Well, the rain continues to fall in this vicinity slowing the peanut harvest down considerably. A large number of the farmers have dug their peanuts in preparation for combining but the rains continue and combining is being held up. However, the farmers are getting in a few hours a day between the showers to bale hay. With a couple of weeks of good weather the harvesting could be and also to dig some peanuts. completed and then it could rain all it wants. But if the rain falls to let up it will greatly decrease the outcome of crops this year. So shine brightly sun, and let those farmers get their goobers harvested.

Reports say that most of the extensions of the mail routes for Gorman have been approved. Some requests have to be re-written and sent back for approval. It is believed that the approved extension of the rural routes will begin around November 15th. However, this is not a definite date, so watch for an official announcement at a later date.

This extension of mail route service will afford many rural families the privilege of receiving their mail on the rural routes instead of having to drive into town to get their mail.

The Cubs have extended their winning streak to 14 straight by winning over Dublin on Tuesday night 32-6. Dublin scored a quick touchdown before the Cubs tightened their defense to hold Dublin to only 6 points. This win assures the Cubs of at least a tie for the district crown with Stephenville and Hamilton. And if the Cubs beat Stephenville here on Tuesday night they will remain undefeated and take the district title. Stephenville lost to Hamilton putting them in a tie with Hamilton for second place behind the unbeaten Cubs. So the game with Stephenville will be the district deciding game for the Cubs with either a three-way tie with Stephenville and Hamilton or an undisputed championship.

All the way Cubs!

The Panthers ran into trouble again Friday night in their second district game at May and lost a 12-6 decision to the Tigers in their homecoming game. The Panthers threatened several times but lost the ball on downs or fumbles deep in Tiger territory. So this puts the Panthers in the cellar position in the district race.

Well it happened again! Upsets, that is. Boy these upsets sure are ruining the averages in our fearless football predictions. Rice surprised top-rated Texas 34-7. Pitt tied top-ranked Army 14-14. Wisconsin fought Ohio St. to a 7-7 tie. And Purdue sneaked by Notre Dame 29-22. Also in my picks A & M came roaring back in the final period to beat Baylor 33-27 after trailing 27-7 in the third period. But like I have said before fore; you can never tell about this game called football. All these SW Conference teams are capable of coming up with a win over their highly favored opponents.

Speedy got 70 percent right this week for a season average of 65 percent and I came out with 60 percent this week for an average of 59 percent.

Amendments Big Issue In General Election On November Fourth

By Vern Sanford
Texas Press Association

AUSTIN — More dust is being stirred up over issues than over candidates, in the build-up to the General Election, November 4.

Texas will vote on nine proposed amendments to the Constitution. One of them, providing for annual sessions and salaries in the Legislature, is the subject of hot debate.

A condensed outline of the amendments and arguments being presented for and against follows: (Numbers correspond to the order in which amendments will appear on the ballot.)

1. Would provide for annual sessions of the Legislature. Odd-year sessions would be devoted to all matters, as before, and even-year sessions would attend to budgeting and emergency matters. Legislators would receive an annual salary of \$7,500 (instead of \$25 a day for a 120-day session) and an unspecified amount for "expenses of office."

PRO: Supporters say annual sessions will allow more time for consideration of important matters. State financial planning could be done for one year at a time. No more having to "guess-timate" financial needs for two years ahead. Better pay would be a step toward attracting the best qualified persons to law making. Such influential and hard-working groups as the Texas Junior Chamber of Commerce are pushing this amendment.

CON: Equally outspoken are the opponents who say it would cause needless expense when money is already short. More time in session means more chances to spend money. Proposed salary still is not enough to attract top-notch talent, but "expenses of office" could open the door to "fat catting" with public funds. Sen. Dorsey Hardeman of San Angelo is the recognized spokesman for the "antis" which include some other lawmakers and other groups.

2. Would allow counties to extend participation in their retirement, disability and death compensation plans to elective officials of the county and precinct. Present arrangement covers only appointive officials and employees of the county.

PRO: It is a permissive law. No county has to do it unless the voters say so. It would give elective officials the same privilege as appointees, be an attraction to office.

CON: It sets no requirement for length of service. An official might serve one term - or less - and receive benefits.

3. Would allow the County Commissioners Court to fill vacancies in the office of County Judge and Justices of the Peace only until the next general election. Presently such appointments are for the remainder of the unexpired term, up to four years.

PRO: It would give voters the right to choose their own replacement to the office as soon as possible.

brains to come up with that 100 percent week. Maybe we will make it one of these days. Anyway we have searched the cracks and crevices of our brains (?) and have come up with the following fearless forecasts for this week:

SPEEDY'S PICKS
SMU over Texas by 5 points
TCU over Baylor by 7 points
A&M over Arkansas by 8 points
(Single Wing is explosive)
Notre Dame over Navy by 8 pts.
Pitt over Syracuse by 12 points
Mich. St. over Wisconsin by 3 pts.
Okla. over Colorado by 6 points
Air Force over Okla. St. by 8 pts.
Ga. Tech over Duke by 7 points
Mississippi over LSU by 6 points

JOE'S PICKS
Texas over SMU by 2 points
(I'm no Traitor!)
TCU over Baylor by 12 points
A&M over Arkansas by 2 points
(No Comment)
Navy over Notre Dame by 6 pts.
Pitt over Syracuse by 14 points
Wisconsin over Mich. St. by 2 pts.
Okla. over Colorado by 4 points
Air Force over Okla. St. by 10 pts.
Ga. Tech over Duke by 2 points
LSU over Mississippi by 6 points

CON: Since campaigns are so costly, there would be less incentive to run for the office for only a two-year term.

4. Would provide for automatic resignation of a district, county and precinct official who announces for any other public office more than one year before the end of his term of office.

PRO: It would keep officials on the job rather than out campaigning for some other office.

CON: It would discriminate against district, county and precinct officials since other officials - U. S. Senators, state senators, railroad commissioners and others with more than two-year terms - can run for another office in mid-term.

5. Would allow home rule cities to extend terms of their elective and appointive officials from two to four years.

PRO: It is permissive; each city can make its own decision. Two-year terms hardly allow an official time to get a program started before he has to get out and run again.

CON: Elections every two years give voters more control, build up citizen interest in government.

6. Would provide pensions, not to exceed \$80 a month, for retired Texas Rangers and widows of Rangers who retired before the 1947 State Employees Retirement System was established. Money would come from the Confederate Pension Fund.

PRO: Since funds are available, it would put no extra burden on taxpayers. Protective dating clause would prevent marrying for pensions.

CON: It would allow ex-Rangers to receive pensions for as little as two years service and with no payments on their part, a more generous arrangement than is provided for other state employees.

7. Would allow Legislature to appropriate money for advertising the advantages of Texas in nationally-circulated publications. Use of the name or picture of any living state official would be prohibited and public funds would have to be matched by private funds.

PRO: Texas is one of only three states without a state program to attract tourists and industry. Proponents say it would pay for itself many times by bringing new money into the state.

CON: This should be handled by the businesses who would benefit through their trade associations, chambers of commerce, etc.

8. Would allow the Legislature to appropriate money to pay for medical care for people who receive old age assistance, aid to the blind and aid to dependent children.

PRO: It would provide help for people whose small monthly checks cannot possibly cover medical emergencies. Since payments would be made only to the vendor (doctor, hospital or what not), the money could be used only for its intended purpose.

CON: It would cost the state an estimated \$9,000,000, with no limit on how much it could drain from the Treasury. It would mean double taxation for cities and counties already providing medical care for their needy.

9. Would allow the Legislature to authorize creation of hospital district in Amarillo, Wichita and Jefferson County.

PRO: It is permissive. People in the affected areas could decide what they want to do with it.

CON: Proposed amendment is long (1,000 words), detailed and so complicated that few voters can even understand it. If such provisions are needed, they should be made in statutes rather than by adding to our already-long Constitution.

Latest reports by the State Tax Study Commission list several possible new tax sources the Legislature could turn to for additional revenue.

They include (1) new selective sales taxes, (2) a general retail sales tax, (3) a personal income tax, (4) a "value-added" tax levied on difference between selling price and cost of seller, (5) a gross income and receipts tax on business and (6) a corporation net income tax.

Gorman Band To Attend Band Meet At TCU, Nov. 1st

FORT WORTH, Oct. 30 - The 42-member Gorman High School Band will be at Texas Christian University Saturday, November 1, for the third annual Band Day, which will be held concurrently with the university's Homecoming celebration this year.

Band Day, sponsored by the TCU Horned Frog Band and the School of Fine Arts, will feature marching bands from some 52 high schools in Texas and Oklahoma.

A parade in downtown Fort Worth at 10 o'clock Saturday morning will start events under way. Trophies will be awarded to the outstanding parading band in each of the five Texas Interscholastic League classifications: 4A, 3A, 2A, A and B. Judges will be Donald I. Moore, director of bands at Baylor University, and Jack Mahan, director of bands at Arlington State College.

The five winning bands will entertain in pre-game ceremonies at the TCU-Baylor football game that afternoon in the TCU-Amon Carter Stadium. Pre-game activities will get under way at 1:40 p. m., according to Jim Jacobsen, TCU band director.

All 52 high school bands will attend the football game and combine to play the national anthem prior to game time.

The luncheon tickets will be \$1.25 per plate.

Here I go again on the subject of Dogs! DO ANY OF YOU WANT YOUR DOG SHOT OR POISONED? NO! Well then, please keep them at home! Something has to be done. The School Supt. has requested that all parents cooperate in keeping the school yard free of animals. Did you know this kind of weather is ripe for rabies and dog poisoners? Anyone who would willfully poison an animal has sunk to the very depths. So please don't give them a chance to feel they would be justified in doing so. Dogs are man's best friend, so let us be likewise to them.

STUFFED VEAL BIRDS

Stuffed Veal Birds have a fallish flavor that combine deliciously with the currently-plentiful Texas yams, or with baked acorn squash and watermelon pickles. Serves six.

6 veal cutlets (about 1 1/2 lbs.)
2 cups of your favorite dressing
Flour, Salt and Pepper
2 tbsp. butter or margarine
1 cup light cream sauce
1 cup meat stock or left over meat gravy
1 teaspoon horse-radish

Have cutlets tenderized, put stuffing in center of each, roll and secure with a toothpick or wooden skewer. Roll in seasoned flour and brown carefully in butter or margarine. Arrange in baking dish. Add cream sauce, stock or gravy and horse-radish and bake at 350 degrees for one hour or until tender.

That's all for this week. Woof, Woof.

Mrs. Dahlia Steele explained the State Library Program which is carrying knowledge, the basis of progress and power, to people of rural, mountain, and secluded areas. The program, she stated, has greatly improved operation of public libraries in recent years. Refreshments were served during the social hour.

Comparative scores between Gorman and Stephenville are:

Gorman	Stephenville
34-14	Granbury 12-0
32-14	De Leon 42-0
28-8	Glen Rose 38-16
8-0	Hamilton 6-16
32-6	Dublin 40-0
26-12	Comanche 50-6

The Stephenville crew will outweigh the Gorman team by several pounds per man and operate with a fine backfield and a multiple offense. They are coached by Jack Deavenport and Assistant Sam Taylor.

Tuesday night the Cubs saw Dublin score first on a 70 yard run but came back to score eight points in each quarter to win by a 32-6 margin.

Fullback Wayne Bledsoe tallied the first touchdown with Ronnie Page getting the extra points. Page scored the next one on a 45 yard run with Bledsoe adding the points. In the third quarter Page raced 30 yards for a touchdown with Bledsoe again getting the points. Halfback William Jay scored the last touchdown on a 4 yard carry with Gary Overstreet adding the final two points.

The game was played in a steady rain making ball handling difficult. The line was led by Tackles Gene Simons and William Boyd joined by Ends Larry Anderson and Joe Ed Baze; Guards Jerry Wilson, Billy Welch and Rodger Woodall; Center Richard Watson, and Tackles Richard McLearn and Rodney Stephens. The quarterbacking was handled by Harold Rodgers and Bobby Haynes.

Game time Tuesday night will be 7:30 at Brogdon Field.

Annual Pecan Show Ranger, Dec. 12-13

Ranger, Tex., Oct. 29 — The Annual Pecan Show will be held in Ranger on December 12-13, according to Oscar Schaefer of the Cook Community, President of the Eastland County Pecan Growers Association. His organization jointly with the Ranger Chamber of Commerce, will sponsor the affair.

Schaefer said that the show site was selected by a mail ballot after both the Ranger and Cisco Chambers of Commerce had asked for the show. The show has been held in Cisco for the past five years.

A total of 83 ballots was cast by eligible voters consisting of members of the association, together with those who exhibited entries at the 1957 show.

"We are happy to have the show in Ranger," T. C. Wylie, chairman of the agriculture committee of the Ranger Chamber of Commerce, said today.

Over 250 entries were shown at last year's show, Schaefer said, making it the largest pecan show in the state. It is expected that the number of exhibitors in the coming show will be even larger.

"We have the soil and climate for pecans here in the West Cross Timbers area, and our organization is dedicated to forwarding the pecan industry in the county and in this area," Schaefer said.

Cecil Shults of Rising Star, and Arthur Littlefield of Gorman, were on a committee to count the ballots which had to be in by October 20.

Schaefer is calling a meeting of the officers and directors of his organization for the near future to begin plans for the annual show.

YOUTH CENTER NEWS By Clyda Rankin

Not long ago, classes 6, 7, 8, 9, 10, 11, and 12 elected representatives for the student council for the youth center. From the sixth through twelfth grades respectively were Jo Townley and William Jay; Barbara Jobe and Terry Clark; William Boyd and Sunny Rawson; Edna Joyce Watson and Wesley Warren; Kay Jarrett and Billy Gray; Clyda Rankin and Fred Gray; and Aletha Garrett and Jimmy Brightwell.

We met Thursday, October 23 with Mrs. W. G. Kirk, Mrs. Bob Green, Mr. John Kimble, and Quail Thompson. First of all, we elected officers from high school, which were President, Fred Gray, Vice-President, Clyda Rankin, Secretary-Treasurer, Kay Jarrett. From grade school was President, William (Butch) Boyd. After electing officers someone brought up that we needed a reporter, and why not give that responsibility to the vice-president, so here I am.

The grade school students have been going regularly to the Teen Flat every Saturday night. They are having a lot of fun. If I may, I'd like to bring up a few rules that are being disobeyed. Students in the sixth, seventh, and eighth grades are supposed to have the Teen Flat exclusively on

Saturday nights. Some children in the lower grades have been going down there expecting to get in. Some of the high school students have been going down there on Saturday night. This will be stopped from now on.

Conduct seems to be quite a problem on Saturday nights. If you are old enough to belong to a club of this sort, you should be old enough to conduct yourselves as young men and young ladies. We don't mean for you to go down there and sit as still as a post and not have any fun. You can have fun without tearing everything up.

We set our meetings with the adult committee for the last Monday of every month. We are planning big things for high school after football season. Everyone had better renew their membership cards if they don't want to be left out.

cotton crop, William F. Bryant, Chairman, Comanche County Agricultural Stabilization and Conservation Committee, announced recently. At least two-thirds of the farmers who vote nationally must approve the quotas if they are to be effective. All growers engaged in producing upland cotton in 1958 are eligible to cast ballots in the referendum.

The vote will decide more than one question about next year's cotton program, the Chairman explained. If quotas are approved, farm operators will have their choice between two programs of allotments and price supports -- called Choice (A) and Choice (B). If quotas are disapproved, only the regular allotment program will be in effect, and price sup-

ports to growers who comply with their regular allotments will be at 50 per cent of parity.

According to Chairman Bryant, the Choice (A) program will include the regular farm allotments and price support at not less than 80 per cent of parity for 1959. Choice (B) will include farm allotments which are 40 per cent larger than the "regular" allotments, and price support which is 15 per cent of parity less than under Choice (A).

Every farmer will be informed of both the Choice (A) and Choice (B) allotment his farm has in advance of the referendum, Mr. Bryant said. Sometime later,

when price supports have been announced for the 1959 upland cotton crop, a deadline will be set by which farm operators must register their choice at the County ASC Office.

Under a quota program, a farmer who exceeds his chosen allotment will be subject to marketing quota penalties amounting to 50 per cent of parity as of June 15, 1959 on the excess production. In addition, none of the upland cotton produced on the farm will be eligible for price support.

Allotments will be in effect whether or not growers approve quotas, but the outcome of the vote will determine the kind of allotment program available.

ACC Homecoming

Oct. 31 - Nov. 1

ABILENE, TEX., Oct. 29. (Spl)-Abilene Christian College will play host to an estimated 6500 persons Friday and Saturday (Oct. 31, Nov. 1) at its annual Homecoming Celebration.

The two-day event gets under way officially Friday at 10 a. m. when registration booths open on the campus.

This year's Homecoming is being called the biggest ever by College officials. The schedule of events includes two football games, a musical production, a pep rally and giant bonfire, a barbecue, and reunions for various alumni groups.

The Abilene Christian College B team plays the Henderson County JC football team Friday at 2:30 p. m., and the varsity eleven plays host to Mississippi Southern at 2:30 p. m. Saturday. Friday night the pep rally and annual bonfire are scheduled. Class and club reunions also begin Friday. Some social club reunions will be held at Saturday morning breakfasts.

The annual Homecoming Chapel will be held at 10 a. m. Saturday, and new officers and directors of the College Alumni Association will be announced. The chapel will be followed by a barbecue, and plans call for feeding more than 6,000 visitors on the campus.

Final feature on the Homecoming schedule is the musical production, "The Wizard of Oz," slated at 8 p. m. Saturday. The show also will be presented Monday afternoon and Monday and Tuesday nights following Homecoming.

Are You A Safe Driver

The Gorman Progress will give \$1 Gift Certificates (redeemable at any store in Gorman) to TEN people sending in the most correct answers to the following questions. Answers must be in the Progress office by Tuesday, November 4th.

One of the most important phases of traffic accident prevention is that of public education; education in the sense of creating an awareness of traffic hazards. Unless motorists are aware of the inherent dangers in driving they cannot hope to survive, for long, today's heavy traffic without an accident.

For many years the Texas Safety Association, the National Safety Council and many other safety groups have hammered away at this public education, awareness theme. During this time, newspapers have been the principal media for the dissemination of accident prevention information, with

radio, magazines and television following in close order.

How well have you followed this education process?

The answer can be found in the results of the following quiz. Your answer may also determine "your own awareness," thus the degree of safety in your traffic-future.

QUESTIONS:

1. What are the five leading causes of traffic accidents in Texas?
2. What is "jay walking", and why should it be prohibited?
3. What is the automobile speed limit in Texas? (A) Daytime? (B) Nighttime?
4. What is the cause of practically all railroad grade crossing accidents?
5. What five principal qualifications does a careful and safe driver possess?
6. What are drivers' arm signals for turning, slowing or stopping?
7. What is the braking distance of your car?
8. Are there more than four-million, or less than four-million, motor vehicles registered in Texas?
9. How many persons were killed in Texas traffic accidents, during 1957, more than or less than three-hundred million dollars?

Recapturing the serenity
of a time, long ago

Sometimes on a quiet street of a sequestered village, one can sense the tranquility of yesteryear's simple life and sturdy virtues. Today's pace is faster, it's problems more complex, but the virtue of thrift, so esteemed by our forefathers, can still contribute most importantly to our peace of mind. Systematic saving remains today as always, the keystone of happy, contented living.
