This is the opinion voiced by a number of local oil men who have been giving careoil men who have been giving careful study to the situation.

It is pointed out that the oil companies have had a harder time this year than usual to reduce prices, which have gone off little by little, accompanied near the last by a prorating order, which is said to have been more theoretical than actual. been more theoretical than actual. Such efforts to restrict production of oil in the expectation of creating a shortage which will advance the price of oil bought low and stored do not accomplish so much as the actual falling away in production and the failure to bring in new fields with immense flush output.

The demand for crude oil is in-creasing steadily with the increasing necessity for gasoline, lubricants and ed in the most harmonious spirit of other petroleum by-products, and while the big oil companies will continue to move prices up and down, so far as they are able, to add to their profits, it is the expressed belief of able oil developers that prices for oil much higher than now are being paid are due in the near future.

THE HUMAN CUT-WORM.

Every form of life exists for a definite purpose. It has its function in creation. The cutworm simply does what he is intended to do. . He is a destroyer, pure and simple, for he levels a whole row of vegetation before he gets through, though one bean stalk would feed him throughout his entire lifetime.

Nature sends destroyers like the cutworm to keep us constantly fighting to earn our living.

Nature doesn't want us to have too easy a time. If we had we'd get lazy -wouldn't supply the toil that demakes humanity progress.

No muscular strength without exercise. No wisdom or knowledge without hard thought. No strength of character without temptations and ordeals.

Life is full of cut-worms-pests, goat-getters, seemingly unnecessary annoyances. But that's because life is to the mind and spirit just what hypothesis to the mind and spirit just what miseries through many a gymnasium is to the athlete.

Since history commenced the world has been blessed with cutworms designated "fools" "cranks," "mugwumps," "radicals," etc., but they have produced results. It is to them the world owes much of its advances. Just run your eye down the long line of this history and you will be surprised. What the next generation may produce in this line is difficult to conjecture—but the threshold is crowded with candidates, and there's room for many more. MANY HORSES

Three Races to Be Run By Nominations to Meet the French Horse.

By FRANK GETTY (United Press Staff Correspondent) NEW YORK, July 31.—Epinard, Pierre Wertheimer's good French colt, came over the seas to meet the fleetest horses on the American turf, and it was a bit of a surprise to find more than 100 thoroughbreds named for the three match races against the

Of course, 90 per cent of these American animals will be scratched before the time for the race rolls around, but it is interesting to note how many horsemen felt it worth while posting \$250 for each of their

prospective contenders.

Many of the horses named would stand no chance against Epinard, and were put in by their owners just for the advertising value of the thing. In

the advertising value of the thing. In after years, they will be saying of some scrawny foal:

"Why, his father was named to meet Epinard, the great French champion of 1924!"

Harry F. Sinclair, through Sam Hildreth, his trainer, nominated eight different horses for the three events—17 entries in all—at a total cost to the Rancocas stables of \$4,250. H. P. Whitney named 11. August Bel-

the Rancocas stables of \$4,250. H. P. Whitney named 11, August Belmont 7, Gif Cochran 6.

There are to be three races; the first, over six furlongs, at Belmont Park, September 1. The second will be at a mile, at Aqueduct, September 27; the third, a mile and a quarter, at Latonia, October 11. Entries for the Latonia race are not all in.

The total value of the three races will exceed \$125,000. The nominations afford horsemen with an interesting perspective on the relative value, at different distances placed by the country's lead

ing trainers upon their charges.

The following horses have been named for all three races: Epinard. Grey Lag, Mad Hatter, Zev, Revenue Agent, Ordinance, Ladkin, Whiska long, Klondyke, Wise Counsellor, My Play, Little Chief, Wilderness and

Apparently all these are considered good at the three distances.

In addition, for the six-furlong event, the racing association received the following nominations up to July 15 when the books were severed.

15, when the books were supposed close: Bracadale, Autline, Goshawk, Sun Flag, Spic and Span, Lucky Play, Worthmore, Laurano, Apprehension, Baffling, Sun Pal, Miss Star and Ri-

Worthmore, Laurano, Apprehension, Baffling, Sun Pal, Miss Star and Rialto.

With exception of Goshawk, Spic and Span, Lucky Play, Worthmore, Baffling and Miss Star, the nominations were the same for the Aque duct mile, and included in addition. Honor, Stanwix, Princess Doreen, Rockminster, My Own, Polo Ground, Transmute and Gonfalon.

While entries are not complete for the mile and a guarter race at Latonia, the following have been named in addition to those mentioned above: Enchantment, Barbary Bush, Chacolated in Morthmore, Laurano, Apprehension, ness and so weak she could hardly severe pains in my sides. Words don't really express how miserable I felt.

"Karnak simply worked like magic in my case. The pain's are now gone from my sides, my nerves are calm, and I eat and sleep like a healthy child. There's nothing good enough I can say for this grand new medicine."

Karnak is sold in Ranger by Phillips Drug Store and Texas Drug Store.—Advertisement.

When the fields are whittled down to barrier size, we may expect to find from six to ten horses remaining

It certainly would be most inhos pitable and most unfair to Epinard to cram the starting chute with ani mals and run the chances of ou guest, who, after all, came over here for match races and not cavalry charges, getting kicked or crowded a the post, or caught in a jam of horse and prevented from putting his bes

In fairness to the French colt which can well hold its own in a field of reasonable size, some method of eliminating about 90 per cent of the contenders must be worked out. Epi nard is a gentle animal, easily han dled by trainer and riger, with a will ing disposition, and is a good starter. The colt's handlers in this country, have shown none of the disposition to coddle him, such as was displayed in the case of Papyrus at Belmon last research. last year, where every conceivable precaution, and some that savored of theatricals, were taken to safeguard the Derby winner's comfort and feel

ANNOUNCEMENT

Appreciation for those who supported him in the primary last Saturday is expressed by W. B. Collie, successful candidate for the nomination for district clerk. His statement follows:

THE PROMPT PRINTERY RESUMES BUSINESS

The Prompt Printery, which was totally destroyed in the disastrous fire of last Thursday morning, is now operating in the Terrell building of North Rusk street, next door to th .353 Oilwell Supply company, with a ful battery of presses and a complete assortment of type and delivering the same quality printing that they always have been noted for. Promptness has always been their motto, and the fact that they have opened for business so soon after the disastrous fire demonstrates the fact that they are living up to the name of their establishment.—Advertisement.
