"SPEAKING THE TRUTH IN LOVE"

(Ephesians 4:15)

....Biblical truths brought to you by the church of Christ in Gorman

Where can one find God today? Can God be found in every "friendly" group? No, not necessarily. One can find "friendliness" in all groups (religious and non-religious). So don't make the mistake of assuming that a religious body is teaching the right way to God, just because they happen to be "nice and friendly" people. Religious cults are notorious for practicing what is known as "love-bombing," i.e. where a potential member is hugged by members, fed, given the impression that everything is pleasurable, involved in endless initiation discussions and receives constant attention. Someone has rightly called this practice, "heavenly deception." In addition, those who have been in the world can attest that one can find some very friendly people in the "party crowd" (1 Pet. 4:3-4). Just because friendliness can be found in a group does not mean that God is there!

Where can one find God today? Can God be found in every group that "supports and encourages" others? No, not necessarily. Support and encouragement can be found in all groups (religious and non-religious). At times even Christians will say, "I find more support among people of the world than among members of the church." The truth is that one can find support, encouragement, a listening ear, a pat on the back, financial help, etc. in virtually every group of people that exist. So don't make the mistake of thinking, "these people support me, therefore, God automatically approves of them." Our society is filled with various support groups, and people do benefit from them, but remember even the devil can be supportive (Gen. 3:4). Just because support and encouragement can be found in a group does not mean that God is there! Next week we will continue with more.

Call or write us if we can help you in any way. We offer free Bible correspondence courses, free home Bible studies, or email us any Bible questions that you may have. Tune in to radio KYOX FM 94.3 from 9:30 to 10:00 or TV cable channel 4 at 8:00 and 8:30 Sunday mornings if you want to hear sound Bible based sermons. Of course all visitors are welcome for our Bible classes or worship services. We look forward to seeing or hearing from you.

Smart Healthy Living

Bah, Stomach Bug! Don't Let Foodborne Illness Spoil Your Holiday Fun

(NAPS)—As people gather to eat, drink and be merry during the holidays, the risk of foodborne illness can increase. Many cooks unwittingly contaminate the food they prepare through unsafe food handling practices. Whether you are the host of a holiday party or a guest, follow these food safety tips provided by the Georgia-Pacific Health Smart Institute to help avoid sickness during this most festive time of year:

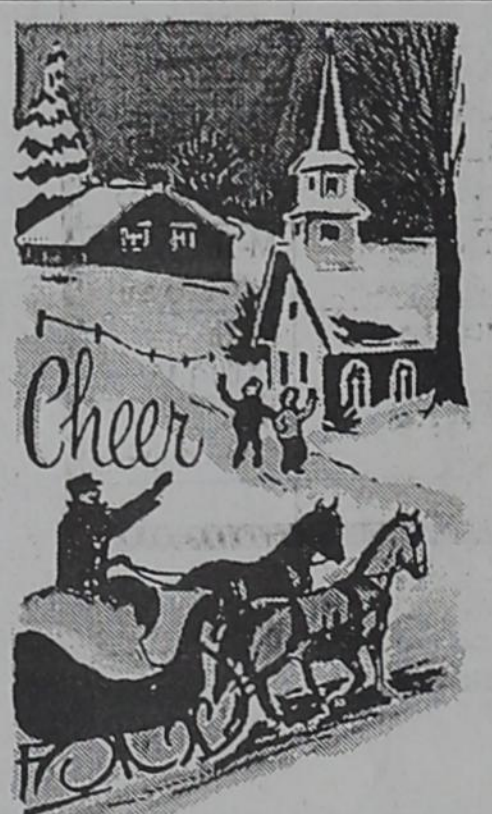

Be safe when you Eat and Drink, and be Merry!

- Wipe buffets, countertops and tables with paper towels like Sparkle® before setting them. Dishcloths can actually spread germs.
 - On buffets, keep hot foods at 140°F or higher and cold foods at 40°F or lower.
 - At parties, don't eat food that looks or smells "funny," or has obviously been sitting out for a long time.
 - Use separate cutting boards for meat, produce and bread, and wash them between each use. Then dry them off with paper towels like Sparkle® to help wipe off residual germs.
 - Defrost meat in the refrigerator rather than at room temperature and line a container with paper towels to absorb juices.
 - Use a meat thermometer to ensure thorough cooking of meat and poultry.
- For more information about food safety, call toll free 1-877-GP-CLEAN or log on to www.gphealthsmart.com.

Odie Brightwell 100th Birthday

Odie Brightwell of Gorman will celebrate his 100th birthday on Sunday, December 31, 2000 at the ZJs Restaurant in downtown Gorman, Texas, from 2:00 p.m. to 5:00 p.m. Everyone is invited to help him celebrate a century of living.

Odie was born on January 1, 1901 just after the turn of the last century. Odie has seen it all and somehow survived to tell the tale and quite a 'tale' it has been.

He continues to live by himself, cooks his own meals, drives his car and continues to be very active for his age.

He married his childhood sweetheart, Minnie Ola Jones in Ralls, Texas on August 14, 1921. They were schoolmates in the Grandview Community School. They began their marriage in a very unusual way. After the ceremony they headed west for their honeymoon and only a few miles from town, they had an accident with another car and turned upside down. No one was hurt.

After a near-by farmer turned their car back over on its wheels, they continued west, finally stopping for the night in Stamford, Texas.

When they got out of the car, they discovered that Odie's suit and Minnie's wedding dress was almost in shreds as battery acid from the wreck had spilled onto both of them and their clothes were almost eaten up by the time they stopped.

But this wonderful couple survived to celebrate their 70th wedding anniversary before Minnie passed away in 1991.

In 1920 Odie Brightwell began a 40 year career with Magnolia Petroleum in Desdemona, Texas. The Brightwell family lived in Desdemona until 1945 when they moved to Gorman.

Their children are Gale and Dale (twins, now deceased), Willa Dean, Zella Mae, Tommy, Betty Ann, Minnie

Thank You

Thank you to all of the good people in the Gorman area who were so kind and gracious to us after the sudden and untimely death of our brother, Lowell Rawls. Our special thanks goes to the coffee drinkers and staff at the Dairy Queen and to the members of the VFW all of whom were so helpful to us in this trying time.

Roy Rawls, Jimmie Cooper, and Patsy Locke

Beth, Jimmy and Myrna Sue. Willa Dean (Class of '43) and Zella Mae (Class of '46) graduated from Desdemona High School.

"Happy 100th Birthday" to our friend, Odie Brightwell in Gorman, Texas.

Gentlemen, Start Your Hard Drive

(NAPSI)—Many automobile owners can now be found cruising down the information superhighway. According to industry sources, more and more car owners have been joining in the race for consumer information.

Auto-related web sites, such as AutoBatteries.com, have become a popular way to learn more about cars and include tips that range from basic maintenance to where you can purchase auto parts.

One of the best uses for online web sites, say car experts, is finding ways to prevent problems before they happen. One reason that AutoBatteries.com is becoming a more frequent stop for web browsers is its helpful focus on preventative care.

Sections such as Battery Health Check-up provide consumers with personalized battery information. By answering a few simple questions consumers will quickly learn about the life of their battery and if it is at risk.

The site also provides features such as Battery Basics, offering practical information on everything from jump-starting a vehicle to battery maintenance. There are sections dedicated to answering consumer's questions and offering tips on preparing a battery for cold weather, storage and handling.

Perhaps most importantly, the site educates consumers. It offers detailed information about specific battery brands, so car owners can make informed decisions about what to buy. The site guides consumers in selecting the correct battery for their car and even links them to retail locations that sell specific battery types.

An industry spokesman says that car owners now have more information at their fingertips than ever before. Furthermore, automobile information on the web is now broader in range and easier to find.

In the past, a search for a specific auto-related topic often led Internet users to a dead end. The increase in new auto-care web sites, however, is ex-
