**TEXAS PRESS ASSOCIATION** 

NUMBER ONE

**JANUARY 30, 1992** 

Well the rain just seems to go on and on, and we don't know whether it will ever end or not. Oh! I'm sure it will end one of these days, and then down the road we'll be crying for some more rain. BUT in the meantime, everyone is sick of all the rain and damp, cool weather. The sunshine sure would look good for a change. Maybe it will be breaking out in a couple of days. The weatherman seems to think so - - but as you know you can't always put much stock in what the weatherman tells you! It was still trying to rain here on Tuesday evening as we were getting the paper ready for bed.

If it doesn't quit one of these days all the cattle (as well as everyone else) will be getting web feet. Don't know for sure what the total has been, but friends it's been plenty!

The rain-soaked ground has started to give away, causing some real bad washing out in places and even the paved streets here are really showing signs of being literally washed up by the excess moisture and running water.

The city crew has done some patching on the streets, but they can't seem to catch up with the destruction the rain is doing. So I think that we should all pray for some good old sunshine so things can dry out.

I sure hope that the President found something to tell all of us on Tuesday night in his annual speech. I don't know about everyone else, but things sure do need to be turned around in this country of ours. There is just too much unemployment and folks can't find any work to help feed their families. The economy has just gotten progressively worse for the past decade and folks are sure wondering if we can even get things turned around since it has gone so far the other way. With all the businesses closing all over the U.S. of A. it sure looks as though something is sure wrong with the way things are being done in our government - - and something MUST be done and done fast to help turn this dead enconomy of ours around.

Maybe the president has a solution. At least I hope he has, because he sure hasn't been able to do anything for the average American family for many years. And the average person is the one who usually gets hit the hardest when recession and a downward economy hits our country. It has been bad before, but I don't ever remember hearing everyone talking about it like they have the last few years, and folks continue to be scared of what's going to happen down the road. That God only knows!

The Panthers and Pantherettes have been doing pretty darn good in basketball. The Pantherettes are tied for the district race with the Eula girls (as of this writing Tuesday night) and the Panthers were at 3-2 in district up to Tuesday night. Some real good basketball has been played this season and it is continuing each Tuesday and Friday night. So be sure and go out and see the teams play if you get the opportunity and like to see some good basketball.

-J-And remember to smile - - because God Loves You!

## 31 Counties To Get Further Flood Damage Assistance

Washington — Thirty-one Texas counties have been approved for federal disaster assistance to help rebuild area infrastructure that was damaged by the recent floods, U. S. Sen. Phil Gramm announced recent-

Gramm said the counties include Eastland, Comanche, Hamilton, and Brown, among others.

The senator said the assistance comes from the Federal Emergency Management Agency, which will fund 75 percent of costs incurred for the reconstruction or repair of damaged infrastructure, including highways, other roads, bridges, schools, airports and other public facilities.

Gramm also noted that eight of the

along with people:

1. Keep skid chains on your tongue. Always say less than you think. Cultivate a low, persuasive voice. How you say it often counts more than what you say.

2. Make promises sparingly and keep them faithfully, no matter what it cost you.

3. Never let an opportunity pass to say a kind and encouraging thing to or about somebody. Praise good work done, regardless of who did it.-If criticism is needed, criticize helpfully, never spitefully.

4. Be interested in others - interested in their pursuits, their welfare, their homes and families. Make marry with those that rejoice - with those who weep, mourn. Let everyone you meet, however humble, feel that you regard him as one of importance.

5. Be cheerful. Keep the corners of your mouth turned up. Hide your pains, worries and disappointments under a smile. Laugh at good stories and learn to tell them.

6. Preserve an open mind on all debatable questions. Discuss, but not argue. It is a mark of superior minds to disagree and yet be friendly.

7. Let your virtues, if you have any, speak for themselves, and refuse to talk of another's vices. Discourage gossip. Make it a rule to say nothing of another unless it is something good.

Be careful of another's feelings. Wit and humor at the other fellow's expense are rarely worth the effort, and may hurt where least expected.

9. Pay no attention to ill-natured remarks about you. Simply live that nobody will believe them. Disordered nerves and a bad digestion are a common cause of backbiting.

10. Don't be too anxious about your dues. Do your work, be patient and keep your disposition sweet, for get self, and you will be remember-

same counties, including Callahan, Freestone, Gillespie, Hamilton, Houston, Kerr, Mills and Wise, have also been approved for private and individual assistance, which offers a temporary housing program, a direct grant program to residents who suffered home damages, and low-interest loans to farmers, ranchers and small businesses.

"As damage assessments through out the state continue to progress, I expect more counties to be approved for both private and public assistance in the days and weeks ahead," Gramm said. "Many counties are eligible for public assistance but don't know it yet because high waters have prevented them from accurately assessing local damag-

THE GORMAN PROGRESS

EASTLAND - Eastland County commissioners Monday agreed the county should be represented today at a meeting in Meridian to receive information and instruction on how to apply for federal and state disaster assistance for damages incurred due to December flooding.

Commissioners also hope to learn of any help available for situations made worse by even more recent rain. Several county roads made dangerous from December rains have further deteriorated since government officials inspected them, commissioners said.

### **Employers Urged** To Check Wage

It's the time of year for us to remind employers who will soon be preparing their annual wage reports to carefully check them for accuracy

At the close of the calendar year, employers are responsible for submitting Form W-2 (Wage and Tax Statement) to SSA, and giving a copy to each employee. The W-2 information must be reported in a timely fashion and with the employee's correct name and Social Security number. Because all Social Security benefits are based on those earnings this will ensure that workers and their families will one day receive the benefits they are due. Employers should check wage reports carefully to be sure the name and Social Security number are correct for each employee. If there is an error, the employer should furnish the correct information to SSA by completing Form W-2c, (Statement of Corrected
