Flower Talk
By GENE FOSTER

ONE OF THE WORLD'S WONDERS
About 500 years before Christ, a Babylonian king married a beautiful princess from a foreign country. She yearned for her native land - it's hills, trees and flowers. To gratify her, the king built a mighty structure four hundred feet square and a hundred feet tall on the west bank of the river Euphrates. Here he planted rare flowers and shrubs, trees and unusual plants. Thus the Hanging Gardens of Babylon, one of the Seven Wonders of the World, came into existence.

Potted plants and dish gardens can brighten and beautify your home. We have a wonderful selection that can add a touch of pleasant charm to any room... or bring friendly cheer to a shut-in friend. Call 734-5519, we are as close as your telephone.

Hearing Tests Are Important

If you have a hearing problem of any kind you we it to yourself to have an Electronic Hearing test made to find why, and what can be done to help you before it is too late. The tests are free and will only take about 20 minutes of your time. We check your ears for packed wax, the tubes that let your ears breathe, then with the machine we check your hearing nerve, (bone reading) air conduction, (outside sounds) then measure how much sound the ear will take. We can pinpoint your problem and explain in plain English what can be done to help you, then you make your own decision. We never try to high-pressure you into buying anything. There are thousands of people today suffering from hard of hearingness, (even some that wear Hearing Aids), just because they waited too late to do something about it... don't let this happen to you.

Mr. Joe Treadway will hold his regular Hearing Aid Clinic at the City Library at City Hall in De Leon Monday, June 21st. from 10:30 AM til noon. We invite you to come in for your free test.

We do repair service on most makes of Aids, and have a full service on cleaning, tubes, batteries for your Aid, and can always save you money. We are Licensed by the State of Texas to fit and Dispensing of Hearing Aids. We are always close by when you need us. We are in the Stephenville office, (Skipper Real Estate Bldg.) every Thursday, and in the Hamilton office every Friday to run special test and assist you in every way.

WASHINGTON, D. C. — THE ANNOUNCEMENT LAST WEEK by President Nixon, removing trade restrictions with Communist China, made headline news. It was not entirely unexpected since the matter had been under consideration for a considerable period of time.

WHAT ALSO MAKES NEWS BUT LESS READLINE was the President's action removing the requirement that 50 percent of shipments of grains and other commodities to China and other communist countries behind the Iron Curtain be delivered by American ships. Since 1964 exporters of goods to foreign countries must use American ships for at least one

Mr. and Mrs. Robert Ervin and Sam and Pauline Broom of Gorman visited Mr. and Mrs. C. O. Huff.

Mrs. Ed Grone of De Leon, Mr. and Mrs. R. G. Murray of Kwethluk, Alaska, W. E. Dickie and M. J. Dickie of De Leon visited Emma McKeenan.

Gertie Mahan of Gorman and Mrs. W. M. Dunn of Carbon visited Georgia Eaker.

Judge and Mrs. Weldon Kirk and family of Sweetwater visited Mrs. Lee Kirk.

Mr. and Mrs. Ed May of Abilene visited Katie May.

Mrs. Charles Dickie and family of Fort Worth and Ida DeVoll of Abilene visited Alma Craig.

Mr. and Mrs. O. N. Justice of Gorman visited Dora Wood.

Mr. and Mrs. S. E. Harris of Stephenville and Verna Lasater of Gorman visited friends in the home.

half of their transportation. The action of the President is highly significant since it is about impossible for nations to buy our grains at the added shipment costs.
 SINCE 1964 OUR SALES OF GRAIN have dropped more than half simply because American shipowners must charge rates far in excess of going world rates because of greater expenses, largely in wages.

AFTER THE 1964 DECISION it cost \$18 to \$20 a ton to move wheat to Russia in American ships. It cost as little as \$8 a ton in foreign ships. Obviously this made American wheat less competitive with the other large exporters, such as Canada, Argentina and Australia.

IN 1964 RUSSIA HAD A GREAT SHORTAGE of grain and offered to buy about 4 million tons from the United States. The result was that even in its somewhat desperate situation the Soviet Union only bought about a million and a half tons.

JUST THREE WEEKS AGO, REPORTS showed that Canada contracted to supply Moscow with \$225 million worth of wheat. The U. S. shipments of everything to the Russians last year amounted to only \$125 million, all because of the expenses in shipping. Certainly, if American traders are going to deal with the communist countries, they should have a better break. Our imbalance of foreign exchange is in a serious condition at this time and, if we are going to trade with communist countries, exporters should have the opportunity at more fair competition.

RUSSIAN FEED GRAIN REQUIREMENTS have risen steeply because of their effort to build up livestock herds and make the country more self-sufficient in meat. Reports indicate that the Russians have diverted large acreage formerly producing wheat to feed grains, making necessary a greater demand for wheat. Whatever the demands for grains from Red China and the eastern communist-bloc nations may be in the future, the removal of the cargo preference will give American traders greater opportunity to export feed grains and wheat.

THERE IS NO INDICATION THAT CHINA will turn to the United States for any part of its supply of wheat and other grains but since the embargo of more than 20 years has been lifted, then there may be a chance for disposing of surplus grain by American producers and shippers.

POWERFUL FORCES, PARTICULARLY THE International Longshoremen's Union, vigorously oppose the lifting of the 50 percent requirement; in fact that was the reason for the policy in the first place. In some bulk commodity shipments, American ships carry only about 10 percent of our exports. Before the 50 percent rule was applied United States flagships carried upwards of 65 to 70 percent of the same exports. Rec-

ords indicate that the 50 percent requirement has not succeeded in creating a single seafaring job or business for American shipowners but only cost American farmers by denying a source of foreign sales.

DESPITE THE SUBSIDIES TO OUR MARITIME FLEET, both in the building of ships and their operation, there has been a constant deterioration since 1964. Under the President's announcement last week in connection with the lifting of the China embargo, one of two things will have to happen — either our merchant fleet will succumb to foreign shipping competition or it will have to lower its prices to meet that competition. In this latter instance there probably will be a demand on the Federal Government for greater subsidies to make up the difference.

CAR CAR
TIRE CONSTRUCTION
 Sooner or later, your tires will wear out—and you'll have to replace them. And when that time comes, you should know just how the tire manufacturers are "plying" their trade.
 Here are the up-to-date facts:
 A. Beneath the tread and forming the sidewall is the tire's body or casing. It is made up of an arrangement of materials called plies. The way the plies are constructed plays a major role in determining the life of the tire.
 B. Tire bodies are constructed in three ways:
 1. Bias tires, once standard equipment on new cars, are made with two, four, or more plies of a synthetic fiber fabric—rayon, nylon, polyester—that crisscross beneath the tread on the bias, or angle, approximately 35 degrees to the center of the tire.
 2. Radial tires, common on European cars, have fabric plies which extend from bead to bead (steel wires that hold the tire in place) across the sidewall and underneath the tread. For strength, two or more layers of material—called "belts"—are placed beneath the tread.
 3. Bias-belted tires, standard on most new cars, are a combination of the first two types of construction. They are made with bias plies topped with two or more belts—most often durable Fiberglas® cord—beneath the tread for strength and longer life.
 For a free tire booklet, visit your local independent tire dealer or write Tire Kicker Test, Owens-Corning Fiberglas Corporation, Attention: M.E. Meeks, Fiberglas Tower, Toledo, Ohio 43620.

BRAVO™ W-75 FUNGICIDE

NOW REGISTERED IN TEXAS

You won't have to worry about leaf spot and leaf rust anymore. Or, what they could do to your peanut crop this year. Now Bravo™ W-75 fungicide checks these diseases and protects your peanuts.

Bravo is a broad-spectrum fungicide recently registered for use on peanuts. Six years of tests show Bravo, when used as directed, provides outstanding control of leaf spot and leaf rust with increased nut yields.

Yet Bravo stubbornly resists weathering. It sticks to your crop to provide excellent residual protection.

Ask your farm chemicals dealer today for Bravo W-75 fungicide. Or, write to Agricultural Chemicals Division, 300 Union Commerce Building, Cleveland, Ohio 44115. Don't put it off—put it on. Be sure to follow the label directions when mixing and spraying.

FIELD TEST RESULTS. The ability of any fungicide to control disease depends on: the severity of the disease, the amount of fungicide used, weather conditions and many other factors. Bravo W-75 fungicide has been field tested throughout the peanut growing areas of the U.S. for six years. These tests show that Bravo provides exceptional control of most fungus diseases. The results of a typical field trial are given below.

LEGISLATION PASSED—Secretary of State Martin Dies (left) and Traffic Safety Administrator Ross Rommel review a list of traffic safety legislation enacted by the 62nd Legislature. Important new laws were enacted, including the uniform traffic code and a presumptive limit of alcohol in blood. But the state officials expressed concern over other recommended legislation which were not enacted and said efforts would be made to pass these in the next session of the Legislature.

KEEPING UP WITH FRIENDS

Mr. and Mrs. Stanley Porter of Gorman and their daughter, Mr. and Mrs. Dwayne Clement and Michele of Dallas will leave Thursday for a vacation in California with Mrs. Porter's brothers, Claude Stanfield of El Centro and Connor of Compa, and a sister, Mrs. Gladden Little of Englewood.
