover was used to put out hearthfires. This was called a "couvre feu," which became "curfew," the tolling of a bell which ordered all lights and fires out.

Junior Fire Marshals here and throughout the United States are learning about "Fire Prevention Around the World" as part of a year-round elementary school safety program sponsored nationally by the Hartford Fire Insurance Company and locally by agents in some 10,000 communities.

Among other important fire prevention lessons, youngsters are taught that burning leaves and trash should be done, when local rules permit, in a wire-mesh, covered incinerator with adult supervision.

Important Questions On Cotton Ref'endum

How farmers vote in the cotton marketing quota referendum to be held throughout the nation's cotton-growing area on December 15 will determine whether quota penalties will apply, the kind of allotment program in effect, and also the level of price support for 1959-crop cotton. The referendum therefore is of vital concern to every cotton grower, says William F. Bryant, Chairman of the Comanche County Agricultural Stabilization and Conservation Committee.

The marketing quota program will be in operation for next year's crop, the chairman explains, if at least two-thirds of the votes cast in the referendum are in favor of the program. In that case, farm operators will have an opportunity to elect a choice between (A) complying with their "regular" farm allotments - with price support available at not less than 80 percent of parity for the 1959 crop of upland cotton, or (B) complying with an increased farm allotment 40 percent larger than the "regular" farm allotment - with support at a level 15 percent of parity lower than under the first choice; quota penalties will apply to any cotton produced in excess of the chosen allotment.

If more than one-third of the votes are against quotas, there would be no quota penalties, only the "regular" allotments would be available, and the price support level to eligible growers would drop to 50 percent of parity.

All farmers who were engaged in the production of upland cotton in 1958 will be eligible to vote in the referendum.

The referendum will be held between the hours of 8 a. m. and 6 p. m. on Monday, December 15, at the following polling places in Comanche County: Sipe Springs, De Leon City Hall, Sidney Baptist Church, Comanche, ASC Office, McCamey's Store, Proctor, Gustine City Hall, and Wilson Church.

(Editor's Note: As yet we have received no information on the polling places for Eastland Co.)

BANK NOTES by Malcolm

DID YOU KNOW...

FIVE YOUNG GIRLS WORKING IN A SEATTLE BANK ARE TOTALLY DEAF BUT PERFORM OUTSTANDING WORK.

THE AUTO ON THE BACK OF ALL U.S. TEN DOLLAR BILLS IS A COMPOSITE OF 1927 MODELS.

7,000 PEOPLE RECENTLY PITCHED 5 PENNIES EACH INTO THE MOUTHS OF 3 STUFFED FISH IN AN ATLANTA BANK DISPLAY. THE FUNDS COLLECTED WERE DONATED TO A LOCAL CHARITY.

YOU'VE FORGOT TO PUT ON A CHRISTMAS SEAL, POP.

DAGWOOD, HOW COULD YOU FORGET THE IMPORTANT JOB CHRISTMAS SEALS ARE DOING IN THE FIGHT AGAINST TB!

POP, MAYBE YOU'D BETTER PUT ON TWO SEALS TO SHOW YOU'RE SORRY!

A THANKSGIVING MESSAGE TO ALL OUR CUSTOMERS

We hope you have the pleasure of sharing this Thanksgiving with those you love.

JAY'S GROCERY & MARKET

The picture has changed, but the spirit abides...

It is a far cry from the scene of the first Thanksgiving to the festive tables in modern, streamlined homes at which we celebrate the holiday today. But, basic to proper observance of the Day is the same spirit of devout thankfulness for the blessings vouchsafed to us by a Divine Providence . . . the same steadfast dedication to maintaining those freedoms for which the founders of our country braved the hazards of the New World.
