Re-Election As Commissioner

L. T. Owen announces his candidacy for re-election to the post of County Commissioner of Precinct 3 of Eastland County. L. T. was born and raised in Eastland County. He is married to Josie, also an Eastland County native; and they have three sons, Johnny, Robert and Bill.

L. T. Owen has served as your Commissioner in past years and stands on his record of fairness and service to each citizen in his precinct. As budgeted money and time allowed, he has made every effort to solve problems and work with the taxpayers of his precinct.

The work of being a County Commissioner concerns much more than maintaining county roads, although this is very important. Decisions to be made and problems to be solved are varied and require sound judgement and clear thinking. Experience has been gained through years of dealing with budgets, grants, govern ment programs and the various paperwork required by county government. At the present time, the county is expecting to receive help from FEMA (Federal Emergency Management Agency) in repairing county roads due to recent water damage. Facts and figures are available at the courthouse in the Auditor's office and are available to the public.

Wxperience makes L. T. Owen qualified to be your Precinct 3 Commissioner. If re-elected, L. T. pledges to you his cooperation, his continued interest, proven ability, and willingness to listen to your problems concerning roads and county government.

In making his announcement for re-election to the office of County Commissioner, Precinct 3, Mr. Owen expressed his appreciation for all of the assistance he has received from all agencies of city and county government in carrying out the responsible duties of the office of Eastland County Commissioner. Mr. Owen is now the Senior Commissioner of the Eastland County Commissioners' Court and is often called upon to preside at its meetings.

Mr. Owen stated, "If you agree with me that honesty, integrity, experience and hard work are important elements in public service, then I will appreciate your vote and active support in the March 10th Democratic Primary, keeping in mind that my only promise is continued economy and fairness in carrying out the duties of this important office."

> /s/ L. T. Owen, Commissioner, Precinct 3

-GP-CARD OF THANKS

We express our love and thanks for the food that was brought to our home and the many acts of love shown us during our loss.

A Tribute To Edna Watson

We consider it an honor to pay tributed to the family and friends of our Mother and our Nanny. To those who played with her as a child, worked beside her as a woman, befriended her when she was longely, stood beside her when we lost our Daddy, grew old along with her, helped her with her final journey and enjoyed her wit, charm and beauty. Wasn't she easy to Love? We are indeed thankful that we have such precious memories of both our Mother and Daddy. God bless you and heep you and make His face to shine upon you.

FEDS APPROVE \$25.5 MIL. FOR GRANT FOR TLE

Washington — The state of Texas has been awarded \$25.5 million to fight drugs and crime by the U. S. Department of Justice, U. S. Sen. Phil Gramm has announced.

A majority of the funds, \$15,781,-505, will go to the 49 Texas task forces, which serve 215 counties.

"This allocation will continue to support the critical work done by the Texas law enforcement officers on the front lines of the drug war," Gramm said.

The grant represents a 379 percent increase over the amount the state received in 1989, the first year funds were available under the Edward

Byrne Memorial State and Local Law Enforcement Association Program. State and local law enforcement entities apply for funds for task forces, personnel, equipment, information system improvements and financial investigation programs.

To date, Texas has received a total of \$82 million in federal assistance under the Byrne Program.

"Texas law enforcement is afforded the opportunity through this grant to attack problems unique to Texas,' Gramm said.

The funds will be administered through the state's Criminal Justice Division in Austin.

Medical experts today are recommending responsible (and moderate)

use of sunlight for a variety of ills.

Everyone needs sun to produce vitamin D, but how much they require may depend on age and other factors.

"Vitamin D is essential for the lifelong development and maintenance of the body's skeleton," explains Michael F. Holick, Ph.D., M.D., cochairman of the Light Symposium Foundation's Biologic Effects of Light conference.

Aging, sunscreens, the season, time of day, degree of air pollution osteoporosis-like bone loss. Studies produce the vitamin D hormone.

To fully enjoy the beneficial effects of sunlight, Dr. Holick is convinced sensible guidelines relating to Holick says. responsible use should be developed. "We need guidelines for more evenhanded appreciation of this natural resource," he continues.

more sunlight the individual requires. For older, fair-skinned persons living in New England, about ten to 15 minutes of exposure a day in the midmorning to late afternoon several times a week is recommended.

For persons living in the South, just two or three minutes may be adequate, depending upon the person's sensitivity to sunlight. The darker the complexion, the more sunlight he or she needs.

Just as sunlight should be used responsibly, so should sunscreens, say experts. They recommend children and young adults use sunscreens carefully. Too much of the lotion or total block can also limit the body's ability to produce vitamin D.

Casual exposure to the sun is vital for the elderly. Dr. Holick recommends that they enjoy the outdoors for short times. If they wish to stay outdoors longer, they should apply a sunscreen of factor 15.

"Vitamin D deficiency in the elderly can cause serious weakening of their bones and accelerate

GOOD RECORDS NEEDED FOR TAXES

Good tax records can save you time and money when filling out your tax returns. You must have statements and receipts that support

Make notes in your checkbook. the income, deductions, and credits claimed on your return. If your records are in order, you can save hours of looking for W-2 forms or lost receipts and cancelled checks. These records will help you prepare a return that is complete and correct. Also, you can save money when you have records of expenses that may be tax deductible. Remember to:

Keep copies of your tax returns. They can help you prepare future returns or if you need to file an amended return.

■ Save all statements showing income you received. This includes Forms W-2 and W-2P, showing wages and pension payments, and Forms 1099-INT and 1099-DIV, showing income from interest and dividends. Keep track of income from work in which you were not an employee; for instance if you had odd jobs or temporary work.

· Keep careful records of payments you made to someone to care for your children or dependents while you work or look for work. Cancelled checks or receipts for cash payments usually are proof. Also, have your day care provider fill out Form W-10, "Dependent Care Provider's Information and Certification," and keep it in your files. You can use these records for the child

and dependent care credit, which can be claimed on either Form 1040 or Form 1040A.

It can be a basic source for keeping a record of your deductions. When you prepare your return, you can figure out if the amount is a deductible expense. Cancelled checks alone are not always proof that an amount can be deducted. Save the receipts, sales slips, and any other documents to support the items in your checkbook.

Get receipts for cash. If you make payments in cash, get a completed, dated and signed receipt for any payments that may be deductible.

Store your records together in one safe place. You can keep records in a way that best suits you as long as you can support each deduction you take. One method is to keep an envelope and mark it for each kind of expense. For example, all child care receipts can be kept in one envelope and all income statements in another. Usually, records should be kept for three years after the due date of your tax return. Some records should be kept even longer.

To read more on recordkeeping, get free IRS Publication 552, Recordkeeping for Individuals. It also tells you what records to keep if you itemize deductions. Call the IRS at 1-800-3676 to order it.

Religion: The Trend is Up

The percentage of Americans attending worship service during an average week has risen to 43 percent to match a 20 year high, according to a recent report. That represents an increase from about 100 million weekly attenders to over 107 million.

Invite a friend to your house of worship.

The report further shows that a majority of adults say they're attending religious services more frequently (27 percent) or with the same frequency (32 percent) as five years ago. Baby boomers have reached the age when they have their own children and lead the surge in new members. This is borne out by the finding that among the 30 to 49 year old age group, 34 percent reported increased attendance with 31 percent saying they attend as frequently as they did five years ago.

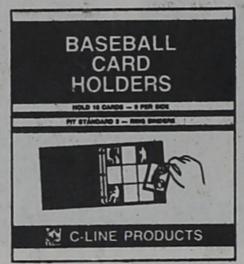

These figures were reported to Religion in American Life (RIAL), a 40-year-old non-profit organization that works with congregations of all faiths to increase participation by urging members to "Invite a Friend," a program designed to increase mem-. bership in religious congregations to 200 million by the year 2000.

People interested in having their own church or other house of worship take advantage of RIAL's resources to help invite newcomers to the life and work of their congregation can call for a free brochure entitled "Discover the Inviting Spirit in Your Congregation." Dial RIAL at 1-800-428-8292.
