

## PRESS POINTS

JOE BENNETT, Publisher

Well it looks as though the weatherman just won't cooperate with us at all. We are sure needing some rain for these dry crops. Also the irrigation wells are in terrible stress with all the irrigation at this time. I even washed the old jalopy and it didn't rain. Oh well, one thing is sure, when we get it we'll surely need it.

We are losing two fine families this week. As I mentioned last week, Kim Cockerham and his family are moving to Lam-passas, and also Bro. Bill Wilson and his family have moved to Purcell, Oklahoma where he has accepted the ministry of the church there. We will really miss these guys and their families from our community. I do not know about replacements from Kim and Bill, but I hope that those taking their places will be as fine for our community as they have been. Good Luck to both of you. You deserve it.

It seems as though the oil and gas business is booming around the Gorman area. There is a lot of drilling going on and some producers are being brought in. Now if the government would just get out of the oil and gas business, maybe everything would either have to do some drilling or else pay the price to those who do drill.

We enjoyed a visit with W.G. Bill Marquardt, president, Bob Martin, vice president, Frank Sayre, district manager of Eastland and Richard Armstrong, local manager of the Texas Electric Service Company at the Progress office on Tuesday afternoon. We talked with these gentlemen for a good while and they sure got some good ideas for the future of our area and state as far as the energy needs are concerned. Texas Electric Service Company is preparing for the future and looking for great things from our area and state. They are truly interested in the overall growth and future prosperity of our state, especially the wide area they serve.

Thanks for dropping by gentle men. We surely did enjoy the visit, and please come back more often. It's sure nice to talk to folks who are seeking better things for folks in our part of the country.

The Panthers are going through workouts now and are really looking good for so early in the season. There will be a scrimmage this Friday night at Jim Ned. If you haven't seen any workouts this far, go down to the football field and give these boys some encouragement. Who knows, maybe we will have another season like the past year. It could happen you know.

The new stadium lights are in place and really look great. There is only a little adjustment of lights to be done and then the lighting at Brogdon Field will be vastly improved.

I surely appreciate the fine words of the readers of the Progress. Thank the Lord for the fine support we receive from everyone in our community and area. We appreciate the fine job that our correspondents are doing by sending in their new each week. That's what it takes to have a good newspaper. And that's what we are striving to give folks who subscribe and read the Progress. Thanks again.

And remember to smile — because God Loves You!

## CARD OF THANKS

We wish to express our sincere thanks to friends and neighbors who were so thoughtful and kind at the time of loss of our loved one, Ed Robertson. To all those who sent flowers, brought food, and for phone calls and visits and each expression of sympathy. A special thank-you to Kim Cockerham and the Higginbotham Funeral Home Staff, and to Rev. Marion Dennis for the words of comfort.

Mr. and Mrs. Ed Robertson  
Mr. and Mrs. Dwight Bennett  
and families

## Melva Collins and Clark Shubert Exchange Vows

Miss Melva Marie Collins of Kermit and Clark Stanley Shubert of Sharpville, Indiana were united in marriage Friday August 12 at 7:00 p.m. in Southwest Park Baptist Church in Abilene with Dr. Clint Dunagon officiating.

The bride is the daughter of Mr. and Mrs. Cecil J. Collins of Kermit and Mr. and Mrs. Dan A. Shubert of Sharpville, Indiana are parents of the bridegroom.

Given in marriage by her father, the bride wore a radiant A-Line silhouette of chantilly lace and silk sheer. The fitted bodice was enhanced with lace appliques highlighted with crystals down center front. The High neckline was edged with lace, slim sleeves with tiny self covered buttons closure at the wrists. Lace panels enhanced the sheer A-Line skirt which extended into soft folds to a chapel length train in back. Tiny buttons highlighted the center back into a Watteau train. Lace traced the entire hemline.

Her mantilla veil of french illusion was edged with double rows of chantilly lace which framed her face and was gathered to a matching lace and crystal camelot.

Mrs. Rod Dodd of Seaside, California was the maid of honor and Miss Vicki Tetter of Hale Center was bridesmaid. Shona Allen of Kermit was flower girl and Lonny Allen of Kermit was ringbearer.

Serving as candlelighters were Miss Cindy Shubert and Miss Sandy Shubert of Sharpville, Indiana, both sisters of the bridegroom. Jay Clark of Fort Worth was best man and groom's man was Steve Mills of Fort Worth. Rodd Dodd of Seaside, California and Ken Joiner of Sharpville, Indiana were ushers.

The bride is a graduate of Kermit High School and is a senior Religion major at Hardin Simmons University. The bridegroom is a graduate of Tri-Central High School, and is a Junior Bible major at Hardin Simmons University. He is employed by J.C. Penny's in Abilene.

Following a wedding trip to Medina, Texas, the couple are at home at 1834 Vogel in Abilene.

## Texas Electric Officials Visit Gorman Tuesday

TESCO OFFICIALS - TESCO officials who visited the Progress Tuesday, left to right, are Richard Armstrong, "Bill" Marquardt, and Bob Martin.

The Gorman Progress office was honored Tuesday afternoon with a visit with Bill Marquardt, President and Bob Martin vice president of Texas Electric Service company and Richard Armstrong, of De Leon local manager.

They were in town to talk with the company employees and others.

When we asked them about the energy program, Mr. Marquardt stated, "I don't have to tell you that the day of cheap power is gone. And unless the government gets straightened out pretty quick, the days of an everlasting supply of power may soon be gone." He reminded us of the reality of the energy problem we experienced last winter, and everyone sat up and took notice when more than a million people were out of work in the Northeast, because there was

## Funeral Services Held Friday For Mrs. Frank Moore

### Mrs. Frank Moore

Mrs. Frank (Beatrice W.) Moore, 67, of Comanche, died at 8:45 p.m. Wednesday in a Gorman hospital after a lengthy illness.

Services were held at 2 p.m. Friday in Higginbotham Funeral Home Chapel.

The Rev. David Mitchell officiated. Burial was in Weaver Cemetery.

Born Dec. 1, 1909, in Comanche County, she married Frank Moore Oct. 4, 1925, in Carbon. She was a member of the Zion Hill Baptist Church. She had lived in the Comanche County area most of her life.

Survivors include her husband; two sons, Frank Jr. and Derrell, both of Comanche; a daughter, Wanda Emfinger of Pinwell; a brother, Ernest Gorman; a sister, Myrtle Milam of Eastland; five grandchildren and five great-grandchildren.

She was preceded in death by a daughter, Marie Branch.

Nephews were pallbearers.

## Swimming Pool To Close On Thursday

The Gorman Swimming Pool will close the season following Ladies Night Thursday, August 18.

Coach Gibbs wishes to thank the Swimming Pool Committee and interested parties that helped make this an enjoyable summer. A special thanks to Rev. James Peppers, Richard Arnold, Charlie Garrett and Milton Jensen for their help this year.

—GP—

## NOTE OF APPRECIATION

The Acteens of First Baptist Church would like to express their thanks to the ladies who donated cakes for the bake sale last Saturday. We would also like to thank all those in a community who bought baked goods. It is wonderful to live in a community where the adults support their youth in all their activities.

Sincerely,  
Acteens, First Baptist Church

—GP—

## Reception On Sunday To Honor The Bill Parrs

Mrs. Doyle Welch and Mrs. Johnny Eaves will honor their parents with a reception on their thirtieth wedding anniversary, Sunday August 21 from 4:00 to 5:30 p.m. in the Currency Room of the First National Bank. All friends and relatives are invited to attend. No gifts, please.

may be built in Texas. And the new energy bill proposed taxing industries which use oil and gas as a boiler fuel to encourage them to convert to coal. So the electric business is being forced to find a solution in a hurry. It means the cost of electricity will continue to rise for awhile. And that everyone will have to make adjustments.

1985 is the benchmark year set by the President in his energy plan. Since we are running out of our supply of gas and oil, we won't have a supply for the next century. Right now we are meeting our rising needs by importing more and more oil. To meet President's conservation goals by 1985, the first step we must conserve our precious energy. And even if we do conserve we'll need just as much natural gas as we do today. By 1985, this country must be using almost four times the nuclear energy we use today, but the way it looks now, we won't have that much.

According to Mr. Marquardt, the U.S. will still have to import as much oil as we do today, and this is in spite of a lot of talk about becoming energy independent. And he thinks it will be almost impossible to solve the energy problem by 1985. But he stated "At TESCO we're doing our best to meet the needs, and there are four fuels we can use to make electricity, it we have traditionally used natural gas, along with some oil. But we can't depend on these in the future. So we have turned to coal and nuclear fuels in the future, which Texas Electric has been doing for 10 years. As a part of our fuel-changing program, we've been building plants that burn lignite since 1967." We are also building a plant that

## FINAL RITES FOR MATHEWS INFANT AUG. 10

Garland Benjamin Mathews Jr. infant son of Mr. and Mrs. Garland Benjamin Mathews of De Leon, died at 10:30 a.m. Tuesday en route to Fort Worth. The baby was born at 8 a.m. Tuesday in De Leon Hospital. Services were at 2 p.m. Wednesday in Downing Cemetery.

The Rev. Lanny Spruill, pastor of the First Baptist Church of Lingleville, officiated.

Survivors include the parents; two sisters, Cynthia Christene and Arlette Dequitta, both of the home; maternal grandparents, Mr. and Mrs. James Lewis of Gorman; paternal grandparents, Mr. and Mrs. T.L. Isbell of Gorman; and Maternal grandparents (great), Mr. and Mrs. Bill Manard of Rising Star and Mr. and Mrs. Marvin Lewis of Gorman.

—GP—

## Mrs. Randy Bibby Honored At Gift Party

Mrs. Randy Bibby, the former Glenita Seaton was honored at a miscellaneous gift shower on Friday, August 12, in the Currency Room of First National Bank.

Greeting guests with the honoree were her mother, Mrs. Lester Seaton, and her mother-in-law, Mrs. A.E. Bibby of De Leon.

Mrs. Sammy Mauney registered guests. The refreshment table was covered with a white lace cloth over blue. Center piece was white and blue tinted pompom mums. Serving the blue and white petit fours, nut and mints and punch were served by Sarah Jane Slaton, and Susan Ridens.

Special guests were grandmothers of the bride Mrs. J.C. Seaton and Mrs. J.A. Clement. Hostesses were Mesdames: Betty Henderson, Ruth Underwood, Daisy Slaton, Louise Rankin, Carol Ervin, Marcell Laminack, Charlotte Snider, Sue Ripley, Janey Broom, Sammie Mauney, Earnestine Campbell, Majorie Treadway, Peggy Singleton and Nelda Mauney.

—GP—

## TO THE PEOPLE OF GORMAN, TEXAS

My family and I would like to express to you our appreciation for every kindness shown to us during the two and a half years we have lived in Gorman. It has been my privilege to have been associated with the staff at Lawndale Home, Blackwell-Hospital, Gorman Public School and Higginbotham Funeral Home during the time we have lived in Gorman. Our association with these organizations has been most pleasant.

I particularly appreciate the aid given by Joe Bennett and staff of the Gorman Progress. They have been most helpful in offering their assistance each week in the folding and addressing of the church bulletin, The Messenger.

This Sunday I will begin a new work as the minister for the Ninth and Pierce Street Church of Christ in Purcell, Oklahoma. We shall long remember your many acts of kindness, and we invite you to visit us in Purcell. Our new address will be:

Mr. and Mrs. Bill Wilson  
318 Sleepy Hollow Drive  
Purcell, Oklahoma 73080

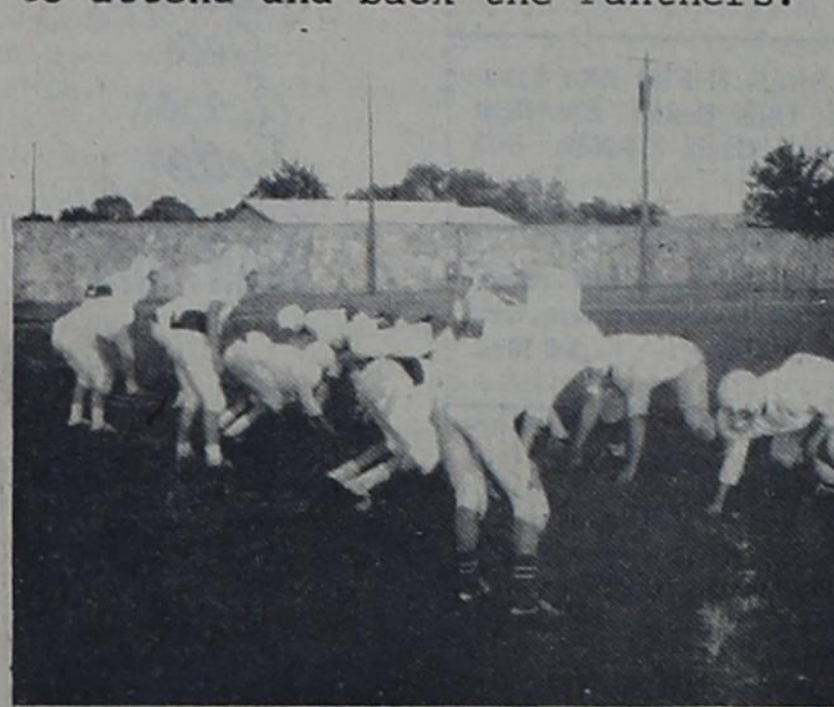

uses nuclear fuel. This is our Comanche Peak Plant at Glen Rose. The first unit at this plant is scheduled for operation in 1981 and the second in 1983. It takes 10 to 12 years to build a nuclear plant in this country, and it cost money, the Comanche Peak Plant alone will cost \$300 million. Our gas-fired plants were cheap in comparison to today's lignite and nuclear plants.

Marquardt stated "If that energy bill becomes law as it now stands, will make us more dependent on oil imports, which we are spending \$40 billion a year for right now, that bill slaps a tax on everything in sight and it doesn't do a thing to get more energy out of the ground. Of course we've got to start conserving our precious resources. And we've got to all work got to get this message over to Congress and the President.

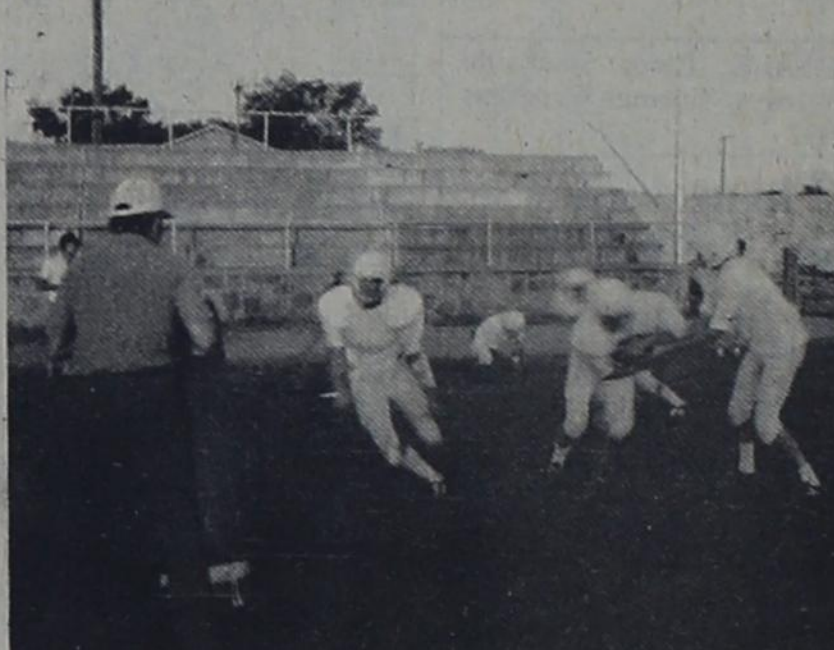

If you are serious about the future of this country, you ought to be writing your congressman regularly. "I don't want to imply that this country is going to pot or that your lights will go out next week. I just want to point out some of the immediate challenges we're facing."

## Panthers to Scrimmage At Jim Ned on Friday

The Gorman Panthers of 1977 will be at Jim Ned for a Scrimmage on Friday night. All Panther boosters are urged to attend and back the Panthers.

OFFENSIVE LINE BLOCKING - The offensive line goes through blocking assignments in practice.

PANTHER BACKS RUN PLAYS - Panther offensive backs are shown running thru the different offensive plays at the practice session Monday night.

PANTHER CHEERLEADERS - 1977 cheerleaders are (left to right), Amy Warren, Cindy Burleson, Deliah Eaves, Donna Lewis, Carla Good, and Kelly Mauney, Panther Mascot.

## Golden Age Club To Make Tour Of Austin

First National Bank Golden Age Club has planned a trip to Austin on Tuesday August 23, for a tour of the Capitol building, LBJ Library and the Governors home. Chartered buses will leave the bank parking lot at 8:00 a.m. Everyone should be there a few minutes early. Fare for the trip is \$7.00 plus your meals. If all the space is not taken by the club members, space will be available to non members on a first come first serve basis. If you wish to make the trip please contact Betty Henderson at First National Bank.

## Financial Report Of Baseball Commission

The Gorman Baseball Commission wishes at this time to publish the following information concerning the financial condition of the Baseball Park Fund. This information covers the period of time since the Fund was started, March 19, 1976 through August 10, 1977.

Total Funds received \$12,622.20. Pledges — \$150.00; Accounts Receivable (from sponsors) — \$380.00; Total funds — \$13,152.20. Total cash disbursed \$8,849.01; Accounts Payable \$85.8; Total Disbursements \$9,474.69; Balance in Fund \$3,677.51.

The papers for final settlement for purchase of the land are still pending completion by the lawyer. The purchase price of the land is \$3,500.00. The committee wishes to ex-

## SCHOOL REGISTRATION AUGUST 25-26

Gorman High School students will register on Thursday and Friday August 25 and 26.

Freshman will register from 9 to 11:00 a.m. Thursday, August 25, Sophomores 1:00 to 3:00 p.m., Thursday, August 25. Juniors will register from 9:00 to 11:00 a.m. Friday and Seniors from 1:00 to 3:00 p.m.

Elementary and all new students will register Friday August 26. Kindergarten students are required to bring birth certificates, and the child's immunization record. The state requires the following immunizations: three DPT, three Polio (one since the fourth birthday) one measles; one rubella. Parents or guardians of pupils new to our school will need to accompany the child and bring the child's immunization records and sign a release giving the Gorman Elementary School permission to write the last school attended by the child for the child's school records.

School buses will not run August 25 and 26, but will run at the regular time Monday, August 29. Classes will begin at 8:10 a.m.

## Ted Higginbottom Places First In Tractor Pull

Ted Higginbottom of Gorman place First in the De Leon Peach and Melon Festival tractor Pull. Ted pulled in the 5,000 pound Stock Class with a Case D.C., pulling 211ft. and 734 inches.

He was also awarded the Best Local Puller Trophy.

—GP—

## CARD OF THANKS

I wish to express my thanks and appreciation to friends and relatives who sent flowers, cards and visited me during my stay in Eastland Memorial Hospital. Also thanks to the doctors and nurses for the good care and kindness.

Mrs. Lupe Torrez  
—GP—

Mrs. Jack Wheeler of Dallas visited this week with her mother, Mrs. Marvin Blair.

—GP—

**Three Faces Of St. Louis**

The riverfront has the Gateway Arch, Busch Memorial Stadium, the Old Cathedral and "all that jazz." The Forest Park area, scene of the 1904 World's Fair, has the Zoo, the Planetarium, the Municipal Opera and the Jewel Box. Now there is a third side to St. Louis beckoning visitors nationwide.

St. Louis County is the up and coming tourism area of St. Louis. Though somewhat younger than the brownstone and cobblestone riverfront, St. Louis County has a history and personality all its own. With the completion and immediate success of Six Flags Over Mid-America in St. Louis County, a new tourist dimension has emerged.

The Six Flags amusement park is certainly a sparkling addition to the County. There are rides, stage shows, exhibits and cafes all through the park which can barely be covered in one day. The newest addition to Six Flags is The Screamin' Eagle roller coaster for the daring. The Guinness Book of World Records lists it as the tallest (110 feet), fastest (62 m.p.h.) and longest (3,872 feet) in the world. The park is open from 10 a.m. to 10 p.m. daily with an admission charge of \$8.50 for adults and children allowing unlimited rides.

Animal lovers often include Grant's Farm in their St. Louis itinerary. The Farm is a wildlife refuge for deer, bison, and elk roaming together in their natural habitat. The animals can safely be seen from the canopied open-air train running through the estate. Once farmed by General Ulysses S. Grant, the estate is now owned and operated by the August A. Busch family. Amheuser-Busch houses its prized Clydesdale horses at the Farm and opens its riding stables and trophy rooms to visitors. Grant's Farm is open Tuesday through Sunday and admission is free though you will need to make advance reservations by writing to Grant's Farm, 10501 Gravois, St. Louis, Missouri 63123.

For those who grew up wanting to be just like Casey Jones, you'll want to take an afternoon to climb aboard the mammoth black iron steam engines at the National Museum of Transportation in the County. In addition to the numerous trains, there are old railway cars, streetcars, horse-drawn carriages and aircraft. The Museum is open daily from 10 a.m. to 5 p.m. Ticket price for children 5 to 14 is 75c with adult tickets costing \$2.00.

History buffs have recently re-discovered St. Louis County and its variety of period homes for tours year-round. Browers favor the 150-year-old General Daniel Bissell House; the Hanley House typifying Greek Revival houses built in Missouri from 1855-1894; the Sappington House, a brick Federal house built in 1808; and the Tallie De Noyer Home, a portion of which was originally built in 1790.

**CUSTOM SLAUGHTERING & PROCESSING:** Grow your own calf or buy a grain fed calf from us. No appointment necessary. Red Chain Foods, Phone 968-4177, Stephenville. 7-28-fnc.

*Your Message Gets Across Better IN WANT ADS*

**Wake Up And Enjoy**

Coffee that's ready when you are—what a great idea! But short of having an early-rising maid, it's usually up to you to stumble from bed to kitchen, measure coffee and wait for it to drip. There's now good news for you coffee connoisseurs who like

drip coffee but don't like to bother with it in the early morning. The Coffematic® with Brew Starter from General Electric has a built-in automatic clock and 12-hour timer that lets you set up the coffemaker at your convenience and preset a time for brewing to start automatically. Simply set to the desired time, slide the control to AUTO and the coffemaker automatically comes on at the pre-selected time. It switches to a "Keeps-Warm" setting when brewing is complete to keep your coffee hot even if you oversleep.

For regular, non-timer brewing, simply slide the control to BREW/ON. The Coffematic drip coffemaker also features reusable or disposable paper filters, a shower head spreader that evenly distributes water over the grounds, and a transparent water reservoir with cup markings for easy filling.

The earliest forerunner of the motor car is believed to be a three-wheeled steam-driven carriage built in 1769-70. It ran for about 20 minutes at two to three miles an hour.

Though St. Louis is regarded as the "Senior Citizen of the Mississippi," there is a fountain of youthful attractions to be seen in St. Louis County. Last year, over 6 million people traveled to St. Louis and more are expected this year. St. Louis County hotel/motel owners caution that a reservation should be made as early as possible in planning vacations in St. Louis to insure the most convenient accommodations.

**KOKOMO NEWS BY MRS. GLENN JORDAN**

Rev. Lee Greer, pastor of the Trinity Baptist Church in Aberdeen, South Dakota, was the guest preacher at the Kokomo Baptist Church on Sunday morning. Rev. Greer is a graduate of Carbon High School, and his mother, Mrs. Mae Greer is a resident of the Valley View Lodge in Eastland. Mrs. Lee Greer and their children, Gregg and Kimberly accompanied Rev. Greer. The Greers are pioneer Southern Baptist Missionaries in South Dakota and the Trinity Baptist Church has been a mission church until recently when it was organized into a church in its own right. The Greers were dinner guests of the Glenn Jordans.

Other visitors in the morning service were Mr. and Mrs. Jimmy Nelson, Tena and Travis and Teresa of Lewisville, Adrienne and Stacia Allison of Azle, Susan and Toby Snider of New Hope. Kokomo Baptist Church held the church services at Lawndale Home in Gorman on Sunday afternoon. Those helping with the service were Bro. nd Mrs. Bob Watson, Mr. and Mrs. Claude Fuller, Mr. and Mrs. Odie Rodgers, Mrs. and Mrs. Jimmy Little, Mrs. Bill Joiner, Mrs. J.C. Clearman and Mrs. Glenn Jordan.

Mr. and Mrs. Albert Hendricks and grandson, Kelly Buchanan, and Mrs. W.A.O'Neal of Gorman were in Aspermont on Saturday for the funeral of Mrs. O'Neals brother, Mr. Floyd Freeman. They were also in Breckenridge on Monday for the funeral of Mrs. O'Neal's brother-in-law, Mr. D.D.Gray. We extend sincere sympathy to them.

Mr. and Mrs. Don O'Neal of Houston visited with families on Sunday.

Others from Kokomo attending the Gray funeral in Breckenridge were Mr. and Mrs. Claude Fuller and grandson, Chad Snell, and Mrs. Glenn Jordan.

Mrs. Joe O'Neal was able to return home on Saturday from the Eastland Hospital where she had been a patient for about two weeks. We wish her continued improvement.

Mr. and Mrs. Jackie Morgan and Charlie of Friona, Mrs. Jessie McCafferty of Amarillo and Mrs. Mike Leonard and Kami Jo of Lawton, Oklahoma visited last week with Mr. and Mrs. J.C. Clearman.

Mr. and Mrs. Vernon Fields and Lindell were helping Mr. and Mrs. Richard Nachtigall and Taylor move from Stephenville to Springtown on Saturday. Richard will be a teacher in the Springtown school system and will also serve as a bus driver. Mrs. Nachtigall will serve as an assistance teacher.

Deborah and Amy Hallmark and a friend, Cindy of San Angelo spent last week with their grandparents, Mr. and Mrs. Vern Garret. Mr. and Mrs. Jerry Hallmark came on Sunday to get the girls. Others visiting in the Garret home on Sunday were Mr. and Mrs. Jimmy Little and James.

Bobby Willson of Henrietta, N.Y. is visiting his grandparents, Mr. and Mrs. Jim Bennett at Lake Leon. They met him at the D-FW Airport last week. Bobby's parents, Mr. and Mrs. Fred Willson, and brother, Joel will arrive for a visit soon.

Mr. and Mrs. Alvie Allison, Sdrienne and Stacia of Azle visited during the weekend with Mr. and Mrs. Euell Allison and Alice Ann and attended to Barton reunion at the Kokomo Community Center. The girls remained for a visit with their grandparents.

Mr. and Mrs. Jimmy Nelson and family of Lewisville spent the weekend with his parents, Mr. and Mrs. Clifford Nelson. Jim Jordan visited with them on Saturday.

Mrs. J.L.Little, Mrs. Ima Boles of Houston, Mr. and Mrs. Doug Little, Mr. and Mrs. Charles Little, Caye, Charla and Alan, Mr. and Mrs. Bo Caraway, Shannon, Tonya and Shane and Kieth Reynolds enjoyed dinner at the Little Cabin at Lake Leon on Sunday and Helped Shannon Caraway celebrate his ninth birthday.

Those visiting in the afternoon and evening were Mr. and Mrs. Dean Collins, Mr. and Mrs. Jim West, Jennifer and Jerry of NeCregor, Mr. and Mrs. Paul Norris and Lisa, Mr. and Mrs. Ronnie Paek and Cory of Carbon, Mr. and Mrs. Larry Morrow, Lance, Layne and Lenny, Mike Blakney of Lubbock, Mr. and Mrs. James Norris and Jana, Mr. and Mrs. Jimmy Little and James and Pee Wee, and Randy and Noble Laminack of Gorman.

There was lots of good music and singing at he musical at the

community center Friday night.

Mr. and Mrs. Claude Fuller visited in De Leon on Sunday afternoon with her sister-in-law, Mrs. Theron Flatt, who underwent surgery in the De Leon hospital. Get well wishes go out to Mrs. Flatt.

Mr. and Mrs. Bobby Littled, Arleen and La Dawn of Whitehouse are visiting with his mother, Mrs. J.L. Little, and other relatives.

Mr. and Mrs. J.L. Morrow visited part of last week in Levelland with Mr. and Mrs. Willis Morrow and Mr. and Mrs. Lynn Campbell. They attended a family reunion in Crosbyton on Sunday. Mr. and Mrs. Earl Creagor of Kermit spent Sunday night with the Morrrows. They are visiting in Stephenville this week and will attend the Lingleville reunion this weekend.

Mr. and Mrs. D.F. Eaves, Mrak and Deliah vacationed at Lake Hubbard last week.

Mr. and Mrs. D.F. Eaves attended the wedding of Miss Melva Collins in Abilene on Friday night.

Mrs. F.C. Eaves is in the Ranger hospital where some medical tests are being made. Get well wishes to her Erma.

A big hello to Billy Eppler who is in the Navy stationed in Orlando, Florida. He is the nephew of Mr. and Mrs. Albert Hendricks of Kokomo and has visited here many times since moving from Gorman. His parents are Mr. and Mrs. Paul Hoy of Marietta, Ga. and his grandparents are Mrs. W.A. O'Neal and Mr. and Mrs. Burton Dennis of Goeman. Nancy tells me he receives the home town paper and enjoys reading news of his friends and relatives in and around Gorman.

The annual ice cream supper at the Kokomo Community Center scheduled for Monday night, Aug. 15, was postponed and a new date will be set later.

**OIL NEWS AROUND EASTLAND CO.**

H. R. Stasney & Sons Co. of Albany will drill No. 1 Martha Olson as a proposed 4,500-foot wildcat in Eastland County. Location is one mile southwest of Romney on a 160-acre lease.

It spots 467 feet from the south and west lines of the southeast quarter of Section 57, Block 3, H&TC Survey.

Texcolada Oil Co. of Austin staked two wildcat locations two miles northeast of Desdemona.

Both are slated for 2,000 feet.

No. 1 U. V. Hogg will be drilled on a 342-acre lease.

It spots 2,750 feet from the south and 467 feet from the west lines of W. H. Sargent Survey, A-441.

The firm's No. 1 A. E. Henslee will be drilled on a 160-acre lease.

Drillsite is 1,320 feet from the south and 467 feet from the east lines of M. A. Hamilton Survey, A-584.

Staked as a wildcat four miles southwest of Carbon was Ball Producing Co. of Eastland No. 2 Stubblefield.

The planned 1,750-foot venture is located 330 feet from the south and west lines of the southeast quarter of Section 12, Block 3, H&TC Survey, A-980.

Ransom Horne Jr. of Dallas will drill No. 3-A Gerhardt in the Foster (Marble Falls) Field five miles north of Rising Star.

The planned 3,100-foot venture is located on a 166-acre lease.

Site is 467 feet from the north and east lines of Lavaca CSZ Survey 36 A-350.

Artes Oil Co., Inc. of Arlington will drill No. 2 Rodgers as a proposed 3,100 foot wildcat in Eastland County.

Location is four miles west of Gorman on a 700 acre lease.

It spots 485 feet from the south and 1,650 feet from the east lines of George Miller Servey, A-379.

Victory Co. Inc. of Midland spotted No. 2 Schaefer in the Foster (Marble Falls) Field 12 miles south of Cisco.

The planned 3,300 foot venture is located on a 160 acre lease.

Drillsite is 467 feet from the south and west lines of Section 56, block 3, H&TC Survey.

W.C. Neill Drilling Co. of Abilene spotted No. 1 R. J. Crawley in the regular field seven miles northwest of Gorman.

Slated for 1,000 feet, it spots 150 feet from the north and 660 feet from the west lines of J.A. Smith Survey, A-484.

The lease is composed of 80 acres.

## Tri-Region Health Systems Agency

Every person in Eastland County can have something to say about his or her health care. And every person can say it where it can make a difference. Citizens will be asked to participate in the Tri-Region Health Systems Agency's (HSA) planning and development process.

The Tri-Region HSA was created by Congress in 1974 under the National Health Planning and Resources Development Act. It is the consumer-oriented, non-profit corporation empowered by Congress to provide comprehensive health planning and development for this health service area which includes Eastland County.

Tri-Region HSA Board member M.A. Treadwell of Eastland said that HSAs were created because the federal government believes that citizens should have equal access to quality health care at a reasonable cost. "Congress didn't feel that previous federally-funded programs have achieved this priority," Treadwell said.

"Congress said that HSAs should help solve four major problems in the health care system," continued Treadwell. "Those are lack of uniformly effective methods of delivering health care, poor distribution of health care facilities and manpower, increasing costs of health care and most people's lack of knowledge of proper personal health care and how to use available health services effectively."

To achieve their purposes, the HSAs are required by law to include consumers of health care, as well as providers, in their planning and development programs. The Tri-Region HSA will soon announce meetings and workshops which will be held for this purpose.

Overall, the HSA is legally charged to improve the health of residents in the health service area. This means increasing the quality of health services while making sure they are accessible and acceptable to area residents and that the appropriate services continue as long as a patient is in need. The HSA must also plan activities to control increases in cost of providing health services, and to prevent unnecessary duplication of health services.

To help achieve these goals, the HSA must prepare a five-year Health Systems Plan (HSP) and amend and update it annually. In addition, the HSA must produce an Annual Implementation Plan (AIP) which outlines projects and activities which will allow the HSA to reach the objectives of the HSP.

The Tri-Region HSA will be the organization reviewing the need for any proposed changes in health facilities in the area. The HSA will recommend to the Texas Health Facilities Commission and the Texas Department of Health projects and priorities for modernization, construction, and conversion of medical facilities and projects to avoid or eliminate unnecessary duplication of services.

The question arises, how does the average citizen participate in the HSA activities? And why? First, consumers are a majority of the HSA Board members. Members serve two-year terms, and each year the HSA invites Board nominations from interested parties and organizations. The HSA also invites citizen comments on the Board composition and qualifications of its members in writing and during a public hearing. Second, all HSA Board and committee meetings are open to the public.

Third, all HSA records are open to the public. They are available in the HSA office and the HSP and AIP are distributed to all area libraries.

Fourth, consumers are invited to participate in the development and adoption of the HSP and AIP at several stages. A series of community workshops will be held throughout the area to gather citizen comments on what the area's health needs and priorities are. All Board and committee meetings held to develop these plans are open to the public. And drafts of the plans will be made available to the public for review and comment in writing and during public hearings before their adoption by the HSA Board. Once adopted, the HSP and AIP will be distributed to all area libraries so interested persons have access to them.

And fifth, consumers are invited to participate in the development and review of each

## Highway Work To Be Done

Work in Eastland County is included in the 1978 Special Rehabilitation and State Highway Safety and Betterment and Farm to Market Road Improvement Program approved by the State Highway and Public Transportation Commission. The quarter-billion-dollar program was made possible by the funds provided by the 65th Texas Legislature.

A large part of the program will be financed with General Revenue funds especially appropriated for this purpose with the remainder of the projects financed with state highway funds.

District Engineer Lawrence Schulz of Brownwood said the work includes widening, reconditioning, and resurfacing of S.H. 36 from the Callahan County line east to Rising Star; and widening of bridge and approaches at North Copperas Creek east of Rising Star.

F.M. 2214 from F.M. 571 southeast to Desdemona and F.M. 2461 from I.H. 20 southwest of Ranger, south to F.M. 570 at Staff will receive additional base and new surfacing.

Earmarked for seal coats are U.S. 183 from the south city limits of Cisco to Romney; I.H. 20 Frontage Roads from S.H. 6, northeast to near F.M. 570; and S.H. 206 from F.M. 2526, southwest to the Callahan county line.

Statewide, the program year's re-designation application which the HSA must submit to the U.S. Department of Health, Education and Welfare.

Why should a private citizen bother to participate? Because the Tri-Region HSA is the planning, implementation, and review organization for anything that affects an individual's health in this part of the State. It is the local group that can affect change. If the public says that Eastland County needs more doctors, more nurses, more hospitals or more nursing homes, this Agency has the responsibility to try to meet that need.

The HSA is committed by law to respond to public needs and requests, but the citizen has to make his views known. There will be the opportunity to do this in Eastland when the HSA announces its upcoming workshop.

## MD Labor Day Telethon To Be Held In Westgate Mall

The Westgate Mall Association and the Muscular Dystrophy Association of Abilene announced that the "Jerry Lewis Labor Day Telethon" would be staged at Westgate Mall this year.

The Telethon is on the Labor Day weekend, beginning at 8:00 p.m. on Sunday, September 4, and ending at 5:30 p.m.

Monday, September 5. Jerry Lewis hosts the show live from Las Vegas for 45 minutes each hour. The remaining 15 minutes will be live from Westgate Mall. M.D.A. volunteers will set up their stage in the main hallway of the mall and work the 2 1/2 hours of the show. KTXS-TV (12) will carry the show with Mr. Bob Izzard acting as Master

of Ceremonies. Mall promotion director, John McCoy, Albert Watts, M.D.A. Chapter President and Bob Izzard, Telethon MC made the announcement at a news conference at the Mall. Brad Watts, Abilene area Poster Child, was also present to thank the Westgate Mall Merchants' Association for the opportunity to originate the show from Westgate.

McCoy also noted that in conjunction with the Telethon, the Mall would be announcing some special events to help Jerry and his kids.

Albert Watts has agreed to serve as Abilene area chairman of the Telethon. Albert Watts is currently the President of the Abilene Chapter of MDA, and is serving for his second year as Telethon Chairman.

The Muscular Dystrophy Telethon, the first major special of the 1977-1978 TV season, will be carried coast-to-coast by some 200 stations, and will also be seen in Hawaii, Alaska, Puerto Rico and Guam.

Viewers in the Big Country contributed \$51,156 to last year's record-breaking national total of over \$21.7 million pledged.

## New Jail Project Is Seen For County

Eastland County faces the likelihood of having to replace its county jail at a cost of several hundred thousand dollars.

County Judge Scott Bailey said in a talk last Wednesday at a luncheon of the Cisco Lions Club.

Judge Bailey noted that a special jail standards commission is due to send representatives to a meeting of the Eastland County Commissioners' Court on August 17, to outline what is needed for the county jail to meet minimum standards.

The Eastland County jail was built in 1897 and remodeled in 1934, Judge Bailey said. He doubted if the jail could be remodeled and brought up to meet standards. He said that Palo Pinto County recently built a new jail that cost in excess of half a million dollars.

Judge Bailey added that none of the jails in the 19 county Council of Government, of which Eastland is part, have jails that meet standard requirements. He added that Eastland County officials were sued in court recently by a prisoner who alleged that he had been subjected to imprisonment under sub-standard conditions.

provides for the improvement of some 6,900 miles of highways at an estimated construction cost of approximately \$222,560,000, with an additional \$4.3 million set aside for later assignment.

Approximately 68 per cent of the overall program will be on State and U.S. Highways, another 30 per cent on Farm to Market Roads, and the remaining 2 per cent reserved for future assignment.

The program is the first phase of a long-range program to restore the highway system to the standards Texans have come to expect, Schulz said. It is based on recommendations submitted by several district engineers and selected following a statewide assessment of highway needs.

## LIVE LONGER!

## Skim Milk for Extra Protein

By LELORD KORDEL  
Number Six of a Series

Milk, in a new form, has joined the ranks of concentrated protective foods.

I refer to dry skim milk—an inexpensive, readily digested, high-protein food.

A hard to believe fact is that the highly-concentrated protein, calcium and riboflavin in dry skim milk can help prolong your "prime of life," and aid you in retaining youthfulness.

The addition of even so little as a tablespoonful of powdered skim milk to daily servings of food would be a worthwhile contribution to your Live Longing program.

Less than one-half cup of powdered skim milk contains all the nutrients found in a quart of fresh skim milk.

There is a popularly held belief that "richer milk is better milk." Nothing could be farther

from the truth. The protein, minerals and riboflavin are all contained in the skim milk, not in the cream.

An analysis of skim milk powder shows it to be approximately 8 percent minerals. This is a remarkably high concentration—since most foods contain less than 1 percent of these important cell nutrients.

If you want to gain weight, dry skim milk, used liberally, will provide extra amounts of the protein, minerals and vitamins. It was the lack of these, which may have caused your underweight in the first place.

## WEIGHT CONTROL

If overweight is your problem, and yours should be a reducing diet, dry skim milk is equally good. Liberal amounts can be used without making your calorie count jump up like the thermometer on a hot day.

Moreover, the highly concentrated protein in skim milk is a valuable aid to a high-protein reducing diet.

Keep in mind; the more protein you eat without adding calories, the more quickly your sluggish thyroid gland can be prodded into taking over. This is important in bringing body weight back to normal.

Right now powdered skim milk is the biggest food bargain of all. You can slice your milk bill considerably with powdered skim milk. As well as supplementing your diet with the valuable proteins and vitamins and minerals found in this wonderful food.

If you wish to economize and simplify your marketing, you may omit buying fresh milk altogether. Just stock your cupboard with the inexpensive, long-keeping skim milk powder.

It can be made into liquid milk with a few flips of the eggbeater or wire whisk—by merely adding it to cold water.

And best of all—this reconstructed liquid milk—that you yourself make from skim milk powder—can be diluted or as "rich" as you wish.

So concentrated is this fine food that it contains eleven times more high-grade protein, minerals, B-vitamins and lactose than fresh whole milk.

This means that eleven pounds of fresh liquid milk are used to prepare one pound of dry skim milk.

Powdered skim milk is 36.5 percent protein, as compared to 19.7 percent protein found in an equal weight of lean beef.

## LOW COST PROTEIN

Where else could you get so much concentrated pure protein at so low a cost?

If you want an extra-juicy, extra-plump, and extra-rich broiled hamburger soon, just add a couple of tablespoons of skim milk powder to the mixture.

Dry skim milk is also a particularly rich source of the youth-promoting B-complex vitamins—and in natural balance.

Skim milk is rich in lactose, a "youth-promoter" which provides a quick, readily usable source of energy. Especially for older bodies that need every iota of energy they can muster to counteract a slowing down of nervous system and vital organs.

Like other high-protein foods, milk contains factors of great importance to the human organs of reproduction.

We know that protein exerts an important influence on the continued youthfulness of the sex glands in men and women alike.

A British scientist advocated not long ago that all married couples, whatever their ages, should look to their diets, if they wished to achieve a congenial marital partnership. The quarrelsome mate is quite likely to be one whose nerves are starved for protein.

## MARITAL HARMONY

This thought-provoking fact is brought before you at this point because it has long been my belief the the lopsided, artificial, woefully devalitized diets of a great majority of families create the real causes underlying so much unhappy married life.

The love and harmony of marriage are severely strained by "on-edge" nerves—often caused by poor nutrition.

Certainly I don't want to give the impression that powdered skim milk is going to cure all the ills of your marriage.

But, I do want you to consider the logic of safeguarding personal happiness by making certain that your nervous system is well fortified by protective foods. This can help you retain youthfulness a lot longer.

Is there a real need for dried skim milk? With more than half of the people losing their youth before they are forty, I should say there is.

## IF YOU SMELL NATURAL GAS, FOLLOW THESE 3 STEPS TO SAFETY.

The natural gas industry has an excellent safety record. The fact that you can smell natural gas is because we add a harmless chemical to it as an extra safety feature. Otherwise, it would be completely odorless. If you detect faint whiffs of what you think may be gas, investigate. It may be something that is as easily and safely corrected as a pilot light that has gone out, or a burner valve that's partially open.

If your equipment seems to be working properly and the odor intensifies and seems to be everywhere, please follow these precautions:

1. Do not switch anything electrical on or off. Do not use the telephone in your own home. Do not strike a match. Do not do anything that might cause a spark.
2. Have everyone leave the house immediately, leaving doors open to help ventilate.
3. Go to a nearby telephone and call Lone Star Gas Company. Wait until we have found the source of the odor to determine whether it's safe for you to return to the house.

You may never have a natural gas leak, but we want you to be informed in case one does occur. Please make sure your family is aware of these precautionary steps. And we suggest that you keep this message for future reference.

## SI PERCIBE OLOR A GAS NATURAL OBEDEZCA ESTAS 3 NORMAS DE SEGURIDAD.

La industria del gas natural tiene un récord de seguridad excelente. El hecho de que Usted pueda percibir el olor a gas natural se debe a que se le ha añadido un producto químico extra, que no es nocivo. De lo contrario, el gas no olería. Si detecta ciertas ráfagas de olor que cree son producidas por escape de gas, investigue. Es posible que se pueda corregir fácilmente y sin peligro, por tratarse de que una llama-piloto se ha apagado, o que una válvula de algún aparato está parcialmente abierta.

Cuando suceda que a pesar de que su equipo aparentemente funciona bien, pero el olor a gas se intensifica y se siente en todas partes, entonces siga estas precauciones:

1. No conecte ni desconecte ningún aparato eléctrico. No use el teléfono de su casa. No prenda fósforos. No haga nada que pueda producir chispas.
2. Haga que todos salgan de la casa inmediatamente, dejando las puertas abiertas para que se ventile.
3. Vaya a un teléfono cercano y llame informando a la Compañía Lone Star Gas Co., y espere hasta que los encargados de la Compañía investiguen las causas y determinen si se puede o no retornar a casa.

Es muy posible que Usted nunca tenga que enfrentarse con escapes de gas, pero queremos informarle por si acaso le sucede alguna vez. Asegúrese que toda su familia conozca estas normas de seguridad. Le aconsejamos también que guarde este aviso como referencia para el futuro. Gracias.

Lone Star Gas Company  
Working energetically for your area's future.

# Ingenuity In Home Decor

**SHEDDING LIGHT ON WINDOWS**  
The window is a place where you can save energy and also open up new vistas in home decor. There are three basic styles to keep in mind when setting up windows for good lighting and privacy, according to home furnishings experts at Montgomery Ward.

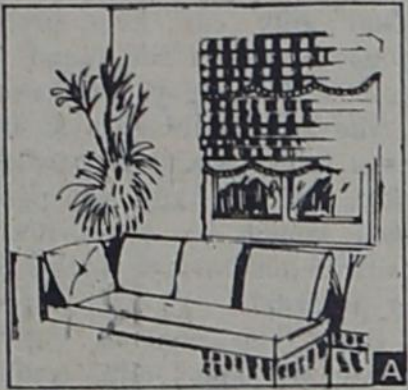

The casual look is quite popular today. One good choice is open weave draperies, such as simple draw draperies, usually of a nubby textured fabric. These draperies, in combination with window shades, provide the ultimate in flexibility, privacy, energy conservation, fashion and color. They can be purchased either ready-made or made to special lengths and widths.

Other casual looks include matchstick or burnished bamboo roll up shades fitted inside the window frame. The very popular woven wood Roman shades also give texture and flexibility to your window treatment.

Then there's the mini-

blind, a one-inch version of venetian blinds, which comes in a wide choice of colors. The blinds are quite versatile because they offer total control of the amount of light allowed through the window and they are easy to install.

A second popular look in window treatments is the innovative style. Balloon shades, quilted draperies, vertical blinds, Roman

**SHADE OF DIFFERENCE**  
Decorated in casual, innovative or traditional style, windows let in light and provide privacy. shades, and sliding flat drap-

## MANAGING YOUR MONEY

Using Money And Credit Wisely And Well

You can feel fairly secure about your family's financial shape if your liquid assets, (savings, checking account, bonds) available for emergencies total more than \$300.

Before you buy—or sell—a car, send for the Blue Book and the Red Book, available from National Market Reports, 900 S. Wabash Avenue, Chicago, Ill. 60605 for trade lists of the prices for new and used cars and the market value for various models of used cars around the country.

ery panels offer both a luxurious look and lots of control of outside light sources. Vertical blinds are quite popular today. They are 3-inch wide blinds that extend from the top to the bottom of the window, instead of stretching across the window. They can be pivoted to allow as much light (or to create as much privacy) as you desire.

A third style, the traditional approach, includes more conservative draperies and decorative valances. Sheer curtains under the draperies increase flexibility and help control heat gain or loss. For increased energy control, lined or foam backed draperies can be used.

By keeping these ideas in mind, you may be shedding new light on energy conservation and imaginative decorating.

## KEEPING UP WITH FRIENDS

D.R. Clark spent the weekend in Fort Worth with his son, Mr. and Mrs. Tommy Clark, Jeffery and Melissa.

D.R. Clark spent the weekend in Fort Worth with his son, Mr. and Mrs. Newton Bennett. Also visiting the Bennetts is his granddaughter

Don Moorman returned Monday from a weeks visit with her nephew, Mr. and Mrs. O.D. Moorman and family.

Nat Watts from Desoto, Texas visited recently with his daughter, Jettie Daniels and her husband Burnice.

## FACTS & FIGURES

The largest number of electoral votes received by any U.S. President went to Franklin D. Roosevelt in 1936 when he got 523.

The longest term ever served by a U.S. Supreme Court Justice was held by John Marshall. He was appointed by President John Adams in February, 1801

The highest point in the continental U.S., the 14,494-foot peak of Mount Whitney in California, can be seen from the country's lowest point: 282 feet below sea level in Death Valley, California. The two extremes are within 100 miles of each other.

The largest dish commonly eaten is a main dish prepared for nomadic Arab feasts. It consists of eggs stuffed into fish, which are stuffed into chickens, which are stuffed into roasted sheep, and the sheep finally stuffed into a whole camel.

The fastest train in the world is the Japanese National Railroad's Kikari run between Kyoto and Nagoya. The Kikari makes the 83-mile trip in only 47 minutes, for an average speed of 106.5 miles per hour.

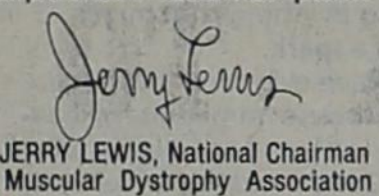

## YOUR HELP IS THEIR HOPE

I'm sorry to say there are no cures yet for muscular dystrophy or related neuromuscular disorders, the tragic diseases that afflict these beautiful children and thousands like them. But there is realistic hope that science can and will find the answers. That's the reason I'm repeating my Television Labor Day Weekend. It'll be a super, star-studded TV spectacular—so be sure to tune in!

The money it raises will help maintain MDA's comprehensive nationwide patient service and international research programs. The future of hundreds of thousands of children and adults depends on that research—and your support.

So, don't miss "The Hit Show of the Year" I promise you a Labor Day weekend of love, excitement and great entertainment.

You may obtain a copy of the Association's current Annual Report by writing to MDA at the address listed on reverse side.

JERRY LEWIS, National Chairman Muscular Dystrophy Association

## CB Radio Helps 'Red Bullet' Keep Appointments

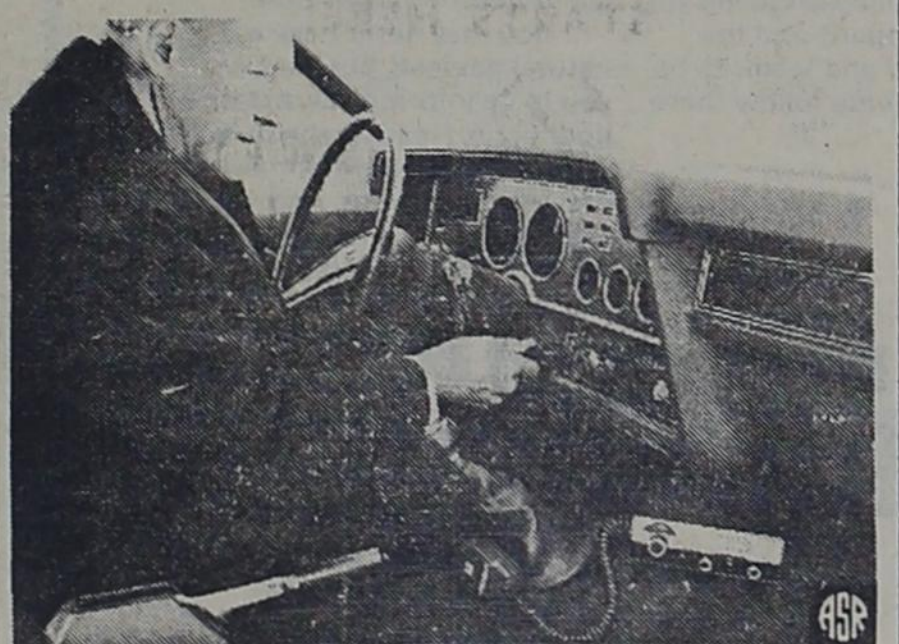

"In a service operation like this, being on time is all important," according to Charles A. James, Jr., a Chicago-area insurance representative.

James, who goes by the "handle" of "Red Bullet", lives in a suburb north of the city of Chicago, and has clients in Illinois and Indiana. There are days when he rolls up a lot of mileage on his red Mustang II getting to his appointments. That's when CB radio pays off.

This morning, James' schedule calls for him to arrive in Hammond, Indiana, for an 8:30 a.m. meeting with Ralph Prendergast, Business Manager of the Northwest Indiana Visiting Nurse Association. While he's at this organization's headquarters, James will discuss the status of the Association's group insurance program and enroll one of their employees in the tax sheltered annuity program.

To get to Hammond on time, James must leave home by 7:15 a.m. Before he does that, he takes a few minutes to set up his CB radio equipment. His E.F. Johnson radio gets placed next to him in the car. He then plugs the antenna into the radio and inserts the radio's power supply into the car's cigarette lighter. Now, communicating with truckers and other drivers on the highway to obtain information on road conditions is a simple matter.

Enroute to Hammond, he encounters Chicago's heavy rush hour traffic and soon finds himself in a slow-moving, bumper-to-bumper scene. Not wanting to be delayed too long, James picks up the microphone of his CB unit and inquires about the traffic situation ahead. A fellow CB'er comes back with the

James inserts his CB radio's power supply into the car's cigarette lighter. His antenna is mounted on the roof.

good news: the bottleneck ends about ten blocks from "Red Bullet's" present position. With his problem solved, James presses on; at precisely 8:30 a.m., he arrives at the Northwest Indiana Visiting Nurse Association's office.

By 11:45 a.m., James is on his way to his second meeting with Mrs. Sandra Kowal of Lynwood, Illinois. Mrs. Kowal operates a beauty shop, has just moved in to new quarters, and wants to discuss the details of obtaining additional coverage for her shop. With time growing short, the "Red Bullet" again turns to his Johnson CB radio for help. This time, a friendly Lynwood-based truck owner with a CB unit provides James with easy-to-follow directions.

Following a quick lunch, James heads for meeting number three of the day, a 2:45 p.m. session with Gerald M. Schneider, General Agent for a major multiline insurance company.

An accident involving a

truck and two cars has taken place and traffic is at a standstill on the expressway. Undaunted, he once again uses his CB radio to contact a woman CB'er and confirm the fact that the wrecked vehicles are in the process of being removed from the highway three miles ahead.

Not wishing to be late for his appointment, James decides to take an alternate route. Half an hour later, he is discussing another group program for a downtown Illinois-based corporation with Schneider.

While using CB radio to be on time for business meetings is important to James, there are other aspects to his CB unit that he takes a minute or two to comment on. "I like my Johnson radio because it's light weight and portable. I can even slip the radio into my brief case when I leave the car. Yes, because I'm in the insurance business, I know all about them being ripped-off, so I take care of mine."

KIRBY SEWELL

Kirby Sewell, senior electrical engineer for TESCO, checks construction progress at the Comanche Peak nuclear plant site.

**"Today most of your electricity is made with cheap natural gas. But this gas will be gone soon. How will we supply the electricity you'll need then?"**

"About 70 percent of the electricity you use today is generated in plants that run on natural gas. Most of it is gas we got at a low price many years ago. But those long-term contracts will expire soon. This is why our construction budget is nearly a quarter-billion dollars this year—so we can continue building plants that can use other fuels, specifically lignite coal and nuclear. The first unit of the Comanche Peak nuclear plant is scheduled to go into service in 1981 and the second unit in 1983. And we have five lignite coal-fired generating units in operation now, with five more under construction. Others are being planned. By 1983, over 80 percent of your electricity will come from coal and nuclear fueled plants. This is how we intend to continue supplying you with the electricity you'll need."

**Electricity. You count on it today. We're working to keep it that way.**

**Texas Electric Service Company**

D. R. ARMSTRONG, Manager, Phone 893-2266

# SENIOR CITIZENS

Well, Another nice warm week has rolled by. Though those wet tear drops have passed us. I will say we would sure welcome a good rain here and all around for everyone that needs it.

We played 84 one night last week. Sure wonderful that we can get together. Though we missed Mae. It seems that her ticker is not ticking exactly right. We hope you are doing better soon.

Big Foot is still pawing the ground. He has mama under his thumb nail now. He is putting the pressure on her. Good Luck. Kent is so much better now. It just could be a case of puppy love is the reason. Lorean was on good behavior at the game. My boss keeps me busy putting up pear preserves. I wish I could give the rest away. That work is so rough on my poor fingers.

Our gang is as honor as usual. Even Coffee Pot cheats now. Slim zpickens has a time with his partner. Poor Bud, it seems all pick on him and grunt alot when they think he makes a mistake. Bud says he can make his dog play as good as any of these. I believe its a fact. You know I feel so sorry for Mr. Monroe, you see he seems to be hen pecked like I am. You see he is told when and where he can go, just as I am told the same thing. So get ready to say "that is the way I want it." We have large gangs of evening. Though the fish come first each morning.

High water has kept Uncle Sam from the gang at time L.D. played a few games and quit. Come again soon. We sent Mel on his career job. May you have the best of luck in everything. I believe last week was the week of "June Brides." Some were so upset from the event. My two sons married, one just barely 18, the other 19. They were married several days before we know it. I said that was their business. They both have better jobs than I ever had, one has been on his job for 29 years.

the other almost 32 years. They married without a job. When I married I had a good job for them. So our wish is the best for these couples and their in-laws in everything. Give your children your best wishes and advice for a happy life for all concerned.

I am sure that the president, every member of Congress and our own governor stood and cheered as they watched the houses and property burn last Monday and Tuesday in Ohio as the Firemen stood by on strike and vowed not let the firemen from other towns fight the fires. I can almost hear those members saying "This is what I stand for, Liberty and equal rights for all." It is one of the most damnable things to scar our country. Why cannot Congress do something here and now? Democracy, Hah!

Then it comes out what was known by all for so many years how L.B.J. won the Senatorial Election. Talk about Nixon. The above is enough to put wings on him.

I remember that when I was issued my Army clothes in 1917 they had fatigue (blue denim) trousers and jackets just one size that fit everyone, size 48. They would go on so easy. I remember we had an Italian that weighed 110 when he was wet. One day he took his trousers and showed us that he could crawl thru one leg of his trousers. They were fairly loose on him.

My hat was 7 1/2. I wear 7 1/2. The Co. Sargent told me when I arrived at Ft. Sill to go to the commissary and change it. They refused. The supply Sgt. gave me a written order for an exchange. They said we cannot give you one until you beat this one up. So I went back to the Company and got 2 rocks. Then I beat holes in the top of that hat and beat the rim until it was a holy mess. Then I went to the commissary and the Sgt. looked at it and said that is the only way, The Army way. Those hats had two straps one over back of head and one in front. Look up and smile. Remember that a smile will help you win. Remember that the Sun is shining very bright just beyond those darkest storm clouds. So be ready to greet it with a smile. I am sure it will help you and all you come in contact with.

## THE GORDON SPOT

We are getting lots of questions concerning the new pesticide law that goes into effect October 1. Anyone who will be applying a pesticide classified as "restricted" on their property will need a private applicator certification. If you have not applied for a certification you may come by the County Extension Office and request the home study material. You may then answer the review question and send them to the Texas Department of Agriculture along with your request for private applicator certification.

We have been told that home gardeners will not need to be certified since they will not be using restricted pesticides in the home garden and lawn. The certification is for agricultural producers.

Applicators who spray for others for hire will need a commercial pesticide certification. Some commercial applicators in Eastland County attended a workshop and took examination in June in Stephenville.

Commercial applicators interested in taking training programs for certification requirements will have another opportunity to participate in a workshop scheduled for the Texas A&M University Research and Extension Center in Stephenville. The week long workshop will be held the week of September 12-16, 1977. The first session of the workshop will include subject matter applicable to all categories. Sessions that follow will deal with specific subject matter.

The following training categories for certification are planned: general pesticide use (required for all categories), field crop pest control, fruit and vegetable pest control, fumigation, forest pest control, ornamental and turf (Plant pests, greenhouse, weed control) seed treatment, rightfway pest control, livestock (tick, louse, mite and fly control) aquatic animal control, vector control, and rodent control. Examinations for certification will be given by the Texas Department of Agriculture, Texas Animal Health Commission, Texas water Quality

REPORTER P.S. I am not an AnnLanders trying to give advice to the Love Lorn. .... Just common sense.

## THROW A GREAT FIESTA FOR A DOLLAR A DINER!

Here's a new way to please the palate and the pocketbook. Throw a great South American feast for a dozen friends for less than a dollar a diner.

Persons planning to attend the workshop may preregister by writing to Dr. Clifford E. Hoelscher, Box 1177, Stephenville, Texas 76401, indicating their intent to participate in the workshop. Details of the workshop will be provided by return mail along with study materials. Training scheduled can also be obtained from our office. Training is free and open to the public.

You can begin a productive fall garden now that will supply you an even better looking crop than your spring garden.

But if you want that fall garden to produce, don't try to mature the plants that are still left in your spring gardens. Since the soil is warmer, germination occurs quicker and the seedling has a better chance to reach its maximum productive potential.

Since most vegetables are of a subtropical origin, the warm summer months give seedlings a better beginning. A fall garden also allows your mature plants to thrive in the cooler fall months instead of suffering from hot weather as spring vegetables do.

Many vegetables do exceptionally well in fall garden, including lettuce, broccoli, cabbage, brussels sprouts, greens, cauliflower and carrots.

- MATAMBRE**  
(Makes 12 servings)
- 2 (1 1/2 pounds each) flank steaks
  - 1 1/4 cups (10 1/2-ounce can) consommé
  - 2/3 cup (6-ounce can) Contadina Tomato Paste
  - 1/4 cup wine vinegar
  - 1 crushed large garlic clove
  - 2 teaspoons instant minced onion
  - 1 teaspoon salt
  - 1/2 teaspoon thyme leaves
  - 1 teaspoon chili powder
  - 4 slices bacon
  - 1/2 cup chopped onion
  - 4 cups day-old bread cubes
  - 2 cups (10-ounce package) cooked, drained frozen peas and carrots
  - 1/2 teaspoon salt
  - 1/4 pound washed fresh spinach leaves
  - 2 tablespoons flour
  - 1/4 cup water

Pound steaks with rim of saucer to tenderize. Combine consommé, tomato paste, wine vinegar, garlic, instant minced onion, 1 teaspoon salt, thyme and chili powder. Pour about 3/4 cup tomato mixture into 13 x 9 x 2-inch baking dish. Place on steak in dish. Top with 3/4 cup tomato mixture and second steak. Pour on remaining tomato mixture. Cover and refrigerate at least 8 hours to marinate meat. Chop bacon; saute with onion in medium saucepan. Add bread cubes, peas and carrots and 1/2 teaspoon salt. Mix thoroughly. Remove steaks from marinade. Place dish containing marinade to one side for later use. Place spinach leaves over entire surface of each steak. Place bread mixture down center of each steak lengthwise. Fold each steak over and secure with skewers. Tie with string. Place seam side down in baking dish containing marinade. Cover with foil. Bake in moderate oven (350°F) 1 1/2 hours. Remove strings and skewers from steak rolls. Place steak rolls on serving platter; keep warm. Pour marinade liquid in dish into medium saucepan. Combine flour and water to make paste. Stir into liquid. Cook over medium heat, stirring constantly, until mixture comes to a boil and thickens. Slice steaks into 12 servings. Serve with sauce. Makes twelve 4-ounce servings Matambre, and 3 cups sauce.

## SCHOOL HILL NEWS BY MRS. BILL RIDELL

Darrell and Brenda Hurst and son of Lingleville, Roger and Connie Armstrong and Children of Highland were supper guests Wednesday night of J.C. and Patsy Moon and family.  
Mrs. Jay Moon has been in the Stephenville Hospital for several days. She is suppose to have surgery next week. Hope you're soon feeling much better, Flora.  
Tommy Brown had the misfortune of getting a piece of steel in his eye on Monday. Hope you're soon good as new, Tommy.  
We rushed over to the Moons the other day. William ran up to J.C. and asked if knew of a way to stop 'hiccup's'. Without any warning J.C. slapped the tar out of William. Shocked and angry, William wanted to know what the heck was wrong with him. J.C. said, "Well, you don't have the 'hiccup's' now, do you?" William said, "No, but Oma Lee still does."  
Lexie Hogg visited on Monday morning with her parents, Lee and Jean Jernigan of Desdemona, while Ricky, Leslie and Tena were working with Gene Grimshaw in the peanuts. They picked her up on the way home.  
I've been having trouble with my blood pressure. When William took me to the Dr., he shoved a thermometer into my mouth and said, "Keep quiet for five minutes." I did, and William said "Doc, What'll you take for that thing?"  
Then when he checked Will

iam, he said, "The best thing for you to do is give up drinking, women, and smoking, get up early in the morning and go to bed early at night." William said "Doc, I don't deserve the best, What's the second best?"  
You might want to plan your party around a theme. One that party people say is fun is a Swampwater Party. Decorate with crepe paper creepers and vines, put on some country western music and serve Swampwater drinks made with 5 ounces of unsweetened pineapple juice, 1 1/2-ounces of Chartreuse French Liqueur and 1/4 lime. It's sipped from mason jars. Dress casually.  
For more details on getting into the swim with a Swampwater Party write Swampwater, 30 Cooper Square, N.Y., N.Y. 10003. "You are not born for fame if you do not know the value of time." Vauvenargues

## Hints For The Hostess TIPS TO HELP YOU

The difference between a party that people flip over and one that's a flop could be something as simple as the proper advance planning.
