At Texas Electric, People Power is at your service.

Trouble? Call us when you have a problem.

There may come a time when you'll need the help of a troubleshooter from Texas Electric.

A troubleshooter is the man who shows up in a hurry in any kind of weather — any hour of the day, any hour of the night — when you call Texas Electric to report a problem with your electric service.

Perhaps the lights keep dimming and flickering at the houses in your neighborhood. Or the power has gone off at your home.

Call us, and one of our troubleshooters will see that you get back on the line to good, full-time electric service.

Or, if he finds that the company's lines are functioning properly, he'll suggest ways you can solve the problem with the help of your appliance repairman or electrician.

There may be other, less urgent things you'd like a troubleshooter to do. Remove your child's tangled kite from our electric lines. Or get a stranded cat down from one of our electric utility poles before there is trouble.

All this is just part of our job, so let us know when you need

us. At Texas Electric, People Power is at your service.
