

## HULLS

By Kernel Gene Baker...aPe

Thank you, Mr. Birdsong and all the rest of your peanut picking people that have assisted in making all of us a prosperous bunch of nuts, especially the Kernel.

Now to entertain us with a football game and more goodies when the Panthers strive to skin the Lions on September 8th at Brogdon Field is adding peanut pie to our dessert.

When Corky Brown brought in the article about the new Riding and Roping Club, he looked at me with disbelief when I said that I served in the Cavalry years ago. No thanks, I have no desire to compete in any roping or riding events. This club, along with our new athletic booster club and band boosters, etc. makes one anticipate an active season coming up.

Mr. Butler, former publisher of the Rising Star newspaper, now retired, has been visiting the Progress office. Benny is an old fire horse. He has been active so long it is hard to stay out of harness. Discussing politics with him recently I asked him to write a column for the Progress. Personally, I am in full accord with his remarks.

### POLITICS AND PATRIOTISM

By Benny A. Butler

In common with quite a number of Americans, I have been puzzled by the activities of a former U. S. Attorney General in regard to the War in Vietnam and particularly the bombing of North Vietnamese territory by the United States.

Not by the fact of his opposition to the bombing — that is certainly his right and duty to his conscience, as it would be the right of every other true American — but by his manner and platform for expressing it. The fact that he spoke from Hanoi and the podium of a communist aggressor as wicked and culpable as anything he tried to condemn, instead of coming home to urge his objections in Washington, reflects discredit upon his patriotic motives.

I wonder what a democratic ex-president, living in Texas, can think about a former official of his administration, who held his voice when that administration itself instituted and carried out bombing attacks upon the same objectives? Perhaps one has to swallow a lot in order to be a good politician, as well as to be a statesman.

What Mr. Ramsey Clark fails to consider in his assumption of United States guilt is, that the American people, in general, and for all their differences of opinion about national goals, honor and obligations, have a deep down pride in their country. No matter how much we may dislike or disagree with our leadership, we are inclined to resent anyone, particularly an American citizen, who goes abroad among our critics and especially our enemies, to accuse and defame us. We can fight like the very devil in the family, but when the family is threatened our differences quickly become a resentful unity.

Someone has remarked in context that our world will become one and wars will cease only when we are attacked from outer space.

For a second oversight, Mr. Clark is depending for his "facts" upon a regime that has no credit for honesty and morality as we hold these things to mean. The records of the past half century of communist nationalities and particularly of the North Viet-

## Panther Athletic Booster Club Gets Boost From Higginbotham's Store

James Mears, manager of Higginbotham's in Gorman, presents Gene Foster, president of the Panther Athletic Booster Club with one of the 150 Panther stadium cushions the company is donating to the club for sale as a token of their appreciation to the booster club and athletic programs in the Gorman School.

Higginbotham's of Gorman have donated 150 stadium cushions to the Panther Athletic Booster Club for the purpose of raising funds to help finance the club's projects. The cushions have the Panther emblem and are in the school colors. It also has a carrying handle, and made of high quality plastic. The cushions are being sold for \$2.00 each and may be purchased at the gate at the Gorman-Dublin game and will

name government, suggests nothing so much as the fact that these regimes are without human compassion, and capable of anything, even to the point of bombing their own docks, hospitals, or murdering uncounted thousands of their own people, if it is considered necessary to the ends and security of the ruling state. The record is undeniable in a multitude of examples and detail.

Such a record is a mighty poor base indeed upon which to entrust the political ambitions of a peripatetic "ambassador in apology" who has carried his hodful of coals to a fiery Newcastle. Coupled with the cruel cynicism and disregard for humanity expressed by George McGovern in an interview Sunday, it makes one wonder what, after all, is the idealism of some who would seek to become the stewards of this nation's integrity and fortunes in the next administration.

Americans are not so naive as not to recognize political implications, but if politics are to become more important than statesmanship and the principles that have inspired the slow progress of mankind throughout the agony of history, we may well look carefully to the real motives and characters of those who serve such doctrines.

Nations, as well as individuals, which do not stand for something in terms of sacrifice have very little meaning, or future, otherwise.

## MISS VICKI SCOTT OF COMANCE CHOSEN AS TEXAS PEANUT QUEEN ON AUGUST 18

MISS VICKI SCOTT, Texas State Peanut Queen

The Texas Peanut Producers Board is proud to announce the crowning of Miss Vicki Scott of Comanche as the 1972-73 Texas State Peanut Queen.

Miss Scott was selected as the winner of a highly competitive contest with eight other lovely and talented young ladies vying for the much coveted honor. Vicki is a beautiful brown-eyed brunette who will enter Tarleton State College as a freshman this fall. She is the daughter of Mr. and Mrs. Jerry Scott.

As the Texas Peanut Queen, she will represent the peanut she will represent the peanut producers throughout the year as she appears on major radio and television networks promoting the highly nutritious peanut. She will receive a \$500 scholarship award at the Peanut Bowl football game to be played in Eastland on September 16, 1972. The contest will be between Cisco and Ranger Junior Colleges.

## ITEMS OF INTEREST

Gorman Primitive Baptist Church will have preaching services at 10 a. m. Sunday, August 27th. Elder T. F. Huston of Stephenville, pastor, will do the preaching. Visitors are welcome.

Monday, September 4, Labor Day, will be observed as a holiday for the merchants of Gorman. All business firms will be closed on that date.

NOTICE BAND BOOSTERS A very important meeting for all parents of band members and interested persons will be held at 8:30 p. m. Friday, August 25th at the Band Hall. Your child and the club needs your support and help.

Everyone is invited to attend the Church of Christ services at Rucker each Sunday at 10:30 a. m. and 7:00 p. m.

Weaver Cemetery Working will be held Tuesday, August 29th. Bring a basket lunch.

World War I Bks 1871 and Auxiliary of Ranger will have a Labor Day breakfast on September 4 at 6:30 a. m. in the Bullock School House, located on the Caddo Hwy. Auxiliary members are reminded to bring eggs, bacon, butter, jellies and coffee. All members of the organization are urged to attend. Eligible members are invited.

possible and one that will take care of the greatest number of students.

I again invite and urge parents to keep in contact with teachers if there are any problems. In about 99 percent of the cases, if a parent will go to the teacher and discuss the problem, it can be solved in a satisfactory manner. There has to be a mutual understanding between the teachers and the parents, which can be attained by proper communications.

## Know Your School

By C. L. Garrett, Supt.

### CLASSES BEGIN MONDAY

Well, the time has almost arrived to begin another school year. High School students are registering this week and teachers are in inservice training getting ready to get down to class work on Monday, August 28. Classes will begin at 8:05 each morning and will dismiss at 3:25 each afternoon.

Buses will run on Monday morning and will be leaving the school building at around 7:00 a. m. Students who ride buses should be ready to catch the bus at about the same time that they caught it last year. New students should be out watching for the bus since they will not know just what time it will arrive. It will take a few days to get the bus schedules all worked out so that students will know within a few minutes either way when to expect the bus. It is very important that students be ready so that the bus will not have to wait.

Lunches will be served in the lunchroom on Monday for 35c to students in the first four grades and 40c for the other eight grades. Letters explaining the free lunch program will be sent home by the students on Monday and if parents feel that they are eligible for free lunches, they should make application at once for them. Applications will be made to the building principal. We will try to serve the best lunch possible in the lunchroom and urge all students to eat there.

I urge that all parents try to become familiar with school policies and to help the teachers and the administration in carrying out these policies. In the past, we have found that about 95 percent of our students are very cooperative in carrying out school policies. I hope this year that we will win the other 5 percent. The dress code has not been changed this year. I hope that all students will take note of this fact so that there will be no fact over dress and hair. I am sure that you have been reading in the papers where some schools are strengthening their dress and hair code, while some few are making it more liberal. I feel that we have a reasonable code, yet one that helps to keep the general appearance of the student body more attractive. Just a little cooperation on the part of students and parents will make things run more smoothly. If it is necessary, you girls let those hems out a little and you boys visit the barber shop.

There seems to be more conflicts in making schedules this year than usual. There are several reasons for this difficulty. One major reason is that Gorman has contracted with Cisco Junior College to teach our high school technical vocational classes. This year it appears that there will be four or five students attending these classes in Cisco. These courses require either two or three hours in class, which means with traveling time, these students must be gone from school from three to four hours. During this time, some required courses can not be offered. It is going to be impossible to make a schedule that will fit all students. The only thing that we can do is to make a schedule that will take care of the required courses in the best manner

## PUBLIC NOTICE

Proposed CONSTITUTIONAL AMENDMENT  
NUMBER 10 ON THE BALLOT (HJR 68)  
General Election November 7, 1972

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article XVII, Section 1 Constitution of the State of Texas, be amended to read as follows:

"Section 1. The Legislature, at any regular session, or at any special session when the matter is included within the purposes for which the session is convened, may propose amendments revising the Constitution, to be voted upon by the qualified electors for statewide offices and propositions, as defined in the Constitution and statutes of this State. The date of the elections shall be specified by the Legislature. The proposal for submission must be approved by a vote of two-thirds of all the members elected to each House, entered by yeas and nays on the journals.

"A brief explanatory statement of the nature of a proposed amendment, together with the date of the election and the wording of the proposition as it is to appear on the ballot, shall be published twice in each newspaper in the State which meets requirements set by the Legislature for the publication of official notices of officers and departments of the state government. The explanatory statement shall be prepared by the Secretary of State and shall be approved by the Attorney General. The Secretary of State shall send a full and complete copy of the proposed amendment or amendments to each county clerk who shall post the same in a public place in the

courthouse at least 30 days prior to the election on said amendment. The first notice shall be published not more than 60 days nor less than 50 days before the date of the election, and the second notice shall be published on the same day in the succeeding week. The Legislature shall fix the standards for the rate of charge for the publication, which may not be higher than the newspaper's published national rate for advertising per column inch.

"The election shall be held in accordance with procedures prescribed by the Legislature, and the returning officer in each county shall make returns to the Secretary of State of the number of legal votes cast at the election for and against each amendment. If it appears from the returns that a majority of the votes cast have been cast in favor of an amendment, it shall become a part of this Constitution, and proclamation thereof shall be made by the Governor."

Sec. 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of this state at an election to be held on the first Tuesday after the first Monday in November, 1972, at which election the ballots shall be printed to provide for voting for or against the proposition: "The constitutional amendment revising provisions on the time and method of proposing amendments to the state constitution and the time and method of publishing notice of proposed amendments."

**WASHINGTON**  
"As it looks from here"  
**OMAR BURLESON**  
Congressman 17th District

WASHINGTON, D. C. — WHEN PLAIN OLD COMMON SENSE prevails in the Congress, it's something to write home about. This occurred a few days ago when both the House of Representatives and

the Senate rejected a Section in the Foreign Assistance Act of 1972 which would have re-imposed an embargo on chrome ore from Rhodesia. A BRIEF REVIEW OF THE history of sanctions against Rhodesia may be helpful. (The original policy of our government was discussed in this space on May 22, 1969.)

IN 1965 RHODESIA DECLARED itself independent of Great Britain's colonial control. England requested the United Nations to impose economic sanctions against its

its former colony. A resolution to this effect was adopted in the U. N. in 1966.

BY EXECUTIVE ORDER, PRESIDENT JOHNSON, in early 1967, committed the United States to abide by the U. N. action. All trade between our Government and Rhodesia came to a halt.

SINCE RHODESIA FURNISHED practically all chrome to us, we had to turn to the next largest source of supply, the Soviet Union.

AS WE BECAME INCREASINGLY dependent on Russian ore, the price rose to over 200 percent — from \$27 per ton paid Rhodesia to \$80 per ton.

IN OCTOBER OF LAST YEAR the Congress adopted an amendment to the Military Procurement Bill which lifted the embargo on Rhodesian chromium. The Act became effective on January 1st of this year.

IN MAY OF THIS YEAR an effort was made in the U. S. Senate by those who favor the embargo to re-impose sanctions but it was defeated. The House has now acted likewise.

FOLLOWING THE LIFTING of the embargo in January of this year, Russia's chromium prices dropped to an average of \$55 from \$80 per ton, as a result of breaking the Soviet's monopoly, which we ourselves helped create.

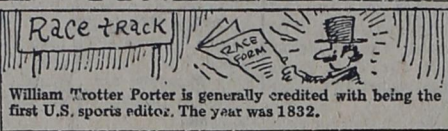

IN THE MEANTIME, A NUMBER of other industrial nations ignored the action of the United Nations and continued to purchase chromium from Rhodesia. Japan, Germany, France and Italy bought chrome ore at prices less than half of that which our producers were forced to pay to the Russians. It also gave these nations a further advantage over the United States in that the consumers in this Country were paying a higher price for stainless steel products of all sorts. (Chrome is a necessary ingredient for all steel products.) The inflated Russian price of chrome is estimated to have cost American steel-makers over \$20 Million annually more than they would have spent had they been allowed to purchase at world market prices. These costs are

necessarily reflected in the price of U. S.-made steel products but not added to foreign produced goods of the same kind. Chromium is also classed as a strategic material and since 1939 has been designated for stockpiling for use in our national defense. All this at a time when we were supposed to be fighting inflation. In addition, such an action contributes to our deficits in the balance of payments.

NOT ONLY HAS RUSSIA EXPLOITED her position as a prime supplier but our dependence on the Soviet Union for this critical material creates an adverse effect on our national defense needs.

THE EMBARGO ON RHODESIAN chromium has served the interest of no one except Russia and foreign steel producers.

ON MAY 22, 1969, THIS COLUMN gave the real reason for our complying with the sanctions placed against Rhodesia by the United Nations Resolution. Would anyone suppose that many of the nations which supported this action did so out of any love for Great Britain and its colonial policies? The real reason for the embargo was because of Rhodesia's racial policies, known as apartheid, meaning "separate" or "apart" of the races.
