Well the holiday weekend is over and everyone was ready to go back to work. Yeah right!! We got some good old hot weather but no rain. Everything around here is burning up with the heat and lack of rain. The crops are suffering and the ranchers are having to sell off portions or all of their cattle due to the pasture conditions. We sure could use a drink of water "to say the least."

The big weekend is here with the Peanut Festival slated for Saturday. This is always a great day in Gorman with the Street Parade at 10 a.m. with activities scheduled all day and climaxing with a Free Street Dance that night.

We really appreciate the local and area advertisers who have made it possible to publish this weeks tribute to the Agriculture industry in the area. Times are a little tough right now for the peanut farms and ranchers, but maybe things will improve. Without the support of the advertisers we couldn't honor the ag industry for their economic efforts on our behalf. Thank them for their support the next time you are in their firms.

The children are on the streets going to school now and we should all be aware of them. In the rush and excitement of getting to school they may not be watching as closely as they should. So its our responsibility to look out for their safety. Be careful!!!

It looks as though the Panthers are back from the performance at Cross Plains on Friday night. They posted 41 points while holding the Buffs to 22. They really seem to have it all together and everyone is hoping it will continue throughout the season. Come on out on Friday at 8:00 p.m. and back the Big Red when they host the Greyhounds.

And remember to smile -- because God Loves You!!!!

Peanut Queen Contestants

KRISTIN GIBBS

Hello! My name is Kristin Gibbs and I am running for queen in the Gorman Peanut Festival Pageant. I am the daughter of Blaine and Brenda Gibbs. My grandparents are Allan and Linda Gibbs of Gorman and Odell and Artie Carter of Glen Rose. My two younger brothers are Blake and Trent. I have two pets which I love playing with. They are a Rottweiler named Bowsner and a new kitten named Fuzz Ball.

Some of the other things I enjoy doing are shopping, hanging out with my boyfriend and going to the movies. My favorite types of food are Mexican, Steaks, and Seafood.

I am proud to represent Gorman High school as a cheerleader and a member of their volleyball team. I will also be on the basketball and track teams.

One of my favorite hobbies is decorating. I love to redecorate my room quite regularly. This hobby I would eventually like to progress into a career after attending college to major in interior design.

I have also enjoyed helping my mom for the last two years with the Gorman's Children's Christmas Project. I really enjoyed the part of seeing the children receive the new clothes and toys, and how excited they get.

I would also like to take this opportunity to thank Mr. Bob and Mrs. Brenda of City Grocery for being my sponsor in this years pageant.

MANDY WARREN

I'm Mandy Warren. I am 14 years old and a freshman at Gorman High School. My parents are Mike and Tacy Warren. I have a little sister, Madison, who is 19 months old. I am a Panther cheerleader. I am involved in volleyball, basketball, track and softball. I am in the gifted and talented program. I enjoy being with my friends and family, and pestering my little sister. I also enjoy LTC at my church. I am looking forward to the Peanut Festival and they queen's contest and activities.

I would like to thank David's Performance Marine for sponsoring me in the pageant.

ASHLEY JENKINS

MADELYN WILKINS

Madelyn Wilkins, the daughter of Shelia Wilkins, is one of the 1998 Peanut Festival Queen contestants. She is currently a Junior attending Gorman High School and is active in many school related events. She especially enjoys playing volleyball and competing in UIL prose, play, and singing competitions. Madelyn is also an active member of the National Honor Society.

Many thanks to Pizza Pro for graciously agreeing to sponsor Madelyn in this year's pageant.

Hi, my name is Ashley Jenkins. I am the fifteen year old daughter of Don and Kathy Jenkins. I am a sophomore at Gorman High School.

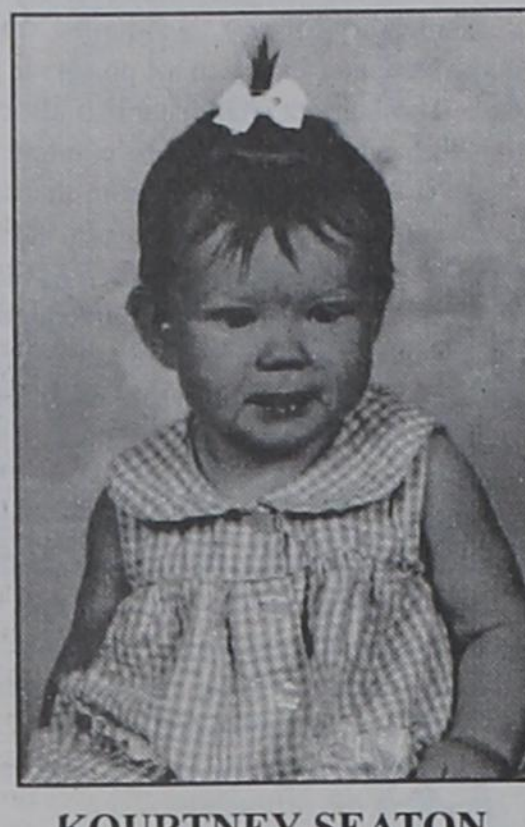

My favorite things to do are sing, skate, dance, and act. My favorite things to eat are lomain, pizza, and ice cream.

In my pass time I like to collect memorabilia of my favorite singers and bands.

My school honors include: All star cast in one act play my freshman year. When I graduate High school, I want to go to Cisco Junior College and major in Drama. After I complete Junior College I hope to finish my degree of UTA.

JIM & HELEN ADAMS

Happy Anniversary!

37 Years

September 14, 1998

37 Years I was blessed when you said you would be my partner for life.

Unto this union four children were born. Regenia, our eldest, dark eyes and curly hair, beauty beyond compare, proof of our love when I could not always be there. Duty called in Korea. Second came Elania, our comedian, who has entertained us thru the years with her endless humor and creative imagination. Third, Jeannie, our baby girl, the artist, whose talent surely came from my side of the family. And, last but not least, Paul, the one we got right, ...a son to carry on the family name.

Through the years, we have been blessed with 8 healthy and happy grandchildren.

Seems our lives just keep getting better and better....all because 37 years ago you became my partner for life....Blessed are we as Husband and Wife--Jim & Helen Adams.

The Gorman ISD Health Safety Council met Tuesday, Sept. 1, in the Elementary Library. As quoted from the state and local school policy:

The District shall establish a local health education advisory council to assist the District in ensuring that local community values and health issues are reflected in the District's human sexuality instruction. The council must include persons who represent diverse views in the community and parents of students enrolled in the District. Parents must comprise a majority of the council. The council may include teachers, administrators, students, health care professionals, members of the business community, law enforcement representatives, senior citizens, clergy or other interested persons.

The duties of this council is to recommend the following:

1. Appropriate grade levels for human sexuality instruction;
2. The methods of instruction to be used by a teacher in human sexuality instruction education; and
3. The number of hours of instruction to be provided in health education.

The group recommended instruction in fifth and sixth grade health classes include the topic of puberty. They suggested films might be a method of instruction to be used at this grade level. It was discussed that a required health class might be helpful for all Seniors. Before the next meeting information about the program "Dads Against Drugs" and the cost of computerized dolls would be found and reported to the group. The possibility of forming a community group which would address health and safety issues for the students was also discussed.

Those attending this meeting were Mr. and Mrs. Mark Blaylock, Ms. Gloria Gonzales, Ms. Marcia Gonzales, Ms. Katherine Eaves, Ms. Morris, Ms. Good, Ms. Hampton, Mr. Craig Rhoton, Mr. and Mrs. Scott Shephard, Ms. Katherin Marin, Mr. Jim Curlee.

The next meeting will be held on October 6th.

The students will continue to be checked for head lice this week.

School will dismiss and buses will run at one o'clock Monday, Sept. 21st.

Tuesday, Sept. 8, Linda Warren and Monica Payne delivered ICU Positive Boxes to all the classrooms at Maxfield Elementary. We are trying to encourage students and teachers alike to find positive things happening in our school, write it down, and place it in their ICU Box. The boxes will be emptied every Friday and the notes will be printed in the Gorman Progress the following Thursday. Parents and community members are encouraged to send positive notes also. We are looking forward to a positive year here at Maxfield Elementary. Notes should be "All of us must make it our journey--our nation's journey--to re-connect America's classrooms to America's living rooms. There's so much we can do to revitalize our schools, invigorate our students, and integrate parents into their children's learning."

signed and addressed. The class with the most positive notes at the end of each month will receive a surprise treat. Sept. 14th, many of the primary teachers will be going to Cross Plains for a reading work shop with author, Joe Lark, who writes children's books. The next day, Tuesday, he will come to Gorman to work with teachers and present a program to the elementary students. Friday night we will be hosting a football game with Throckmorton.

Notice of Public Hearing on Tax Increase

The City of Gorman will hold a public hearing on a proposal to increase total tax revenues from properties on the tax roll by 6.8 percent. Your individual taxes may increase or decrease, depending on the change in the taxable value of your property in relation to the change in taxable value of all other property and the tax rate that is adopted.

The public hearing will be held on September 3, 1998 at 5:00 p.m.

- FOR the proposal:
- AGAINST the proposal:
- PRESENT and not voting:
- ABSENT:

The following table compares taxes on an average home in this taxing unit last year to taxes proposed on the average home this year. Again, your individual taxes may be higher or lower, depending on the taxable value of your property.

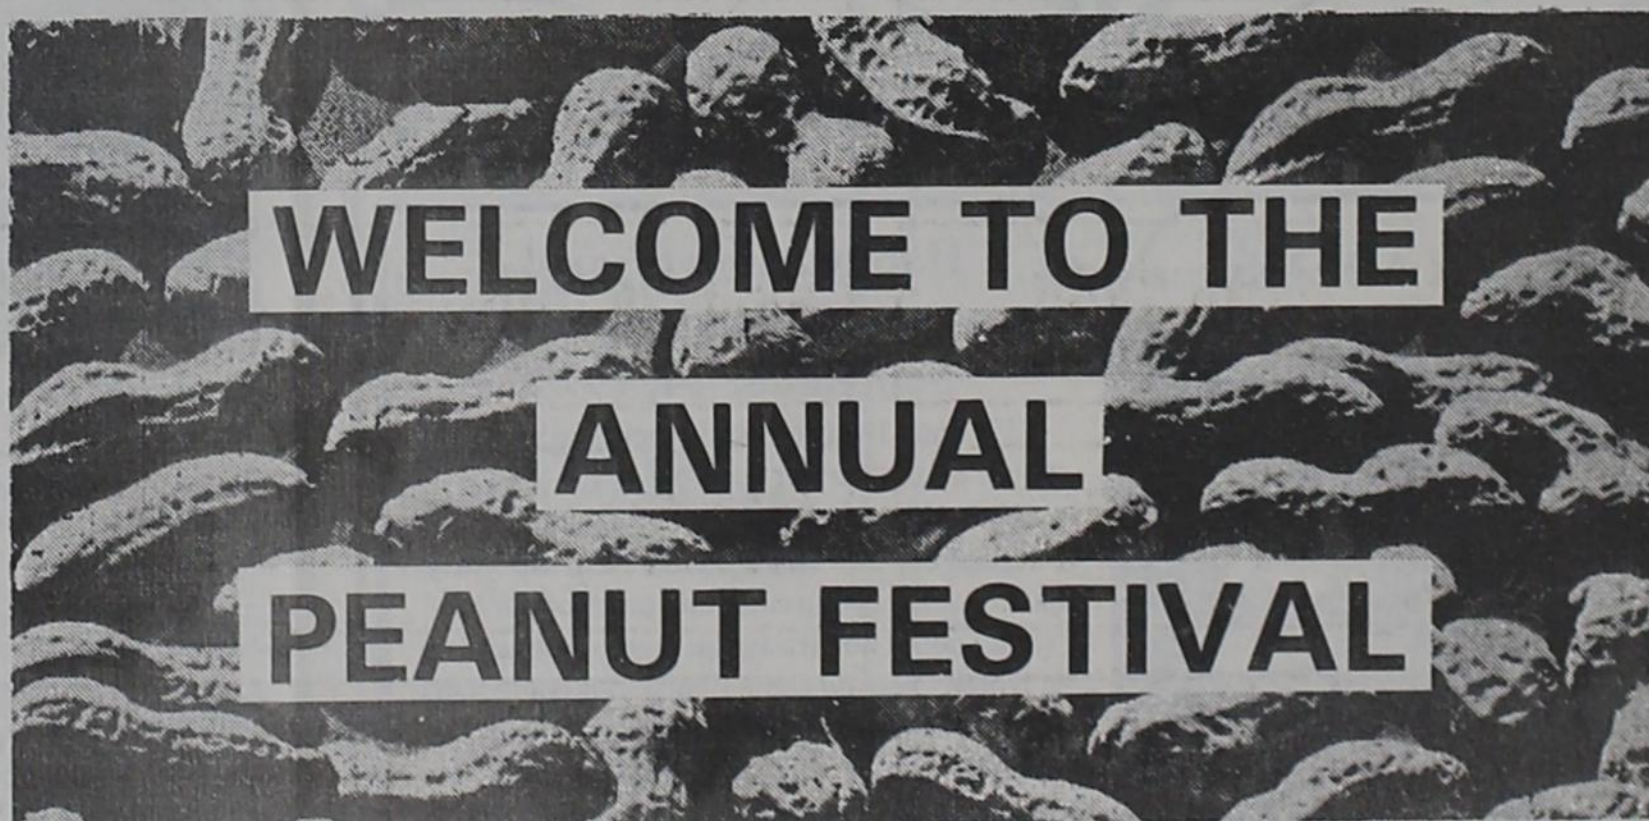

| | Last Year | This Year |
|---|-----------|-----------|
| Average residence homestead value | \$ 16,446 | \$ 16,581 |
| General exemptions available (amount available on the average homestead, not including senior citizen's or disabled person's exemptions) | \$ 0 | \$ 0 |
| Average taxable value | \$ 16,446 | \$ 16,581 |
| Tax rate | .55092 | .55092 |
| Tax | \$ 90.60 | \$ 91.34 |

Under this proposal, taxes on the average homestead would increase by \$ 0.74 or .008 percent compared with last year's taxes. Comparing tax rates without adjusting for changes in property value, the tax rate would remain same by \$ 0.00 per \$100 of taxable value or remain same percent compared to last year's tax rate. These tax rate figures are not adjusted for changes in the taxable value of property.

Criminal Justice Mandate (for counties):

The _____ County Auditor certifies that _____ County has spent \$ _____ in the previous 12 months beginning _____, for the maintenance and operations; cost of keeping inmates sentenced to the Texas Department of Criminal Justice. _____ County Sheriff has provided information on these costs, minus the state revenues received for reimbursement of such costs.

Read This And You May Find Well Over \$5000.00 Of Lost Money!!!

You can easily save big dollars in a very simple way that most people never realize. Most everyone takes their energy bills for granted. When the bills come in, we pay what's on there, and that's that. Since your air conditioning and heating system eats most of the energy we buy, it only makes sense to look for ways to reduce the energy they consume.

Sure, we may attempt to cut our energy bills by adjusting the temperature, but the problem is that the older air conditioning and heating equipment simply wasn't made to be nearly as efficient as the equipment made today.

I Know What You're Thinking

But new air conditioning and heating equipment can be really expensive, and since your old one works fine, what's the point of buying a new one? After all, it can't be wasting that much energy. Or can it?

The average energy bill in our area is about \$125.00 (gas and electric added together). Yours may be higher or lower, but this is about average. If you could save twenty-five percent on your energy bill, this would come to an easy \$375.00 per year of wasted money -- your money. Since an average air conditioning and heating system lasts 12 years or so, and you add in a few repairs...This easily comes to over \$5000.00 of your money!

This is money you're probably wasting if you have an older system. Okay, these are facts, and I believe you'll admit, they're pretty powerful. But you're now wondering...How am I going to cut my energy bills by twenty-five percent?

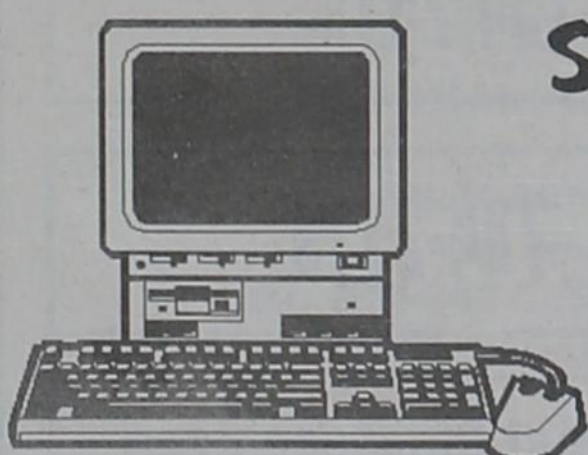

I'll Write You A Check For The Difference

J & J Air Conditioning is offering a **GUARANTEED ENERGY REDUCTION** of twenty-five percent over your old central system for the first year. (Of course, after the first year, your savings should stay about the same level.) If your energy bills don't drop by twenty-five percent during the first year, I'll write you a check for the difference! That's how confident we are in our new systems. Actually the savings could be as much as forty or fifty percent.

Do The Smart Thing

Right now, you may be paying for a new system, but not receiving the benefit of it yet... Call J & J Air Conditioning today at 254-629-2251 or 1-800-585-2251 for a FREE survey to see just how much energy you can save with a new system. There is never any obligation, but if you want to save at least 25% on your energy bills right away and eliminate repair bills for at least 5 years, I'll come out to your home to show you a new YORK heating and cooling system that will squeeze every penny out of your energy dollars while increasing your comfort and property value.

Hello again. My friends at Heritage Manor and I agreed that the excessive heat is affecting our brains and thus our memories. After all, none of us is really old, our bodies have just been well used over the years.

We started talking about what we did before TV. That's when we discovered problems with our memories. Not many had radios, and all we could remember doing in the evening, after schoolwork and chores, was popping corn, making candy, and playing outside on the swing. The swing was a board suspended from a tree limb by ropes or chains. Old tires were too valuable (because of war rationing) to use. Usually nobody was there to push so you rocked back and forth to get the momentum going. Standing made

Nobody read much and couldn't remember there being a library anyway. Except for Sunday School books.

The heat had other affects, too. Gardens dried up. There were no rubber hoses or even faucets to hook them to, and carrying water in a bucket from the well took too long. There was always wood to be chopped for the cook stove, though, even in the summer. There was more than enough responsibility to go around. Hiding was about the only way to get out of extra chores. One time Jack bellows was hiding in the hay loft. Seemed like a good time to take a nap, while he was up there in the hay. His little sister, Fairy, got stuck with the extra chores, so when she finally found Jack (still asleep), she rolled him right out the upper loading door. Ouch.

Christian Country to Perform at Peanut Festival

Nashville recording arts Carolyn and Barry Hazel are a sister and brother, Christian music duo from Fort Worth. Their latest recording "Heaven from Here" features original songs and favorite hymns.

Rural West Texas roots and a Christian heritage inspire Carolyn and Barry to pen and perform songs from personal testimonies and biblical truths. From the top of Texas to the tip, from Wal-Mart to Main Street to church concerts, Carolyn and Barry share the Gospel

without compromise or disguise. Their music bridges the gap between young and old, traditional and contemporary, and reaches believers and unbelievers. Fresh, thought-provoking lyrics and an easy country sound capture the ear and heart of the listener at a point of deepest need.

Carolyn and Barry began as a duo only four years ago, but they started singing with their entire family in 1970. The Hazel Family of Lubbock performed gospel music throughout Texas and New Mexico for seventeen years and recorded several albums. Barry and Carolyn later traveled and recorded with the Lockes of Stephenville while attending Southwestern Baptist Theological Seminary. The Hazels are members of the Conference of Texas Baptist Evangelists.

Till next time. Brother Bob

Stenholm Provides Energy Emergency Assistance Information

WASHINGTON, D.C.--Following an announcement concerning the federal government's \$32.7 million emergency assistance to Texas through the Low-Income Home Energy Assistance Program (LIHEAP), Congressman Charlie Stenholm provided additional information about the state's plan for distribution of this money.

Funds for Brown, Callahan, Coleman, Comanche, Eastland and Runnels Counties will be administered through Central Texas Opportunities, Inc., which can be reached by phoning (915) 625-4167. The local program will have \$347,013 in federal and state emergency funds to distribute to residents of seven counties, including McCulloch county. The local program should receive the funds this week.

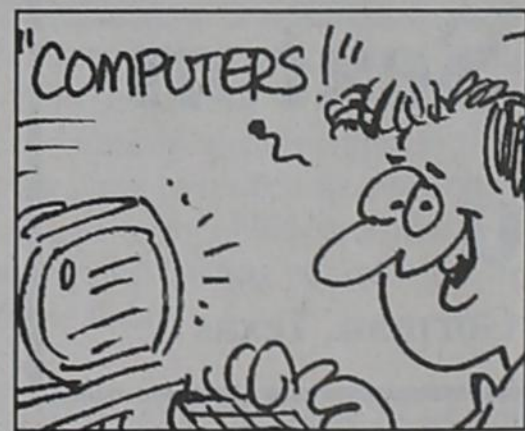

"I commend the state for moving quickly on distributing these emergency funds," Stenholm commented. "Living with this degree of sustained heat can be hard on all of us, but it is especially dangerous for the very young and the very old who are living without an adequate cooling mechanism in their homes. I'm hoping that these funds will provide some desperately needed help immediately."

Eligible low-income citizens include the elderly, disabled, families with very young children, and households with the lowest incomes and highest energy costs. The target population is households with incomes at or below 125 percent of the federal poverty guidelines. A family of four, for example, must have an annual income not exceeding \$20,563 to be eligible for utility payment assistance. An individual must have an income not exceeding \$10,063 to be eligible.

Households are potentially eligible to receive up to \$1,000 in utility assistance under the regular utility assistance program and up to an additional \$1,000 under a separate energy efficiency program. Applications for those meeting the income eligibility requirements can be obtained through Central Texas Opportunities.

In a related note, the National Center for Disease Control is advising citizens that temperatures in the high 90s and above, the use of fans may actually increase heat stress and the risks of heat stroke. It is for this reason that in extreme situations such as Texas has experienced this summer, emergency funds may be used for the purchase of air conditioners.

The Texas Department of Housing and Community Affairs is the lead state agency in administering the state's share of the federal emergency energy funds. The Agency will not process any applications and so all citizens needing information are instructed to contact the local community action agency.

Pointers For Parents

Make Starting School A Great Adventure

(NAPS)—Going to school for the first time can be a big adventure, so make sure your child is well-prepared. Here are a few tips to help par-

ents prepare their children for a successful start in school:

- Before school starts, drive or walk by the school to show your child where it is and what it looks

like.

• If your child will walk to school or to the bus stop, take that walk together, even if you plan to accompany him or her once the school year starts.

• Make sure your child learns his or her phone number and address. A new backpack or notebook, which can help school beginners get off to an organized start, is a great place to put these numbers.

• Going to school is a good opportunity for grandparents to give a school-related gift—one that says you're getting to be quite grown-up.

• A shopping trip to get ready for school can help get a child in the spirit of things. This can mean new clothes, a backpack and school supplies.

The first day of school may seem less strange and a lot more fun when children bring along school supplies featuring images of their trusty "pals."

The best examples are the fun, enthusiastic Mickey Mouse, his sassy, independent gal pal Minnie; and other pint-size pals such as Donald, Daisy, Goofy and Pluto. By having a friend "near-by," school can seem less scary and more fun.

Useful items include sta-

tionery, pens and pencils with fun designs; hard-to-lose key chains that come with a spiral wristband; and clothing that's fun, bright and easily washable.

With Mickey and his pals alongside, a child will be more likely to sum up that first day of school by saying, "That sure is swell."

I would like to say a big thank you to everyone who helped me in any way. Good luck to all of the girls competing in this year's contest.

Thank you

New \$20 bill features anti-counterfeiting devices

Don't be alarmed when the bank teller hands you \$20 bills that look like play money. September 24 marks the date the new Andrew Jacksons will be showing up around the country.

Designed to improve the security of our currency, the Series 1996 \$20 note is the first widely used bill to be redesigned. New \$50 and \$100 notes already have been introduced, but it's the twenty that is given most often in change at banks, retail outlets and through ATM machines.

The new note is the result of a five-year study focused on staying ahead of the counterfeiting threat. In addition, the new U.S. currency incorporates features that will make it more readily identifiable, especially for the visually impaired.

The first noticeable change on the new \$20 bill is a larger and off-center portrait of Jackson, the nation's seventh president. The larger portrait incorporates more detail making it difficult to counterfeit and easier to identify.

Tips from Your Community Banker

But beware of counterfeiters who may try to take advantage of those who are not familiar with the bill's new design.

• **Federal Reserve Indicators:** The entire Federal Reserve System is represented by a new seal. The letter and number under the left serial number identify the issuing Federal Reserve Bank.

• **Fine Line Printing:** Behind the portrait and around the historic building on the back, there are fine-line printing patterns. This makes the line structure appear normal to the eye but difficult to replicate.

• **Serial Numbers:** An additional letter is added to the serial number.

• **Watermark:** A watermark identical to the portrait is visible from both sides against a light.

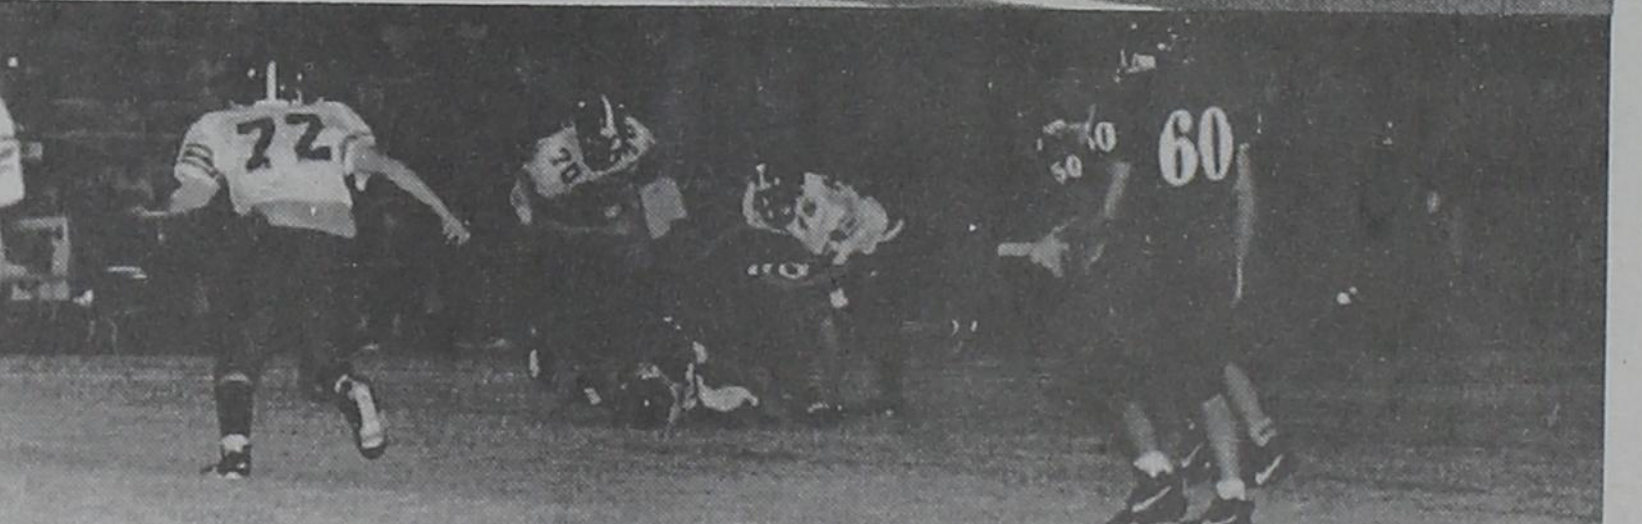

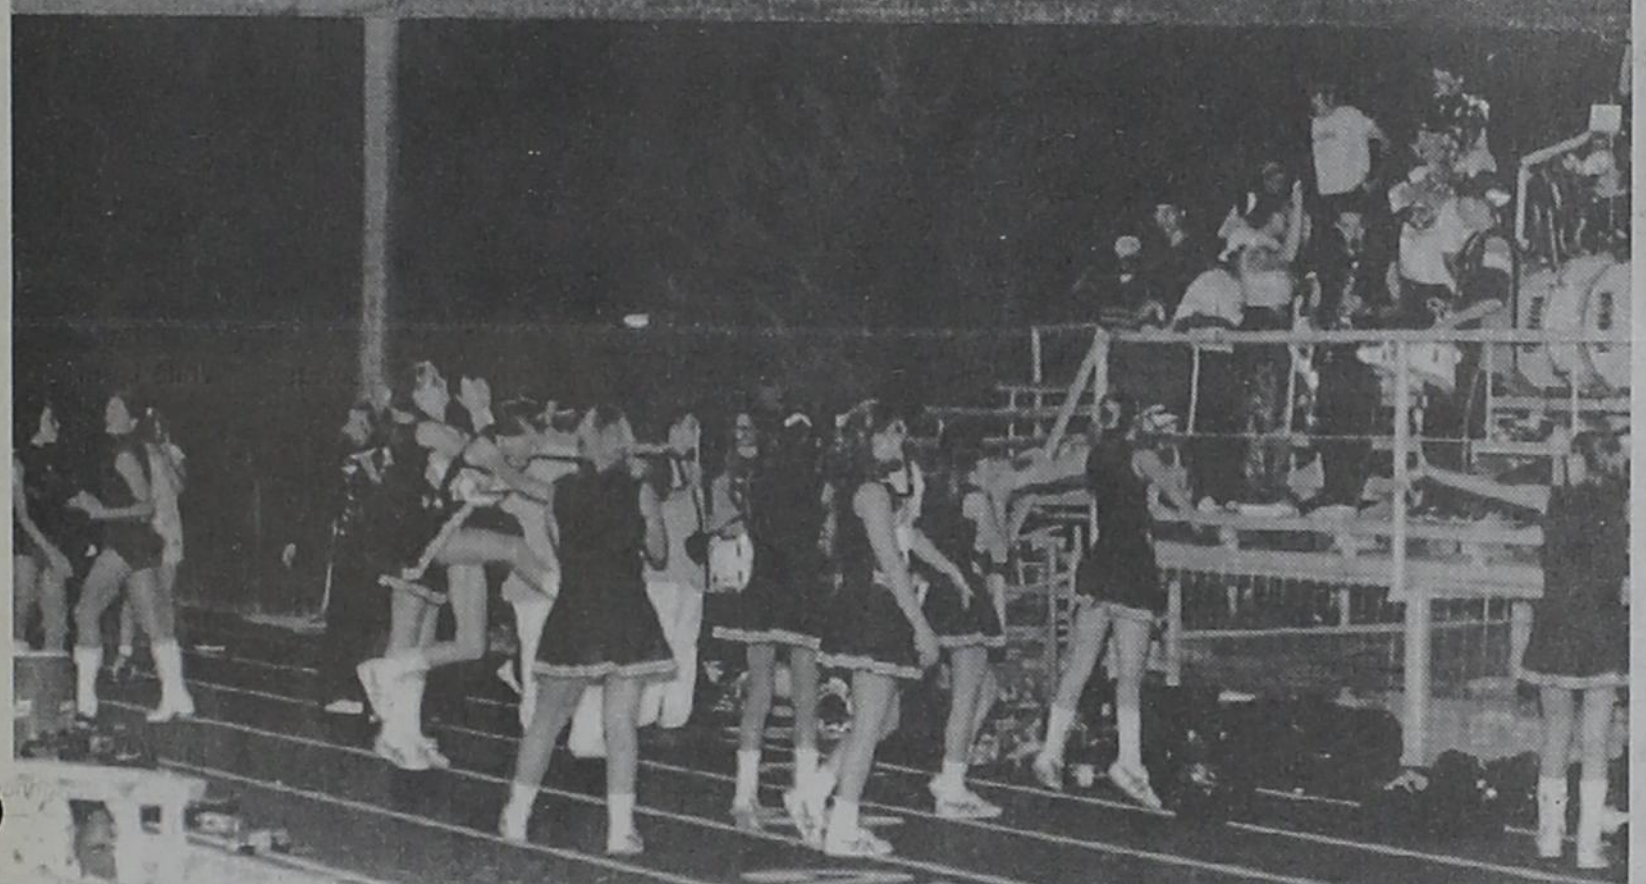

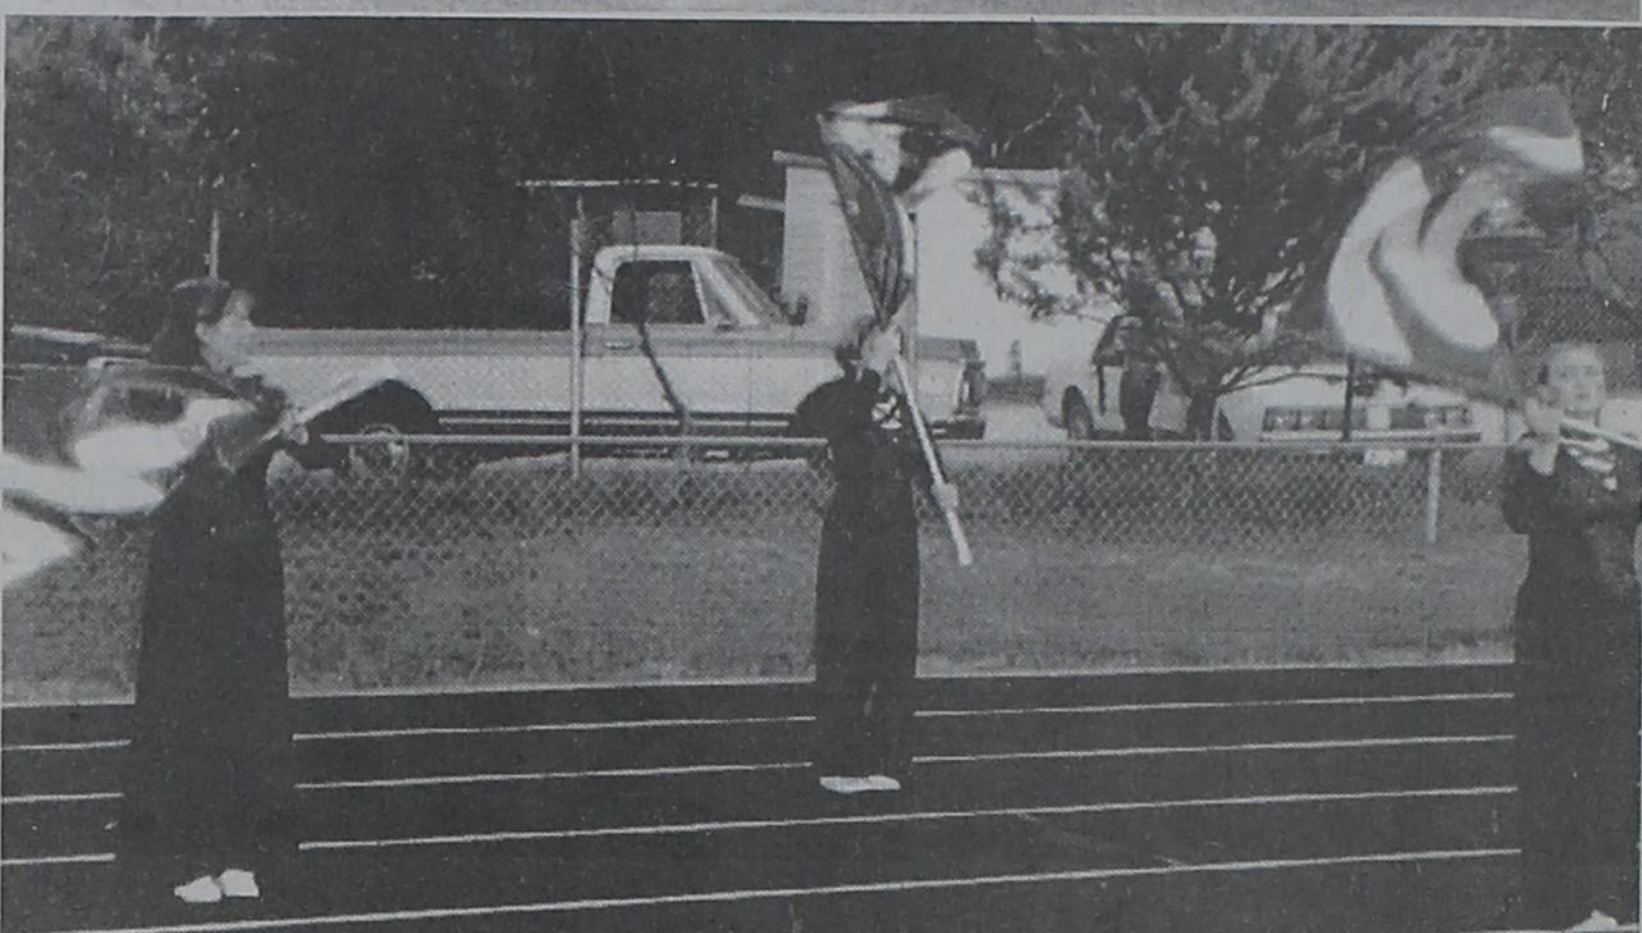

• **Color-Shifting Ink:** The numeral on the lower right corner of the face of the note changes from green to black when viewed from different angles.

• **Security Thread:** Each denomination is positioned with the use of a unique security thread. This is a type of thread or ribbon that runs through a bank note substrate. The new \$20 bill features the thread to the far left of the portrait and glows green when held under ultraviolet light. The words "USA Twenty" and a flag can be seen from both sides against the light.

• **Micropointing:** "The United States of America" is on the lower edge ornamentation of the oval framing in the portrait. On the front of the note, "USA 20" is repeated within the number in the lower left corner.
