OUR 83RD YEAR OF SERVICE NUMBER ELEVEN

From most all reports the Awards Banquet on Monday night was a huge success. The speaker, Coach Gordon Wood, did a great job of addressing the young people of our school. We did not have the pleasure of attending the banquet this year because of having to be out of town, but we have attended all of the previous banquets. Most folks liked the way the banquet was done this year with some of the different awards being taken out of the program and moved to their respective programs or concerts. This cut down on the time element as far as presenting the multitude of awards given. This shortened the time situation, which in turn, left some time to again go back to the speaker type banquet. This idea was well received by most everyone. And I think that most of the ones taken out of the program will really appreciate the chance of getting their awards at their respective programs or concert.

All in all though, I think most folks, and more important, most of the students, liked the way the program was laid out.

There evidently were some who would rather have had it the way it has been the past several years and following is a letter we received expressing that thought.

Dear Mr. Bennett, I for one was very disappointed in this years All Awards Banquet. I am sure we were honored to have Coach Wood as a speaker. But I think it was much more important to our students to be recognized for their efforts before their friends, parents and townspeople.

The majority of our students expend many hours of work on sports, band or scholastic events. They expected to receive their award at this banquet which is especially for this purpose. Most of the activities are team efforts and the whole team should have been acknowledged.

I realize that there will be an awards program during school hours. But most parents and townspeople work during these hours and will not be able to attend. I think it behooves us as parents and interested citizens to let all of the students who earned these awards, know that we take pride in them. I sincerely hope that next year the school will return to the format of handing out these awards at the banquet. I hope also, that those parents who feel as I do, will take just a moment to call the school and let them know how you feel about this.

Thank you for the chance of expressing my views.

This community had the misfortune of having two homes burn on Tuesday. The home of Mrs. Faye McClearen was badly damaged by fire and she lost most all of her possessions. Also a rent house out on the Desdemona Highway just behind the Vernon Ables home.

We sure could use some rain around this area. The high winds we have been experiencing recently have really took its toll on the moisture in the soil and the wind has really been blowing the top soil away where the cover crops have been light. Most of the farmers are busy breaking their land in preparation of planting and the moisture would really help. So lets all seek help from the Good Lord and ask his blessings for somw much needed

moisture real soon.

The track team is really coming along great and we wish them the best in the upcoming events. There is more on this elsewhere in this issue.

Work is coming right along on the new home of Jack and Billie Bennett and the remodeling project on the Leonard Silva home is also coming along great.

The Ron McCormicks have added a carport to their home. Poor ole Ron sure has been working hard. But it seems all of us have a lot of that "Honey Do" work to get done.

1983 CLASS PROPHECY

Our seniors of 1983 have made a great contribution to society. This prophecy will show how their high school days relate and carried over to their present lives and careers.

Phil, in his last high school year has turned more crazy and wild than ever before. He had a bad habit of showing up at spring training looking like a bear that has been hibernating in a cave somewhere. That day Phil missed his breakfast, so he ate the Bench Press. Phil's problem with his facial hair started in the first grade when he was forced to shave at recess in order to see. When Phil comes galloping down the High School hall everyone backs up against the wall, so they don't get run over by that mysterious thing coming toward them. Phil has properly earned his nickname, "The Wildman." Dane-

As we all remember, Dane was voted "Most Likely to Succeed" in his Senior year and we all had such high hopes for him. Something happened and he flunked out of vet school and couldn't

make it as a lead guitar player in a small unknown group. Dane, cold and hungry, turned to a life of crime. He wasn't very good at that either, and is now serving a term of 5 to 10 years in the state penitentiary. Laneta-

After all these years, our quiet Laneta has come out of her shell. Laneta is not mingling at our party; she is serving, in her bunny ears and cotton tail. You see Laneta has become the first Playboy Bunny in Gorman High history. Jan-

Jan has applied her talent for setting up dates to a very interesting business. Jan runs her own computer dating service. Or at least she did until one of her clients jilted her. Now she is living in a trailer at Lake Leon. She no phone and only allows visitors once a month. The men of the surrounding area finally feel safe to be out after 9:00. John-

After graduating from Gorman High, John became the first jockey to win the Kentucky Derby on his burro

named Maud. John is now the most successful mule jockey in the United States. Toby-

Toby Cordell entered the Catholic seminary immediately following his graduation from college. Even though his major was Business Administration, his love for pictures of diety could not be suppressed. His life was devoted to his parishioners even though he often suffered from being tired, having mono, and not feeling good. At the height of his life, Father Cordell became the first person to be canonized while still living. The accomplishment that gave him his sainthood was that he changed the usually priest garment from black shirt and pants and clerical collar, to designer jeans and Polo shirts. St. Cordell is the next candidate for the papacy. "If elected," he says, "I promise to allot a Mercedes 450 SL to all priests."

Tracy- Tracy IV Queen of the Triple Crown has neglected one of her foremost duties. It is rumored that Queen Tracy was to preside over the Gorman High bon fire. Tracy, being involved with "Other things" didn't come to the bon fire. Darren-

The head of the Texas Parks and Wildlife who enjoys midnight picnics on designated picnic benches at Lake Proctor. Mr. Clark has been an advocate of a new bill in legislature requiring that padding be applied to all picnic benches in the state. Veronica-

Miss Kight is known for her donut eating ability. It is rumored that a UIL Contest is going to be named after

Veronica. The contest will be called "Dunk Them Donuts." After graduation, Veronica plans to pursue another hobby, she will open a doll store. Bill-

Bill, known as Baby Huey for his contraction of a strange rash in high school. Since then, Dr. Crain has devoted his life to the treatment of such rashes. He is now one of the leading Proctologist in America. Diane-

Diane has become one of America's foremost artist. Little did we know that her playing with her gum in high school would lead to her becoming the first sculptor in this original substance. Two of her better works are Hubba Bubba Hercules and Tidal Wave Neptune. These are now on display at the Metropolitan Museum of New York. Rodney-

Known as "Railroad Reese", Rodney now has a business which specializes in the destruction of local telephone poles. As a source of pleasure Rodney is the proprietor of his own computer dating service of which he is the only male member. Rodney accredits his experience in this field to his accomplishments in high school where he was known for having two or more dates in one night. As a second source of income, Rodney opened a new chain of fast food restaurants called the "Burgerbox", and if you're wondering, yes he does deliver. Kathy-

After graduation Miss Snider made her millions by opening a line of schools. On of these specializes in help-

ing people who have no shorthand ability. Miss Snider has solved this problem by creating her very own type of dictation. Kathy owns another line of schools for terminally squemish. After a few of Kathy's expert lessons her students can actually watch a band-aid being applied. Richard-

After receiving his PHD, Professor Summers started working on a new hormonal serum to make tall people shorter. He experimented this on himself and instead of making him shorter, he grew 2 feet, 3 inches, which put him at the towering height of 8 feet, 7 inches. But still other scientists look down upon him. Joey-

A known socializer. Mr. Casey has been seen at many of the more elite night clubs. Rumor has it that Joey is going to open his own club here in Gorman. He plans to call it "Casey's Cavern." Brenda-

Prominent and high ranking student of the Gourmet School of Gorman taught by the World Famous Chef, Miss Patricia Hudson. Brenda just passed another semester in her class of "How to Create Gourmet Sandwiches." Rumor has it that Brenda has just signed a ten year contract with the Jolly Green Giant for the production of her new invention, "Chicken Fried Corn on the Cob."

Tam- Immediately following graduation Tam and Dee Dee set up a shop painting road signs. Their business went bankrupt within 4 days. They had trouble with a "Panther Country" sign. This bad experience with the business world turned Tam toward the life of a simple housewife. Mrs. Sadberry

now spends her time cleaning and cooking. But once a week for excitement Tam spends 30 minutes popping the pimples on Alan's back. Dee Dee-

After Dee Dee left the road sign business, she turned to law enforcement. It is now Officer Rodgers' duty to patrol the high school campus checking school ID's, chasing truants, keeping all bones in cars, and preventing over eager Home-Ec students from throwing toilet paper out of the windows. Dee Dee feels very fulfilled with her new life of helping students stay on the straight and narrow.

CITY CHIT CHAT

By Charlie L. Garrett, Mayor

The City Commission met on Thursday, April 21 with the Mayor and all Commissioners present. Others attending the meeting were Mrs. Brinegar, Chief Funderburg, and Mr. Barnett. The minutes of the last meeting were read and approved as read.

Other business transacted by the Commission included the re-organization of the City Commission. By motion, Mr. Smith was elected as Mayor Pro-tem and Police Commissioner. Mr. Morris as Street Commissioner. Mr. Mears as Water Commissioner. Mr. Leazar as Sanitation Commissioner.

Mr. Bruce Hirst was re-appointed to the Upper Leon Water District Board to serve a two year term. Mr. Hirst has served in this position for several years and has done a good job. Our other Board member is Dale Curb who

was appointed last year for a two year term. I would like to say thanks to these men for this service.

The Commission discussed at length the subject of abandoned and junk cars as well as other junk that has accumulated in our town. As many of you know, we have cars abandoned on street and in yards and lots all over town. These along with other junk such as iceboxes, washing machines, dryers, and a thousand other things are presenting an unsightly picture of our town. In some cases they are also health hazard. We would hope that those who have such places would clean them up without the City having to go through an Ordinance to get this done. We are studying this and will make a decision on it in the near future. Why don't you help us Clean these up without having to take legal action.

The Commission voted to renew our contract with

Legal Notice

The Eastland County Appraisal District wishes to remind property owners that Monday, May 2, 1983, is the deadline for filing property exemption applications and business personal property renditions.

State law requires that all business personal property be rendered each year. Renditions were sent or delivered to county business earlier this year. If you have not yet returned your business rendition; you should do so before the May 2nd deadline.

If you did not receive a rendition or have lost it; you should check with the appraisal district office.

The deadline for filing open space land exemption applications and residential homestead applications is also May 2nd.

The open space or agricultural use exemptions allows the property owner to pay on an Ag-use value rather than the higher market value. If your land was granted an exemption for 1982 and the use of the land is still the same as previously reported, a new application does not need to

be made. Only those whose land may qualify for the first time need to apply.

The residential homestead application needs to be filed by those homeowners who were not signed up in 1982 or who have since changed their place of residence.

Those homeowners who have recently turned 65 years of age should check to see if they are not eligible for an additional exemption for those over-65 granted by many of the taxing jurisdictions.

If you have changed your residence between January 1, 1982 and January 1, 1983; a new application will have to be filed on the new residence in order for the exemption to be granted.

The exemptions and renditions must be filed with the Eastland County Appraisal District by May 2, 1983 in order to be accepted for the 1983 year.

If you have a question concerning the filing of your applications or renditions, please contact the Eastland County Appraisal District prior to the May 2, 1983 deadline.

No Worry Hair Care

If you think hair care means a bottle of shampoo from a drugstore, think about this:

At our salon, before we even shampoo your hair, we analyze its strengths—and its weaknesses. Then we'll know if it can take the perm you want, or if hot rollers have frazzled it. When we do shampoo, we'll use the right one for your hair. A shampoo by Redken! And we'll recommend the conditioning your hair needs.

When we style it, we style it for your image. We teach you the techniques to maintain it at home. And we'll prescribe the Redken products to keep you loving your hair until your next visit.

Can your drugstore make the same claim? Come to our salon, and take the worry out of hair care.

REDKEN

We use and prescribe Redken Products.

It pays to know how much it costs to heat/cool the house.

With electric bills up these days, it'll pay you to know how much you're spending to use electricity all around the house. For example, how much does it cost

to cook a meal... to dry a load of clothes... and to heat and cool the house? It all adds up.

At Texas Electric, we're doing everything we can to hold down the cost of electricity. We use the cheapest generating fuels available to us — natural gas and lignite coal. And we're building

a plant to use uranium, a cheaper fuel. You can help hold down your electric bill by conserving everywhere you can. We've included a list of approximate

operating costs on this folder to help you estimate the costs of using your household appliances.

And remember. It pays to know... because it all adds up.
