### IN MEMORY OF A FRIEND - MRS. NETTIE SHORT

God does not promise skies always blue,  
Joy without sorrow, peace without pain,  
She bore it with a smile,  
Thinking of her children, loved ones and friends,  
Dear one who could sufferst heart again.

The father bent down from his Throne above to soothe her with his love.  
The days were long, the illness she had borne seemed heavier than one could bear.  
And then it lifted, God touched her hand in sweet relief and peace.

For she is his and he doth know his own.  
Though we may not understand the height for which we long,  
Is often reached through pain and grief  
I know that though he removes the friends on whom we could lean

I wish for more like her to dispel the dark shadows and help our dreams come true.  
When her life's work ended and when her crown was won  
Her work, her love and thoughtfulness will be commended.

The Master said well done.

Mrs. J. Q. Eakin

## Times Are Changing Fast -

... and so are governments, economic conditions, ways of life and even human nature itself. Likewise revolutionary changes have taken place in the field of land titles. Not so long ago title chains were short and simple but today the records in this county are voluminous and the changing times have wrought havoc to many titles. The abstract is about the only answer. ### POSTAL EMPLOYEES EXPRESS APPRECIATION

Dear Mrs. Moorman; As the day of your retirement dawns, we feel that we cannot let you go without again trying to tell you how much we have enjoyed working with you through all the years you have been our postmaster. You have never tried to drive us but always to lead us. You have firmly held us very close to the line of strict duty. This is as it should be. Through it all, you have "gone to the front" for everyone of us as opportunities presented themselves; and you have always shown such deep interest and motherly concern for our welfare and well being that we couldn't help loving you even if we tried. We have never known you to be unfair to anyone.

We trust that your years of retirement may be many, and filled to overflowing with just blessings that will make you happiest. We feel certain that your retirement will be very happy because we know that He who notes even the sparrow's fall will not permit to go unrewarded the many years of capable, efficient, unselfish and patriotic service you have so consistently rendered every employee and every patron of the Gorman postoffice.

We shall consider it quite a compliment if you will continue to regard us as "your boys".

Again our thanks, our best wishes and our love to you.

The two biggest sports events of this week will be televised into the homes across America. Wednesday night will be the blood-letting boxing duel between Archie Moore and Yvon Durelle. Durelle had the ancient Archie, the light-heavyweight champion, on the floor four times in the first five rounds of their now-famous brawl of last December. But Archie kept getting up and finally knocked out the Canadian fisherman in the eleventh. This could be Archie's time to go for he will be up against a younger man and Moore, at the age of 43, could go anytime. But with his skill and punch we look for Moore to hold on to his title.

The other sporting event of the week which will be televised over ABC, Channel 8, at 7:30 this Friday night will be the College All-Stars vs. the Champion Baltimore Colts. Naturally, the collegians are heavy underdogs. It is extremely difficult to take a crowd of young men who haven't played together and with in the space of about three weeks weld them into a machine capable of competing on anything against the professional kingpins. Last year the 70,000 fans saw the upset of upsets, when the All-Stars, coached by Otto Graham, who hadn't coached a down of football before, buried the Detroit Lions, 35-19. One of the principal forces in that astonishing surprise was Bobby Conrad of Texas Aggies. He never had booted a field goal before but that night he kicked four field goals, one for 44 yards, was the longest ever kicked by an All-Star and he also kicked three extra points. Texas again will be

Coach Roy Byrd has returned from the Coaching School in Ft Worth and has met with the boys to outline the football program for the coming season. The Panthers will officially open fall workouts August 17. From what the boys are saying among themselves, it seems they are going to be a more determined squad this year. They realize they must train and put forth an effort to get into the consistent winning column. This year's squad will depend a lot on several sophomores but they are very promising two year men and should develop into a district contender by mid-season.

*smoothest ride!*

One of the 7 big bests Chevrolet gives you over any other car in its field

Anyone who's ever taken a Chevy over a choppy country road can tell you how lightly Chevrolet's Full Coil suspension handles rough going—and coil springs never squeak, never need grease! Try this velvet way of going for yourself. Once you do, you'll find your own way of saying what MOTOR TREND magazine puts this way: "... the smoothest, most quiet, softest riding car in its price class." But the happiest part of it all is that this Full Coil ride is just one of seven big bests—all documented by published opinions of experts and on-the-record facts and figures.

**BEST ROOM**—Official dimensions reported to A.M.A.\* show that Chevrolet sedans offer more front seat head room than all but one of the high-priced cars—more front seat hip room (by up to 5.9 inches) than the "other two" of

the leading low-priced three.

**BEST ENGINE**—Chevrolet engines have long won expert praise from virtually every automobile magazine, and, just recently, Chevrolet received the NASCAR† Outstanding Achievement award for "the creation and continuing development of America's most efficient V-type engines."

**BEST ECONOMY**—A pair of Chevrolet sixes with Powerglide won their class in this year's Mobilize Economy Run, topping every other full-sized car. And the winning mileage was a whopping 22.38 m.p.g.

**BEST BRAKES**—Chevy's bonded-lining brakes are the biggest in their field, built for up to 66% longer life. In a direct competition conducted by NASCAR, Chevy outstopped both of the other leading

low-priced cars in a test of repeated stops from highway speeds.

**BEST STYLE**—It's the only car of the leading low-priced 3 that's unmistakably modern in every line. "In its price class," says POPULAR SCIENCE magazine, "a new high in daring styling."

**BEST TRADE-IN**—Any N.A.D.A.‡ Guide Book can give you the figures on Chevy's extra value. You'll find that Chevrolet used car prices last year averaged up to \$128 higher than comparable models of the "other two." Your Chevrolet dealer will be happy to tell you about a whole host of other advantages besides these seven. Why not drop by his showroom?

AS IT LOOKS FROM HERE Omar Burleson, M. C. 17th. District, Texas

WASHINGTON, D. C. - DR. WARD NECOMB, a Nebraska dentist, has successfully fitted cows with steel false teeth.

AFTER SOME PERIOD OF EXPERIMENTATION, it is found that the cow with good teeth will live longer and produce more.

BREEDING COWS beyond eight or nine years of age usually become unproductive. After their teeth are worn down to the gums by constant cropping of tough grass, they find it hard to line and do well. This is the case in the Western Plains area.

IN EASIER, MORE LUSH AREAS of the East cows live

longer and produce calves up to the end of their life.

DR. NECOMB DEvised A SET of false teeth with crowns of stainless steel that can be lined with cement and crimped down around a cow's old teeth.

SINCE COWS GRAZED on more plentiful and more lush grass are known to live and produce up to sixteen to twenty years of age, possibly the productive life of those in the more arid areas can be prolonged.

A PROPOSAL HAS BEEN MADE by Senator John Stennis of Mississippi for the creation of a twelve-man Agriculture Policy Commission to make a thorough study of farm programs and recommend new legislation.

ORDINARILY, A COMMISSION OR A COMMITTEE is a place to bury problems, but certainly in this instance something is needed.

THE CONGRESS, THE ADMINISTRATION, and farm organizations have floundered through months of futile squabbling over farm problems, chiefly because there is no well-defined policy for guidance.

SENATOR STENNIS SAYS he is convinced that, if we do not come up with a more realistic program, which would meet certain objectives and at less cost to the taxpayers, our agriculture program, as we know it today, is doomed to greater criticism and eventually, complete collapse.

A NEW AND POWERFUL "United States of Europe" is taking shape and is already having noticeable impact on the economy of America.

THE UNITED STATES is still tied to domestic and foreign economic policies that are based on the wornout idea of a weak Western Europe that can not survive in freedom without the aid of American dollars.

FRANCE, GERMANY, BELGIUM, AND HOLLAND have formed a solid industrial power that is already beating the United States, not only in foreign markets but right here at home.

ENGLAND HAS ALSO bolstered up her economy, by American gifts, grants and loans, and at the same time giving American producers a tough time at home and abroad. Japan is doing the same.

THE RESULT IS THAT the United States is heading toward economic decline while nations we are aiding are following policies leading to greater solvency and renewed world power.

# DESDEMONA NEWS

ETHEL KEITH, Reporter

The Annual Homecoming was held here Saturday, August 8th. A nice program, worked out by the program committee was enjoyed by a large crowd. The Gospelaire had charge of the night session with some local talent between times.

Attendance at the different churches was at low tide Sunday due partly to the heavy weekend activities.

Mr. Ed Riggs, who has been in the Blackwell Hospital for several days, has improved and is expected to be home this week.

The Roy Gutherys had most of their children home on the weekend.

THIS STEPPED-UP COMPETITION is causing the outflow of American gold to other countries. The value of the American dollar has not only shrunk at home, but also abroad. Even the Russians want to get on the gravy train.

FROM ALL INDICATIONS, other countries in Europe will in the near future band together in an economic alliance as a part of the United States of Europe. Italy, and probably Spain and Portugal, will be added to the Western European economic alliance.

THE ADVANTAGE OF SUCH an economic bloc in Europe is not entirely tied to cooperation between these nations. Lower labor cost is a big factor in producing cheaper goods to compete with the United States.

OUR "HIGHER STANDARD OF LIVING" is pricing us out of the world market. Too long we have thought of ourselves as being dominant and indispensable to the rest of the world.

Captain Bobbie Burleson, wife and son, Jerrell Lynn, of San Marcus were here on the weekend to attend the funeral of her uncle, Si Trice, on Sunday.

Mr. and Mrs. Lana McGee and daughters of Kermit visited on

Monday with Mr. and Mrs. Pug Guthery.

The summer revival at the Baptist Church will start Friday night. Everyone is invited to attend.

Mrs. W. T. Yardley and sons of Odessa are here visiting her mo-

ther, Mrs. Beulah Williams.

Mr. and Mrs. R. H. Abel spent Sunday in Valley Mills visiting with relatives and old friends.

Visiting Mrs. Nora Wall on Sunday were her sons, Pete and Elbert, and their families.

# What is Hypocrisy?

Religion... ITS LESSONS FOR MODERN LIVING

"But woe unto you, scribes and Pharisees, hypocrites!"

St. Mathew 23

Jesus repeatedly used this phrase, as related in the twenty-third chapter of St. Mathew, to expose the scribes and Pharisees as hypocrites, men who were supposed to be the religious leaders of the Jewish community.

They were in truth sanctimonious, pious prigs who knew they were always right and who would not accept the truth because it was new.

What is hypocrisy. It is lying. It may be lying to yourself, but it is still lying. Jesus had no sympathy for this type of person and he exposed them.

There is a lesson in this for modern living, because our world is filled with hypocrisy. It begins with each individual, his fears and hates and weaknesses, and spreads to institutions, ideologies and nations.

To stop it each individual must examine himself and stop lying to himself.
