PUPIL TRANSPORTATION

The Minimum Foundation Program law provides for the transportation of public school students. The law provides that the county board of trustees of each county, subject to the approval of the Commissioner of Education, shall establish and operate an economical transportation system within the county. In establishing and operating such transportation system, the county board of trustees shall: (1) requisition buses and supplies from the State Board of Control as provided in the law; (2) Prior to June 1st of each year, with the Commissioner's approval, establish school bus routes within the county for the succeeding school year; (3) employ school bus drivers; and (4) be responsible for the maintenance and operation of school buses.

The statutes provide that any independent school district that wishes to do so may employ its own drivers, maintain and operate the buses, and receive the transportation funds directly from the State. District operation does not relieve the county board from responsibility of approving the bus routes in the district each year. The Gorman School District receives funds directly from the State but all routes are approved each year by the County Board.

An eligible student is one who lives at least two miles from the school as measured by the nearest commonly traveled public road and is a resident of the district or an approved eligible transfer bus student.

Each bus route is approved by the county board of trustees each year and the county school superintendent shall file a certified statement to the Texas Education Agency soon after June 1st each year that the county board has approved all bus routes for the district for the coming school year. The county board shall take into consideration in approving the routes:

(1) There shall be no duplication of service by two or more school districts over the same route unless it is more economical for said buses to travel the same road, (2) Duplication along district boundary lines will be approved, (3) a school district can not send a bus into another district to pick up transfer students, (4) Retracing side roads where students live a reasonable distance from the main route should be reduced to a minimum. Such retracing cannot be regarded as necessary where the distance is not more than 3/4 of a mile off the main route and should not be included in calculating the length of the bus route. Where retracing seems unavoidable it must be fully justified and must be approved by the Commissioner of Education.

Vehicles owned, operated or maintained in whole or in part with Minimum Foundation Program Funds are limited to the transportation of children enrolled in and attending Texas Public Schools and personnel employed by school districts in Texas. State funds will not be paid to any school district that fails to recognize this limitation. Buses may be used on extra-curricula trips with the approval of the school board.

A school district receives money based upon the length of the bus route and the number of students transported. During the current year the district will receive \$2,230 each on three buses, \$1,830 on one and \$1,050 on one. The small amount on the one bus is due to the fact that fewer than fifteen students are being transported on this bus. In addition to the base allocation, we

Wayne Eaves Seeks Support In Race For Mayor's Post

May I take this opportunity to announce my candidacy for the office of Mayor. I seek the support of each of you, and if elected, pledge my best efforts to the responsibilities of this office.

In answer to some questions raised concerning my work out of town, let me say this. I am a Field Representative for the Peanut Administrative Committee, Atlanta, Ga. I am never out of town on weekends. My wife has my schedule each week and can reach me any evening by phone. I have enough freedom in regulating my schedule to be able to meet with the Councilmen as often as necessary.

Our community is in the center of a rapidly expanding agricultural economy. I feel that our city must prepare itself to take advantage of every opportunity for improvement. We must follow through effectively on the Proctor Water Project, and continue and expand the good work already accomplished on Chamber of Commerce and Industrial activities.

I have been a part of the Gorman community practically all of my life, and feel that I know its people, its needs and at least part of its excellent potential.

Mrs. John Kimble To Head Drive Red Cross Here

Mrs. D. E. Pulley, Chairman of the Eastland County Chapter of the American Red Cross, has appointed Mrs. John Kimble as Chairman for Members and Funds for the Gorman area, and Mrs. Dody Williams for Desdemona.

The Eastland County Chapter will launch its annual appeal to the residents of our area for funds to support its community wide services, and to provide our share of the costs of its services to be carried on in this country and the world by the National Red Cross organization in 1968-69. The organization terms its campaign an S. O. S. (Support OUR Servicemen) appeal with the slogan "Help Us Help."

This year the American Red Cross faces a crucial financial situation. Rapidly mounting demands for its services in Vietnam have compelled the organization to increase its budget to the Armed Forces more than \$4.17 million. Two catastrophic disasters, in Alaska and Texas, have forced the Red Cross to draw heavily on its disaster funds in order to help several thousand families rebuild and repair their homes, and otherwise return to normal living.

For all its constructive activities, in services to military families, disaster victims, in first aid, swimming, home nursing, youth activities, the Red Cross is deserving of the support of every one in our community.

President Lyndon B. Johnson has proclaimed March as Red Cross Month, Mrs. Pulley stated.

Co. 4-H Favorite Food Show Slated For Sat., March 23

The 4-H Club members in the county who are carrying Foods and Nutrition as a project will exhibit a food that they have prepared in the Food Show.

The public is invited to attend.

Mrs. Donald Bolt visited last week with her children, Mr. and Mrs. Bill Dunn in Arlington, Mrs. George Bolt of Fort Worth, and Mr. and Mrs. John Paul Bolt and family of Grand Prairie.

will receive \$144.84 for dirt roads in excess of 40% of routes. The total for the year will be \$9,714.84. This is \$935 less than was received last year.

The transportation money is mailed directly to the school depository and deposited to the transportation account. It can be used only for pupil transportation. With increased costs of maintenance and operation as well as increased cost of new buses, it becomes more difficult each year to make transportation pay its way. School buses have increased 28% in two years.

Self Giving Service Is The Best Way Says WSCS Leader

In studying the inevitable encounter of Christians with persons or peoples, other religions, whether by chance, but hopefully by instinct, members of the Woman's Society of Christian Service heard their leader, Mrs. Charles Duran, discuss Self Giving Service As Witness when they met in the home of Mrs. W. T. Shell.

Self Giving Service, Mrs. Duran said, is the pattern set by the Master. He exemplified self giving service in life and death. Arrogance, sole, pronounced, in Western peoples, repels the East. Only in humble giving of self in Jesus name can the Christ be shared.

The meeting closed with a prayer, and refreshments were served by the hostess.

CARD OF THANKS

To the wonderful friends who remembered me with cards, flowers, gifts of candy, visits and good wishes during my recent stay in the Stephenville Hospital and to the hospital staff, I send most profound thanks. The manifestations of your love and concern shall be forever held in grateful remembrance.

WASHINGTON

"As it looks from here"

OMAR BURSLESON
Congressman
17th District

WASHINGTON, D. C. — HOW OFTEN HAVE WE EXPRESSED THE DESIRE to have "a little peace and quiet." Yet the trend with most of us is to do anything, to go anywhere, to take our mind off ourselves. Could it be that we have such a low estimate of our own company that

any chance to be alone is avoided?

APART FROM THE STRIFE OF TONGUES, every life desperately needs a Chapel of Silence. Away from the debates which rend the air with contending voices, the greatest things are said and heard in silences.

GREAT MEN AND WOMEN OF THE PAST found the most vital things to say in public given them in brooding hours far from the crowd with its loud and distracting accents. A cloister offers the high privilege of listening to voices of abiding truth symbolized, not by the earthquake and whirlwind, but by the still small

voice.

THE ONE WHO SPAKE AS NEVER MAN SPAKE, knew the creative silence of the hills and wilderness. Paul's immortal insights into life and death came out of three hours of silence apart from the haunts of man.

SILENT ARGUMENTS ARE THE FINAL AND EFFECTIVE ANSWER. The unspoken arguments are the unanswerable ones. Truth can afford to wait in quietness and restraint. The fiery verbal missives hurled from the platform or legislative halls, the courts of law or the street corner demonstration, are at last answered by the truth which, assailed by words, abides in silence, uttering no indignant re-

buttal but nevertheless eloquent in its disclosure.

WHAT IS SAID ABOUT THINGS IS NOT NEARLY as important as what things say about themselves. It often comes to pass that their silent testimony refutes and confronts noisy affirmation about them. For instance, John Lightfoot, Chancellor of Cambridge University in 1654, gave assurances that God's creation occurred at 9 A. M., October 26, 4004 but the wise old earth never believed anything of the kind. It spun on making no audible refutation regarding its alleg-

ed age. However, there were uncut leaves in the book of nature, in the coal and chalk beds, on the ocean floors, and in the rocks, all proving that the recent date was not inspired by truth. At last the record was opened and the planet had its say. As is usual, the unspoken argument finally prevailed.

MODERN LIFE WITH ITS HECTIC AMUSEMENTS, its grinding traffic, its crowded cities and its mob-movements, seems to be a giant conspiracy against the sacrament of silence and solitude.

But, the most worthwhile human achievements have come out of a loneliness. Our utmost inward development awaits our practice of it. The disciplined mind can enter its own secret chapel anywhere, at a moment's notice, where beyond these voices there is peace and meaningful silence.

Thomas Carlyle exclaimed, "I think the happiest of all men is one who can keep himself the quietest." Cardinal Newman matched Carlyle's insight when he said, "We are never less alone than when alone." These men may have been inspired by Isaiah's, "In quietness and confidence shall be your strength."

SOLITUDE CAN BE A GARDEN ENCLOSED where blooms the choicest flowers of grace. Perhaps we have to be touched by some sorrow in our lives before we seek the healing touch of the silent place. John Oxenham's prayer:

"A solitude where I can think, A haven of retreat, Where of Thy red wine I may drink

And of Thy white bread eat. Come! Occupy my silent place. And make Thy dwelling there! More grace is wrought in quietness

Than any is aware."

LONG Peanut Combines "It's The Thrifty One"

When it comes to up-keep costs it's a downright miser! Throughout, this machine is built to last. Special permanently lubricated bearings seal out dirt and dust. All gears and sprockets have been specially hardened to hold up longer under the rugged conditions found in peanut harvesting. Fewest number of moving parts mean fewer to wear out, fewer to cause trouble.

Some owners have run LONG combines for four years and spent less than \$150 total for repairs! Not only do you spend less money, you have less down-time . . . more harvesting time.

In countries where the state owns and runs most business enterprises, supermarkets are about as scarce as the whooping crane. Consequently, when the government decides to build a supermarket, it is a monstrous affair and supposedly a grand exhibit

BROWNWOOD LIONS CLUB SELECT MISS DIANNE DUNN AS 1968 CLUB SWEETHEART

Miss Dianne Dunn, 18-year-old daughter of Mr. and Mrs. Tom Dunn of 4010 Austin Ave., in Brownwood, has been named as Sweetheart of the Brownwood Lions Club and will represent them at the District 2-A-1 convention to be held in Brownwood on April 5-6.

About 40 girls will be representing Lions Clubs in the district.

Dianne and her parents are former residents of Gorman.

of the superiority of state management.

A news story tells of such a market in Warsaw, Poland. It includes a cafeteria, coffee shop, and seemingly acres of showcases in a building that . . . looks like a concert hall. . . . But, an American expecting to find a supermarket American style is due for a shock. Since there is no competition, service depends upon the magnanimity of the government.

In the case of the Warsaw monument to government in business, attempts to please the customers are somewhat limited. For example, the number of shoppers permitted in the store at any one time is restricted for fear of shoplifting. To enforce the restriction, only a certain number of baskets are made available to shoppers. During busy hours, long lines of people wait for the baskets required for entry.

An American diplomat's wife said: "It's got all kinds of jam, many wines, plenty of bread, but just try to find peanut butter."

And, of course, consumer "confusion" is held to a minimum as many items are packed in dull brown bags. One wonders if this is the kind of a merchandising system the consumer protectors have in mind for the U. S.
