By Kernel Gene Baker, a Pe

As most of you know I have been trying to retire. Theresa and I have discussed it quite often so one morning after breakfast instead of jumping up and leaving for work I just sat quietly and looked at her. After a moment she asked what I wanted and why I was still sitting at the table.

I replied, "Today I am going to play like I have retired. What will we do the rest of the day?"

She answered, "One thing you are not going to do and that is sit around the house all day - seat!"

Guess I am destined to remain in harness. I feel very happy about the situation - I didn't think too much of letting the Progress leave Gorman anyway. Hope this news will not make too many people unhappy.

Some of our city equipment is in pretty bad shape but the city employees are doing their best to clean up the town. Recall in days gone by when citizens would take time out and help clean up our town. Sure would be nice if we could take time out and do that again.

I recall a slogan Texas Electric used a few months ago called "PEOPLE POWER".

People Power will make Gorman just what we want it to be. I'm ready. Are You?

Mrs. Norman Jones and family of Austin have been visiting for the past three weeks with her parents, Mr. and Mrs. George Elbert Bennett. She has been helping her mother with the ranch while George is recuperating from surgery.

FINAL PLANNING UNDERWAY FOR STAFF WATER PROJECT

Final checking is underway and the last of the easements are being rounded up in preparation for seeking bids to construct the Staff Water Supply System, according to an announcement here.

Approximately 300 customers will be served by the Staff Water Supply Corp.

Persons still holding easements are urged to get them returned as soon as possible, Farmers Home Administration Director E. L. Foster reports. (One easement is being awaited by air mail from Arabia, he said.)

Peanut Princess Entries Honored At Tea Tuesday

Eastland County Peanut Princess contestants were honored with a tea at 2 p. m. on Tuesday in the Gorman Hotel Apartments recreation room. The tea was hosted by the Woman's Study Club, sponsors of the pageant. Mrs. O. R. Buchanan and Mrs. Giff Acree served as chairmen. Mrs. Joe Ed Baze, last year's contest runner-up, assisted in greeting guests.

Club members attending were Mmes. Claude Fuller, James Miears, Dorothy Hatcher, Mary Revels and Houston Jolley.

The tea table, covered with a white linen with blue cut work, was centered with an arrangement of blue pom-pom mums and blue tipped daisies in a green glass vase.

Punch, cookies and, of course, "peanuts" were served as contestants reminisced of last year's contest and met new contestants.

Miss Kay Hoffman, present reigning Texas Peanut Queen, attended the tea and conducted a practice session following the social event. She was accompanied by her mother, Mrs. Bill Hoffman.

Contestants attending were Rocky Dees and Mrs. L. Dee Robbins of Cisco; Christie Duran and her mother, Mrs. Charles Duran of Gorman; Denese Grady and her mother, Mrs. Velma Grady of Gorman; Deborah Holliday and her mother, Mrs. L. D. Holliday of Gorman; Melinda McCloud and mother, Mrs. Austin McCloud of Eastland; Jan Willis, and mother, Mrs. Leland Willis of Cisco; Billie Jean White and mother, Mrs. R. J. Rev. Williams has served as pastor of the First United Methodist Church for the past two years.

CARD OF THANKS

Many thanks to the doctors, nurses and entire staff at the Blackwell Hospital for the good care given me. Also to friends and family for the cards, flowers and visits during my stay in the hospital.

May the Lord bless each of you.

Jewel Huddleston

It is hoped that bids may be advertised for soon, with opening to be possibly during the last week of June. Engineers are checking and making final maps and specifications in preparation for the bidders.

The Staff system is in three segments: some 57 customers in the Kokomo, Bear Creek and Flatwood area will be served on lines off the Carbon main; some 56 are in the La Casa area, north of Ranger; and approximately 180 in the immediate Staff area.

After bids are open, contractor will be given ten days to begin work, and job is expected to take some 180 days, meaning that water could be turned on about January 1, O. M. Boyle, local FHA supervisor, reports.

The system includes two storage tanks, (a 50,000 and a 75,000 gallon) and one pump station, to be situated at La Casa.

The Staff system was originated on April 17, 1967, and because of its long time planning, held a high government priority.

Cecil Reeves is president and Alvis Ingram, vice president of the corporation. Jimmy Little is secretary-treasurer. Directors are Tom Morgan, E. F. Arterburn, Cody McDaniel and Larry Herrington.

The original corporation signers paid \$50 each, and those who signed after April 1, this year, paid \$100 each. Others signing up now will pay \$100 plus installation, which will average some \$85 if they can be added feasibly to the system.

The entire system comprises some 81 miles of from eight to two inch lines.

The Staff system will bring to four the number of water corporations in the county. The Morton Valley system has 110 customers; Carbon, 110; and Olden, 131; bringing to 651 the number of families served, or approximately 2,604 individuals benefitting from the water program.

There are presently 88,000 meters in Texas on similar programs in 750 different systems.

Total contributions to date now total \$1,526.32.

The Swimming Pool Committee express their thanks to each of the contributors for the fine support given the pool fund this year.

Gorman Receives .8 Inches of Rain

Gorman received .8 inches of precipitation from a shower late Tuesday afternoon.

Mr. Odis Rodgers of the Kokomo Community reported 1 1/2 inches.

The moisture should be enough for farmers to get peanuts planted and a big lift to those who have already planted.

Hearing Tests Are Important

If you have a hearing problem of any kind you owe it to yourself to have an Electronic Hearing test made to find why and what can be done to help you before it is too late. The tests are free and will only take about 20 minutes of your time. We check your ears for packed wax, the tubes that let your ears breathe, then with the machine we check your hearing nerve, (bone reading) air conduction, (outside sounds) then measure how much sound the ear will take. We can pinpoint your problem and explain in plain English what can be done to help you, then you make your own decision. We never try to high-pressure you into buying anything. There are thousands of people today suffering from hard of hearingness, (even some that wear Hearing Aids) just because they waited too late to do something about it. . . . don't let this happen to you.

Mr. Joe Treadway will hold his regular Hearing Aid Clinic at the City Library at City Hall in De Leon on Monday, June 19th from 10:30 A. M. til noon. We invite you to come in for your free test.

We do repair service on most makes of Aids, and have a full service on cleaning, tubes, batteries for your Aid, and can always save you money. We are Licensed by the State of Texas to fit and Dispensing of Hearing Aids. We are always close by when you need us. We are in the Stephenville office, (Skipper Real Estate Bldg.) every Thursday, and in the Hamilton office every Friday to run special tests and assist you in every way.
