The community received about half an inch of rain on Sunday. It was a welcome sight to come home to. Glenn and I went to the Rio Grande

Valley on Thursday for a visit with Teddy and Louann, and though it showered on us just a little as we went through Bandera, and was cool, cloudy and a bit misty at times in Edinburg and McAleen thru-out the weekend very little rain fell.

While in the Valley, we

BI-CENTENNIAL RECIPE BOOK

A Bi-centennial Recipe Book is being compiled by the Carbon FHA chapter. They would like to encourage everyone in the Carbon community to contribute their favorite recipes, old or new. If you have some recipes you would like to contribute, contact any high school FHA member or bring a copy of your recipe to the homemaking department at the high school or leave it in the recipe box in the superintendent's office. Please include your phone number on the recipe in case they have a question about the recipe. The FHA girls want to encourage everyone to participate in making this an extra-fine community cookbook. The recipes need to be in by April 1.

Are your heating dollars going right through the roof?

If you don't have at least six inches of insulation in your attic, you're losing a lot of energy through the roof.

Your home needs plenty of insulation in the attic and between the walls. If your home is a pier and beam construction, you need insulation under the floor, too.

Weatherstripping around doors and windows also keeps the warm air

inside, and the winter air outside.

By bringing your home's insulation up to the latest FHA standards, you can reduce your heating costs as much as 20 percent.

For more ideas on how to get your heating dollars' worth, call Texas Electric. We'd like to help.

Haven't had too many visitors this week. Guess because of the flu. We don't have anyone here with it now. Sure lots of it outside the home.

The First Baptist Church came Sunday afternoon at 2:30 for worship. The Church of Christ came at 6:30 for services.

Monday is news day, carry mail, read to the ones who

can't read their mail and visit with all them every day.

Tuesday we had 25 out to play bingo. They enjoy this so much. Wednesday afternoon we have Bible Study. Joe O'Neal of Kokomo came to be with us. His wife is still sick, but some better.

Thursday night at 6:30 was singing night. Sure had a nice crowd of singers. Such a wonderful singing. Sure lots better singing when we have so many out. We have several young people who come to help almost every week with this. I appreciate them so much. My granddaughters, Kayla and Kristi Odell played the piano for us. We enjoyed it. So did the residents.

Friday is paper work day. I hope to have more news next week.

We had two to have birthdays Thursday, the 4th. Cora Richmond and Mable Trammell. We always sing happy birthday at the singings.

We also have a new resident, Belle Touchstone. Everyone here knows her as Belle Parks.

"DEALING" With David

I have named this column "Dealing" because that is what I intend to do with it - Deal with people's needs - physical, mental, and spiritual.

First of all, I wish to thank the Progress office for allowing me to write this column and I hope all of you will enjoy reading it each week. Most of all I hope it ministers to you.

Today, I want to "deal" with the topic of one's self-image; something I think is one of the keys to how one lives this life. It has been said that a person acts according to what they think of themselves. I believe this to be true. One must come to the pace of "proper self-concept"; that is, seeing oneself as God sees them.

In studying the scriptures and noticing how Jesus dealt with people, you realize that he always made them take an honest look at themselves. (John 4, Matt. 19, John 5). Yes we are sinful people by nature, and we must realize this first of all, but we are also made "in His image." And my friends - "God don't make no junk." Remember that, by God's grace, Christians are being made into beautiful people. Our self-concept should be that way - that we are worthwhile and important to God and his enterprise.

Thank God you are who you are. You are a gift from Him. Now give yourself back to Him so that He can make you what He desires. Jesus always tried to raise the honest person's self-image. Let him raise yours.

Hearing Tests Are Important

If you have a hearing problem of any kind you owe it to yourself to have an Electronic Hearing test made to find why and what can be done to help you before it is too late. The tests are free and will only take about 20 minutes of your time. We check your ears for packed wax, the tubes that let your ears breathe, then with the machine we check your hearing nerve, (bone reading) a air conduction, (outside sounds) then measure how much sound the ear will take. We can pinpoint your problem and explain in plain English what can be done to help you, then you make your own decision. We never try to high-pressure you into buying anything. There are thousands of people today suffering from hard of hearingness, (even some that wear Hearing Aids) just because they waited too late to do something about it . . . don't let this happen to you.

Mr. Joe Treadway will hold his regular Hearing Aid Workshop at City Hall in Gorman on Monday, March 15th from 1 till 3 P. M. We invite you to come in for your free test

We do repair service on most makes of Aids, and have a full service on cleaning, tubes, batteries for your Aid, and can always save

Mr. Treadway you money. We are Licensed by the State of Texas to fit and Dispensing of Hearing Aids. We are always close by when you need us. We are in the Stephenville office, (Skipper Real Estate Bldg.) every Thursday, and in the Hamilton office every Friday to run special tests and assist you in every way.
