It seems about all you can see now is peanut trailers coming into town loaded with goobers. Things are really getting into full swing now, as the dampness has dried out a good deal and a lot of the peanut growers are taking advantage of the ideal weather for harvesting their peanuts. Quite a few are holding off in hopes of the recent moisture helping to more fully mature their peanuts.

Most reports show that the majority of the growers are doing fairly good with their crop, with some doing real good and some not doing any good at all because of the lack of moisture at the critical stage. We hope that all of the growers have real good luck with their crops and the economy of the area can get that needed "Shot in the Arm".

Joetta told me this week that I had better not forget this time to express her sincere thanks to everyone for the calls, flowers, visits and concern while she was hospitalized recently. Everyone were so wonderful to her and for this we are very thankful. The wife and I also wish to thank all of you for the kindness and love you expressed to Joetta. Thanks again.

The Panthers really got things rolling last week when they hosted the Albany Lions and came away with a fine victory over a much heavier team than the Panthers. They were outweighed several pounds per man but that didn't stop the Big Red from their goal - to defeat the Lions of Class A. And that's exactly what they did, soundly defeat the Lions.

Have you noticed the new home under construction on the street behind the M. H. Fairbetters. Mrs. Frances Denton, mother of Mrs. Bill Gressett in building her new home in Gorman and folks are real glad. We are all glad to have her in our community and wish her the best in her new home. Completion is expected to take several weeks.

Well, Estelle has finally gotten home and boy were we relieved. Things had really gone down the drain while she was out of the office. I am sure all of you noticed. However, she is back now so things can return to normal again. We may be a little late with the billing this month, but will get it done as soon as we can. Thanks for your patience while Estelle was gone. She had a real great time and sure deserved a couple of weeks off from this mad house.

And remember to smile - because God Loves You!

The Panthers took on a much bigger team weight-wise on Friday night when they hosted the Class A Albany Lions, but outgunned them in all departments and came away with a one-sided victory of 35-7. A long desperation pass late in the game was caught by both the

defender and the receiver and it gave the Lions a first down at the 2 yard line. Without this completion I don't believe the Lions would have gotten on the scoreboard. Several of the fans thought that the interception should have been called, but when the defender and the receiver both catch the ball simultaneously the offensive man is given possession. Anyway, it was a real fine victory for the Big Red.

The Panthers wasted little time in showing their offensive power and blocking ability over the much heavier Albany defensive line, as they started a drive on the first possession and moved 59 yards in 11 plays for the touchdown, and were hit with a 15 yard penalty also during the drive. The score came with 6:45 left on the clock in the first period when Larry Keith blasted over from the 1 yard line. Jimmy Johnson ran for the two point conversion and the Panthers were off and running.

Gorman added another tally with only 1:53 left in the first quarter on a beautiful pass play from Billy Simpson to Jamie Snider for 17 yards. The Panthers had got the ball on a fumble recovery at the Lion 29 yard line and following a fine 11 yard run by Gibbs and a 1 yard run by Keith, Jamie caught the td pass. The run for extra points failed and the score was 14-0.

The Panthers had a couple of more scoring opportunities before the first half ended, but were hurt by untimely penalties, and the half ended with Gorman leading 14-0.

The Panthers came right back after the halftime intermission and scored on their first possession, going a distance of 82 yards in 11 plays with Blaine Gibbs getting the final yard on a run with 3:48 left in the period. The drive featured a 23 yard run by Gibbs and a 17 yard run by Keith. Charles White kicked the point after and the Panthers extended their lead to 21-0.

Gorman held the Lions on the next possession and took the ball on the Gorman 46 and scored in only six plays with Gibbs making the td on a 1 yard run. The drive featured a great 33 yard pass play to Tim Swanner from Simpson to set the Panthers up deep in Lion country. Following a Lion penalty the Panthers got the score on a 1 yard run with 11:21 left in the 4th period. The kick for point was blocked and the Panthers led 27-0.

Then came the Lions touch down as they moved 80 yards in 15 plays with Gary Gossett getting the final yard on a run on 4th down. The touchdown had been set up by the long pass play. The run for two points failed and Gorman led 27-6.

done, however as they came back and drove the ball 88 yards in 11 plays with Jimmy Johnson getting the final 4 yards on a fine run with 12 seconds left in the game. had Larry Keith added the two pointer on a run after the kick for point was blocked and he grabbed the ball and on pure determination ran it in for the two points. This made the final score 35 to 6.

All of the Panthers runners had a good game with Gibbs again going over the 100 yard mark, getting a whopping 197 yards on 31 carries; Johnson had 89 on 14 trips; Keith got 67 yards on 13 tries; Simpson had 20 on 6 keepers; and Swanner had 2 on 2 keeps. The Front wall on the Gorman Panthers deserved a standing ovation for their performance against the huge Albany front wall, and that's exactly what they got as the fans let the Panthers know on several occasions that they loved their performance as they stood and cheered the fighting Panthers. Enough cannot be said about the fine job that the Panther blockers and tacklers are doing this season and the games are always won or lost by the performance of the men up front. Of course, the runners do a lot of great things when they run with the ball, but if they don't get the clearing blocks up front, the play doesn't go. I like the fine attitude of the Panthers this year in blocking for one another, and that's what it takes to win ball games. Again hats off to the Big Red on a real fine performance.

The Panthers travel to Perrin this Friday night to take on the tough Perrin team. They have been beaten a couple of times but have a good ball club and we are looking for the Panthers to keep up the good work and come home with another victory. Right Panthers? Go Get 'em Big Red!

Fats and Muriel are still on the visting list. Rosa and Aunt Betty are moving to Ranger this week. We wish then well. We know that it is not because they like those alcoholic beverages that are for sale there.

Our office gang is about the same as usual. Just a bunch of Crooks and Cheats as usual. Tho I am so thankful for so many of them for bringing me home from work. That all have a big heart there and I certainly do appreciate that very much.

When I am walking. I generally always look down at every step that I make. As I still suffer from that fall I received when I slipped and fell out of a pecan tree in November 1958. It hurt my knees, hips and back very bad. The least depression that I happen to hit almost tears my back up. I never can recognize any one I meet due to my poor eye sight or the vision that I have in one eye only.

The Reaper called Al Rodgers to his final resting place last week. Mrs. Yawefy, formerly Mrs. Jim Grice was laid to rest last week. They lost a son, Utah Grice in the Navy. The ship was heavily damaged in a Sea Battle with the Japs. His ship was to report at a Base for repair. It vanished from the face of the waters. Mrs. and Mrs. Grice went to a fortune teller at Mingus (I believe). She would tell them he was alive. They went many times paying her money. She was just playing on the heart strings. I wonder where such as her will spend "Eternity"? We cannot say Carlos Espinoza was laid to rest here last week. I have played many

games of dominoes with him. I have heard him curse the Mexicans when they were marching and demonstrating about the way they were treated here in the U.S. He said that he was born in Mexico and did not want any part of it. He said he was for the U.S. First, last and always. If the mexicans did not like the U.S. they should go home and starve and go without an education and very few liberties there. For he knew by experience.

We all called him "Mingo". He was very superstitious. When we were playing in the Masonic Hall, there was a couch we used to sit on. One day John Askeu had a heart attack and he laid on the couch for a while. He did that day. Mingo would never sit on that couch again. He said it was for people to die one. Our sympathy goes out to the bereaved. That is a debt that all must pay sooner or later. So remember we do not know when our call will come.

I notice where the president has finally noticed that these illegal aliens are costing the H.E.W. an awful lot of money. We, the tax payers have know that for a long time. You can go to the grocery store and see them buying things that a lot of us cannot buy. You will see them paying for them with "Food Stamps", which we the tax payers must pay for the free ride.

What a fine thing the Panthers did here Friday night. We are with you all the way. The team, coaches and cheerleaders. Of course the backing of the fans helps

PUBLIC NOTICE
SUMMARY OF PROPOSED
CONSTITUTIONAL AMENDMENTS
GENERAL ELECTION NOV. 7, 1978

"The Tax Relief Amendment" (H.J.R. 1)

H.J.R. 1 proposes an amendment to the Texas Constitution allowing the legislature to exempt intangible personal property, requiring the legislature to exempt certain household goods and personal effects, and allowing the legislature to exempt all or part of the personal property homestead from state and local property taxation.

The amendment requires the legislature to provide for the taxation of farm and ranch land on the basis of its productive capacity instead of its market value and allows the legislature to provide for the taxation of timber land on its productive capacity.

The amendment permits local governments to extend the present exemption of not less than \$3,000 of the residence homestead of persons 65 and older to include certain disabled persons.

The amendment grants an exemption from public school property taxes of \$5,000 of the market value of the residence homestead. It authorizes the legislature to grant an additional exemption from public school property taxes of an amount not to exceed \$10,000 of the market value of the residence homesteads of persons 65 years of age or older and certain disabled persons. If a person 65 years of age or older qualifies for this exemption, the total amount of public school taxes imposed on that person's homestead may not be increased.

The amendment prevents local governments from increasing property taxes unless the governing body provides public notice and conducts a public hearing. The amendment requires the legislature to provide by law for each property owner to receive notice of the revaluation of his property and the amount taxes will be increased.

The amendment limits appropriations from state tax revenue to an amount not to exceed Texas' estimated economic growth rate, with the legislature authorized to make exceptions for emergencies.

The amendment prohibits the statewide appraisal of real property for property tax purposes. Enforcement of uniform standards and procedures for appraisal of property for property tax purposes is required to originate in the taxing

authority where the property tax is imposed. The wording of the proposed amendment as it will appear on the ballot is as follows:

"The constitutional amendment deleting the archaic reference to the 'Deaf and Dumb Asylum,' allowing certain products and services of handicapped individuals to be used by agencies and departments of state government, requiring the procurement of other products and services required in the operation of state government to be made under bids awarded to the lowest responsible bidder, making all such procurement processes subject to laws enacted by the legislature, and eliminating the requirement that the Governor, the Secretary of State, and the Comptroller of Public Accounts of Texas be personally involved with such transactions."

NUMBER TWO (S.J.R. 55)

S.J.R. 55 proposes an amendment to the Texas Constitution to permit local governments to issue bonds for the reconstruction or acquisition of facilities (land, equipment and improvements) designed to develop employment opportunities. These

The new program has a two-tiered price support structure. Previously, all peanuts were supported from 75 to 90 percent of parity—depending upon supply. The higher \$420 per ton price support level is on "quota" peanuts and the lower \$250 per ton price support level is on "additional" peanuts not covered by the quota. Farmers who market less than their quota in 1978 may market the balance in 1979 in addition to their 1979 quota if enough acreage is planted to produce the quota, and if total undermarketings for all U.S. farms do not exceed 10 percent of the national poundage quota. The national poundage quota for 1978 is 1,680,000 short tons, and the allotment is 1,614,111 acres. The ASCS official said producers may obtain warehouse stored loans on their

peanuts through peanut grower associations. "There will be no deductions for inspection, handling, or storage as under the previous program." Farmers may also take out a farm stored loan on their quota peanuts. He pointed out that any peanuts left on the farm for seed or other use are considered marketed as quota peanuts. The 1978 peanut allotments are based on last year's farm allotments. "To retain the full allotment a farmer must plant enough peanuts to produce as much as 75 percent of the farm poundage quota at least once every three years. In addition to the average allotment, a farmer receives a poundage quota based on a proportionate share of the national quota."

Additionally peanuts, not contracted prior to June 15, must be delivered to the grower associations at the \$250-per-ton loan rate. To avoid penalties and until after inspection.

We got a neighbor (initials E. But after hearing what requirements she should have like knowledge, age, measurements, etc. I'm sure no one can fill that request.

Plans are being completed for the Emergency Medical Technician course which will begin on October 12, in Fellowship Hall of United Methodist Church. Classes will convene from 7 to 10 p.m. each Monday and Thursday nights until a total of 120 hours is completed probable in mid-January.

Regardless of whether or not a person expects to use the knowledge professionally, it is valuable to have in a family situation. It is hoped that eventually every family will have at least one member with this sort of training.

The course includes instruction in bandaging, splinting, stopping hemorrhage, lifting patients without causing further injury, care of burns, shock and cardiopulmonary-resuscitation.

The course will be taught by Wes Harper, James Swanner and Lisa Cornwell. The cost is \$45.00.

For information regarding the course, contact James Swanner.

Lone Star Gas has already laid the groundwork for your energy future.

The jobs of more than 100,000 Texans employed in plants served by Lone Star depend on gas for heat processing or as a product ingredient. Long-term gas supplies are needed to preserve existing jobs, create new ones, and meet the requirements of our residential customers. Fortunately, Lone Star is in an excellent position to continue energizing our area's economy.

Lone Star has an 11,400-mile gas gathering and transmission pipeline system that connects with basins estimated to contain 50% of the remaining onshore gas reserves in the United States.

This same network also enables Lone Star to accept gas deliveries from growing offshore production in the Gulf of Mexico.

No other gas company in Texas has a pipeline network as extensive or versatile as the one we've put together and constantly modernized during the 69 years Lone Star has been in business.

No other gas company in Texas has the built-in opportunity to buy gas as selectively, to bargain as well for the best prices on new gas, as Lone Star.

Our pipelines can have an important effect on your energy future, because it's here where Lone Star is strongest that gas companies from across America will be shopping hard for new gas reserves.

Here's your key to the energy storehouse.

We fully understand the efforts of other gas utilities and transmission companies to get new gas supplies. Their areas also want this most economical of fuels for industrial use.

Nevertheless, Lone Star's obligation is to the million-plus residential, commercial and industrial customers who depend on us to meet their energy needs in the decades ahead.

We're determined to meet our obligation in full by getting our area's fair share of new gas reserves as they enter the market in volumes large enough to be handled economically.

It can be done because of Lone Star's pipeline system.

Our gathering system goes into areas where other gas companies haven't begun to build. Our far-reaching transmission network gives us excellent capabilities. Our underground storage system often lets us take deliveries when many companies cannot.

All we need to buy the gas you'll need in the decades ahead is your understanding that we must recover the actual cost of the new gas we buy.

Give us that, and we'll deliver you the best gas bargains that money can buy. But the longer we wait, the more expensive the bargains will be. And we're eager to get on with the job.

Lone Star Gas Company
We're working energetically for your area's future.

"CONSIDER THE ANT..."

As the youngster was observing an ant hill and the coming and going of the busy little workers, he noticed the tiny trail they had made through the grass. "How could a tiny little ant make a path like that, Grandpa?" the boy asked. "One little step at a time, son," the old man said. "One little step at a time."

The wisdom of his answer is apparent. Few things in life, either good or bad, are accomplished in one giant step.

We may not even feel as if we are getting anywhere at all, until suddenly we are there. Their building up of the Lord's church is no different. Each adds to it his or her small part and that part is added upon by another until, quite suddenly, the Body is vibrant and active. Whether it be a cup of cold water given in His name, or a friendly smile, each tiny little step helps to clear the trail.

David Coffey, Minister Church of Christ
