Learning the Lesson the Hard way

. . . is not always a virtue, neither is it adviseable. The person who buys a home or other real estate without first investigating the title is a perfect example of one who learns his lessons the hard way. True, he will learn better later, but too late for his own good. Any real estate that is worth buying is also worth the extra cost of an abstract, for upon the title rests the value and security of every real estate investment.

One of these Chevy Corvairs wants

(in a friendly way, of course)

Either of these Corvairs would make you a wonderful traveling companion. (Any of Corvair's ten budget-priced models would, for that matter.) The Lakewood Station Wagon earns its keep with a solid 68 cubic feet of cargo space, 10 of it under that lockable hood. And the Monza Club Coupe, with its bucket-type front seats, lets you in on some ultra-comfortable driving.

And they both handle and brake and perform beautifully. (Proof of the pudding is the way the '61 Corvair manhandled the recent Canadian Winter Rally, winning outright and taking the first five places in its class in this rugged 1,265-mile test.) Look 'em over at your dealer's. And if you can't decide which one you want, feel free to take both.
