BRITISH AROUSED BY KILLING IN MEXICO

TWO AMERICAN PLANES REMAIN IN THE FLIGHT

Lieut. Wade's Ship Goes Down Over Atlantic; Lieut. Smith Reaches Iceland.

ON BOARD U. S. CRUISER RICHMOND, En Route to Transgord, Faroe Islands, Aug. 4.—Two of America's round-the-world aviators are safe at Horna Fjord, Iceland, today, while the third, Lieut. Leigh Wade, and his flying companion Lieutenant Ogden, are aboard the cruiser Richmond, out of the running after an accident to their plane, the Boston, which forced them to come down to the water 115 miles off the Orkneys, a little more than one hour after leaving Houston Bay, Orkneys, Sunday morning.

Lieut. Lowell H. Smith, commander of the flying squadron, and his flying companion, Lieutenant Arnold, completed the flight to Horna Fjord successfully Sunday afternoon, joining Lieut. Erik Nelson and Lieutenant Harding, who arrived there Saturday. "I got into a wash and almost fell into a tail spin, but I came through all right under the fog; hope to see you Sunday," Lieutenant Nelson reported by wireless to Lieutenant Smith early Sunday morning.

After losing Lieutenant Nelson in the fog, Lieutenants Smith and Leigh circled around for a time looking for him and then returned to the Richmond. They were somewhat chagrined when they learned that Lieutenant Nelson had gone on, but it was the opinion of all they had done the right thing in returning. "We would have been severely criticized if we had gone on and anything had happened to Nelson and Harding," said Lieutenant Smith. Lieutenant Nelson reported that after getting straightened out of the tail spin he had lost his companions, but supposed they had gone on and so continued the journey. He said the fog extended 40 miles and the weather then was clear to the end of the journey.

Wrecked Airplane Left to the Mercy of the Stormy Seas

ABOARD THE UNITED STATES CRUISER RICHMOND, off Iceland, Aug. 4.—The Boston, the United States airplane in the round-the-world flight piloted by Lieutenant Leigh Wade, was abandoned near Sunbade light house off the island of Syberos, near where it was forced down by engine trouble, Sunday.

The Richmond, flagship of the flotilla, which is conveying the flyers, was to bring the wrecked plane to land, but the tow line parted and the plane had to be abandoned. It was left to the fate of the seas.

The cruiser is proceeding to Reikjavik, Iceland.

Caddo Thanks Fire Department for Aid in Hour of Need

Chief G. A. Murphy of the Ranger fire department has received the following resolution from the citizens of Caddo in appreciation of the run made by the Ranger and Breckenridge fire departments Saturday morning, when eight business houses were destroyed by fire:

"The citizens of Caddo so highly appreciate the effort and service of the fire departments of Ranger and Breckenridge and their quick response to the call for help by the citizens of Caddo in the fire Saturday morning that only by a return of the favors will they be able to express their gratitude."

DAVIS WILL EXPRESS VIEWS ON "MOBILIZATION DAY"

NEW YORK, Aug. 4.—John W. Davis, Democratic nominee for President, probably will use "mobilization day" as the text of a special section of his acceptance address devoted to the needs of American leadership in maintaining international peace.

After concluding his speech and sending it to print, it was learned that Davis had added another 1,000 words when he found that "mobilization day" had been attacked by his running mate, Governor Charles W. Bryan of Nebraska, and had developed into something of a political situation.

PERMIT TO DO BUSINESS.

AUSTIN.—Permit to do business in Texas was granted Friday by the secretary of state to the Western Newspaper Union of Omaha, Neb. Texas headquarters will be at Dallas. E. S. Eberly is designated as agent.

CHILD HURT IN AUTO WRECK AND FIVE ARRESTED

Four Men and One Woman Are Held in County Jail, But Charges Not Filed.

Five persons, four men and one woman, are being held in the county jail here, following an automobile accident at Mansker Lake bridge on the Eastland-Desdemona road a few miles southeast of here Sunday night in which a 5-year-old child, daughter of Mrs. Lena Oiler, is reported to have sustained serious, if not fatal injuries. The child's head is reported to have been badly crushed.

The accident, which was caused by a Ford touring car turning off the road, happened about 11:30 Sunday night, according to parties that were in another car on the road at the time. The injured child was taken to Desdemona.

Deputy Sheriff W. A. Hammett of Desdemona, brought Ed Winchell, H. E. Baker, L. C. Barton, W. Ash and Emma Heath to Eastland, and turned them over to the authorities here. No charges have been filed against them. County Attorney Barnes was out of the city this morning and no statement from him regarding the case nor what charges would be made, if any, could be obtained.

From the information obtainable here some of the parties brought to Eastland by Deputy Sheriff Hammett were in the car that was wrecked while the others were in another car that happened along about the time of the accident.

Eastland County Medical Society to Meet in Gorman

The Eastland County Medical society, joined by the Comanche County society, will meet in regular session at Gorman, Tuesday afternoon, August 12 at 2 o'clock. Gorman members of the society promise a good time to the visiting members and have arranged an excellent program for their entertainment. Members of the ladies' auxiliary are urged to attend. A swim in Bass Lake near Gorman will be one of the features of the program.

The program, as announced by Dr. Joseph W. Gregory, secretary of Cisco, follows:

Address of Welcome to Gorman—J. W. Cockrell.

Response to Address of Welcome—Dr. J. H. Cason, Eastland.

Paper: "Surgery"—Dr. J. V. Brindley, Temple. Discussion opened by Dr. T. E. Payne, Eastland.

Paper: Subject unannounced—Dr. W. J. Westbrook, Sipe Springs.

Paper: "Classification and Treatment of Nephritis"—Dr. J. W. Torbett, Marlin. Discussion opened by Drs. C. O. Terrell, Ranger, and H. M. Barker, Olden.

Ten minutes recreation. Watermelon eais, 4:15 p. m.

Paper: "Some Problems of Medicine"—Dr. Holman Taylor, Fort Worth. Discussion opened by Dr. M. L. Holland, Ranger.

Paper: "Summer Diarrhea in Children"—Dr. R. C. Ferguson, Eastland. Discussion opened by Drs. M. L. Stubblefield, Gorman, and L. C. McAdon, Ranger.

Paper: "Eye, Ear, Nose and Throat"—Dr. Charles P. Schenck, Fort Worth. Discussion opened by Drs. Griswold and Hale, Cisco, and Simmons, Eastland, and L. C. G. Buchanan, Ranger.

Six o'clock luncheon.

SAFETY COUNCIL OF BEXAR COUNTY OBTAINS CHARTER

AUSTIN.—Having for its purpose "to support an educational undertaking, to promote and aid in the conservation of individual industrial and community life through education, safeguarding and carrying on such activities as are required by local conditions" the safety council of Bexar county, with headquarters at San Antonio was granted a charter Friday by the secretary of state. The corporation is without capital stock.

LA FOLLETTE WIRES GOMPERS WELCOMES THE AID OF LABOR

WASHINGTON, D. C., Aug. 4.—Senator Robert M. La Follette, independent candidate for the presidency of the United States, today wired Gompers his deep appreciation of the endorsement given him and his running mate, Senator Wheeler, by the executive council of the American Federation of Labor yesterday.

"I welcome the endorsement," said La Follette. "With the support of labor, the hold of monied interests on this nation will be broken."

THE WEATHER

West Texas—Tonight and Tuesday partly cloudy, unsettled in extreme west portion.

Labor Federation Will Give Support To R. M. La Follette

By United Press.
ATLANTIC CITY, N. J., Aug. 4.—A huge political organization with 3,000 campaign committees, hundreds of speakers and 3,000,000 active workers will sweep the nation this fall on behalf of Robert M. La Follette, independent progressive candidate for president of the United States. This was decided upon by the executive council of the American Federation of Labor here today, in a session devoted to completing details.

Samuel Gompers will be in active control of the movement, which he declares will be the biggest political feat ever attempted by labor.

MINERAL WELLS GOLFERS WIN FROM RANGER

Capture 7 out of 9 Matches Played Sunday in Oil Belt Golf Tournament.

Mineral Wells golf team won 7 out of 9 matches in the scheduled tournament of the Oil Belt Golf association yesterday afternoon at the Ranger Country club.

All of the matches were close and some excellent scores were turned in by members of both teams. Mineral Wells brought an experienced team of golfers, who had been working hard and practicing steadily throughout the year, and consequently were able to win the majority of the matches. The Ranger golfers put up a hard fight against their more experienced opponents, but were unable to overcome the handicap of going up against better players.

M. W. Ranger	Score Points
Allan-Gunn, G. Clegg	4-3 1 0
Harris-Dr. Craig	4-3 1 0
Cunningham-J. McLeister	3-2 0 1
Leeman-C. Dyar	3-2 0 1
Dr. Belcher-R. M. Coyle	4-3 1 0
Dr. Hubbard-Dr. H'Krieder	4-3 1 0
Browley-L. Hagaman	1-1 0 1
Winston-Al. Cameron	4-3 1 0
Barber-C. Terrell	3-2 0 1
Total	7 2
*19th hole.	

Women More Individual Than Men

Therefore, Feminine Sex Less Bound by Conventions Than Masculine, Asserts Professor Shaw of New York University.

NEW YORK, Aug. 4.—While woman's superior moral sense makes her more faithful than man, she is also more individualistic than man and reserves the right to follow the man she loves, whether it is the husband or some other man, Dr. Charles Gray Shaw, professor of philosophy at New York University, told an assembly of men and women summer school students yesterday.

"One hears a great deal about the superman but not much about the superwoman," Dr. Shaw said. "In like manner, we observe cartoons of the cave man swinging his club over the head of the cave woman, but there may be something wrong with the picture. As a matter of fact, women are more highly individualized than men. Their delicate race may not show a long list of towering personalities to compare with the line of warriors, artists and statesmen produced by their brothers; but the average woman has more personality than the average man. This fact was never truer or more striking than it is today in this age of flappers and bobbed hair."

Woman gives individuality to all organisms, so that no two peas are alike, no repetition in the exact pattern of two leaves on the same tree. Woman has taken advantage of this and has kept her natural individuality. Man has elaborated a civilization which has ever tended to obliterate individuality. But such male, man-made civilization has never made any great appeal to women who have done little else than tolerate and be amused by it. The result has been to allow woman to preserve and develop her natural individuality.

"The individuality of woman is found in the privacy of her life in cave or tent, harem or boudoir. The male mate who roamed abroad had little idea of the thoughts fermenting in the female brain. Man may have thought more and done more, but woman has lived more and felt more deeply. Privacy has begotten personality in the woman whose thoughts were just as much a part of her own nature as the spider's web is a part of its body."

Man is the "Joiner."

"Woman is no social creature in the sense that she, as is the case with men, loved to be organized in armies,

LOEB DECLARED MASTER MIND IN CONSPIRACY

Alienist Testifies to Growth of Delinquent Tendencies Ending Finally in Murder.

CRIMINAL COURT ROOM, CHICAGO, Aug. 4.—Nathan Leopold Jr., and Richard Loeb murdered 14-year-old Robert Franks because they could not bear the scientific and scientific climax resulting from boyhood impressions. This was the theory Dr. William Healey of Boston, noted psychiatrist, was prepared to expound when he took the witness stand in the judicial hearing of the two young murderers before Justice Caverly.

Meeting at bridge was the starting point of the acquaintance of Leopold and Loeb, Dr. William Healey testified. Another delinquency of the two youths was heavy drinking, he said.

Loeb's delinquencies started stealing when he was 9 years of age, the alienist said, and his delinquencies continued increasing in number and seriousness. Loeb sought association with Leopold to get someone to help carry out his criminalistic tendencies. The two boys formed a secret compact.

State Attorney Crowe demanded that Dr. Healey tell the nature of a secret compact between the two boys. "I shall be glad to tell it in chambers," said the doctor, indicating that the story was unprintable.

Detroit Policeman Killed by Bandits When Robbing Bank

DETROIT, Mich., Aug. 4.—Patrolman W. G. Ashforth was killed by four bank robbers who held up a branch of the Continental bank at Gladwin, Mich., and Chelrevol street at 11 o'clock today and escaped with \$2,400. Patrolman Herbert Hale was slightly wounded in the gun fight.

The four men drove up in a touring car and one remained at the wheel while the other three entered the bank. Seeing the patrolmen, the bandits immediately opened fire then held up the others in the building, scooped up the available cash and fled.

John D. Williams, Pioneer Citizen of Ranger, Is Dead

Decedent had been a resident of the Ranger territory for 36 years. He was married and lived about 4 miles from Ranger on the Ranger-Desdemona road. He was a brother of Lee Williams, member of the Ranger school trustees. He survived also by his widow, his mother, Mrs. Sophie Williams, of Ranger, and a half-brother, W. H. Myers.

Mr. Williams had farming and other interests in Eastland county. He was a deacon in the Ranger Church of Christ; was highly regarded by all for his character and integrity and will be missed in the community.

MRS. FERGUSON FASTENS GRIP ON RUN-OFF

Nearly All Votes Counted and Majority Over Lynch Davidson Are Conclusive.

DALLAS, Aug. 4.—Returns have been received from 251 out of the 252 counties in Texas, 237 counties complete, in the Democratic primaries of a week ago last Saturday. They show Mrs. Miriam Ferguson has a lead over Lynch Davidson of 5,237 votes and will enter the runoff primary against Felix D. Robertson, Klan candidate. A total vote of 698,778 has been accounted for out of an estimated total of 700,000 ballots. The Texas election bureau announced the standing at 11:30 o'clock this morning of the several candidates for governor, as follows:

Barton	29,254
Burkett	21,633
Collins	25,081
Lynch Davidson	140,204
T. W. Davidson	124,050
Dixon	4,226
Ferguson	145,441
Pope	17,069
Robertson	191,822

Later returns from the attorney general and lieutenant-governor races were not listed.

STUDEBAKERS SET RECORD IN TOTAL MILEAGE

Big Sixes Average 122,589 Each in Daily Service and Still Going Strong.

What is believed to be a world's record in motor car endurance has been achieved by 218 owner-driven Studebaker automobiles in piling up a total of 26,724,420 miles in everyday service, according to an announcement today by the Oil Belt Motor Co., local Studebaker dealers.

"After an extensive investigation among motorists," said M. R. Newnam, "we find that American motor cars cannot be equalled for service through a long period of years."

Cars Average 122,589 Miles.

"For instance, records show that 218 Studebaker Big-Six passenger cars, all in regular every-day service, have traveled a total of 26,724,420 miles, and are still going strong. These records have never been equalled, so far as I can learn."

"Popular belief fixes the life of the average motor car at six years. At 6,000 miles a year—the average yearly mileage—this would be only 36,000 miles. And yet these 218 Studebakers to date show an average mileage of 122,589 miles each. On the basis of the usual estimate, these cars have averaged around 22 years of customary service in five years. And are still on active duty daily."

"One 1919 Big-Six has traveled 500,000 miles, according to sworn statements. It went 400,000 miles in daily service on a newspaper route, winter and summer, after its original owner had driven it nearly 100,000 miles, and recently was driven across the continent. We have placed it in the Studebaker National Museum at South Bend, where exhibits of America's development in transportation are on display."

Others Make High Records.

"In Birmingham, Ala., another Studebaker Big-Six has been driven 401,518 miles. At Phoenix, Ariz., another has gone 316,000 miles. Frequently on gruelling mountain trips."

"Many other Studebakers have been driven 300,000, 200,000 and 100,000 miles, and there is an impressive number that have sped past the 75,000 and 50,000 milepost. Such mileage records mean more than mere mileage or unusual performance. They are living evidence of the care in materials and workmanship that goes into motor car manufacturing today."

TWO KILLED, TWO OTHERS HURT AT GRADE CROSSING

DUNKIRK, N. Y., Aug. 4.—Russell G. Quibbell, 18, of Algona, Mich., and Russell Faust, 5, of Lakewood, Ohio, were instantly killed and two others were injured when the Twentieth Century Limited struck an automobile at a grade crossing here today.

Views which are the foundation of science, law and philosophy, but they excel when it comes to questions requiring originality of idea and feeling. This may be inconspicuous, but it is none the less individuality.

"Will woman change? Will the new woman with her masculine habits become more and more like a man? It is true that women are doing all sorts of manly things in business and the professions, just as it is obvious that they are supplanting their brothers of yesterday. But these are external and perhaps temporary changes. With all their short hair and short sleeves, cigarettes and canes, women are becoming more womanly and more individualistic every day. Woman has long been a problem, and now she is more of a problem than ever. That is, she is a problem for man."

Big Sixes Average 122,589 Each in Daily Service and Still Going Strong.

What is believed to be a world's record in motor car endurance has been achieved by 218 owner-driven Studebaker automobiles in piling up a total of 26,724,420 miles in everyday service, according to an announcement today by the Oil Belt Motor Co., local Studebaker dealers.

"After an extensive investigation among motorists," said M. R. Newnam, "we find that American motor cars cannot be equalled for service through a long period of years."

Cars Average 122,589 Miles.

"For instance, records show that 218 Studebaker Big-Six passenger cars, all in regular every-day service, have traveled a total of 26,724,420 miles, and are still going strong. These records have never been equalled, so far as I can learn."

"Popular belief fixes the life of the average motor car at six years. At 6,000 miles a year—the average yearly mileage—this would be only 36,000 miles. And yet these 218 Studebakers to date show an average mileage of 122,589 miles each. On the basis of the usual estimate, these cars have averaged around 22 years of customary service in five years. And are still on active duty daily."

"One 1919 Big-Six has traveled 500,000 miles, according to sworn statements. It went 400,000 miles in daily service on a newspaper route, winter and summer, after its original owner had driven it nearly 100,000 miles, and recently was driven across the continent. We have placed it in the Studebaker National Museum at South Bend, where exhibits of America's development in transportation are on display."

Others Make High Records.

"In Birmingham, Ala., another Studebaker Big-Six has been driven 401,518 miles. At Phoenix, Ariz., another has gone 316,000 miles. Frequently on gruelling mountain trips."

"Many other Studebakers have been driven 300,000, 200,000 and 100,000 miles, and there is an impressive number that have sped past the 75,000 and 50,000 milepost. Such mileage records mean more than mere mileage or unusual performance. They are living evidence of the care in materials and workmanship that goes into motor car manufacturing today."

MRS. FERGUSON FASTENS GRIP ON RUN-OFF

Nearly All Votes Counted and Majority Over Lynch Davidson Are Conclusive.

DALLAS, Aug. 4.—Returns have been received from 251 out of the 252 counties in Texas, 237 counties complete, in the Democratic primaries of a week ago last Saturday. They show Mrs. Miriam Ferguson has a lead over Lynch Davidson of 5,237 votes and will enter the runoff primary against Felix D. Robertson, Klan candidate. A total vote of 698,778 has been accounted for out of an estimated total of 700,000 ballots. The Texas election bureau announced the standing at 11:30 o'clock this morning of the several candidates for governor, as follows:

Barton	29,254
Burkett	21,633
Collins	25,081
Lynch Davidson	140,204
T. W. Davidson	124,050
Dixon	4,226
Ferguson	145,441
Pope	17,069
Robertson	191,822

Later returns from the attorney general and lieutenant-governor races were not listed.

STUDEBAKERS SET RECORD IN TOTAL MILEAGE

LA FOLLETTE CAMPAIGN WILL SHOW STRENGTH OF PROGRESSIVE MOVEMENT

By United Press.
MADISON, Wis., Aug. 3.—Senator Robert M. La Follette's candidacy for president of the United States may be considered a trial of the progressive strength of the nation to ascertain whether organization of a third party is warranted, according to leaders of the Wisconsin senator's campaign here.

Assurance that the tremendous task of organizing an effective national third party would be successful both in making itself felt in Washington is necessary, they agree. For this reason, third party talk was discarded at the Cleveland progressive convention.

"If Senator La Follette shows the strength we expect, a party organization will be necessary to carry on the work started by the national conference for progressive political action," John Hannan, former secretary of La Follette and a leader of his forces in this state declared.

George F. Comings, lieutenant governor of Wisconsin and leader of the "liberal progressives" in this state "looks toward a third party to settle the country's political difficulties" and regards organization of an all-liberal body a certainty.

On the other hand, members of the Progressive Republican party in Wisconsin led by Governor John J. Blaine have not committed themselves regarding a third party organization to include Minnesota farmer-laborites, socialists and non-partisan league as proposed in some quarters. They would much rather see the radical wing of the Republican party triumph following the coming presidential campaign and so preserve integrity of the Republican organization now in power in this state.

All factions of progressives in Wisconsin, however, "will respect the wishes of Senator La Follette," it is plainly stated. But political "labels" are a matter of much concern.

It is agreed, however, that some sort of departure from the present conference-for-progressive-political-action idea will be necessary if the fight of La Follette's forces is to continue with any strength after the coming campaign.

NATIONAL DEFENSE TEST DAY ENDORSED IN THE SOUTH

By United Press.
ANNISTON, Ala., Aug. 2.—A tribute to the response of the South to the call for National Defense Test Day, September 12, was paid here today in a formal statement from Camp McClellan, the largest training camp in the country.

"Placing our first defense test in the light of a political movement would be nothing short of a national disaster," says the statement. "It is to the everlasting credit of the people of the South that none of this criticism has come from them. Recognizing the value of holding the test mobilization, they have, individually and through representatives, gone on record as endorsing the plan."

The statement said that no city would consider its fire department efficient without having test runs and demonstrations, yet none would say the fire department wished a fire to break out because of these tests.

EASTLAND PERSONALS

Secretary Briggs of the Eastland Chamber of Commerce is off on a week's vacation.

Jay Phillips and little daughter visited in Weatherford Sunday.

Mrs. Lula Thurman and daughters, Miss Lillian and Mrs. Elliott, of Cisco, were in Eastland this morning. They recently moved from Carbon to Cisco.

R. E. Sikes and family, Mrs. S. J. Day, F. E. Day and family will leave Tuesday for Colorado Springs, Col., where they will spend some three or four weeks.

Gene Day and family and W. A. Martin and family expect to leave Wednesday for a vacation of several weeks at Colorado Springs, Colo.

TUESDAY'S EVENTS
Columbia Study club meets at 10 o'clock with Mrs. L. L. Rector.
Ice cream social by high school P.-T. A. 8 o'clock at Main and Mars-ton.

LIONS TO ENTERTAIN LADIES THURSDAY NIGHT

Ladies' day will be the program of the Lions club next Thursday night instead of the regular luncheon, Thursday noon. A Sambo dance and watermelon party will be held at the Ranger Country club Thursday night about 8:30 o'clock. Men will wear overalls and the ladies will wear aprons to prevent the watermelon rind fight, which is scheduled to come off around 10 o'clock, from ruining any clothes.

Dancing will start at 9 o'clock, music to be furnished by Gus Coleman's orchestra. The entertainment committee, T. E. Henshaw, T. B. Scott and T. R. Valliant, is busy completing plans for the affair and, according to present plans, the watermelon feast and fight will come off about 10 o'clock, about the middle of the dance.

MRS. BAILEY ENTERTAINS WITH PICNIC SUPPER

Mrs. W. P. Bailey entertained with a delightful picnic supper at the Ranger Country club Sunday evening in honor of her guests, Miss Elizabeth Dempsey and Miss Cooze of Dallas. Guests were Mr. and Mrs. Willifred Cooze of Thurber, Dr. Carl Wilson and his mother, Mrs. H. B. Wilson, Mr. and Mrs. W. F. Bailey and guests, Miss Dempsey and Miss Cooze.

NOTES AND PERSONALS

Cards have been received by friends in Ranger from Mr. and Mrs. R. C. Slaughter, announcing the marriage of their daughter, Martha Elizabeth, to Max K. Watson, son of Mr. and Mrs. G. B. Watson of Ranger, solemnized in Fort Worth, Saturday, August 2. Mr. and Mrs. Watson will be at home in Ranger after August 15.

Mr. and Mrs. A. J. Lowe, parents of Mrs. W. P. Lacy, left Sunday with their son, James, for Rochester, Minn., where he will enter the Mayo sanitarium for an operation.

Dr. and Mrs. J. A. Shackelford have returned home from Chicago, where they spent several weeks.

METHODIST CHURCH WISHES TO ENLARGE BIBLE CLASS

The "big brothers Bible class" of the Methodist church, located on Elm, is planning a membership campaign on a huge scale to increase the class to a membership that will be the largest in the state, members of the class said today.

The class has been divided into two teams, the Blues and Reds, which will be captained by J. M. Dodson and Jimmie Matweys, respectively.

A special course of the Bible on the "life and teachings of Christ" will be taught by Rev. A. W. Hall of the Methodist church for a period of nine months.

The class is planning not only to study the Bible, but to have many social diversions for members of the class at periods during the coming months. The losing team of the membership campaign will have to give the winning side a chicken barbecue at the close of the campaign.

MASSACHUSETTS SEEKS TO STOP CLASHES WITH KLAN

By United Press.
SHREWSBURY, Mass., Aug. 2.—The state constabulary was concentrated in force near here today to prevent renewed warfare between members of the Ku Klux Klan and civilians. Troops guarded the farm of Joseph A. Hadley during the night when it was announced that a Klan meeting would be held. Klansmen entering the field were searched for weapons and civilians were forbidden to gather in the vicinity.

Rumors of renewed fighting were current throughout the district. Friends of those injured in three clashes within the week were said to have threatened reprisals. The Klan completed its initiation exercises without difficulty and members of the order went to their homes at daybreak without meeting any interruption.

BALL PITCHER HAS FOUR FINGERS ALMOST SEVERED

BEAUMONT.—Albert Richardson was scheduled for appearance in corporation court here today upon charges of assault in connection with a cutting affray Wednesday night in which Pat Malone, pitcher on the local entry in the Texas league was seriously injured. Malone will probably be disabled permanently and be off the mound for all time, according to physicians. Four fingers of his right hand were almost severed.

BURGLARS ENTER FURNITURE STORE IN EASTLAND

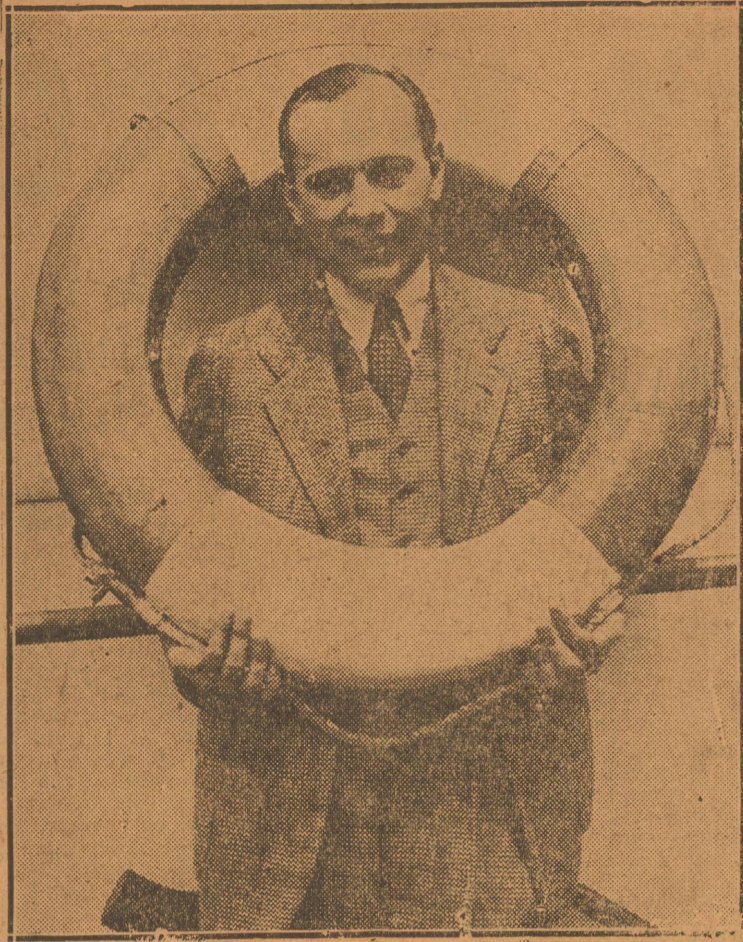

Burglars entered the Cornelius furniture store, on East Main street, in Eastland, last night and took two German Luger pistols. Nothing else is reported missing. Entrance to the building was gained by cutting a panel out of the door in the rear of the building. Officers are working on the case.

SITUATION IN IRELAND YET REMAINS UNCHANGED

By United Press.
LONDON, Aug. 4.—J. T. Thomas, colonial secretary, will go to Dublin tonight to confer with President Cosgrave of the Irish Free States on the boundary dispute between the Free State and Ulster, it was announced in the House of Commons this afternoon. The general situation in Ireland is unchanged.

CREATOR OF BARNEY GOOGLE AND SPARK PLUG OFF TO TOUR EUROPE

BILLY DE BECK

NEW YORK, Aug. 4.—Ascot, Epson, Chantilly, Longchamps, and various others of the famous race courses of the old world are in the itinerary of Billy De Beck, creator of "Barney Google and Spark Plug," who has just sailed for Europe to study the foreign racing game at close range and store up impressions whereby Barney and his mettlesome steeds will be the gainers when Billy returns to America again early in September.

Admirers of De Beck's creation have advised him that the race courses of old Europe have "atmosphere" and that no race fan knows the game from end to end till he has rubbed elbows with the Prince of Wales and King Alfonso in the paddocks of England and the continent, seen the dress parade at the great French, Italian, and Spanish courses and "in pounds sterling at the famous meets where the classics of the English turf are run to thunderous applause from the stands.

In due course what De Beck learns from foreign race day contacts will be reflected in the doings of Barney and Sparky. You will begin to notice it yourself as soon as De Beck comes back. As a matter of fact he plans putting Sparky in the derby next year.

The picture of De Beck on his sailing day discloses him peering through a life ring from the hurricane deck of the ship that is taking him over. A host of his friends who had come to bid him bon voyage stood around while the camera clicked.

Will Van Geem and family expect to leave about the middle of this week for a motor trip to San Antonio and other points in South Texas.

FIRST YEAR STUDENTS AT UNIVERSITY TO BE GIVEN ENTERTAINMENT

AUSTIN, Texas, Aug. 2.—Announcement has just been made by L. H. Hubbard, dean of students of the University of Texas, of a two-day program planned for the reception of first-year students this fall. Notice has been given by Registrar E. J. Matthews that new students are expected to appear on the campus on Saturday morning, September 20, before the regular matriculation period begins, in order that they may attend a series of lectures on problems peculiar to freshmen. The new plan has been suggested by the faculty, and it is intended to make the two days an advisory period for students and faculty.

On Saturday morning the program will begin at 10:15 o'clock with an address of welcome by President W. M. W. Spawn, Dr. W. S. Sutton, dean of the school of education will deliver an address on "What is the University?" Registrar E. J. Matthews will then speak to the students on "How to Register."

On Saturday afternoon at 3 o'clock the prospective new students will again assemble to hear the following addresses: "A Word of Advice," by Dr. T. U. Taylor, dean of the college of engineering; "Student Self-Government," by Eldon Dyer, president of the Students' association; "The Honor System on Examinations," by Ed Gossett, chairman of

the Men's Council; and "Extra Curricular Activities and the New Eligibility Rule," by Dr. B. F. Pittenger, acting dean of the school of education.

On Tuesday, September 23, there will be a convocation freshmen boys at 10:15 o'clock, and the following addresses will be delivered: "Keeping Fit," by L. Theo Belmont, dean of the college of physical training; "The New Absence Rule," by Dr. E. Y. Benedict, dean of the college of Arts and Sciences; "How to Avoid Failure," by Dr. R. T. Parlin, dean of the junior college of arts; "The Handbook," by L. H. Hubbard, dean of students.

On Tuesday afternoon, September 23, there will be a convocation of freshmen girls at 3:30 o'clock, and the following addresses will be heard: "Greeting," by Miss Anna Hiss, director of physical training for women; "The New Absence Rule," by Dean Benedict; "Social Regulations for Women," by Miss Lucy J. Newton, dean of women; "How to Avoid Failure," by Dean Parlin; and the "Students' Handbook," by Dean Hubbard.

DID YOU EVER STOP TO THINK?
By E. R. WAITE
Secretary Shawnee (Okla.) Board of Commerce.

That fair competition is the life of trade.
That home business institutions that are helping to pay for the maintenance and improvements of a city are entitled to the trade of the citizens of the home city.

That outside business concerns do nothing toward the building of the home city and local merchants should not be forced to compete with them.

That buying away from home should be stamped out forever. Every dollar and every activity should be united to make business of the home city better. Now is the time to get busy and make local business better.

That all should take a mental inventory and find out how they stand in ability and honesty of purpose and willingness to make the home city bigger and better.

That no man is a success who only enriches himself. The man is a success whose success enriches the community.

There is only one city in the world in which to live and prosper and that is the city in which you live.

A good way to boost the home city is to buy from the local business concerns who advertise in local papers.

Local advertisers are the people who lead in the things that keep a city moving forward in the march of progress.

ACCOUNTANTS TO HOLD CONVENTION AT ST. LOUIS

By United Press.
NEW YORK, Aug. 4.—This year's meeting of the American Institute of Accountants, which will be held in St. Louis, September 15-18, will be in the nature of an anniversary. It was 20 years ago that the first important gathering of the accounting profession in the United States was held, at the time of the World's Fair in St. Louis. Accountants from all parts of this country and from the British Isles and Canada were in attendance. An organization was formed there which later resolved itself into the American Institute of Accountants.

HOME TO BE BUILT FOR SIMMONS COLLEGE PRESIDENT

ABILENE, Aug. 3.—Contract for the erection of a home for President J. D. Sandefer of Simmons college, has been awarded by the college to Dunlap & Suggs, local contractors, the home to be completed within two months.

The building, which will be located on the Simmons campus, will be two stories in height and will be constructed of acne-faced brick. The exterior finish will be of colonial design with stone trimming.

Plans for the home were drawn by David S. Castle, architect, of this city. The latest and most modern arrangements were included in the design and these will be followed out completely in the construction of the new building. Four bedrooms, a large reception room, a solarium and two baths on the upper floor are included.

ONE BOTTLE BROKEN TO EVERY 3 HIDDEN AWAY

SARNAC LAKE, N. Y.—(United Press)—Happy are the citizens of Morrisville. The flood of good fortune rolled over them in a high tide of suds.

It all came about with the finding in a freight car on the siding of the hamlet, of 206 cases of Canadian beer. The brethren flocked from far and near to assist the federal agents in destroying it. As they broke a bottle they would sling about three others in the bushes.

There followed the wildest of nights, with everybody happy. Why not, with Canadian beer in quart bottles being sold at six a quarter.

INTERSCHOLASTIC LEAGUE BULLETIN IS ISSUED

AUSTIN, Aug. 4.—The largest issue of a bulletin that ever came from the University Press of the University of Texas has just been placed in the hands of Roy Bedichek, head of the Interscholastic League division of the extension department of that institution. It is a thirty-two page pamphlet containing the words for the spelling and plain writing contest of the league and the number of copies issued is 160,000. These copies will be sold at the rate of three cents each when taken in lots of 100 or more, Mr. Bedichek stated.

Refractory brick were also made, using the Texas kaolin for both grog and bond, both of which were composed entirely of this material. The brick required burning at temperatures equal to those used in the production of diaspore and silica brick, but when made in this way the product appeared to be of very good quality.

TEXAS REPUBLICANS TO MEET IN CONVENTION AUGUST 12

By United Press.

FORT WORTH, Aug. 4.—Preliminary plans for the meeting of the state Republican convention to be held here August 12, were under way today. Leaders of the Republican party were here today for the session. The Republican executive committee will meet Aug. 10.

Fare and a half to persons attending the meeting will be available, it was announced today by the railroad companies. More than 2,000 persons are expected to attend the convention.

BUY IT AT HOME

By United Press.

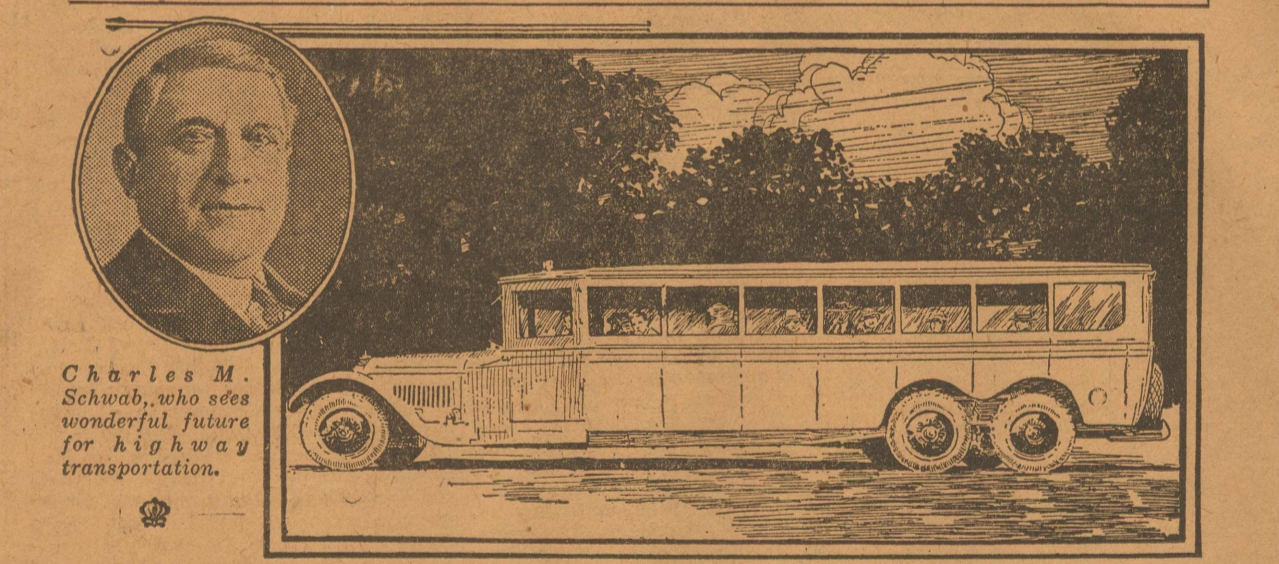

OKLAHOMA CITY, Aug. 4.—With the mercury around 98 degrees yesterday, 5,000 Oklahoma national guardsmen sweltered with the o. d. shirts and prepared for the annual mobilization at the Fort Sill army post for two weeks training. They left yesterday morning on the 9 o'clock train. No heat casualties were reported yesterday.

OKLAHOMA GUARDSMEN GO INTO ANNUAL ENCAMPMENT

By United Press.

AUSTIN.—The Santa Rita well No. 11, on university land in Reagan county is now producing 300 barrels of oil daily, according to an official report received by the railroad commission.

Six-Wheel Motor Coach Promises Vast Highway Transportation Development

Industrial Leader Confident New Type of Construction Will Revolutionize Use of Highways as Complement to Steam and Electric Lines.

ANNOUNCEMENT that Charles M. Schwab has entered the automotive industry, in the field of large capacity passenger coaches and freight trucks, has attracted wide attention in automobile and transportation circles.

Development of a type of vehicle of sufficient capacity to permit economical and profitable operation, and at the same time to reduce road impact to a minimum, has been the real problem of highway transportation, according to Mr. Schwab. With a considerable amount of passenger and freight traffic available and a vast mileage of improved highways ready for use, the problem of a thoroughly satisfactory vehicle has been for several years squarely up to automotive engineers and manufacturers.

A six-wheel, pneumatic tired vehicle, driving and braking on four rear wheels which are assembled as a unit, is Mr. Schwab's answer to the challenge.

Remarkable Impact Reduction
The new vehicle, in actual tests conducted by the United States Du-

road of Roads, was demonstrated to have a road impact only one-fourth that of solid-tired four-wheel vehicles of like capacity in general use. The manner in which the load is distributed among the six pneumatic tired wheels explains this enormous decrease in impact, as well as the corresponding increase in comfort and efficiency of the vehicle. Tires 32x6 inches are used on all six wheels.

Steam and electric railway mileage in the United States for several years has been showing a steady decrease. Coincident with this condition, freight and passenger traffic are showing consistent increases in volume.

Solution of Problem
With intelligent use of highway transportation offering the only solution of the problem, Mr. Schwab was attracted to the motor coach and truck industry.

In the past it has been the practice of builders of motor buses generally to adapt truck design to purposes of passenger transportation. The six-wheel bus is a complete departure from all precedent, embodying a number of features absolutely new in this type of vehicle.

Experience of Railroads
"When railroads first used four-wheel trucks under their cars, two-wheel trucks became forever obsolete," says Mr. Schwab. "The new type of six-wheel construction will, in my opinion, accomplish the same

thing for heavy duty highway motor vehicles.

"I do not regard the motor bus and heavy duty motor truck as competitors of the rail lines, except in segregated instances. It is thoroughly practical for rail lines to use highway transportation systems as feeders. It costs nearly \$90,000 per mile to build and equip rail lines today. That precludes new construction except in highly profitable territory, because the gross revenue required for rail operation today is four times what it was ten or twelve years ago. Highway transportation steps into this breach, however, provides the transportation demanded and gives flexibility which cannot be obtained in any other way.

Street Railway Situation
"Street railways are up against the same problem as the steam rail lines. Extensions for the development of new urban territory and often for interurban traffic are no longer practical, and the bus must be depended upon to do the job.

"With nearly 3,000,000 miles of highways in the United States, as compared with about 250,000 miles of steam railroads and 50,000 miles of electric railways, the vast opportunity that has awaited the right type of highway vehicle is obvious."

The new type of vehicle is being produced by the Six Wheel Company of Philadelphia. Mr. Schwab is chairman of the board of directors of the company.

RUINS OF THE McCLESKEY HOTEL AND ADJACENT PROPERTY SWEEPED BY FIRE TEN DAYS AGO, WHEN FOUR LIVES WERE LOST

Courtesy of the Fort Worth Record

These two views of the fire of Thursday morning, July 24, which devastated a half-block in the business section of Ranger were photographed by the Ranger Photo company. The wreckage has not yet been cleared away, but it is understood this will be done and possibly arrangements made to rebuild as soon as the insurance has been adjusted.

BRYAN DISCLAIMS INTENTION OF RAISING NATIONAL ISSUE

LINCOLN, Neb., Aug. 2.—Governor Charles W. Bryan, Democratic vice-presidential nominee, disclaimed today any intention of raising a national issue in refusing to go all the way in supporting National Defense Day, September 12.

Democratic presidential nominee, Governor Bryan asserted that the national test day matter in question came to him in his official capacity as governor of Nebraska, and the position taken by him represents overwhelmingly the sentiment of the people of that state. He expressed the hope that his attitude had caused no embarrassment to Mr. Davis.

CONDITIONS IN MEXICO NOW SATISFACTORY, SAYS AMBASSADOR WARREN

WASHINGTON, D. C., Aug. 2.—Indicating that President Coolidge already has decided upon his successor, Charles B. Warren, American ambassador to Mexico, announced at the White House today that he would formally tender his resignation Monday. He said he considered his mission to Mexico had been completed and that he was free to resign.

and that Mexico was taking great interest in her mines, oil reserves and development of her natural resources along with the extension of her railroads, although seemingly overlooking that the country is essentially agricultural and its future progress depends largely upon the development of agriculture.

BARBARA LA MARR TO COME AS "WHITE MOTH"

Maurice Tourneur's "The White Moth," a story of the French theater, co-featuring Barbara La Marr and Conway Tearle, will be the first National picture at the Lamb theater today and Tuesday.

It has been elaborately produced and is said to mark the finest of Tourneur's achievements as well as the best work of the artists who have interpreted it on the screen.

"The White Moth" originally appeared in Ainslee's Magazine, being the work of Isola Forrester, author of "The Gray Path," "The Feast of Lights" and other stories. The film adaptation was prepared by Albert Shelby LeVino.

The plot centers around the experiences of Mary Reid, an American girl who, after studying music unsuccessfully in Paris, becomes a famous dancer on the Parisian stage, where she is known as "The White Moth." She falls in love with a young American millionaire, Douglas Vantine, but his brother Robert marries her in order to forestall what he thinks will be a misalliance. And herein lies the denouement.

Miss La Marr has the title role, while Ben Lyon plays Douglas Vantine and Conway Tearle is seen as Robert.

Others prominent in the cast are Edna Murphy, Josie Sedgwick, Kathleen Kirkham and William Orlandom.

Tennis Players to Try Hardest to Win Coveted Davis Cup

By FRANK GETTY. (United Press Staff Correspondent) NEW YORK, Aug. 4.—Uncle Sara will have an excellent opportunity this coming month to look over the field of "Davis Cup" challengers and see just what it is our team has to beat to keep what sport writers call the "coveted trophy" in this country over the winner.

More foreign stars than ever before are gathered in the east for matches of one sort or another, elimination contests, the nationals and all sorts of invitation tournaments.

The challenge round for the Davis Cup will be played at the German-town Cricket club September 11, 12 and 13.

Perhaps the most serious challenge now comes from Australia, although

PARKS CAMP SWATS RANGER WITH MIGHT

Victors Play None too Well, But Win With Score Of 24 to 8.

In a grade school exhibition of baseball Parks Camp ran off and left Ranger in the dust with a score of 24 to 8. The game went nine innings, but the majority of the spectators left at the end of the seventh.

Sealy was going strong, but he was touched for ten hits and six runs, which should enable any team to win a ball game. The Parks Camp team landed on the Nitro pitchers for a total of 17 hits, although the majority of their runs were made on errors by the Nitro team.

Guydas started for the Nitros and was chased to the showers after Parks Camp made six runs off of two hits. The Ranger team seemed unable to locate the ball whenever it came their way. Dinsmore relieved Guydas and fared not quite so well, as five runs and five hits were made off of his offerings. Norman tried to stop the Texaco Stars, but was greeted by the Parks team with openings and three more runs on two hits were garnered before Lory, who had been catching, took over the unwelcome task of finishing the game. Six runs and five hits were made off of Lory in the seventh inning.

Summary: Sacrifice hits, Bounds, Johnson; two-base hits, Sealy, Wright, McCasland; three-base hit, Lessner; home runs, Newport, Ramsey; stolen bases, Guydas, Lessner; innings pitched, by Guydas 1 23, by Dinsmore 2, by Norman 1, by Lory 2 1-3, by Sealy 7; struck out, by Guydas 2, by Norman 1, by Sealy 8; hits, off Guydas 9, off Dinsmore 5, off Norman 5, off Lory 5 off Sealy 10; bases on balls, Parks 8, Ranger 2; hit by pitcher (Ramsey) by Dinsmore; wild pitches, Dinsmore 2, Sealy 2; passed ball, Lory. Umpires, Polsky and Price. Time of game, 2:30.

to us the French looked strongest. The Australians have just voted to expend 14,000 pounds on a new stadium for tennis at Ruscutter's bay where their national matches, and— they hope—international events such as would take place if they won the Davis Cup, can be staged. While the Australian team may not carry home the cup this season, the Antipodeans are looking to the future.

Norman Brookes, the veteran who partnered the late war hero, Wilding, and who showed a great deal of his old form in the recent all-England championships at Wimbledon, is a great booster for the younger players on the Australian team. Schlesinger, Brookes says, is "one of Australia's most promising players, with the right temperament for big events." Krimms, he considers "an extraordinarily fine player of great promise." It is hoped that Brookes himself may play besides Wood and Patterson.

The French got away to a great start this season. For the first time, we had the spectacle of two Frenchmen as finalists in the world's singles championship at Wimbledon. Barring Bill Tilden and possibly little Billy Johnston, there is not a better player on the courts today than Jean Borotra. Rene Lacoste is another star of the first magnitude, and Cochet, a third member of France's Davis Cup team, will test our best.

There is something in the French temperament that makes them great in victory; that made the polius fight irresistibly when going forward; that makes Lenglen and Carpentier triumphant when they got a start. France's tennis players have got their start this year. Two of their comparatively little-known women players fought their way to the semi-finals at the Olympic entirely on the crest of enthusiasm for tennis aroused by victories of Borotra and Lacoste at Wimbledon.

In addition to France and Australia, we have the Chinese Davis Cup team, the Mexican Davis Cup team, the Cubans, Japanese, Canadians and South Africans, and even Jamaica petitioned for the privilege of entering a team of her own.

OLDEN WINS SUNDAY GAME FROM THURBER

Makes Up for Saturday's Defeat With a 13 to 5 Victory.

THURBER, Aug. 4.—Sunday's game was a different story for Thurber. Olden came back strong after Saturday's defeat and poured it on the locals by a score of 13 to 5. Thurber got a three-run lead on Olden during the first three innings and it looked like an easy victory for them.

Pertle, pitching for Thurber, weakened his stride and the Olden batters bunched their hits scored 4, 5 and 4 runs in the fourth, sixth and seventh frames. He was replaced by King in the seventh with the bases full, the three scoring on a two-base hit by White. White also obtained a home run with scored three runs. King held the visitors scoreless for the last two innings, but Thurber was unable to secure additional runs

T. C. MAXWELL RECOVERS FROM INJURIES AND BURNS T. C. Maxwell, of the Lone Star Gas company, who suffered a dislocated knee and burns across the back and arms in the disastrous blaze which consumed the McGleskey hotel and adjoining business houses, has entirely recovered from his injuries and is again at work.

Mr. Business Man:-

Are You Getting the Volume Your Business Should Give?

NOW that the summer months are here have you taken the erroneous viewpoint that there is no business for you in your particular line of business? If so, you are doing yourself and your business an injustice. Stop and think a moment. Are there not others in the city who are driving right ahead and holding up the volume of business to a most favorable point? There are—and there is nothing mysterious in the methods used. They are getting business by going after it—hammer and tongs—they are making the people know that they are doing business—they are GETTING BUSINESS.

There Is More Business If You Will But Go After It in the Right Way

Let Times and Telegram Space Solve Your Volume Problem

THE Daily Times and Telegram offers each and every business man who is in Ranger or Eastland an incomparable medium by which they can blanket these cities and their suburbs with the news of their offerings in goods and wares with minimum cost. People are ready and able to buy if you will but tell them what to buy. Tell them through the newspaper—they are only too anxious to know of what you have to sell. ADVERTISE persistently and your business GROWS in direct proportion. The Times and Telegram are the logical mediums.

These Papers Will Help You Write Your Ads and Sell Your Goods

DO YOU WANT TO PUT ON A SALE?

In the summer for quick turnover of stock the merchant naturally turns to the tried and proven successful plan of clearance sales. Perhaps you want to put on a clearance sale but are hesitating because you are unable to bring that sale out in just a little different light from other sales. Let our AD-MAN help you merchandise your stock and plan your campaign. He will do it for you gladly, and it will not cost you a cent—it is part of the service these papers are furnishing their advertisers—call the ad-man in today and confer with him. It may be that he has something up his sleeve that will give to your business that added volume you want. Call today!

DO YOU HAVE TROUBLE IN DISPLAYING ADS?

Possibly you want to advertise and possibly you are hesitating because you cannot display your ad in the manner that you wish. If this is the case—call our ad-man. He has at the tip of his fingers knowledge of type display—knowledge of the relation of space to forcefulness. He can help you display your ad in the manner that will make it attention-compelling. And it costs you nothing. It is another part of the service that comes free to the advertisers in this paper. We are only too glad to help you get the best results from your space. Display is the means—our ad-man can help you.

HAVE YOU TRIED PERSISTENT ADVERTISING?

Possibly you are a skeptic as to the power of advertising! If you are an unbeliever in the value of powerful, persistent advertising—it is because you have some reason. If this is the case it is time that you talk the matter over in a sensible manner with someone who will give you reasonable, sensible advice and the honest truth concerning the benefits of advertising. Advertising has been proven by the commercial world to be absolutely the most dependable tool the business man has. You, Mr. Sensible Business Man, are certainly not going to turn your back on this valuable business getting medium. Talk it over with our ad-man—perhaps he can help you get business. If that's a fair trade—call him today.

JUST PHONE THE AD-MAN 224 Ranger---429 Eastland
