Attending were Connie Park, Dwayne Snider, Teddy Jordan, Judy Webb, Christi Fuller, Mary Jo Clearman, Cathy Bolinger, Danny Snider, Bobby Eaves and Steve Eaves.

Mr. and Mrs. Albert Hendricks and Mr. and Mrs. Floyd Wood of Carbon visited with an uncle, Troy Clearman, in the Hall-Bennett Hospital in Big Spring on Friday. Mr. Clearman had been seriously ill, but they found him improving.

Mr. and Mrs. Jim Jordan and her mother, Mrs. Susie Wharton, spent Friday night in Big Spring with Mr. and Mrs. Jim Bennett and Saturday night in Monahans with Mrs. E. W. Lovell.

Visiting with Mr. and Mrs. Albert Hendricks and Mr. and Mrs. Roy Buchanan and Kelly during the weekend were Misses Joyce Baker of Marion, Ohio and Alane Dugger of Waco. Both are students at Texas A&M. Others visiting were Mr. and Mrs. Don O'Neal of Midland, Mr. and Mrs. Don Brumelow and Sherry of Abilene, Mr. and Mrs. Wilbourne Wood, Terri and Craig of Carbon, Mrs. Willie Mae Hendricks and Mrs. David Willoughby, Kristeen and Scotty of Eastland. There have been many local visitors, in the Hendricks home.

Mr. and Mrs. Roy Buchanan and Kelly will be moving to Sweetwater on Thursday.

Members of the Kokomo Baptist Church enjoyed a covered dish supper in their new kitchen-

THE GORDON SPOT

By Dee Gordon.

Congratulations to Bobby Williams of Gorman and Kathy Kincaid of Eastland. They are both state winning 4-H members. Bobby was judged state winner of the 1968 4-H Leadership Award. He will compete with other state winners for scholarships. Kathy was named a Santa Fe state winner and will receive a \$500 scholarship. She received the award because of excellent 4-H work in several areas. Both Kathy and Bobby will receive an expense-paid trip to the National 4-H Club Congress to be held in Chicago, December 1-5.

It is an honor to have a 4-H member win state in an awards program. It is very unusual and a high honor to have two from the same county. There are only 35 state winners from among the 254 counties in Texas who go to the National 4-H Congress.

As I travel around the county, I see many chemical containers, some are empty and some are not. I don't think everyone realizes the danger involved with these chemical containers.

Labels should be read before storing for any special requirements for storage. Some pesticides have warnings about low temperature storage and other requirements.

"Empty" chemical containers can be a source of danger to humans, livestock and wildlife. All remnants of chemical should be dumped into a deep pit dug in level soil and located to avoid contamination of water.

Large containers such as drums or barrels should be washed thoroughly and rinse water buried. Drums and barrels should be returned to the supplier or sold to a firm which can neutralize the toxicity of the chemicals.

Last week I read of a tragedy that occurred at Dunning, Nebraska, on June 29, 1968. An

empty pesticide barrel purchased for \$2.00 was instrumental in the death of one boy and the serious illness of two others.

It was a hot Saturday afternoon on June 29, 1968. The three boys — Byron Milleson, age 6; David Copp, age 7; and Kurt Saner, age 6 — were running through the sprinkler in the Milleson yard. The boys decided the new trash barrel could add to their fun. They rolled it into the yard and filled it with water. Since the barrel belonged to the Millesons and the play was in their yard, Byron spent more time in the barrel. David and Kurt took turns jumping in the barrel with Byron.

It is believed the boys played in the barrel 30 to 45 minutes. Two and one-half hours later Byron got sick and was taken to the hospital. Later the other two boys got sick.

The label on the barrel was mutilated and could not be read. The original contents of the barrel were not known, but a similar barrel was located. Then it was discovered that the barrel had contained parathion and that atropine was antidotal.

Atropine was administered to the boys. It was too late for Byron, but the other boys recovered after a serious illness.

This is a sad but true story. The parents of Byron Milleson have consented to its use with the hope that the information will in some way prevent similar accidents involving pesticides and empty containers.

SAFETY & CARE URGED DURING NAT'L. FIRE PREVENTION WEEK

Jack Cozart, President of the Eastland County Farm Bureau, presented Jerry Overstreet, (right) Secretary of the Volunteer Fire Department of Gorman, a Farm and Ranch Directory to be used in finding the location of rural dwellings in Eastland County.

Fire Chief Vardie Huff and Jack Cozart, president of the Eastland County Farm Bureau, urge Eastland County citizens to pay special heed to the observance of National Fire Prevention Week, October 6-12.

"We ask that everyone develop good fire safety habits including care with matches and smoking, good housekeeping to rid the home of rubbish and proper use of electrical fuses, appliances and extension cords," the chief said. He added, "Fires killed more than 12,200 persons and cost more than \$1.7 billion in the U. S. last year."

Cozart said the fall and winter months are the most vulnerable times of the year for rural fires. "When fire occurs on farm or rural property, damage is three to six times greater than in the average city fire," the Farm Bureau president added.

Farm Bureau has two programs designed to help curtail fire losses. The county Farm Bureau, in cooperation with the Texas Farm Bureau, sponsors the attendance of local volunteer firemen to the annual Firemen's Training School each summer in College Station. More than 600 firemen have attended under Farm Bureau sponsorship during the past six years. Attending from Eastland County

Joe Bennett & Speedy Clark J&S

The Panthers were defeated by a strong De Leon team last Friday night. Even though it was a bit one-sided it was good to be playing our old rival again. A very large crowd attended and the fans are supporting their team in a very fine way. This happens to be one of those years that everything seems to happen to the team; losing about nine seniors, two good boys are ineligible, Tarlton and Selman; Armstrong moved to Houston and Bill Mears, who was expected to be a starter is unable to play, so all in all there were some bright spots despite the heavy loss.

Wesley Rogers took over the quarterbacking position after starter Mike Duran was injured and did a very creditable job. Johnnie Scitern and Reggie Underwood, a couple of more sophomores, did a real fine job, along with seniors Wayne Huff and Jackie Grice. As a matter of fact, Jackie played the best game of his career and consequently, was named "Head Hunter" of the week by the coaching staff. Some of the Panther sophomores and juniors are improving and might develop into a fair ball club by the time they get to district play. J&S

We had a better week last week and Speedy's percentage was 80 and Joe's 70. The early season ratings went out the window as 6th ranked Texas was thoroughly defeated by a good Texas Tech team. TCU, with a new quarterback, looked much improved by defeating a good Iowa team. The Razorbacks from the Ozarks let it be known that they will have to be reckoned with by defeating Tulsa real bad. The rest of the Southwest Conference went as expected.

There is only one conference game this week - TCU meets the University of Arkansas at Amon Carter Stadium and could be a very important game in determining the champion this year. The rest of the conference teams are still playing non-conference games and it looks like this this week:

Putting-you-firsts:

(A quick tour of some of the thoughtful new features the 1969 Chevrolets offer that other cars in Chevrolet's field don't.)

Headlight washers
You push the windshield washer knob and hold it, and your headlights come clean. Fluid is diverted to two jet nozzles at each light lens. (Outer lights only on duals.) The spray removes up to 80% of accumulated dirt. The feature is standard on 1969 Corvettes. It comes with the hidden headlights available on Camaro, Caprice and Kingswood Estate Wagons. It is available on all other models except Corvair.

Heated glass
In a moment your rear window will self-defrost. Because we've built onto it a network of tiny ceramic strips capable of heating the entire surface. Fog and frost disappear quickly and quietly. You just flick a switch. The heated rear window is available on the 1969 Caprice Coupe and Impala Custom Coupe.

Pushbutton tire chains
You press a button on the instrument panel and the rear tires get a shot of "liquid tire chain."

You spin your wheels once, wait a moment, and you're off—with traction you wouldn't believe possible on slick ice, or packed snow. Available on all 1969 big Chevrolets.

Steering wheel lock
When you own a car as desirable as the 1969 Chevrolet, you don't take chances. When you leave it, you lock it. Not just the doors. You lock the ignition, steering wheel and transmission lever, too. Our new lock on the steering column takes care of all that. Standard on all 1969 Chevrolets, Chevelles, Chevy Novas, Camaros and Corvettes.

Power steering plus
The 1969 Caprice, Impala and Camaro are available with a new type of power steering. Variable-ratio power steering. What it does is give you faster steering with fewer turns of the wheel.

Variable-ratio power steering is particularly helpful in short, full turns. And parking becomes unbelievably easy. You'll see.

Walk-in wagons
The tailgate swings open like a door on most of our 1969 station wagons. Which in itself is no big deal. But wait, there's more. We've built a concealed step into the rear bumper. You simply step up, over, and in. (The way we build our wagons, you can do it without bumping your head, and without acrobatics.) Walk into a wagon soon at your Chevrolet dealer's. Sorry, car thieves.

would you believe 26%

Would you believe that the average price per kilowatt-hour of electric energy to our residential customers is 26% less than it was ten years ago? No? Well, lots of people have questions when we say this because they are paying bigger electric bills and don't fully realize just how much more electricity they are using now than they were a few years ago. It has been possible for us to hold down the price of electricity primarily because: (1) we are selling more electricity to more customers and (2) because of the greater efficiency of new and modern equipment. But even with these factors, keeping the price low has been increasingly difficult. Like everyone else, we are having to pay more for nearly everything. Interest rates, payroll, fuel costs, materials and equipment prices, and taxes have kept going up. Keeping the price of electricity down is a constant battle, and we work at it every day because good, economical electric service is so important to everyone. We want electric service always to be the biggest bargain in your family budget.
