## FARM BILL SITUATION REMAINS FLUID

We have managed to piece together the following update on the '95 Farm Bill activity, including the Peanut Program.

The House Agriculture Committee convened on Wednesday, September 18th to adopt its recommendations on the 1995 Farm Bill Commodity Titles. The Committee failed to pass a Bill after working late Wednesday night.

A Compromise bill offered by Congressmen Combest and Emerson at the urging of Cotton industry leaders would have been generally favorable for Peanut growers. That Bill included all Commodity Titles including Peanuts and was essentially the same as the Cochran Bill in the Senate. That Bill failed by a vote of 26 to 33.

The Freedom to Farm Act authored by Agriculture Committee Chairman Pat Roberts was debated intensely with strong opposition from southern crop Representatives and was ultimately defeated by a vote of 27-22, with 4 Republicans join Democrats in opposition.

The Peanut Title in the Freedom To Farm Act was offered by Subcommittee Chairman Tom Ewing. It includes the following provisions some of which differ dramatically from the proposals of the National Peanut Growers Group:

- \$610 per ton quota level for 7 years
- Deduction of 15% of support level for peanuts going under loan -- if commercial market at support price is available in grower's trade area.
- 100% (unrestricted) sale and lease across county lines
- Cross Area Pool Compliance (same provision in current law to use pool profit in one area or area to pay pool loss in other areas)
- NPGG language on seed which permits quota pounds to be allocated to producers for pounds of seed planted
- Priorities in reductions of quota to first affect municipalities, schools, airports, etc. and "non-residential quota holders". Non-residential has not been defined.
- Use of Budget Reduction Assessment currently in effect to offset Program losses
- Disaster Transfer Program at 70 percent of support price with limit of 25 percent of farm's basic quota peanuts

The House Agriculture Committee did not reconvene after Wednesday of last week, but is scheduled to reconvene on Wednesday (September 27) of this week.

It was reported to us last week while in Washington that House Majority Leader Dick Army told a gathering of Farm Bureau members in Washington that he was pleased with the Peanut Program reforms in the Roberts Bill and that the Ewing Peanut Title would be protected under the Reconciliation process. This could be significant, or may mean nothing, depending on the final results in the House Agriculture Committee deliberations.

If the Chairman fails to get the votes needed to pass Freedom To Farm, one option is for the Chairman to submit the Bill to the budget Committee and ask that the Bill be a part of the Budget Reconciliation process.

In the Senate pro NPGG members continue to hold the NPGG Peanut provisions but they are getting tremendous pressure from Agriculture Committee Chairman Lugar and Senator Sanatorum (R-PA) who are sponsoring a Bill to phase the Program out along with sharp and unreasonable price support cuts.

The Senate Agriculture Committee will also meet this week for its markup. Many feel that the Committee may not be able to agree on a Bill leaving the battles to be fought on the Senate floor.

Peanut allies did win a battle of sorts in the Senate last week when they forged a compromise with Senator Hank Brown who had introduced an amendment in Appropriations to force growers to pay \$2.3 million Program Administrative costs. With hard work by Peanut consultants, NPGG members and Senator Heflin, strong opposition to the Brown Amendment resulted in a sense of the Senate resolution recommending that the Administrative costs could be paid from the Budget Reduction Assessment.

Growers and business people are encouraged to continue communications with House and Senate members. **This is important!!!!**

The running of Margarito Sanchez sparked the Panthers offense to an 18 to 7 victory on Friday night at Ranger. This was the first win of the season for the Panthers. Sanchez rushed for 159 yards on 25 carries.

The Big Red Defense got the Panthers on the scoreboard first when the Ranger quarterback was caught in the end zone for a two point safety with 4:15 left in the first quarter.

Gorman got on the scoreboard again with 10:53 left in the first half when Nick Guthery hit Ronald Majors with a beautiful pass for the final 20 yards. The drive started on the Gorman 34. The drive featured first down runs of 14 by Sanchez; 10 by Paul Petree; 11 by Sanchez and another 9 yards by Sanchez. A pass try for 2 points failed and Gorman led 8 to 0.

The Panthers scored again with just 30 seconds left in the first half when Sanchez ran in from 1 yard out to cap a 68 yard drive. The Panthers were set up with an interception on the Gorman 32 by Paul Petree. The drive featured runs of 12 yards by Petree; 33, 9 and 11 by Sanchez. Snider booted the point after and Gorman was up 15-0 at the halftime intermission.

The drive covered 73 yards in 6 plays and was assisted by two costly penalties on the third down by the Panthers. Juan Pantoja booted the point after and the score was 15 to 7.

Gorman wasn't through though as

they took the ball on their own 20 and moved to the Ranger 10 yard line in 8 plays to set up Justin Snider for a 20 yard field goal with 5:10 left in the fourth. The drive featured 15 and 22 yard runs by Sanchez and a 12 yard run by Petree, plus a beautiful 26 yard pass reception from Guthery to Jason Warren. This made the final score 18 to 7 and gave the Panthers their first victory in three games.

Sanchez had a phenomenal night, amassing 159 yards on 25 carries. Adon Rodriguez had 23 on 4 tries. Guthery

got 16 on 4 keepers and Josh Hampton ran one time for 1 yard.

The Big Red defense did a good job on the Bulldogs, holding them to just 17 yards on 20 carries. The Bulldogs had on 2 first downs in the first half and made only 6 first downs all night.

The Gorman defense will be tested again on Friday night when they host the Bryson Cowboys at 8 p.m. at Brogdon Field.

Come on out and back the Panthers to the second win and show them that they have our support.

**Go Get 'Em Big Red!!!**

## KEEPING UP WITH FRIENDS

Mary Kirk and Ruth Higginbottom went to Branson, Mo. with the Cross Timbers Tour - a very friendly and kind group of people. We felt pampered. We saw nine shows and had such good food. In fact we had a wonderful trip.

body enjoyed this rich buffet. After that, the father of Maria, who own this place, showed us his high-speed boat, and we all could try it-twice! The boat's speed is about 60 mph, which is pretty fast -- I'd say fast enough. After that the boys played with their host fathers soccer. Nils showed us that he is a soccer superstar. The rest of the afternoon we spend with talking and having fun. Thanks to Eula Mears, Darla and Kevin Johnson.

With the pretty weather the past few days the farmers are beginning to dig peanuts in preparation for combining this year's crop. A few loads of peanuts have been brought in to the buying points and if the weather continues to hold many more will be getting their peanuts dug and to the dryers.

The watermelon crop is just about all in for this year. there are still a few melons coming in, but most all the crop is in. It was a pretty good year for the melon growers.

Work is continuing on the new candy store, Granny's Goodies, next door to Ye Olde Ice Cream Shoppe. Granny and the "kids" are working hard getting everything set up for opening in the near future.

It's sure nice to see so much activity downtown with folks coming to Gorman to eat, enjoy some shopping and getting some ice cream at the ice cream shoppe. The clocks in display at Time Keepers are catching the eyes of folks shopping downtown. E'Lan has a large inventory of all kinds of items for folks to browse and shop.

There is a great deal of home remodeling and repairing going on in town with some folks purchasing older homes and remodeling. There are still several houses for sale and folks are beginning to buy their own places and moving in them instead of paying rent. Just wish we had more homes to rent here. Several have asked about rent houses.

A schoolwide campus has much greater latitude in implementing a schoolwide program, such as:

- All students are eligible for services from Title 1 funds;
- Title 1 students are no longer identified;
- Title 1 funds may be used for any legitimate purpose on schoolwide campuses;
- funds are allocated to campuses based on numbers of low-income students;
- campus evaluation is based on all students tested with TAAS as the evaluation instrument.

Look in back of our North Lake power plant, and you'll find, you guessed it, a lake. Two years ago, a small patch of a Southeast Asian aquatic plant called hydrilla was discovered there, causing us some concern.

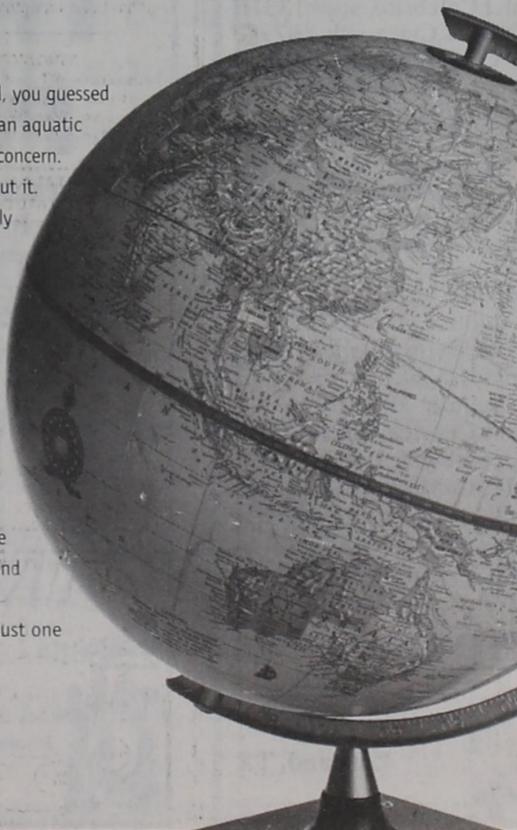

You see, hydrilla grows two inches a day. That's pretty fast, if you think about it. It can grow to the surface and get in the way of skiing, fishing, swimming, virtually anything you can do in a lake. Hydrilla can also clog the power plant's intake pipes, lowering efficiency. So, as you can see, it's a real problem for everyone.

### The Solution To The Problem In Our Back Yard Was Found Twelve Thousand Miles Away.

Now, there are several ways that have been used to control hydrilla. Some lakes have been completely drained while others have been bombarded with expensive chemicals. But, none of these treatments was right for us. So, we continued looking. And we found a solution that had been discovered at the source of our problem, where hydrilla came from, Southeast Asia. It's a grass-eating fish that prefers to eat hydrilla and will help to keep it in check, naturally.

Finding creative solutions like this one from halfway around the world is just one more way we're working to build a better electric company.

FIELD DAY SCHEDULED

The Eastland and Callahan County Extension Service Offices are coordinating a **Ranger & Brush Field Day** for Friday, September 29, 1995 beginning at 10:00 a.m.

The Program will be a follow-up of demonstration work due in 1994 on mesquites at a June Field Day held on The Willow Creek Land near Cross Plains. Individual treatments from 1994 will be evaluated and mixes and recipes will be done for spraying at the Field Day. We will also observe the Tree-minator at work. This is a machine attached to a Bobcat which cuts down trees at ground level, a very interesting concept and demonstration. We will also discuss prickly pear and greenbriar control.

Dr. Allan McGinty, Extension Range Specialist from San Angelo, will assist with the programming. Two (2) CEU's will be offered to private applicators and a noon lunch will be sponsored. Please register by calling the Eastland County Extension Office at (817) 629-1093.
