The term will be for a three year period beginning in May, 1973 through April, 1976 the Peanut Administrative Committee is composed of 18 persons: 3 growers and 3 shellers from each of the nation's three producing areas. The PAC is responsible for administering the Peanut Quality Control Program initiated in 1964. All peanut growers are eligible to participate in the meeting. also a sheller could likely buy the farmers peanuts literally at the sheller's price. 2. It is felt that elimination of the Shelled Purchase Program would seriously hamper CCC's securing sheller cooperation on any of CCC's program. 3. It is likely such action could also hamper seriously the PAC quality program and sheller compliance with its regulations. Elimination of the Purchase Program might adversely affect the sheller's incentive to keep lower quality edible peanuts off the domestic market. 4. A much larger volume of segregation 1 peanuts in loan resulting from elimination of the Purchase Program could seriously depress the current export market and thereby reduce significantly prices CCC can expect to receive from this presently expanding market.

We urgently request that your announced plan to eliminate price support on segregation 3 farmers stock peanuts harvested for the 1973 crop be reversed. We feel the following reasons necessitate your very serious consideration of our request. 1. Farmers having segregation 3 peanuts are almost exclusive victims of circumstances beyond their control. Even though the aflatoxin problem has been recognized as being potentially catastrophic to the entire peanut industry for more than ten years the best technological and research efforts available in both USDA and private industry have failed to concretely determine definite causes for the appearance of Aspergillus flavus. Consequently experts in the field have been unable to advise farmers of indisputable methods which they can use to rid themselves of this problem. Therefore, we feel it is unfair to penalize the farmer for results which may be caused by uncontrollable factors such as adverse weather, inadequate handling capacity at marketing facilities, ect.

CIRCUS COMES TO TOWN ON SATURDAY FOR TWO SHOWS

EVERYONE HAS THEIR OWN LITTLE CHORE — Even Dixie, the elephant, has a hand in getting the circus ready when it comes to town. Above is shown Dixie helping to set up the big top of the Firsher Bros. Circus. If you are interested in seeing her do her part of erecting the shown, drop out by the circus grounds next Saturday. The show is brought to Gorman by the Lions Club for two performances at 6 and 8 p. m.

You will also see the various members of the circus family doing their various parts in getting the circus ready to entertain you. Some of the actors will be getting their props and equipment inside the tent, others will be washing or cleaning costumes. The property men will be hanging trapeze riggings, setting up the ring curbs, etc. Canvas men will be getting the tent up and the seats in place. The animal men will be seeing that their charges are fed and watered and readied for the performances, and most important to everyone connected the cook will be preparing tasty meals for all employees.

Esther Graham Nolan Luttrell Exchange Vows

Mrs. Esther Graham of Kokomo and Mr. Nolan Otto Luttrell of Kenneydale were united in marriage Saturday, March 10, 1973, at 2 p. m. in the home of her daughter, Mr. and Mrs. D. F. Eaves. Rev. Joe O'Neal officiated. Attendants were their grand children, maid of honor Miss Donna Graham of McAlester, Okla., best man Mr. John Luttrell of Fort Worth, and Mr. C. R. Graham of Monahans escorted his mother.

The ceremony was performed in the presence of all their children and grandchildren and a few close friends. A reception was held following the ceremony. The beautiful three tiered cake was baked by her daughter, Joyce Eaves.

After a short wedding trip to Brownwood, the couple will make their home in Kenneydale where Mr. Luttrell is a carpenter. Those attending the wedding were Mr. and Mrs. C. R. Graham and Patricia of Monahans, Mr. and Mrs. B. M. Graham, Donna, Randy and Connie, McAlester, Okla., Mr. and Mrs. D. F. Eaves and Deliah, Kokomo, the children and grandchildren of Mrs. Luttrell.

Also Mr. and Mrs. Don Luttrell, Joe, Richard and Larry of Burleson, Mr. and Mrs. Herschel Luttrell, Marie, Donna and David of Kenneydale, Mr. and Mrs. E. R. Luttrell, Kathy, Susie, Gloria and Teddy, and Mr. and Mrs. A. O. Luttrell, John, Ronnie and Robert, all of Ft. Worth, and Mrs. Donald Cox, Wayne and Donna of Monahans, children and grandchildren of Mr. Luttrell. Friends attending were Mr. Joe Wolfenbarger of Fort Worth, Mr. and Mrs. W. L. Graham and Mrs. R. S. Jumper of Eastland, Mrs. J. W. O'Neal of Gorman, Dianne Autrey of McAlester, Okla., and Ginger and Jennifer Blacklock of Fort Worth.

Mr. and Mrs. Schaffner Rodgers of Dallas and Mrs. Clara May of Stephenville visited Saturday with Mr. and Mrs. Don Rodgers.

Many people who come to the circus never stop to think of all the efforts that have been made to make their visit an enjoyable one, others wonder how all this is accomplished in so short a time. If you are one of these persons, you and anyone else who wish are invited down to the show grounds to see Dixie and all the other circus employees get things done in so short a time. Dixie and most of these people will also take the tent down again as soon as the show is over. Everyone has a job to do, everything has a special place to be loaded and seldom is anything ever left on the lot after the circus has left town.

TICKETS NOW ON SALE
Advance tickets are now on sale for the two performances of Fisher Bros. Circus on Saturday, March 17th. Tickets will be obtained from any Lions Club member and at the Gorman Progress office. Advance tickets cost \$1.00 per person. Tickets will be sold at the gate but will be \$1.25 for children and \$1.50 for adults. Performances begin at 6 and 8 p. m. at the circus grounds on De Leon Hwy. 6 east.

Lion Club president, James Mears, urges circus-goers to purchase their tickets in advance because of lower prices and because the club's agreement with the circus guarantees the local organization a higher percentage from advance sales. Fisher Bros. Circus features trained animal acts, including elephants and dogs, trapeze and balancing acts, clowns, comedians and many other exciting acts.

The circus also features a midway with plenty to see and do. Top attractions include a mammoth hippopotamus and a giant python snake that measures more than 22 feet long and weighs more than 200 pounds. Mears said the circus should provide wholesome entertainment for the whole family. He added that the proceeds from the affair will be used for civic projects and for the Billy Self Fund.

Mrs. Chas. Day Hosts Woman's Study Club

The Woman's Study Club is many things; it's a group of very civic minded women; it's a group local, national and internationally-minded in interests; it's a group that spends study time on current subjects; and it's a group that's always ready to eat. Last Monday evening when the members arrived at the home of Mrs. Charles Day, she was well prepared for hungry club women. Greeted by the aroma of baking hot rolls and perking coffee, everyone was instantly ready for refreshments. English pea salad, chicken salad, Jello fruit mold, peanut-cheese loaf chips, pickles, etc., hot rolls with real butter, and tea or coffee were just the beginning. After a plateful of all those good things (and just a little more of that delicious chicken salad or maybe the peanut loaf), there was the decision of chocolate layer cake or pound cake. Oh, well, why not a little of each? Mrs. Day had certainly prepared plenty. Now that is really a fine way to begin a meeting.

Mrs. Dick Foster presided. Business took some planning for the club does intend to participate in the May 5th Centennial Celebration. The "one hundred years of ladies fashion dolls" that members dressed for the former banquet had been requested for a downtown window and, thus will be so displayed. Tentative plans were begun for a parade entry and a booth.

Another bit of planning was for the operation of the concession stand for the Lion's Volleyball Tournament the latter part of March and also April. Sandwiches, chili packs cold drinks, candy — make you plans to eat there.

The program was "Personal Health" and "Grandma's Medicine." Remedies from Grandma's time ranged the gamut from serious to humorous to ridiculous. Kerosene seemed to have been Grandma's real standby, but running a close second would have been calomel, turpentine and epsom salts. Each member presented her memory of such early treatments.

Folders from the American Cancer Society were passed to each member, and a brief statement on cancer detection was hard. Progress in cancer diagnosis and treatment was discussed.

As with all good gatherings, good-night time came too soon.

Hearing Tests Are Important

If you have a hearing problem of any kind you owe it to yourself to have an Electronic Hearing Test made to find why and what can be done to help you before it is too late. The tests are free and will only take about 20 minutes of your time. We check your ears for packed wax, the tubes that let your ears breathe, then with the machine we check your hearing nerve, (bone reading) air conduction, (outside sounds) then measure how much sound the ear will take. We can pinpoint your problem and explain in plain English what can be done to help you, then you make your own decision. We never try to high-pressure you into buying anything. There are thousands of people today suffering from hard of hearingness, (even some that wear Hearing Aids) just because they waited too late to do something about it. . . . don't let this happen to you.

Mr. Joe Treadway will hold his regular Hearing Aid Workshop at the City Library at City Hall in De Leon on Monday, March 19th from 10:30 A.M. to noon. We invite you to come in for your free test.

We do repair service on most makes of Aids, and have a full service on cleaning, tubes, batteries for your Aid, and can always save

Mr. Treadway you money. We are Licensed by the State of Texas to fit and Dispensing of Hearing Aids. We are always close by when you need us. We are in the Stephenville office, (Skipper Real Estate Bldg.) every Thursday, and in the Hamilton office every Friday to run special tests and assist you in every way.

Being situated in Eastland County, Texas, and being the Northwestern 10 acres, more or less, from a 15-acre tract of land out of the W. G. Watkins Survey and R. G. Teston Pre-emption Survey, conveyed by Mrs. A. C. Fore, a widow, et al, to E. A. Tate, by deed dated February 2, 1951, and recorded in Vol. 446, pages 454-457 of the Deed Records of Eastland County, Texas, to which deed and the record thereof reference is heremade for a more complete description as said Vendor's lien existed on the 29th day of July, 1968 and it is ordered and decreed by said judgment that said property be sold as under execution in satisfaction of said judgment. And if said property shall sell for more than sufficient to pay off and satisfy said sums of money, the excess shall be paid over to the said Jay Evans. Therefore, you are hereby commanded that you proceed to seize and sell the above described property, as under execution, and make a good and sufficient deed and to place the purchaser of the same in possession thereof within 30 days after the day of sale, and you apply the proceeds thereof to the payment and satisfaction of said sum of \$4,033.01 Dollars, and attorney's fee of \$403.00 together with the interest that may be due thereon, and the further sum of Ninety-Seven and 70/100 Dollars (\$97.70), costs of suit, together with your legal fees and commissions for executing this writ. And if the said property shall sell for more than sufficient to pay off and satisfy said sums of money, then you are hereby directed to pay over the excess thereof to the defendant, Jay Evans. But if you fail to find said property, or if the proceeds of such sale be insufficient to satisfy said judgment, then you are directed to make the money, or any balance thereof remaining unpaid, out of any other property of the defendant, as in case of ordinary executions.

Herein Fail Not, but due return make hereof within 30 days, showing how you have executed the same.

2. Should your plan be implemented, farmers having segregation 3 peanuts upon the initial grading procedure will be forced into an obvious and unavoidable shopping position. The only other choice would be for a farmer to sell his peanuts to a crushing mill at a price completely determined by the crusher and almost sure to be less than half of its possible support price.

3. In the process of shopping activities described above it is a certainty that many lots upon reinspection will be found to be free of aflatoxin because it is recognized that our sampling procedures cannot be 100% accurate at this time nor in the foreseeable future. Obviously the effect of these peanuts getting the edible trade can be quite disastrous to the concentrated quality control program instigated by the USDA and the industry jointly in '64. Any substantial undermining of industry and public confidence in the wholesomeness of our product could ultimately lead to the destruction of our domestic industry and the export program so urgently needed and desired by everyone in the industry including the USDA.

4. If price support is withheld on segregation 3, we assume that CCC will initiate steps in the field to be as certain as possible that lots originally determined to be segregation 3 are not sampled and graded the second or third time at the same or different marketing stations. If CCC cannot legally affect such enforcement or finds it too costly to do so, no doubt a large percentage of lots originally found to be segregation 3 will end up in CCC stocks as segregation 1 peanuts or will be purchased as segregation 1 peanuts by shellers. In either event difficulty will be experienced during and following processing. In the case of loan inventories shelled for export CCC is obligated to reimburse the sheller for peanuts sold for export but subsequently found to contain aflatoxin requiring their disposition as oil stock with the meal restricted to non-feed uses. Repeated instances of segregation 3 peanuts becoming mixed with segregation 1 peanuts could therefore prove very costly to CCC and could conceivably wipe out to a large degree the savings in cost to CCC realized by elimination of price support on segregation 2 peanuts.

5. Should this plan be placed into effect and significant tonnage of segregation 3's develop and consequently be purchased by oil mills at negotiable prices, it is possible that such volume could have a depressing effect on prices received by CCC for segregation 2's and lower quality segregation 1's offered for diversion.

6. If no CCC supervision is performed at crushing mills where the segregation 3 peanuts are crushed, it is possible for an unscrupulous crusher/sheller to shell and screen these peanuts and place the edible sizes into domestic edible trade. Obviously this practice not only would be damaging to the industry's quality improvement program but would be unfair economically to competitors and to the general public.

7. Presently diversion prices received by CCC for segregation 3 farmers stock have been less than a cent per pound below prices received for segregation 2's. It seems to us this menial increase in diversion costs is insignificant compared to the possible debilitating effect which may result if the disposition of these segregation 3's is not controlled by CCC.

On Item No. 3, we feel that peanut producers are entitled to receive at least 75 percent of parity through the price support program. Costs of agricultural production are escalating as rapidly as costs in all other areas at present. However, if grower assumption of storage, handling and inspection costs is necessary in order to retain price support on segregation 3 peanuts and to maintain the present peanut program, we are willing to make this contribution

What Will The Church Of Tomorrow Be?

I am truly concerned! Are we really Christians, or are we playing church? I have been thinking of this question recently, and I wondered if anyone else ever thought about it. Are we instilling the right values in our young people? It seems that the number of people who attend church regularly is declining rapidly, and that the number that do attend are doing so out of a feeling of duty. It is easy to become mechanical in our worship of Christ, and this is certainly a dangerous situation.

How often do we really listen to the words of songs that we sing? Since I am most active in music, I feel that it is a vital part of worship. Many songs are so familiar to us that we forget the meaning. Do we still feel a thrill when we sing "Amazing Grace" or "The Old Rugged Cross," or have they become just songs to sing? It should stir our hearts to remembering and, by so doing, give a new awareness of our need to share that grace with others.

Do we really live the life that God would be proud of? This is a daily task and can be done as is stated by the Lord in the Bible - Zechariah 4:6 - "Not by might, nor by power, but by my spirit, saith the Lord of hosts." Pray with me that we may be drawn nearer to God each day.

Joyce Dennis, Music Director Congregational Methodist Church There is always a welcome at our church.

Tips to help you use electricity more efficiently for cooking.

You can get the most value from your electric range by following these tips.

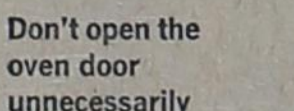

Use flat-bottomed pans
The flatter the pan the better the contact with the electric unit. Also, be sure the pans have

can be cooked with little or no water. Once water starts to boil, use the lowest heat setting that will keep it boiling.

Cook and freeze

Bake two cakes or pies, or make double recipes of such foods as stews and spaghetti sauce. Then freeze one for future use. Also, when you're baking, prepare an oven meal at the same time so no surface cooking is necessary—simply choose foods that will cook at the same temperature.

Don't open the oven door unnecessarily

Opening the oven door when the oven is hot can cause heat loss and extended cooking time. It also can result in undercooking.

Use minimum amount of water
The more water you use, the longer it takes to get it hot. Many foods

Thaw before cooking

Thawing meats before cooking reduces cooking time. Also, when recipes call for a preheated oven, don't turn it on too far in advance—usually 10 to 15 minutes will do.
