

SENIOR CLASS NEWS

Greetings Earth people: Your ole space-writer is reporting in again. We've all managed to settle down to our schedules and are finally making big plans.

May I pick a bone with each of you? It's about our football team. They're good players, and have it in them to really play ball, but we need more support. The old school spirit seems to be lacking in some respect. Now, the best way I know is to let the boys know you are backing them. Aha! now you get to the point. The seniors are selling stickers for car bumpers. They read, "We're backing the Panthers!" Very appropriate, don't you think?

Bake sales, magazines, stickers, money, money, money. That

seems to be my theme. Now, lets change to more interesting happenings. Our football game didn't turn out as we'd have liked, but it was fun. Have you noticed the cheerleaders this year? Wow! Nice huh? They spent their own time and money to learn all those ne wyells, but, they were really willing and ready.

All the Seniors are looking forward to freshman day with a great deal of mischief, and if ever a group could be mischievous, then that's us. We can think of things no one else ever dreamed of. Oh well, we won't be mean to them, of course, but we'd like to scare them almost to death.

This is your sidewise, satellite, star reporter signing off for this week. Good Lord willing and the creek don't rise, I'll be back next week. Beat Tolar! over and out.

MRS. BILL TUCKER, Secy.

A full workshop program, noted speakers, and tours, and a banquet have been planned for the three-day session.

- Vice-Pres. - Merla Raye Miller
- Secretary - Sylvia Leonard
- Treasurer - Nell Browning
- Reporter - Kay Craddock
- Student Council Rep. - Russell Fuller

We went on a class party Monday to Cisco, skating. Almost everyone in our class went and those who couldn't make it really missed a lot of fun.

At our last class meeting we decided on some ways to make money. One is to wash cars down town October 10 at \$1.25 per car. Second is to serve the business men on December 14.

We have three boys from our class on the Panther team this year. They are Charles Reeves, Jerry Shugart, and Jackie Simp-

Our thought for the week: "One of the most over-worked words of our day is the pronoun, "They". It is always "They" who are gossiping or "They" who are wrong. When we are tempted to use "They" substitute the word to "We"."

WYNNE CHESTER SAYS:
Get Ready - Get Set -
And Then GO HUNTING!

The time to get ready for the shooting days ahead is now, and what better place for a gal to start than with clothes. Sportswear designers have created some perky shooting outfits for the fair sex this year, so you'll have lots of attractive items to choose from. You'll have the most fun if you dress comfortably, though, and in field clothes comfort means light weight, proper warmth and freedom of action. The secret of warmth is dressing in layers - a cotton knit blouse, sweater and water-repellant jacket with a warm lining, for instance. On really cold days you may want to add red long Johns, but don't let the prospect dismay you... they feel

good. Slacks should be loose-fitting, but tapered to fit into ankle-high boots that fit properly and give good support. Water-proofing helps, too. Be sure to break them in at home before you take to the field. Top your outfit off with a gay hunting hat (yellow is the color with hunters this year) and you're set to join hubby at his favorite sport.

Steel bar cushions jar in REDESIGNED '60 CHEVY TRUCKS

A revolutionary new suspension system gives vast improvement in ride, durability, and control to 1960 Chevrolet trucks. Front wheels are independently sprung on frictionless torsion rods. Rear suspensions are new, with coil springs on light-duty models and stronger, softer riding leaf springs on heavier models for improved cushioning of load and driver. New frames reduce height up to seven inches, with some cab floors at step-in level from the ground. Styling is new with rubber-mounted, roomier cabs. Inside steps have been eliminated, providing a full-width floor.

Imagine a truck ride so smooth and cushioned that fragile loads can travel the worst "wash-board" roads with ease. Imagine a truck ride that virtually eliminates shimmy and wheel fight, cuts side sway on curves, makes steering far steadier and easier, keeps drivers far fresher. Imagine a truck ride that permits higher safe cruising speeds, more trips per day with all kinds of cargo over every type of road surface. Imagine a ride that keeps up to 78% of all objectionable road shock and vibration from ever reaching the driver and cargo, a design that sharply reduces twisting and fatigue forces on chassis, cabs and bodies, that keeps trucks young for extra thousands of miles. / Soon you won't have to just imagine such a ride. You can try it for yourself in the trucks that do the next best thing to paving every road in America—new Chevrolet trucks for 1960. You'll see what happens when Chevy's truck engineers design a whole new line of trucks around a whole new kind of torsion-spring suspension. These trucks are new from the ride on up—with wonderfully roomier cabs, braunier frames, style that's fresh as sixty and more! Don't decide on any new truck till you see the newest of all.

See them soon at your local authorized Chevrolet dealer's.

By Patricia McCune

"MARTHA, it isn't everyone we'd trust to stay with the boys," dark-eyed Lillian said as she and Joe left Friday noon for the mountains.

"Don't worry about a thing," Martha Drake smiled. "Merry Christmas."

Although Martha had given a weekend with Davey and the twins as a Christmas present to Lillian and Joe Johnson, she knew they were giving her the weekend, too. Martha hoped that in the Johnsons' cozy home, lanky Roger Burton would see her less as an efficient secretary and more as the girl he wanted to marry.

That night, as the three blond boys slept soundly, Martha and Roger soaked up the homey atmosphere and soft music. By one o'clock Roger had left and Martha was in bed, but it was still dark when a small hand softly caressed her cheek.

"Mr. Sun is up," Davey whispered. "Where's Daddy?"

"Mr. Sun is up," Davey whispered. "Where's Daddy?"

"Davey, your daddy and mother have gone to the mountains for a few days, you remember. And Mr. Sun is not up. It's dark, Davey. Get back into bed."

"I'll get in with you," Davey decided, climbing over her still unrested body.

With the first graying at the window, Davey's hands gently touched her cheeks again. "Mr. Sun is up," he announced.

"Davey, give me another half hour to sleep, please. Aunt

Martha's really tired."

But it was only a moment before brown-eyed Johnny was pulling at her from the other side.

Martha realized that her morning had begun. Mr. Sun was up.

Davey gulped breakfast and flew outside to the mud almost immediately, but it was mid-morning before Johnny and Joey were back in bed.

Now to see what Davey's doing, Martha thought, hurrying to the back. As Martha stepped outside, the door caught with a sickening click behind her.

Ten minutes later, Roger sauntered up the front walk in time to see her disappear through the window she had frantically broken to get in.

Some weekend this was going to be. Why did Roger have to see her climbing in the window? "Well, I'll have a wonderful dinner, with juicy, rare steaks that Roger loves and he'll forget all about the silly business of being locked out," she told herself.

Dinner Burned

But that night, just as Martha was ready to remove the steaks from the broiler, Davey crept into the kitchen. "Johnny isn't in bed any more," Davey announced. "He's gone."

"Gone!" Martha repeated, racing to the boys' room. "Johnny's gone!" Martha cried and then saw him on Roger's arm like a sack of flour. Relief surged through her, but momentarily, as the burning smell sizzled in from the kitchen.

Sunday showed early promise of being a better day, even though Davey was up with Mr. Sun as usual. It was the laundry that broke the spell—Davey's muddy corduroys, crib sheets, pants, shirts, sleepers, diapers.

"It's no Christmas present to come home to all this," Martha sighed. "I guess I'll just do a load or two as soon as Johnny and Joey are napping."

The washing machine was humming through its third load when Roger arrived, but the third load was just too much. In sudden revolt, with a devastating noise, the machine ground to a halt and quickly overflowed. Johnny and Joey screamed and only Roger kept the soapy water from flooding the house.

"Some weekend," Martha lamented later. "Did Lillian say I was dependable? First I locked myself out and then ruined our dinner. Now I've wrecked the machinery."

With his warm eyes glowing with love, Roger took her hand. "It isn't what happened that counts. It's what you do about it. You always thought of the children first. I like that. Tomorrow after work, let's go Christmas shopping. Now I know what I want to give you."

GOV. DANIEL PROCLAIMS SCHOOL TRAFFIC SAFETY WEEK — SEPTEMBER 20-26

Texas School Traffic Safety Week will be observed in thousands of Texas school classrooms during the weeks of September 20-26 in response to an invitation extended to the State's school teachers by Governor Price Daniel.

He stated that Texas school superintendents, principals and teachers had rallied to the project by the thousands during August, following announcement of plans for the observance.

In his proclamation the Governor asked the school officials and teachers to make plans for special traffic safety programs and studies in every classroom in Texas.

During School Traffic Safety Week emphasis is suggested for each day: Monday, The Pedestrian; Tuesday, State and City Traffic Laws; Wednesday, Vehicles of School Transportation; Thursday, The Automobile and The Driver; and Friday, The President's Highway Safety Action Program.

Governor Daniel said one of the compelling reasons for emphasizing traffic safety in the public schools was the high percentage of youngsters involved in Texas traffic tragedies in 1958.

SEPTEMBER MAY BE IMPORTANT DAY FOR YOU

September 30 may be an important date for you if you were dependent on a working son or daughter who died at some time after 1939.

Before August, 1958, many parents who inquired about their eligibility for social security survivor's payments were told that they could not qualify because the son or daughter was survived by a widow, widower or child. Now a 1958 change in the law makes benefits payable to dependent parents as well as to other survivors.

If you are at retirement age and if you were being supported by your son or daughter at the time he or she died, you should inquire at your social security office before September 30 to get all of the benefits due you.

September 30 is an important day because if applications are not filed with the social security office by that date, some back payments may be lost.

Surviving parents, who are not yet of retirement age, should also get in touch with their social security offices before too much time has passed. Proof of support must be furnished within two years of August 1958 or within two years of the son or daughter's death, whichever is later.

The mailing address of the social security office which services this county is Box 5168, Abilene, Texas.
