OUR 81ST YEAR OF SERVICE NUMBER FIFTY-ONE

Joe Bennett, Publisher

We congratulate Sunbelt Savings for sponsoring free admission to the Gorman and Carbon basketball games on Tuesday night.

It seems we missed a lot of the snow and bad weather that was forecast for the area on Tuesday afternoon and Wednesday.

The Lions Club will be holding a light bulb sale in a couple of more weeks and as soon as the dates are finalized we will publish it in the paper.

The Panthers keep playing outstanding basketball in their quest for the District 27-A title and the Pantherettes are also playing some fine games.

The political activity is beginning to warm up as the filing of candidates is being held at the present time for the different offices in the county, state, precinct, city and school and hospital district balloting in April and May.

We have begun our Political Column and some candidates have requested us to add their names to the list. We will have an article on the ones filing for the different offices as they all get signed up.

The Kokomo Club has announced the date for their annual Stew Supper in support of the West Texas Rehab Center and the date will be Saturday night, February 20th at the Kokomo Community Center.

School Hill News

Charles Kuralt made the statement on TV the other day that the IRS will not fill our forms this year. They will help anyone but will only fill out forms for the blind, illiterate or members of congress. Now if we could get them to help the President then all the needy would be taken care of. At least that's how it looks to me.

Joe and Ann Staude spent some time in Ft. Worth this week.

Mr. and Mrs. L.D. Holliday visited Sunday with his brother Mr. and Mrs. Bill Holliday in Throckmorton. Mr. Holliday is feeling some better, he suffered a heart attack while visiting in Gorman several days ago.

William and I were talking the other day about how much it cost you to be good. On of the kids said, "Mama, you don't have to pay William to be good, cause he's good for nothing."

Gifford Johnson passed out the other day at the sale and was rushed to the hospital. He is home now and doing better.

Cody Johnson had an accident with his motorcycle and a dog the other day and came out with his arm in a sling and a whiplash collar on.

Becky Moon had the misfortune of pulling some shoulder ligaments the other night at the ballgame. Will make a terrible difference on our ball club. Becky, hope you're soon well and able to play.

THE YEAR 1981 AT BLACKWELL HOSPITAL

The Number One Priority of the Staff of Blackwell Hospital is to provide High Quality Medical Services to all the Citizens of the Community.

With the assistance of Hospital Management Associates, Fort Meyers, Florida; the Administration, Nursing and Support Staff of the hospital; the Board of Directors of South Eastland County; the Hospital Auxiliary and members of the Community, Blackwell Hospital has been able to accomplish the following results during the past year:

- Realize an increase of 36% in the total number of patients served in the Community.
- Add a complete Respiratory Therapy Department
- Add a new Pharmacy Department
- Improve the Hospitals lighting system.
- Relocate and improve the newborn Nursery.
- Improve the Operating Suite for Surgical patients.
- Upgrade the hospital's telephone system.
- Complete renovation projects of the Emergency Entrance, hospital lobby, Admitting Department, Business office, Central Supply and Medical Records Department.
- Add to the Staff a new Controller, Director of Nursing and Financial Management Specialist.

As the Hospital moves in 1982 additional improvements and new services are being planned and completed. Some of these plans are as follows:

- Completion of a New Interior Care/Coronary Care Unit.
- Renovation of the Laboratory and X-Ray Departments
- Establishment of a new Physical Therapy Department
- Opening of the Satellite Clinic in Rising Star, Texas
- Renovation of the Nurse's Station
- Renovation of the Labor and Delivery Suite
- Renovation of the Dining Room and Dietary Department

I would like to express my sincere appreciation to the Hospital Auxiliary for their support and assistance during the past year. The Auxiliary has directly contributed to the overall improvement of the Hospital; specifically, they have been responsible for:

- The Construction of the overhead Shelters for the ambulances and the Emergency Entrance.
- Providing new curtains for the ambulance
- Providing and installation of new parking bumpers in front and on the clinic side of the hospital including the repainting of the parking space stripes.

Further, I would like to express my appreciation to the community as a whole for their support in helping the hospital grow and meet the everchanging needs of the patients we serve.

No article such as this would be complete without including the highest praise to some very special people — The Physicians of the community, and the loyal and dedicated members of the Hospital Staff, without which all the improvements would be wasted. The calibre of the hospital people are the best measure of the hospital's success.

SENIOR CITIZENS NEWS

"Memories"
 Hi! Get ready for Ground Hog day Tuesay. Wasn't that shower last night (Friday) nice. I have to start on this early as my eyes start to watering. So I just stop and wait awhile. Same way in reading. My light is about 10 inches from paper. I believe it was in 1919, the Atlantic drilled a well on the Gilmore place. It was a offset on Mears Shelly Sankey. It was a dry hole. I had been promised a lease boss if we got four producers. As it was a new rig we were cutting it down. Ever-

thing was stripped to just rig. You could cut it and make it fall on corner and very little damage to material. They put guy wires and tension on them and one leg cut nearly into. Then the Boss said she sleeves off crown blocks. Jim Alexander and I threw four small sleeves off. Then the big master off. When we did a whirlwind hit and that rig racked like a cradle. I turned toward the slush pit, squated and spread my arms ready to jump. I knew if rig went down it was sure death. I was not scared. As it intended to jump in the pit as far as I could. The Boss yelled, "No George". So rig stopped shaking. When I reached the ground, I began shaking then.
 My Bud Roy told about me playing basball. I like Center field. Tho I played behind the bat the most. One time we wer eplaying Eastland and they put me on third. I did not like that. Tho in ninth we were two ahead and Eastlnad had bases loaded. No one out. A batter knocked a line drive just inside 3rd base. I jumped as high as I could and ball stuck in my glove. I came down on thrid and man from second saw what I did and threw his brakes on. Tho before, he could shift to high I had him. A triple play assembled and the game was over. I will not tell about the mistakes I

made just too many to mention tho.
 I know when I borrowed money. I could not borrow more to pay it back. The tax on money borrowed so for is over 20 Billion dollars.
 You see we are all prisoners between yesterday and tomorrow. We cannot relieve yesterday again and tomorrow never comes. The only way is to walk that valley alone.
 If a person is caught driving drunk, his license should be suspended for at least 5 years. If any one is killed by a drinking man, it should be a Capital murder offense. It is time to give justice to all. As they do not have to drink.
 Our deepest sympathy goes ou to the Cabe Quinn family. Cabe was one of my pupils in 1921 at Hunter. A very smart young and likable pupil. To the plumber Lemley family. He was at Cross 1922 when I taught there. A smart and likeable person. To Jim Weaver family. Carbon, Texas. I have know him since 1912. A fine neighbor and very likable. The Tom Isbell family. May you look to the King of Kings in your

sorrow.
 The Rising Star Senior Citizens Band was here for Bithday party Thursday. It was wonderful demostration to show us what they could do. It was enjoyed by all that were present. Come again.
 Friday evening after playing 42. Jessie Lemley went outside in her horseless carige and when she arrived at S.W. corner of the Home the wind hit her and turned her over on that soft concrete. She has a black face, etc. She played dominoes all night. Fussing because they had killed her double six. So my

Your electricity will cost more in 1982 mainly because the fuel to make it will cost more.

In 1982, we'll have to pay more for the fuels used to produce your electricity. Partly this is because another contract for low-cost natural gas fuel has expired. But mainly it's because the price of all fuel continues to rise.
 We spent about \$200 million in 1980 for fuel to make your electricity. In 1981, the fuel bill was about \$400 million. And in 1982, we estimate we'll have to spend \$640 million for fuel.

Approximate Cost of Fuel

Year	Fuel cost paid by Texas Electric	Your average annual fuel cost per kilowatt hour
1980	\$200 million	1 cent
1981	\$400 million	2 cents
1982*	\$640 million	3 cents

*Estimated
 We buy all our fuels at the lowest price available. We

charge our customers exactly what we have to pay for fuel. And each month, we show on the bill the "fuel" part of the total cost of electricity.
 At Texas Electric, we're trying to hold down fuel costs by making as much electricity as possible in plants built to use lignite coal — a cheaper fuel. And we're building a plant to use uranium, the lowest priced fuel available to us.

You can help hold down your electric bill by conserving at home. To learn how, please call us.
