City Commission Takes Action. Stands Designated for Produce Venders.

The sum of \$50 a month is to be allowed by the city of Ranger towards the salary of the public health nurse, according to action taken at mission Tuesday afternoon. The commission was unanimous in its decision after a cision after a committee from the Child Welfare society, Mrs. John W.

Child Welfare society, Mrs. John W.
Thurman, president, Mrs. M. H.
Hagaman and Mrs. George Armer, appeared before the commission with the request for cooperation.

The committee pointed to the splendid work of Miss Faye Nixon, public health nurse, in Ranger during the summer, and cited numerous cases attended by her and, by having attention at the proper time, saving the city from expense that would have been incurred had it become necessary to send them to a hospital.

By United Press.

# Primary Election Contestants Call Off the Contest

Chairman Milburn McCarty of the Eastland county democratic executive committee, received a letter shortly after noon today signed by the several candidates for office who recently contested the primary election in Eastland county because of alleged ku klux klan activities and unjustified interference, and withdrawing both the contest and the request for a recount of all the votes.

It is stated in the letter that

this action is taken in the interest of harmony.

# TO LABRADOR

Lieutenants Smith and Nelson Hope to Hop Away From Iceland This Week.

By United Press. REYKJAVIK, Iceland, Aug. 13.-Favorable weather conditions will find the United States round-theworld flyers at Labrador within 10 days, or sooner.

"If the weather continues good, we hope to be in Labrador four days after leaving Reykjavik," Lieut. Lowell Smith, commanding the flying squadron, said. "That will mean topping one night at Angmagsalik, n the east coast of Greenland, and wo nights at Izakput, on the west coast of Greenland."

The airmen hope to leave Reyk-

Will Meet Pick of America in Contests for American Cup In September.

By PERCY M. SARL (United Press Staff Correspondent LONDON, Aug. 13.—The Britis polo team, which is to meet the pick polo team, which is to meet the pick of America in the contests for the American cup at Meadowbrook in September, is freely admitted to be a strong combination, but among the experts there is not too much optimism as to its ability to bring the cup back to England this year.

cup back to England this year.

The British team, as originally selected, was Lieut.-Col. T. P. Melvil, Major T. W. Kirkwood, Lewis Lacey, and Major Vivian N. Lockett, but after a few games, Major G. H. Phipps-Hornby and Major E. Hurdall were substituted for Kirkwood and Lockett, although these two players accompany the team as reserves—reserves, however, who may easily be included in the team if they show improved form on reaching Meadowimproved form on reaching Meadow brook. Lewis Lacey is to captain the side, though if Lockett plays in the big games, I should not be surprised to see the Anglo-Argentinian relinquish command in favor of the gallant Language major if only a garden. tent Lancer major, if only as a mat ter of courtesy due to Lockett's long experience of international games.

The six men named, would, in ordinary circumstances be regarded as strong enough for anything, but, although all of them have played throughout the trial matches this summer, no four of them have been able to settle down to serious prac tice as a team, and the critics con-tend that they should have been se-lected last year and allowed to gain team-practice this summer, instead of

# BUREAU OF ECONOMIC GEOLOGY STATE INDUSTRIAL DEVELOP

done by the division of industrial give to their students

done by the division of industrial chemistry of the bureau of economic geology and technology of the University of Texas. This division is under the direction of Dr. E. P. Schoch It has been and is performing a valuable service for the people of Texas, as is shown by a review of its activities by Dr. J. A. Udden, head of the bureau. He said:

"The function in the University of Texas of the division of industrial chemistry of the bureau of economic geology and technology is, in general, to help in the development of industries—particularly industries which will use raw products obtained in Texas. Since, through this activity, a great deal of information concerning these raw products is gradually collected, and experience is gathered in helping the industries to solve their problems, there is thus secured—at first hand, a great deal of information which should be generally disseminated among people who can use it best—chief among which are the technical studentes, Hence through part time activity in this division, instructors in the university time activity in this division, instructors in the university time activity in this division, instructors in the university time activity in this division, instructors in the university time activity in the content of the problems of the face o
