A Letter To The Mayor of Gorman

Jack Simpson,
Mayor, City of Gorman

Dear sir:

This is to tell you that the Gorman Volunteer Fire Department did a fine job in helping to control and extinguish the range fire on the Brown Ranch and adjoining property at Desdemona October 15 and 16th. It was the worst fire we've had on the ranch since 1934.

This fire was difficult to fight due to high winds, trees, brush, tall grass and weeds, fences and few or hard to see roads. It was further complicated when the fire continued into the night. The firemen did an excellent job of getting their equipment to the fire over difficult terrain and were very effective in fighting the fire.

It was particularly impressive the way the Gorman Volunteer Firemen kept in radio contact with each other, the firemen from other towns and coordinated their efforts.

Please express my appreciation and gratitude to the Gorman Volunteer Fire Department for a job well done.

Please give the enclosed check to the Gorman Volunteer Fire Department to use as they see fit.

Sincerely,

Robert C. Brown.

PUBLIC NOTICE

Contel of Texas, Inc. has filed an amendment to its application with the Public Utility Commission of Texas for approval of its Universal Emergency Number Service 9-1-1 tariff. The proposed tariff establishes rules, regulations and rates including the provisioning of the B9-1-1, C9-1-1, and E9-1-1 services; optional services, such as Selective Routing and Data Base Administration; additional services, such as Forced Disconnect, Called Party Hold, Emergency Ringback; Switched Access System; and Public Safety Answering Point Equipment.

Customers affected are either 9-1-1 districts or councils of government with 9-1-1 responsibilities. The application does not propose changes to emergency fees charged to end-user customers.

Twenty-three customers would be affected by the Universal Emergency Number 9-1-1 tariff, which would increase annual revenues by \$10,107.12, a 2.92% increase in the revenues generated by the contract rates of the current customers. Customers will have the option, however, of continuing the rates under their contract for up to one 12-month renewal term.

The deadline to intervene in this proceeding is December 24, 1992. Correspondence or any other communication regarding this matter should reference Docket No. 10929.

Persons who wish to intervene or otherwise participate in this proceeding should notify the Commission. A request to intervene, participate, or for further information, should be mailed to the Public Utility Commission of Texas, 7800 Shoal Creek Boulevard, Suite 400N, Austin, Texas 78757. Further information may also be obtained by calling the Public Information Division of the Public Utility Commission at (512) 458-0246 or (512) 458-0221, teletypewriter for the deaf.

Teen Court Coming To Eastland County

The Eastland County Sheriff's office, working with volunteers from the P.A.Y. (Positive Action for Youth) conference held in Eastland last February, is seeking to establish a teen court program.

Basically, Teen Court is a volunteer program which allows juvenile misdemeanor offenders an alternative to the adult criminal justice system. Through Teen Court, offenders are sentenced by a jury of their peers and are offered an opportunity to make restitution for their offenses through community service, Teen Court participation, and other appropriate duties. The entire program is geared to be a positive, ultimately enriching alternative adjudication process. Teens, through their active involvement, are afforded a way to learn how our

system of justice works and to realize their roles in the community.

A number of elements are key to the success of the program. Among them is the support of various organizations throughout the county allowing the youths to serve out their

sentences in conjunction with their existing programs. Also needed are initial funds to enable volunteers to produce necessary forms and information for the students. Donation information about the program, you may contact Sheriff Ronnie White at 629-1774 or Meg Kennedy at 629-3863.

MAMMOGRAPHY CAN SAVE YOUR LIFE!!!

If you are a healthy woman over 40 who never has had a mammogram, the American Cancer Society recommends that you have this simple life-saving procedure now. Since one woman in 10 develops breast cancer at some point in her lifetime, the urgency is real.

A screening mammogram is an x-ray of the breast using extremely low dosages of radiation (usually comparable to dental x-rays) and is designed to find very early cancers.

A female technologist who is highly trained in mammography will perform the examination. These images are then interpreted by a Board Certified Radiologist, and a report is sent to your own doctor. It takes only a few minutes, and can detect incipient breast cancer as small as the period at the end of this sentence.

Early detection (18 months sooner than a lump can be felt) not only permits treatment before the problem becomes serious, but the cure rate is over 90 percent. Mammography cannot only save your life, but help you avoid the need for disfiguring surgery, too.

You don't need to have been a previous patient of ours to receive this screening, but you do need to make an appointment at a time convenient to you.

TIPS ON STAYING SAFE AND SOUND WITH NATURAL GAS.

For more than 80 years, Lone Star Gas has been providing safe, dependable energy to its customers. By following a few simple rules, you can help make sure you and your family stay safe and sound with natural gas:

- Always have qualified service people install, regularly check and maintain all gas heaters and appliances, following the manufacturer's instructions for installation, ventilation, and operation.
- Always use a gas appliance only for its intended purpose. An oven, for example, should not be used to heat a room.
- Always keep flammable materials and substances away from gas heaters and appliances. Remember, a pilot light is constantly burning.

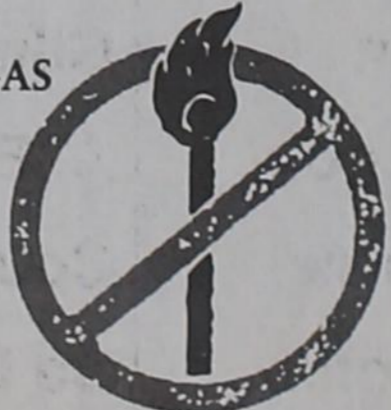

4 Do not strike a match or do anything else that might cause a spark. 5 Go to the nearest telephone and call Lone Star Gas Company. Wait until we have found the cause of the gas leak before returning to your home.

If you smell gas while you're outside, contact Lone Star Gas immediately.

CONTRACTORS, BEFORE YOU DIG, call your local Lone Star Gas Office, and we'll help you avoid any potential problems.

SAFETY TIPS. We've put together a brochure that includes safety tips designed to educate your whole family about the proper usage of natural gas. For a copy, or if you have any questions, call us at 1-800-545-3427.

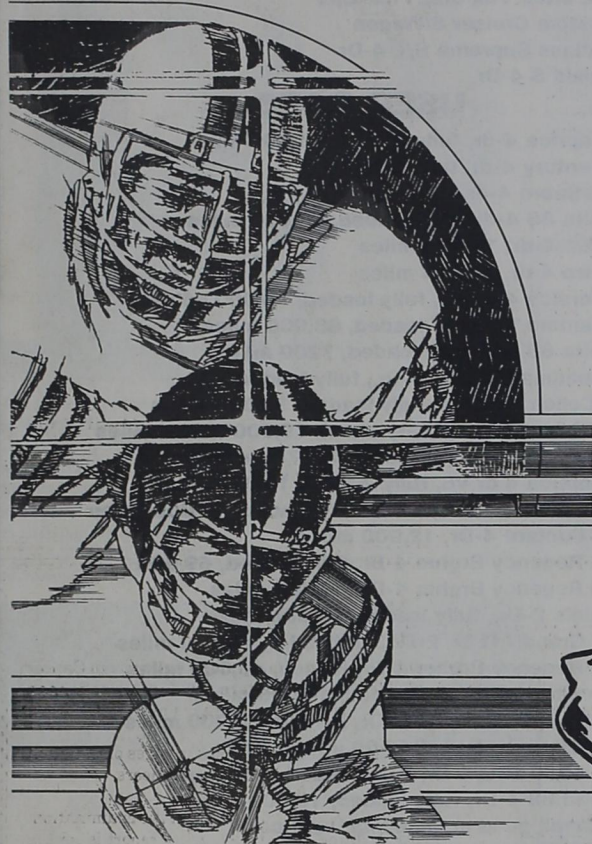

Lone Star Gas Safe energy for your home, naturally.

IF YOU SMELL GAS in your home, or know you have a gas leak, follow these rules: 1 Everyone should leave the house immediately, leaving the doors open for ventilation. 2 Do not switch anything electrical on or off. 3 Do not use your telephone (telephones use small amounts of electricity).
