## Dr. L. K. Farrell Appointed To Dallas Church

Dr. Leighton K. Farrell of Richardson has been appointed senior pastor of the Highland Park United Methodist Church in Dallas.

Dr. Farrell has been senior pastor of the First United Methodist Church in Richardson for the past five years.

Dr. Farrell is married to the former Ann Underwood, daughter of Mrs. E. W. Underwood and the late Mr. Underwood of Fort Worth and formerly of Gorman.

The Farrells met at a Methodist summer camp at Glenrose. She was a freshman at Texas Christian University and he was a senior at SMU.

They were engaged for a couple of years and after their marriage in 1952 Dr. Farrell completed work on his master's degree from Perkins School of Theology at SMU and served as associate minister of Matthews Memorial United Methodist Church in Fort Worth. Mrs. Underwood taught school in Fort Worth.

From 1954 to 56 the couple lived in Denver, Colo. where he received his doctorate from Iliff School of Theology and Mrs. Farrell was Christian director for Park Hill United Methodist Church, the city's second largest Methodist body.

Back in Fort Worth Dr. Farrell organized the Edge Park United Methodist Church and served as its pastor for nine years.

The family moved to Dallas in 1965 and the minister spent two years as executive secretary of the Dallas-Fort Worth area Methodist before taking the Richardson pastorate.

Mrs. Farrell is a graduate of TCU and has completed the course work for her doctorate in English from NTSU and for the past five years has taught two sections of NTSU freshman English. However, her main interest is in church work in adult education, and she hopes to continue her work in that area at the Highland Park Church.

"I have organized Sunday School classes and I teach special studies when I'm asked."

As a matter of fact, she says that "education is a way of life and I'm still at it."

The Farrells have two children, Becky, 14, and Scott, 5 years old.

Mrs. Frank Morrow of Gorman is Mrs. Farrell's grandmother.

## Homecoming Invitations In Mail This Week

Homecoming is "this fond attachment to the well known place whence first we started into life's long race, maintains its hold with such unflinching sway, we feel it e'er in age, and at our latest day." (Cowper). Those who return home each year for homecoming say they will never miss another one, and the older one gets, it seems the more one wants to return and reminisce with early childhood classmates and friends.

The homecoming committee have planned a full day of activities for all exes and they are sure it will be a most memorable and enjoyable day for everyone.

Registration will be at 10 a. m. this year instead of the hour of 9 a. m. as in past years. This will be in the High School and the business meeting is scheduled for 1:30 p. m. in the High School Auditorium.

A downtown pep rally will be held at 3:00 p. m. and dinner from 6 to 7:30 p. m. in the school cafeteria. Dinner reservations may be made with Edgar Higginbottom or Lester Seaton and soon as possible so the senior class can make plans accordingly.

The highlight of the day's activities will be the football game between the Bangs Dragons and the Gorman Panthers at Brogdon Field at 8 p. m.

After game reception for Exes will be held in the high school gym.

Mrs. Graydon Baze and Mrs. Ray Rankin, invitation chairmen, will be mailing over 500 invitations by the weekend.

## GORMAN TO HOST EARLY HI IN SCRIMMAGE FRIDAY 6:30

The 1972 version of the Gorman Panthers is being shaped in workouts the past week and this week in preparation of the upcoming season. The first scrimmage of the season was held last Friday with the Roscoe team at the McMurry campus. The inexperience of the Panthers was evident throughout the scrimmage, the boys were really trying hard but nothing can make up entirely for the lack of experience. However, after this week's workouts, the Big Red should do a better job against the Early Longhorns.

The scrimmage at Brogdon Field on Friday evening between the Longhorns and Panthers will be following by a watermelon slicing, sponsored by the Panther Athletic Booster Club, a newly organized booster club which is growing in membership each day. A membership drive is underway and all parents of athletes as well as other interested persons are urged to sign up. The time of the scrimmage will be 6:30 p. m. Be there!

Under new head coach Kenneth Good, the Panthers are picked to finish in the fifth spot in an eight team district. However, we disagree with their prediction, as we think we will have a much better caliber of football player than the prognosticators think.

High school is down two while elementary is up seven. The high school is up five above the number we had when school closed in May, while elementary is down three from this same time. Enrollment is expected to increase a little during the next few days. The enrollment the first day was 317.

Enrollment by grades is as follows: first grade, 18; second, 14; third, 27; fourth, 16; fifth, 26; sixth, 25; seventh, 36; eighth, 29; ninth, 32; tenth, 38; eleventh, 30; and twelfth, grade, 26.

Mr. Garretts reports that school got off to a good start despite some uncomfortable heat. Both students and teachers seemed to get down to business from the first day. Another good school year is expected.

Two additional courses are added this year in high school. They are Related Math II and Consumer Education. Both of these courses will help our course of study. Four students are attending the auto mechanics course at Cisco Junior College this year. This is a contracted course for high school instruction through the Junior College, the local school and the Texas Education Agency. Mr. Garrett states that this is another example of your local school making an effort to meet the need of it's students. —GP—

Proposed CONSTITUTIONAL AMENDMENT  
NUMBER 10 ON THE BALLOT (HJR 68)  
General Election November 7, 1972

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article XVII, Section 1, Constitution of the State of Texas, be amended to read as follows: "Section 1. The Legislature, at any regular session, or at any special session when the matter is included within the purposes for which the session is convened, may propose amendments revising the Constitution, to be voted upon by the qualified electors for statewide offices and propositions, as defined in the Constitution and statutes of this State. The date of the elections shall be specified by the Legislature. The proposal for submission must be approved by a vote of two-thirds of all the members elected to each House, entered by yeas and nays on the journals. A brief explanatory statement of the nature of a proposed amendment, together with the date of the election and the wording of the proposition as it is to appear on the ballot, shall be published twice in each newspaper in the State which meets requirements set by the Legislature for the publication of official notices of officers and departments of the state government. The explanatory statement shall be prepared by the Secretary of State and shall be approved by the Attorney General. The Secretary of State shall send a full and complete copy of the proposed amendment or amendments to each county clerk who shall post the same in a public place in the

courthouse at least 30 days prior to the election on said amendment. The first notice shall be published not more than 60 days nor less than 50 days before the date of the election, and the second notice shall be published on the same day in the succeeding week. The Legislature shall fix the standards for the rate of charge for the publication, which may not be higher than the newspaper's published national rate for advertising per column inch. "The election shall be held in accordance with procedures prescribed by the Legislature, and the returning officer in each county shall make returns to the Secretary of State of the number of legal votes cast at the election for and against each amendment. If it appears from the returns that a majority of the votes cast have been cast in favor of an amendment, it shall become a part of this Constitution, and proclamation thereof shall be made by the Governor."

Sec. 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of this state at an election to be held on the first Tuesday after the first Monday in November, 1972, at which election the ballots shall be printed to provide for voting for or against the proposition: "The constitutional amendment revising provisions on the time and method of proposing amendments to the state constitution and the time and method of publishing notice of proposed amendments."

WASHINGTON

"As it looks from here"

OMAR BURLESON  
Congressman  
17th District

WASHINGTON, D. C. — REMEMBER THAT PART of a little limerick which goes something like this: "It's either too cold or it's either too hot; we are always wanting what is not." It was meant to suggest that some people constantly complain and are never happy with anything.

IN THIS POLITICAL YEAR the weather might be about the most noncontroversial subject.

ON THE OTHER HAND there is always a good chance of finding argument, even about the weather.

JOKINGLY SOME PEOPLE will say, "Send us a rain from Washington." Actually it is fortunate for the Country that the weather is a product of natural forces or sublime direction rather than the work of a committee of Congress. If the Congress should engage in arguments over whether we should have dry weather, wet weather, partly cloudy or clear, some Member would opt for something else and maybe unintentionally bring a tornado or a hurricane in some part of the Country other than that which he represents. There would be the difference in those parts of the Country favoring crops and that part favoring grazing or forestry, or that part which irrigates or nonirrigates. Then there would always be the danger of a filibuster in the Senate resulting in no weather at all. There would always be the politician getting out a press release claiming credit for rain which had fallen on the just and unjust alike. Doubtless the umbrella people would take a hand in lobbying for certain kinds of weather as well as other producers of products such as galoshes for wet snow.

EXCEPT FOR THE EXPERTS about all most of us know about the weather is that actually Mark Twain was not the originator of "Everybody talks about the weather but nobody does anything about it." Some of us through the years have attributed this line to Mark Twain but now it seems to have been observed by Charles Warner who wrote in the Hartford, Connecticut Courant in 1890.

MOST WEATHER EXPERTS seem to have a sense of humor about their predictions although some no doubt take their prognostications most seriously. This is not to disparage these specialists and their instruments but old farmers, mountaineers and sailors have been pretty dependable for a long time. Only trouble is they are pretty hard to find these days. They study the sky for a moment or two, check the direction of the wind with a saliva-moistened finger, and make some pretty accurate predictions.

A SKEPTICISM DEVELOPED within some of us during World War II when the predictions of military weather experts were seldom correct. Of course, this might be applied to about any other kind of prediction — it's just more noticeable about the weather.

"CAP'N" BILL, WHO HAS a fishing boat down on the Gulf, is a dependable weatherman, using a squinted eye, a wet forefinger or an aching joint as his only instruments. We asked him about the weather for the day and he said he was going fishing if he could get his dad-burned engine started; that it had been raining a lot and everything was water-logged, including him. HE WAS ASKED WHY THE weather all over the world had gone so berserk in the last several months. There have been floods in the New Braunfels area, West Virginia, South Dakota, and Hurricane

Agnes flooding Virginia, District of Columbia, Pennsylvania, Delaware and Maryland. (The flood at Snyder had not yet occurred.) Then there were floods in Japan, the Philippines, and it seems about every other place except the Sahara. Cap'n Bill responded that the weather was not the only thing that's crazy. He says the whole dang world is and that it all started in 1957 when the Russians punctured the invisible sack around the earth with Sputnik. He says it's no wonder we have floods, tornadoes, landslides, earthquakes, hippies, zippies, crime, dope and all the other loony carrin's-on.

AS FOR WHETHER THE WEATHER will ever stop misbehaving, Cap'n Bill said, "Can't tell. Mother Nature don't like being fooled and she ain't one to forget anytime soon."

A NEW RADAR WEATHER STATION at the Municipal Midland-Odessa Airport was dedicated last week. As soon as funds can be secured, a major Weather Bureau station will be installed at Clark Field in Stephenville.

WITH DUE RESPECT FOR Cap'n Bill's proclivities, weather service for West Texas should be greatly improved with these new installations.
